The Society which we represent has had its average share of prosperity during the year, considering the marked depression of the times. Its receipts from subscriptions were $105; from donations, $96. The Home remains under the management of Mr. and Mrs. Stevens. They have both regular and transient boarders, have served upwards of six thousand meals, and sold an equal quantity of food it not more, to be taken away. Indeed, this feature of the Home particularly commends itself to our city, that it can furnish excellent food at low rates to those who desire to make the most of small means. In this respect it has been a great benefit. The gradual growth of our shipping interest, one hundred and twenty-eight more vessels having been registered this year than the one previous, encourages and strengthens our effort to preserve a good Temperance house for the sailors who visit our port, and we find it a source of satisfaction to the friends of the sailor in other sea-ports that we are able to do so. Our faithful ally, the Ladies' Seaman's Society at Concord, sent us a valuable box in the spring; we return our hearty thanks for their untiring interest, and to those friends in town who contribute books and papers for the reading room. One lady sends a Boston daily, and a gentleman furnishes us with his weekly paper. Dull as the times are and great as have been the difficulties in the way, the Society cannot but feel thankful for what the Home has accomplished since its opening, while its steady and increasing membership assures us that our object commends itself to the liberality and good sense of all those who have the best interests of the community at heart.

H. C. KNIGHT, Sec.

HON. DANIEL MARCY.

The May number of the *Granite Monthly*, the magazine published at Dover by Mr. H. H. Metcalf, contains a well written and interesting sketch of the life and doings of our respected townsman, Hon. Daniel Marcy, which we propose to lay before our readers, feeling assured that it will be read with appreciative interest by all classes of our citizens. The article is embellished with a portrait of Capt. Marcy, which for fidelity and excellence is in strong contrast to a "likeness" of Senator Rollins with which a former article was accompanied, Mr. Rollins' picture looking like one of the Boss Tweed caricatures from *Harper's Weekly*, altered—and not greatly altered, either—to suit the circumstances. The magazine sketch is as follows:

New Hampshire has but a single seaport, and her shipping interest is necessarily limited, yet her one sea-port has a safe and superior harbor, and its location is naturally a most advantageous one for commanding the trade, not only of a large section of New England, but far beyond, even to the great North-west. Portsmouth is, in fact, the nearest, and naturally the most readily accessible ocean port to Ogdensburg, and had its citizens, and the people of the State of New Hampshire generally, been thoroughly alive to their opportunity, and animated by a proper degree of local and State pride, our sea-port might have been to-day the successful rival of Boston—a great commercial emporium, commanding a vast foreign and domestic trade.

Something has been done, however, by Portsmouth in years past, in ship-building and the carrying trade, and, although it can never secure the position which it might once easily have attained, it is to be hoped that the future will witness, at least, a higher degree of prosperity in this direction that has heretofore been developed.

Among the representatives of the enterprise and industry of Portsmouth during the past half century, there is perhaps no one more worthy of mention, or who has attained in a higher degree the respect and esteem of the community than the Hon. Daniel Marcy, and certainly no one has been the recipient of stronger tokens of public favor. Mr. Marcy was born in Portsmouth, November 7, 1810, being now in his sixty-eighth year. His father, Peter Marcy, was a native of Bordeaux, France, but came to this country in early youth, with Capt. George Huntress of Portsmouth, in which place he made his home, but pursued the occupation of a sailor, in the West India and coasting trade, attaining the position of ship-master. He married a Miss Knight, from one of the old families of Eliot, Me., by whom he had three sons—Samuel, Peter and Daniel. When Daniel, the youngest, was a child of two years, Mrs. Marcy died, leaving the boys to their father's care. He had little time to devote to their instruction and guidance, but did the best he could for them, with the limited means at his command, and himself died, ten years later, leaving to his sons the simple heritage of a good name and an honest example.

Samuel Marcy, the eldest of the brothers, went to sea, at twelve years of age, under Capt. Titus Salter. He followed a sailor's life for a number of years, but finally engaged in business as a stevedore at New Orleans, which city he thenceforth made his home, and was quite successful in business. He married a Miss Perkins of Dover, and died some years ago, at about sixty years of age, leaving his wife and three children. The widow and two surviving daughters still reside in New Orleans.

Peter Marcy, the second son, was apprenticed at an early age to Isaac Nelson, a prominent ship carpenter of Portsmouth, with whom he served the usual term of seven years, completing his service in 1828, when about twenty-one years of age. With a full stock of Yankee "pluck" and courage as his capital, with his chest of tools, he immediately embarked for New Orleans in the ship Wm. Badger, paying twenty-five dollars passage money, and working at his trade upon the ship during the voyage. Arriving in New Orleans, he was not long in laying the foundation for future success. He built the first dry dock in that city, and soon established a large and profitable business, in which, together with his subsequent shipping ventures, in company with Daniel, he has gained an ample fortune, although suffering greatly, as a matter of course, through the losses and depreciation consequent upon the late unhappy civil war. He has been prominently engaged in public affairs, and was for sixteen years a member of the Louisiana Legislature, and has held and retains in the fullest degree the confidence of the people among whom he resides. Although retired from public life and active business, he is still in the enjoyment of vigorous health and mental activity, and manifests a lively interest in all matters looking to a restoration of the commercial and general prosperity of the country. "Waverley," his family seat, located across the river in Algiers, now a part of the city of New Orleans, is the abode of substantial comfort and elegance, and commands an extensive view of the city and shipping. His wife was an accomplished Southern lady, intelligence of whose sudden death has just been received at Portsmouth at the time of writing this article. He has five children, two sons and three daughters.

Daniel Marcy, the subject of our sketch, at twelve years of age, or about the time of his father's death, went to work upon a farm in the vicinity, but the inclination for a sea-faring life, always strong in the family, could not be overcome, and the following year found him engaged on board a vessel bound to Demarara, in the West Indies, under Capt. Sheafe. From this time until 1831 he followed the sea, in the coasting and West India service, the larger portion of the time, but remaining at home in Portsmouth a few months each year for several years to attend school, Mr. William Harris, a popular and successful teacher of those days, being his instructor.

In 1831, being then twenty-one years of age, Mr. Marcy went to New Orleans, where he engaged in the service of Messrs. R. D. Shepard and Judah Touro, two wealthy residents of that city, largely interested in shipping and commerce. He engaged as shipmaster in the foreign trade, and remained in their employ, in continuous service as shipmaster, for a period of eleven years. In 1842 he entered into an arrangement with his employers, Messrs. Shepard and Touro, and his brother Peter, for the building of a ship at Portsmouth, all taking an interest in the vessel, and he came to Portsmouth to superintend its construction. When it was completed, he took command of the ship for its first voyage.

[Concluded in next issue.]

SUNDAY SERVICES.

At the Court street (Christian) church, Rev. John A. Goss, pastor, preaching at 10:30, A. M., and 2:45 P. M.; prayer meeting at 7:30. All are welcome.

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform exceeding to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. **The White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and flesh of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Cromp, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '74.
Dear Sir—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession as a safe, reliable* and agreeable medicine. It is particularly *adapted to children where the repugnant taste of Castor Oil* renders it so difficult to administer.

F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. B. ROSE & Co., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms our Stomach and Disordered Bowels, there is nothing like Castoria. tang

UNDER FRANKLIN HALL, FLEET STREET.

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by this class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the treatment of those diseases peculiar to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single healthy lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation of the Womb, Ulceration of the Womb, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman, mentioned here, in all editions of this nature, my Favorite Prescription works cures—**the marvel of the world.** This medicine I do not extol as a cure-all, but it admirably fulfills **a singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.

R. V. PIERCE, M. D., Prop'r,
BUFFALO, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once. Qly2878
H. HALLETT & Co., Portland, Maine.

DR. JOHN TRIPP'S
BLOOD PURIFIER
IS the most wonderful discovery for the radical cure of SCROFULA and SYPHILIS. It never fails to entirely eradicate either of these diseases and all Blood Poisons from the system. ULCERS, CANCERS, WHITE SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM and GOUT yield to its power. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.
Sole Eastern Agency, 306 Columbus ave., Boston. Office hours, 8 to 11, A. M., 3 to 7 P. M.
Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. eodnov11

Transportation.

RE-OPENING
OF THE POPULAR
PROVIDENCE LINE
TO NEW YORK,
VIA PROVIDENCE.
Opens April 29, for the season of 1878.
Only 42 Miles of Rail.
Steamboat Express Train will leave Boston & Providence Railroad Station daily (Sundays excepted) at 5 P. M., connect at Fox Point wharf, Providence, with the Entirely New and Magnificent
STEAMER MASSACHUSETTS
and the well-known and popular
STEAMER RHODE ISLAND,
Arriving in New York at 6 A. M. This is the only line affording a delightful sail through Narragansett Bay by daylight.
Returning, leave Pier 29, North River at 5 P. M., arriving in Boston at 7 A. M.
No intermediate landings between Providence and New York.
Tickets and State Rooms can be secured at Company's office, 214 Washington, corner State street, and at Boston & Providence R. R. Station.
J. W. RICHARDSON, Agent, Boston.

PENNSYLVANIA RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. 1feb20 79

203 and 205 Washington st., Boston, Mass.

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL.
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water *route, avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Train.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.
GEO. L. CONNER, Gen'l Pass. Agt.
J. R. KENDRICK, Supt.
L. H. PALMER, Agent, 3 Old State House.

Pierce's Pleasant Purgative Pellets
SIZE OF PELLETS
Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.
The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough,** yet **gently and kindly operating, cathartic.**
$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, after analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.
Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in regions of the Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative,** or **Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.
They are sold by all Druggists at 25 cents a bottle.

BUFFALO, N. Y.

NEW FOUR PER CENT
GOVERNMENT BONDS.
The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.
The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.
The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.
Orders by mail will receive prompt attention.
Jan. 27, 1878. E. P. KIMBALL, Cashier.
tf

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.
The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or sustained it so long as
Ayer's Cherry Pectoral.
It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. It makes the most decided cures of *Coughs, Colds, Consumption,* that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from the fatal results that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives Sarsaparilla, Dock, Stillingia, and Mandrake, with the iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

HALL'S VEGETABLE SICILIAN *HAIR* RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the candy by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or durable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation,* and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all stills are inadmissible compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing, and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure is effected in both direct and indirect ways, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen,—About twelve years ago, while traveling with Father Kemp's Old Folks Concert Troupe as a boy singer, I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered so much excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of the wonderful medicine gave me the greatest relief. It is hardly possible for one whose head aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours,

WALTHAM, MASS., Jan. 8, 1876.

P. S.—I purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Rumford Building.

Each package contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for two years, and, notwithstanding the immense number of spurious in the form of liniments, pain killers, pedlers, and ordinary plasters, they have steadily increased in sale and not with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many imperfect imitations have been certified to by well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world of medicine.* All we ask from every sufferer in the land is a single trial. The price is 25 cents, although the cost is double that of any other plaster. But, notwithstanding the efforts of the proprietors to make the best plaster in the world for the least money, any similar remedy can be bought, numbers of unscrupulous dealers will be found ready to misrepresent them for *selfish motives* and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

No. 2 BOW STREET.

Daily Chronicle.

The Late Wm. M. Tweed.

If a time should come in after days when financial wrong doings, so prevalent of late years among men high in place and power, should be unknown except in connection with the past, it may seem very strange that of all the rogues with whom he was associated in robbing the treasury of the city of New York of so many millions, the burden of which will rest upon the tax-payers for many a long year to come, Tweed alone should have received any degree of punishment, the rest, including Oakey Hall, the Mayor at the time, without whose connivance the money could not have been drawn from the treasury, being permitted to enjoy, with their liberty, their ill-got gains. One of the most striking features in the matter was, that when Tweed was first arrested, it was arranged for him that he could go at large, pending his trial, on bail for a million of dollars, and his son offered himself and was accepted as security in that sum, who, on being asked where he got the requisite million, acknowledged that it was given to him by his father without any adequate return. We will imagine that a burglar robs a bank of a couple of hundreds of thousands, and when bail for fifty thousand is required for him an individual offers himself as his security in the needed sum, which he acknowledges was given to him by the burglar himself. What would be thought of the officials of a court who accepted such security for a man charged with a great crime, and are not the cases precisely parallel? It was once a principle of law, whether it is so now or not that the receiver in a case of theft was as bad as the thief and that both were alike amenable to justice. While law in New York is dispensed with such unsparing severity in the cases of *poor* rogues, it is equally evident that it is not seldom "dispensed with," as Mrs. Partington has it, where such criminals as Tweed and his confederates are concerned. The same week that Tweed was first charged with a theft of money to an extent that seemed fabulous, a poor wretch who stole some potatoes from a grocer's door, and another who took without leave a pair of shoddy pants from a Chatham street clothing establishment, were both consigned to the Tombs, and in due season, in order that "justice might be satisfied" and "Rome made free," were to the full extent of the law, for their great offences, punished by imprisonment in the Penitentiary.

If an incentive, having some degree of justice, was ever given for repudiation of a public debt, it would appear to be to the tax-payers of New York, under the consciousness that such as survive of those who laid such a burden upon them are living in luxury with their families, either at home or abroad, upon the money they stole, while escaping scot free from the penalty due for their crimes. It was a very plain case of fraud, one of the kind never surpassed if equalled in atrocity, and *why* they were not punished would puzzle even more than a Philadelphia lawyer to tell, unless those whose duty it was to bring them to justice were as great rogues as themselves, a conclusion that future generations, as well as the present, will not fail to reach.

Of Tweed it may be said that if smart enough to be the head of a ring; who robbed the city treasury of New York of more than fifty millions; that he bought up lawyers and politicians to aid him, prostituted the courts, and bribed legislatures year after year to do his bidding, he could never have reached such a height of power and infamy had he not found plenty around him in public life, who were ready, willing and able to help him; men far above him in their origin, in social life, and who would once have scorned him as an equal when he was a humble chair-maker, and an engine-runner in the old volunteer fire department of New York. No more powerful argument in favor of morality and religion, if one were wanted, could be found than the want of them in the man who forms the subject of this sketch. If kind-hearted and benevolent, though with means not his own, it may be said of him in conclusion that he had no active conscience so far as giving any evidence to the contrary was concerned, that he had no belief in the great Creator of all things, and regarded all moral laws, of divine origin, as the merest fables, showing in fact, in his own life, what society would become, were the foundations of faith and integrity destroyed among men.

J. H. B.

A Tramp's Diplomatic Retreat.

About ten o'clock this morning a tramp went into a C street saloon and devoted ten minutes in a very zealous manner to the lunch table. By the time he had made about a pound of corned beef the bartender stepped up and remarked:

"This table is for drinkers."

"Then why don't you bring on the drinks? I've been here ten minutes, and haven't got a drop of anything. If its a drinkin' table, where's the fluid?"

"I mean it's for the patrons of the bar," said the barkeeper.

"Then why ain't they here? I s'pose you mean that a man must spend money at the bar before he eats?"

"Exactly."

"That takes me in. I took a drink here last summer and didn't eat a mouthful, and if I ain't entitled to a lunch on that drink then this system must be a failure all round."

"But the place has changed hands since then," said the barkeeper, picking up a bung-starter.

"Ah, indeed!" replied the urbane bummer; "that fact, as your gesture would imply, raises a new and embarrassing complication in our diplomatic relations. I will, therefore, recede, as it were, from my original position, and await the assembling of the peace congress."

He had been gradually backing toward the door as he spoke, and he dodged out just in time to evade the projectile hurled at him by the indignant saloonite.—*Virginia City (Nev.) Chronicle.*

Daily Chronicle

MONDAY, JUNE 10, 1878.

News and Notes.

Murderous raids by Indians are reported from Idaho, many settlers have been killed and hundreds of horses stolen.

Five negroes were lynched at Bayou Sara, La., on the the 4th inst., for attempting to shoot Dr. Wm. B. Archer.

The Cuban insurrection is announced to be entirely at an end, all resistance to the Spanish authorities having ceased.

President Hayes has approved the bill repealing the bankrupt law.

Jesse Billings, Jr., has been arrested for the murder of his wife at Schuylerville, N. Y., last week. The gun with which she was killed was found in a well near which Billings hitched his horse shortly before the murder.

The Grand Lodge of Free Masons has resolved: "That we refuse to recognize as a Free Mason any person initiated, passed or raised in a body where the existence of a Supreme Being is denied or ignored."

Gen. B. F. Butler has given $500 to Phillips Academy, Andover, Mass., for founding a scholarship and paying the tuition of a soldier's orphan.

S. Angier Chace, the Union mills thief of Fall River, Mass., was arraigned Thursday on a charge of embezzlement, and pleaded not guilty. A motion for a continuance was advocated by his counsel, but was denied, and trial ordered for Monday, the 17th. Chase was also arraigned for perjury, pleaded not guilty, and was ordered to give $20,000 additional bail. George T. Hathaway, the Border City and Sagamore mills thief of Fall River, was arraigned Friday on charges of embezzlement, perjury and selling mortgaged property. He was held to bail in $102,000 on all the charges.

Oregon had an election on the 3d inst. The democrats have carried the legislature which will give them a U. S. Senator in place of Mitchell, and also elect the Congressman. The State ticket is in doubt.

New Hampshire Items.

The house of Thomas Harward in Contoocook was burned Thursday, through a defect in the chimney. Furniture saved; loss $5000.

The dead body of Reuben B. Porter was found near Windham depot Wednesday. He had been missing three months. He was a native of Sutton.

Naval Affairs

A bill has been introduced in the U. S. House of Representatives to grant a pension to the widow of Master's Mate Tunis D. Wendell.

Asst. Surgeon A. C. Heffinger has passed a satisfactory examination, and been promoted to Passed Assistant Surgeon.

Rear Adm. Daniel Ammen is placed on the retired list from June 4th.

Mr. Clarence Leighton Dennett, son of Mr. Mark Dennett of Beverly, Mass., formerly of this city, died at his home on the 5th inst. He was a graduate in engineering from the Boston Institute of Technology, and was appointed assistant engineer in the navy about a year ago, after passing an excellent examination. He was assigned to the U. S. S. Essex, but was obliged by sickness to return home from Montevideo, arriving a week before his death, which was caused by consumption.

The sidewheel steamer Amazon, of Dom Pedro's navy, while exchanging civilities with the U. S. S. Essex at Montevideo ran into the latter, which was at anchor, carrying away her jibboom and the foretopgallant mast. The Amazon lost her small boats, and her paddlebox was torn to pieces by the cathead of the Essex. The damage done to the Essex will probably cost Dom Pedro about $1500. Both ships put into Montevideo and repaired damages.

After all the democratic denunciation of Ex-Secretary of the Navy Robeson as a corruptionist and swindler is entering into certain contracts, and the long-continued and vindictive pursuit of him by partisan investigating committees, the "democratic House" on Friday voted to appropriate money to pay the "fraudulent Robeson contracts" in full. And this was done on the motion of Willis of New York, a democrat, and a member of the naval committees of this Congress and the last one. No more significant commentary on the reckless injustice and indecent partisanship displayed toward Mr. Robeson could be made.

—An Illinois man, with a foresight worthy of a better cause, popped the question on a railroad train, and now the maiden is at a loss to decide as to which county she had better commence proceedings in for a breach of promise.

—A traveling minister observed a hard-looking man lounging in front of an Elko saloon last Sunday, and approaching him, asked: "My friend, do you know where men go eventually who hang about saloons and gambling houses on the Lord's day?" "Yer whistlin', I do, pard. They spar for grub here till the hash factories rumble on their racket, an' then some on 'em strike out fur Tuscarory, an' a few drift over to Eureky. I'm fly on that programme, pard—bin over the routes myself." The minister pinned on an agonizing smile and sadly passed on. —*Elko (Nev.) Post.*

A finely-dressed young woman came hurriedly out of Worthington street yesterday, and as she turned into Main, ran against a bare-footed urchin, one of a group, upsetting him. "I beg your pardon," she said; "did it hurt you?" "No, miss;" replied the little fellow, when he recovered his speech; "you may run agin me and knock me down twenty times if you want ter." Then as the young woman passed on, turning to his companions, he continued: "I tell you, fellers, it kinder tuk my breath at fust to hear her 'poligize to me, but I guess I did the right sort of thing after all, didn't I?" "You bet," was the unanimous response. —*Springfield Republican.*

—Why is an honest bankrupt the same as a dishonest one? Because they both fail to make money.

There is Trouble in Store

For those who neglect to rectify irregularities of the stomach, liver and bowels, which they foolishly imagine will "come right of themselves." Of this silly error such persons are usually disabused by the development of some serious chronic malady, traceable to what they were pleased to consider a trifling disorder of the above named associate organs. Such a culmination is easily avoided. A course of Hostetter's Stomach Bitters invariably has the effect of renewing the secretive action of a torpid liver, restoring healthy digestion and assimilation, and rendering the habit of body perfectly regular. The activity of these all important functions being restored, and the entire system toned and regulated by this incomparable corrective and invigorant, no danger to the general health is to be apprehended from causes which, if not eradicated in time, will assuredly undermine it.

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

Patrons of a first-class hotel justly consider themselves entitled to comfortable rooms, a bountiful bill of fare, and courteous treatment in the office. All these, combined with a notable degree of elegance throughout, are to be found at the Colonnade Hotel, Philadelphia, Pa.

What we all want now, is money! You may realize hun reds of dollars by investing $50 in stock operations through the reliable house of Alex. Frothingham & Co., brokers, 12 Wall st., N.Y. Their *Weekly Financial Report* gives full information and is sent free. s

Free Sample Bottles of Adamson's Botanic Balsam may be had of your druggists. Pleasant and never failing remedy for coughs, colds, bleeding from the lungs, asthma, &c., &c. Large bottles 75 and 35 cts. Try it.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&wtsept15 7

P. T. BARNUM'S

THE CITY.

Fourteen schooners arrived at this port on Saturday, exclusive of those that put into the lower harbor for shelter from the threatened storm.

A number of young men of this city have built a summer residence at Newcastle, and provided it with everything requisite for their comfort and convenience during their occupancy of it in their leisure hours the coming summer.

Mr. Thos. Martin, while at work last week upon the new schooner building by Mr. Littlefield at Noble's island, fell through the quarter deck and striking upon his side, upon a cross timber displaced several ribs on his right side.

Editor Chronicle:—The incorrigible individual who wrote up "our military on inauguration day" for the *Times*, and made not the sligtest mention of the splendid honors the Light Artillery received on that occasion, and who, to make the contrast appear greater, grossly exaggerated the number of men in the ranks of a rival company, as well as the attentions that company received, said, on having his attention called to the matter, "I could not help it; Sides has injured me in a great many ways." We leave the *Times* reporter in the light this admission sheds on him. "VARUS."

BASE BALL.

A game of ball was played at the Plains, Saturday afternoon, between the newly organized "Portsmouth" nine and the "Same Old Game" club, through a drizzling rain, and was easily won by the former. The Portsmouth nine comprises some good players, and with a little practice they will bother some of the older clubs; they are heavy batters, but their throwing is a little wild. This was the first game they have played, but they made a very good showing as the following score will attest:

Innings	1	2	3	4	5	6	7	8	9	
Portsmouths	5	4	1	0	2	1	1	8	5	—27
Same Old Game	2	0	0	6	1	2	0	1	0	—12

Daniel Crowley, of the Granite State club, umpired the game to general satisfaction.

U. S. COMMISSIONER'S COURT.

Benjamin F. Shepard, a colored man, was brought before United States Commissioner W. H. Y. Hackett on Saturday, upon a complaint of Wm. H. Boynton, of Augusta, special agent of the post-office department, charging Shepard with obtaining from the post office at Laconia last week a letter directed to George B. Cochran, by falsely representing himself to be that person, and stealing money contained in the letter. Upon account of the absence of District Attorney Hall the case was continued to Monday.

[Communicated.]

SPIRITUALISM AND ITS EXPOSERS.

Having had some experience in what are known as spiritual mediums, from the three Fox sisters of Rochester, N. Y., to the famed Eddy family of a later day, and not having been able to understand what are termed "spiritual physical manifestations," my attention was called to an announcement that the whole mystery was to be explained here in Portsmouth at the Music Hall. When "the knockings" were first heard of we were told in a little time it had been discovered that they were produced "by the *toe-joints*" of the mediums. It seemed a hard story to those who went to see them at a Broadway hotel when they came to New York, that such poundings as they heard upon the doors of the room where they were to be seen, especially that of a closet six or seven inches deep and filled with shelves, as well as beneath the floor and upon the walls around, would proceed from such a source, from the reason that the three sisters were sitting quietly upon a sofa, and no sound came from them. We were next told it was electricity that did the thing, but while electricity might have force to produce the rappings, it had neither mind or intellect to give correct answers, a score at a time, to questions, both oral and mental, as the questioners acknowledged was done; nor was it easy to believe that electricity without knocking them to pieces would lift high above the floor pianos and heavy tables, with as many men as could sit upon them, and a table around which a dozen persons were sitting, with all the weight of food and dishes upon it. Since that early day of the phenomena connected with what, for want of a better name is known as spiritualism, it has spread all over the world, with ramifications extending from it, and a literature, both in our own and foreign languages, that in extent would amaze those who have taken no interest in it, and imagine the whole pertaining to it to consist of rappings, table tippings, or a few petty tricks of legerdemain. It has been "exposed" and "exploded" times without number, if we may believe what we see occasionally in print, and yet, as everybody sees, it will not *stay* "exposed" and "exploded;" like John Brown's ghost, and as the old astronomer said of the world, it still "moves on." The rough usage it has had reminds one of the nine lives of a cat, as well as what Burns has to say of John Barleycorn:

"They took a plough and ploughed him down,
Put clods upon his head,
And then they swore a solemn oath
John Barleycorn was dead.
But the cheerful spring came kindly on,
And showers began to fall,
John Barleycorn sprung up again,
And sore surprised them all."

There are always some things that will not stay exposed, however often they are assailed. Several benevolent philosophers, such as Home, Voltaire, Volney and Tom Paine, tried long ago to explode a belief in Divine revelation and Christianity, and in later years individuals have come to their aid, known as scientists, who are wondrous wise in penetrating into the mysteries of nature, but not wise enough to "look through nature up to nature's God;" then there are two itinerant lecturers who go about uttering blasphemy it chills one's blood to hear, and find those who will pay fifty cents to hear them. Yet there are, notwithstanding, and always will be, people who believe in Christianity and the teachings of the Bible for the good and the comfort both have been to them. "Spiritualism," whatever it may be and whatever its source, has never done any good in the world—unless it has convinced some, as they assert, of those who believe it has a supernatural origin, for the first time, of the immortality of the soul, and that they are something above the beasts that perish—but it *has* done an incalculable amount of evil, when taking the form of free-loveism, spiritual-wifeism, and such like enormities. While there exists no necessity for imagining it the work of "spirits," it is apparent to the intelligent masses everywhere that there is a deep mystery about "Spiritualism" that has thus far baffled science and every other appliance to elucidate, and though tricksters have been at times detected in attempting by the grossest frauds to make money by it.

There are mysteries, also, connected with the late demonstrations at Music Hall; one is, how an audience, though few in number, could be found patient enough, especially on the last night, to listen for so much of the time to such a tirade of nonsense, and look upon tricks of juggling that were much better done more than forty years ago, by Potter, the ventriloquist, at Franklin Hall. The second and greater mystery is how the show paid even expenses, when half to two-thirds of the admission tickets were given away. O. P. Q.

HON. DANIEL MARCY.

[Concluded.]

This arrangement, by which a ship was built at Portsmouth each year under Capt. Marcy's supervision, and its first voyage made under his command, continued until 1851, when Messrs. Shepard and Touro withdrew from business. Capt. Marcy, however, in company with his brother Peter, inducing citizens of Portsmouth to share in each venture, continued his operations in the ship-building line until the outbreak of the rebellion, the consequences of which were fatal to the ship-building interest, and almost totally destructive to American commerce. He made his last voyage as master of a vessel in 1852, in which year he built the ship Franklin Pierce. This final voyage was from Portsmouth to New Orleans, from there to Liverpool with a cargo of cotton, and return to New York with eight hundred and fifty emigrant passengers. From that time Capt. Marcy remained mostly at home in Portsmouth, although frequently called to the South through his business associations with his brother at New Orleans.

In the spring of 1854, when in New York on his return from a Southern trip, he received intelligence of his election to the Legislature of his native State, an honor which he had never sought or expected, for although an ardent democrat, with decided political convictions, he had taken no part in active politics. He accepted the position, however, and attended faithfully to his duties as a servant of the public, acquitting himself so acceptably as to be continued in legislative service for several successive years, first in the House, and then for two years in the Senate. In 1861 he received the nomination of the democracy of the First Congressional District for Representative to Congress, but was defeated by Gen. Marston of Exeter, the republican candidate. At the next election, in March, 1863, Gen. Marston being then in service in the field, and Joel Eastman of Conway the republican candidate, Capt. Marcy, who was again the candidate of the democracy, was elected, and served as a member of the Thirty-Eighth Congress, performing honorable service for his district and State and the country at large.

The country was then in the midst of civil war, and while vast appropriations were necessary for the support of the army and the maintenance of the government in the contest with rebellion, numerous schemes were on foot for plundering the public treasury and robbing the people. All these schemes met the determined opposition of Capt. Marcy, but he never failed to give his vote for all necessary appropriations for the army and the public service. It was during his term that the measure by which the government surrendered its first mortgage upon the Union Pacific Railroad came up in Congress. This measure, which paved the way for the "Credit Mobilier" fraud, whose exposure so startled the country a few years subsequently, he opposed with his vote and influence at every stage, although acting with a small minority of the members.

During the period of his Congressional service the Washington hospitals were filled with sick and wounded soldiers, and certainly no member from any State was any more assiduous in his efforts in their behalf than Capt. Marcy. Hundreds of sick and suffering soldiers from our State had their wants supplied at his hands, while no service, in his power to render, was ever withheld from a New Hampshire soldier, whether in sickness or in health. He was the candidate of his party for Congress at subsequent elections, but the republicans were too strongly in the ascendancy to admit of his success.

In the memorable campaign of 1871, Capt. Marcy was again the democratic candidate for State Senator in the First District, William R. Martin being the republican candidate. There was a third ticket in the field, receiving sufficient votes to defeat a choice of Senator by the people, but the result was the election of Capt. Marcy by the Legislature. The next year, and for two or three succeeding years, he was elected to the House by the people of his ward, who ever found in him an honest and faithful representative. This, with three years in the city government, as a member of the Board of Aldermen, constitutes the extent of his public service, with the exception of six years as a member of the Board of Trustees of the State Reform School, upon which he was appointed by Gov. Straw, and of which he was for five years president, taking great interest in the management of the institution. He was also a member of the Constitutional Convention of 1876.

Capt. Marcy was a delegate to the Democratic National Convention at Charleston in 1860. He was in New Orleans when chosen, and proceeded to Charleston in company with many of the delegates from the Southern States. The spirit of secession had already begun to manifest itself, and many of the party leaders at the South were outspoken in their determination to withdraw from the Convention, if they could not control its action, even as they proposed that the South should secede from the Union if the result of the election should not be satisfactory. With these men, both on the way to Charleston and during the exciting days of the session, he used all his powers of argument to induce them to stand by their party and the country and abide the result, but to no avail. Other delegates, from New England, however, including such men as Benjamin F. Butler and Caleb Cushing, then high in the councils of the democratic party, encouraged them in the course they had determined to pursue. They withdrew from the Convention. The party was broken and defeated as the result. Secession followed, with all its terrible consequences to the South and to the nation. More than one of the Southern delegates whom Capt. Marcy urged to stand by their party associates of the North, have since acknowledged to him the grievous error of their course.

In January, 1876, the Democratic State Convention, with great unanimity, presented the name of Capt. Marcy as the candidate of the party for Governor. The nomination was entirely unsought and undesired by him, yet, upon the urgently expressed desire of his party friends, he accepted it, and, although there was no general expectation of a democratic triumph, the campaign was a vigorous one at least. He was again the candidate of his party in 1877, but the result of the presidential canvass had so discouraged the democracy that they had little heart in the contest, and the republicans again succeeded.

During the past few years Capt. Marcy has lent his aid and example toward the revival of ship building at Portsmouth, and with his brother and others as partners in the enterprise, has built several of the finest ships ever launched at that port. The Wm. H. Marcy, a splendid vessel of 1700 tons, built in 1874, made its first voyage to California in the autumn of that year under command of his second son, Capt. J. Touro Marcy, and still remains in the California trade, under his command. The Frank Jones, another fine ship of 1600 tons, was built the previous year. Last year he built the ship Granite State, a vessel of 1800 tons register and the largest ever built at Portsmouth. This vessel sailed on its first voyage in October last, bound to Rio Janeiro, under command of Capt. Wm. Ess, with a cargo of ice and apples, and is now making a voyage from Montevideo to San Francisco.

Capt. Marcy has been twice married—first in 1839, to Miss Henrietta Priest of Portsmouth, who died in 1850, leaving him three children, two sons and a daughter, all living at the present time. Both of the sons are ship captains, and have been in service on ship board since leaving school in youth. The younger, J. Touro Marcy, we have heretofore alluded to; the elder, Henry L. Marcy, is in command of the ship "Coldstream," now on a voyage to China. The daughter is now the wife of S. B. Cunningham of Portsmouth. Subsequently he married Miss Catherine Lord, his present wife, and the daughter of Eben Lord, Esq., of Portsmouth, by whom he has one son, George L. Marcy, a lad of eleven years.

The house in which Capt. Marcy was born, on Water street, is yet standing. His residence, which has been his home for the last thirty-five years, is a substantial mansion on Pleasant street—the abode of comfort and of generous hospitality. His religious associations, for the greater portion of his life, have been with the Universalist denomination, in which doctrine he is a firm believer, but he has for the past few years attended public worship at the Episcopal church.

While his business interests have been mainly in connection with ship building and the carrying trade, Capt. Marcy has long been connected with the banking institutions of Portsmouth, being a Director in the N. H. National Bank from its organization, and also of the Portsmouth Guaranty and Trust Company, which he was active in organizing. He is also a Director of the Portsmouth and Dover Railroad Company.

Although well advanced in years, Capt. Marcy is in vigorous health, bodily and mental, and still manifests a lively interest in all matters affecting the welfare of the community and the business prosperity and progress of the country. Intimately associated, as he has been, with our commercial and shipping interests, he fully realizes their importance, and urges the necessity for the adoption of such measures by the government as shall tend to their encouragement and revival, as a most practical means for the advancement of general prosperity.

THE VICINITY.

The greenback club of Kennebunk numbers a membership of eighteen. They are all officers.

Mrs. Betsy Smith died at Kennebunk recently, aged ninety-four years. She is spoken of as an eminently pure woman. She had read her Bible through no less than forty-one times.

There was a damaging frost along the lower part of the Saco river, and in Kennebunkport, Thursday night. The grass suffered some, and many fields of potatoes will have to be replanted to secure a decent crop.

An unsuccessful attempt was made by two thieves to rob the Biddeford post-office on Friday, while Barnum's procession was attracting the attention of the officials. The thieves were detected by some ladies, and fled without accomplishing their object.

In the Supreme Court for York county, Me., in the case of Black vs. York County Manufacturing Co., where the plaintiff claimed large damages for injury to the ice crop by reason of water from the gas house being allowed to flow into the Saco river, a non-suit was ordered.

The *Granite Monthly* for May contains the first of a series of Congressional papers to be contributed by G. Harrison Jenness, Esq., of Rye, engrossing clerk of the National House of Representatives. The first paper fully describes Representatives Hall, and the modus operandi of getting a bill through the House.

Sneak thieves raided the ticket office of the Boston & Maine Railroad in Saco, Thursday noon. The door was pried open first and the ticket rack afterward, but the thieves, who were evidently "experts," got only a few dollars in pennies and scrip, the station agent not being accustomed to leave any large amount of money in the office; no tickets were taken. At the time of the burglary some of the railroad officials were in an adjoining room.

Directions for Marrying.

Miss Kate Stanton is giving a lecture on "Whom to Marry," and these are her conclusions—first to men: "Marry a large woman, one who wears at least a No. five shoe; marry a healthy widow with healthy children, rather than a young girl, for she has had experience; but, best of all, marry an old maid, though she is difficult of access." To women: "Marry a healthy man, especially a fat man, round like a pumpkin; but don't marry a gossipy man (unless he is a reporter or editor who is forced professionally to be a gossiper.) Above all, don't marry," she said, "a drunkard, a gambler, a quack doctor or a defamer of women."

—No base ball pitcher is now considered an expert unless he can curve the ball into the batter's stomach three times out of every possible five.

— An Iowa widow is in a strange predicament. She and her husband having quarreled a divorce was applied for, but while proceedings were pending the two made up. After a while the husband died and the relict thought to enter upon his estate. It was then she found that the lawyers had gone on with the proceedings originally instituted, and had actually obtained the divorce, so that the widow had no legal claim on the property.

DEATHS.

WALKER. In this city, June 9th, of heart disease, Mr. Howard Walker, aged 39 years.

☞ Funeral Tuesday afternoon at 3 o'clock from his late residence, No. 25 Cabot street.

WHITE. In Alfred, Me., May 30, Mr. Thomas White, aged 88 years, 8 months.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

Wood per cord, Hard, $7 @ $8; Pine $4.

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Beck Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. **The White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allays natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '74.
Dear Sir:—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.
F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. B. ROSE & Co., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms or Stomach and Disordered Bowels, there is nothing like Castoria. taug

INVALIDS' HOTEL.
The very large number of invalid people who daily visit Buffalo, from every quarter of the United States and Canada, that they may consult Dr. R. V. PIERCE, and the widely celebrated Faculty of Specialists in Medicine and Surgery associated with him, rendered it necessary that the founder of this institution should provide a place on a grand and commodious scale for their entertainment and comfort.
ADVANTAGES OFFERED.—The Invalids' Hotel is more complete in its appointments than any similar institution in the world. The building is located in one of the most healthful and desirable portions of the City of Buffalo, and commands a fine view of Lake Erie, Niagara River, and the surrounding country, being situated in the midst of an extensive system of beautiful parks. The Hotel is furnished with a patent safety passenger elevator, to convey patients to and from the different floors; is provided with all kinds of approved baths, and has also connected with it a well-appointed gymnasium and bowling alley to afford proper means of exercise.
CHRONIC DISEASES in all forms, whether requiring medical, surgical, or mechanical, treatment, come within the province of our several specialties.
DISEASES OF WOMEN.—Especially are the facilities of this Infirmary of a character to afford all the remedial means and appliances for the cure of all those chronic diseases peculiar to females. The employment, in moderation, of tonic, chemical, electro-thermal, and other approved baths, is in many cases an invaluable auxiliary to the remedial means to which we resort in such cases. Dry friction to the surface, general shampooing, Swedish movements, and light calisthenic exercises, to enliven and equalize the circulation of the blood in the system, relieve congested parts, improve digestion, and strengthen the nervous system, produce important beneficial results in all cases to which these means are applicable. No experimenting is resorted to in the treatment. The most approved medicines are carefully employed, and the judicious regulation of the diet, to suit the condition of the patient, the thorough ventilation of the sleeping apartment, the cheering influence of mature, social intercourse, innocent games for amusement, and all those agencies which tend to arouse the mind of the patient from despondency, and thus promote recovery, are not neglected.
NERVOUS DISEASES.—Paralysis, Epilepsy (Fits), Chorea (St. Vitus's Dance), and other nervous affections, receive the attention of an expert in this specialty, for which the greatest skill is claimed and the most happy results secured.
LUNG DISEASES.—The lung division of the practice in the Invalids' Hotel is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat, and Lung Diseases are very largely treated in this department, and with results which have been highly gratifying to both physician and patients.
EYE AND EAR.—Special attention is given to the delicate organs of the eye and ear, a distinguished oculist and aurist being under engagement to conduct this branch of the practice.
Invalids arriving in the city and desiring to consult us, should go directly to the Hotel. It is easily accessible by carriage, omnibus, or street cars. MILLER'S Omnibus Agents, on all incoming trains, can be relied upon to deliver passengers and baggage with security and dispatch.
☞ Address R. V. PIERCE, M. D., World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once, Address at once. ottyr578
H. HALLETT & CO., Portland, Me.

DR. JOHN TRIPP'S
BLOOD PURIFIER

PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
OF THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed:
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an unvirtable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. ufeb20 79

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL,
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Trains.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.
GEO. L. CONKER, Gen'l Pass. Ag't.

DOCTOR PIERCE'S
ALTERATIVE OR
Golden Medical Discovery
CURES DISEASES OF THE
THROAT, LUNGS, LIVER & BLOOD.
In the wonderful medicine to which the afflicted are now over the world for relief, the discoverer believes he has combined in *harmony* more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The existence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Scrofulous, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system, and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or **"Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, for it effects perfect cures, leaving the liver strengthened and healthy.
SOLD BY DRUGGISTS AT $1 PER BOTTLE.
Prepared by R. V. PIERCE, M. D., Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y.

NEW FOUR PER CENT
GOVERNMENT BONDS.
The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.
The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.
The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.
Orders by mail will receive prompt attention.
Jan. 27, 1878. E. P. KIMBALL, Cashier.
tf

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.
The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption,* that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.
PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.

THE STANDARD BROILER.

PATENTED APRIL 16, 1877.

THE *simplest* and *best* article for Cooking Beefsteak *ever invented*.

Can be used over either a Coal or Wood fire.

Cooks Steak so quickly that all the *juices* and *flavor* are retained.

DOES not get *ashes* or *coal* on the meat DOES not let *smoke* and *gas* out of the stove. DOES not put out the fire.

Ask your Dealer for the STANDARD BROILER, *it is just what you want*. The Trade supplied by FULLER, DANA & FITZ, 110 North St., Boston, and WILLIAMS & CO., Nashua, N. H.

MANUFACTURED BY ARTHUR BROWN & CO., Fisherville, N. H.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. *Glenn's Sulphur Soap* produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts*. It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per dozen (3 Cakes), 60c. and $1.20.

N.B.—Sent by Mail, Prepaid, on receipt of price, and 5 cents extra for each Cake.

"HILL'S HAIR AND WHISKER DYE," Black or Brown, 50 Cents.

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the iodides of Potassa and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and root used is subjected to a distillation whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all media are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while travelling with Barnum's Museum, I was taken down with a tenor singer. I took a severe cold and was laid up at Newark, N.J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head aches, eye ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours, GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1876.

I purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Rumford Building.

Each package contains Dr Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for two years, and have gained a world-wide reputation of remedies in the form of liniments, lotions, painting, etc. Ordinary medicinal plasters, they have increased in sale and met with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many remarkable cases have been certified to by well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world of medicine.* All we ask from every sufferer in the land is a single trial. The price is 25 cents, although it is as much the best of any other plaster. But, notwithstanding the efforts of unprincipled persons to make the best plaster in the world for the least money, any similar remedy can be bought, numbers of unscrupulous dealers will be found ready to imprepresent them for *selfish motives* and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for. Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO., No. 3 BOW STREET.

Daily Chronicle.

Chronicle Correspondence.

NEW YORK, June 7.

The Metropolitan Elevated Railroad is ripe, and New Yorkers are as delighted therewith as a baby with a new toy. The patience with which the "bloods," old and young, however, wait down town beyond their usual hours to avail themselves of the cheap five-cent trains which run after five o'clock, is something observable when one remembers that they are always ready to lay $25 on the result of any horse-race at Jerome Park, and set up the wine for the crowd if they win. But one must economize somewhere, you know, even if the purchases an evening *Telegram* instead of the *Commercial Advertiser*, and thereby saves an honest penny.

Aimee, the piquant leader of opera bouffe, speedily takes her high-heeled boots to her native land, and New York goes to the country for the season. "'Twas ever thus!"

James E. Anderson seems to have revived the late Stanley Matthews, who was considered to be quietly entombed from public attention. Stanley is now the great living curiosity of this wonderful administration.

Samuel J. Tilden hopes—that he may yet be President; if not in 1979, then in 1881. Hendricks hopes he won't. So does Bayard. Also Thurman. Likewise William Allen.

All New York talk toothpicks, and shows how moisture expands the gentle pine fibres used for teeth clearing. "Nat" should lay in a stock ere there be a "corner."

The Women's Hotel wouldn't remain a hotel for women only. They were too lonely, and now everybody is saying: "I told you so," Wise world!

Young John C. Fremont has effected a clandestine marriage, in imitation of John and Jessie. Chip of the old block! The "Pathfinder" may be seen about the Astor House, daily. He is very gray and much broken. And this is the end of the enthusiasm of 1856, with Buchanan as the result, and all which that implied.

Keely won't let Edison look at his motor. Another motor inventor here has come to grief—not that he wouldn't allow any one to see it, but because he would not let any other person manage the business, and he did not know how, himself. Edison instead of wasting *his* valuable hours managing his business prefers to put it in other hands and goes on to some new invention. Next thing, he will invent a thought register.

Chas. C. Yeaton, a Portsmouth boy, is the manager of the Papyrograph (whatever that is,) which prints direct from manuscript, at the rate of 400 *fac simile* impressions per hour. This is in direct competition with Edison's Electric Pen, which with one writing makes a stencil of the sheet the writing is on from which 15,000 impressions can be struck. Both use an ordinary letter press.

The *Express* thinks Stanley Matthews is no baby. Wonder what Hayes' opinion is in the matter!

"Speculators," that is what they call them now, have been making money by covering pennies with tin-foil and depositing them in horse car and omnibus boxes as dime pieces for the fares of other passengers whom they kindly "accommodate," sitting next to the boxes to do so.

Mrs. Fletcher Harper, sensible woman, has gone into the woman's hotel business in a sensible way. She is to put up a cottage at Atlanticville, Long Branch, offering a country resort to women at $5 per week each, which will include seashore bathing and the surroundings of hotel life. It is to open July 1st.

Steamer Nevada brought 342 more Mormons this week for the Utahians.

Shop girls in dry goods stores here get about $5 a week each and are subject to a fine of twenty-five cents for every mistake they make, constructive or real.

W. W. Astor married a niece of the late Marshal Paul, in Philadelphia yesterday. Young Astor's mother celebrated the day by sending $1500 to the Children's Aid Society. The sum will be used to send one hundred homeless boys, from five to eighteen years of age, to comfortable homes in Missouri. That wedding ought to be abundantly blessed.

Edwin Booth is taking a rest from theatrical labor.

Mr. Charles E. Shedd, formerly of Portsmouth, has accepted management of the California branch of a mining industry for dredging rivers by machinery, now in successful operation, and will locate in San Francisco. The plan of operations is new, it being heretofore customary to turn the course of rivers and open up their beds for placer mining. Parties from Keene control the operations of the company. G.

—A thorn in the bush is worth a dozen in the hand.

Daily Chronicle

TUESDAY, JUNE 11, 1878.

The Naval Deficiency.

Last week, when the National House of Representatives was in committee of the whole on the general deficiency bill, that portion of the bill having been reached which appropriates $476,518 for the payment of claims against the bureau of steam engineering of the Navy Department, Mr. Blount, (dem.) of Georgia, raised the point of order that the section was not germane to the bill, as it provides for the payment of claims which were not deficiencies. After a long discussion the Chair overruled the point of order.

Mr. Willis, (dem.) of New York, offered an amendment for the payment of further claims against the bureau of steam engineering (for which payment had been recommended by the committee on naval expenditures, but for which no appropriation has been made by the committee on appropriations) which increased the appropriation for payment of claims against that bureau from $476,518 to $1,423,876. Among the claims provided for in the amendment is one of John Roach for $323,000 and one of the South Boston Iron Company for $149,000.

Mr. Whitthorne, (dem.) of Tennessee, offered as a substitute for Mr. Willis' amendment, a resolution authorizing the Secretary of the Navy to organize a board of five officers, of rank not less than that of commander, to which shall be referred the claims of parties against the Navy Department, with directions to inquire whether the contracts were made under authority of law, and if not so made and the government has received the property for which the claim is made the board shall inquire and report as to the market value of said property at the time of the delivery of the same. Rejected.

Mr. Blount, of Georgia, warned gentlemen that there was a voice outside of the hall which would be heard in disapproval of the action of the House in refusing to allow those claims to be further investigated.

Mr. Willis' amendment was then adopted.

Mr. Atkins, (dem.) of Tennessee, gave notice that he would call for a yea and nay vote in the House.

Mr. Willis—All right; then we will see who is in favor of repudiation.

Mr. Atkins—The gentleman has no right to make such a reflection as that.

The next paragraph of the bill appropriates $558,354 for the payment of claims against the bureau of construction and repair, the largest claim recommended to be paid being that of Phineas Burgess for $198,000.

Mr. Willis, of New York, offered an amendment for the payment of further claims against that bureau, increasing the sum appropriated from $558,354 to $931,134; also for timber, $416,319, or so much thereof as may be necessary, said timber to be paid for at no greater rate than the market price at the time of the contract. Among the claims allowed by the amendment is one of John Roach for $295,318.

The amendment was adopted.

The paragraph appropriating $73,800 for payment of claims against the bureau of provisions and clothing having been reached, Mr. Willis, of New York, offered an amendment appropriating $150,000 for payment of clothing indebtedness.

Mr. Clymer, (dem.) of Pennsylvania, stated that the action of the committee had increased the amount appropriated by the bill some $2,000,000. While he did not intent to impugn the intention of any gentleman who had voted for that increase, yet, in his judgment, the committee had set an example and created a precedent which would bear evil fruits in the future. It was in the House of Representatives that the people found an expression of their views. It was there that men came when there had been a verdict rendered by the public against those in power. A popular verdict had been rendered within the last two years against the last administration. The republican party did not attempt to defend it, but he could not wonder that republicans were willing to condone and have forgotten the wrong doing of that administration. It was an anomaly, however, that democrats should, by their votes, assist them in saying that what had been done by the Navy Department had been right. The action of the committee would bear evil fruits, for executive officers would hereafter point to that action as a precedent which would allow them to violate law whenever they might desire to do so.

Mr. Willis' amendment was then agreed to.

The Subsidy Question.

When the bill relating to granting subsidies to the Brazil line of steamships was before the Senate on Thursday last, Senator Rollins read letters from Messrs. E. C. Kinnear, John Bracewell and Jonathan Sawyer of Dover, J. Cumnock, agent of the Great Falls Manufacturing Co., E. G. Wallace of Rochester, Lewis Downing of the Abbot-Downing Co. at Concord, and Waterman Smith and E. A. Straw of Manchester, all favoring the project. Senator Wadleigh, who had given the project a very exhaustive examination, spoke as follows:

Mr. President, I do not question at all the sincerity of my colleague in his support of this bill. I do not question the fact that many of the manufacturers of New England have written both to him and myself in reference to this matter. But I have examined this subject very thoroughly, and I apprehend that the manufacturers of New England believe that the granting of this subsidy is essential to the establishment of this line. I do not think they are aware of the fact that the line is already established by contract, that it is actually in operation, that the steamers are running and have been built for this special object. I myself am in favor of an outlet for the manufactures not only of New Hampshire but of the whole country; but I do think that the manufacturers of New Hampshire do not see correctly if they suppose that the establishment of this line is going to relieve them from their embarrassments. Mr. President, the manufacturers of England to-day are in worse position than those of this country. The mills of England, with all the advantage she has of sending goods to Brazil, are filled with goods unsold and that cannot be sold. Her laboring population is in greater misery than the laboring population in this country. And why should subsidies here or those granted to steamship lines from here to Brazil cure the evils which exist when the same means do not cure them in England with its steam lines? I admit that there may be honest differences in opinion, and there are, between my colleague and myself as to this measure. As for myself, I vote upon my own opinions.

The Fraud Campaign.

The Potter revolutionary junta in Washington suffered badly in two points, Saturday. The cross-examination of Levisee brought out the fact that he heard all the ballots read that were cast by the Louisiana electors, and all were for Hayes and Wheeler, whereas the democrats have claimed that three blank votes were cast. Secondly, from the testimony of Senator Ferry it appeared that informalities in the electoral certificates were by no means scarce among those received from democratic States, though they were counted without objection for Tilden. In the case of the Arkansas returns, the certificates upon the envelope, instead of bearing the signatures of all the electors, as the law specifically requires, had all the signatures written in the same hand. Senator Ferry also testified that Senator Ransom informed him that the North Carolina returns were taken back for correction.

Senator Matthews having refused to appear before the Potter junta, a subpoena was issued for him on Saturday.

Congress.

The Senate on Saturday passed the military appropriation bill, the bill authorizing the payment of the Halifax fishery award, and the army bill. The latter now goes back to the House, and there is a prospect of a dead-lock on the amendments, which may postpone adjournment beyond the 17th inst.

The Senate election committee acted on all the election bills pending, deciding to recommend the passage of a bill, authorizing a Congressional election in West Virginia on the 8th of October, in North Carolina on the 5th of November, and that the present legislature of New Hampshire may, if it shall so determine, at any time after the passage of this act and during its session commencing on the first Wednesday in June, 1878, elect a United States Senator for the term beginning March 4th, 1879, according to the laws now in force, except so far as the same relate to the time of making such election. The committee also authorized the postponement of the election in California of Representatives for the forty-sixth Congress until the 4th of September of next year, and authorized the election in Colorado this year upon the day fixed by that State for the election of its Governor. The action thus taken was subsequently reported to the Senate and bills were placed upon the calendar.

The House of Representatives passed Saturday in a general discussion of the appropriations, an evening session being held for debate. The House ordered nightly sessions this week for regular business.

On Monday the Senate passed the bill changing the time for electing Congressmen in several States, and empowering the present Legislature of New Hampshire to elect a Senator.

Naval Affairs

Lieutenant Commanders Edwin M. Shepard and Mortimer L. Johnson are promoted to Commanders, and Lieutenant Charles M. Anthony to Lieutenant Commander.

The U. S. S. Wyoming, Commander Watson, will leave Havre about the 15th inst. for Washington.

The order retiring Lieut. Comdr. Chas. W. Tracy has been revoked, with the view of giving him a full and further hearing. The action of the President was based on an opinion of the Attorney General that under the circumstances of Lieut. Comdr. Tracy's case—the facts being that he did not have an opportunity of appearing and submitting material evidence in his defence—it was within the power of the President to revoke his action on the proceedings of the Examining Board. The restoration of Lieut. Comdr. Tracy involved the withdrawal of certain nominations to the Senate for promotion and suspension in their cases until he is re-examined. — *Army and Navy Journal.*

News and Notes.

James Irwin, of Lowell, Mass., who last week attempted to kill his wife and uncle, and was committed to jail, hanged himself in his cell Sunday afternoon.

The application of the mayor of Philadelphia to the government for 400 rifles for the police has been refused. The government says that the force must be organized into a military organization before arms can be sent, as the police bearing arms would be liable to be called to different parts of the State, and the mayor declined the terms.

The Fall River, Mass., operatives met Saturday evening, denounced the press, and passed a resolution that the Fall River manufacturers had proved false to their promises, and had forever forfeited the confidence and respect of their pauperized operatives.

James F. McLear, of Newark, N. J., while dressing a Russian hide in a tannery recently, rubbed a pimple on his chin and inoculated it with poison virus. His head swelled to an enormous size and death ensued.

General John C. Fremont has been appointed Governor of Arizona Territory, taking the place of John P. Hoyt, who is transferred to the Governship of Idaho, Mason Brayman being removed from the latter office, because, probably, of his ill-judged management of the Indian matters.

The confidential clerk of the law firm of Butler, Stillman & Hubbard, of New York, is charged with abstracting securities from the custody of the firm to the amount of $50,000. And John H. White, a New York lawyer, who died last year, is now said to have been a large defaulter to two trust estates in his hands.

Mr. Edison's latest invention is called "the Telescopophone." It is an ear-trumpet, by the use of which ordinary conversation has been heard a mile off, and shouting at a distance of two miles. Deaf people may go to the theatre with the telescopophone, and hear the slightest whispers on the stage.

After the war, a brother of Jeff. Davis sold the family plantation to a negro, who paid $300,000 for it, and has since cultivated it very successfully; but, the brother having died, Jeff. now comes and claims the plantation, alleging that he bought it and paid for it before the negro did, but neglected to take a deed, and the Mississippi court, of course, decides that the property belongs to Jeff.

Dr. Holsclau, of Orville, Cal., a husband of a week, on Saturday murdered his wife and then killed himself; cause, jealousy. In Philadelphia, Saturday, Mrs. Gestlach and her two children were found dead; it was at first supposed to be a case of murder and suicide by the mother, but the disappearance of her husband has led to suspicion that he was the murderer.

Postmaster-General Key has made 1894 new Post Offices since July 1, 1877; of these 775 have been established in the three months from March 1 to June 1, 1878, and of this number at least 500 are in the Southern States. The total number in the United States is now 39,061.

Miss Henrietta Dana, the youngest daughter of Hon. R. H. Dana, Jr., has recently been converted to Catholicism. Miss Dana was educated at a convent in Paris, and this is the consequence.

The official returns of the amount of malt liquor manufactured and sold in New York city by brewers from May 1, 1877, to May 1, 1878, show that 1,201,336 barrels of lager beer, and 388,411 barrels of ale were consumed in that time.

New Orleans seems destined to be perpetually in some sort of a squabble. The latest trouble is a conflict of authority between Governor Nicholls and Judge Rodgers of the District Court, the former having issued a proclamation enforcing strict quarantine on all vessels hailing from Kingston and other ports infected with yellow fever, while the latter has granted an injunction restraining the health officers from detaining and fumigating a schooner now on the way from Kingston with fruit. Governor Nicholls is determined to sustain the quarantine laws with all the force at his command, though an armed tug waits to help the vessel evade them on her arrival.

New Hampshire Items.

The Unitarian grove meeting will be held from July 15th to the 22d, and the Methodist camp-meeting from August 19th to the 24th, at the Winnipesaukee camp-ground, Weirs Landing, Lake Winniepesaukee.

Herbert Critchell of Nashua caught his arm on a buzz saw Saturday, and it was terribly mangled.

The greenbackers of Whitefield and vicinity opened the campaign Saturday evening with a mass meeting, which was addressed by Hon. S. G. Crawford of Lancaster.

— An American lady, while at Rome, managed to secure an invitation to a court ball, and while there was approached by Prince Humburt—now king—who addressed her in some polite speech. She did not rise, as is etiquette, but pointing with her fan to a vacant chair near, said: "You must be tired, prince; won't you set down and rest your trotters awhile?" It was the last court ball that she attended.

A Sailor's Forethought.

The experienced mariner, before risking the perils of the sea, skillfully adjusts his cargo, and makes provision for every possible contingency, well knowing that when the storm comes, his ability will be taxed to the utmost in saving his vessel and crew. Yet the mariner on the sea of life makes no preparation to cope with the storms (disease) to which all are liable. No studious effort to keep the many organs in order, or regulate their functions. If the liver be sluggish, bowels constipated, head dizzy, dull, or aches, he "*guesses* it will wear off in a day or so," and does nothing to obtain relief, though knowing that one or two doses of Dr. Pierce's Pleasant Purgative Pellets will effect a radical cure, and that a bottle or two of his Golden Medical Discovery will effectually ward off all future attacks, by enriching and purifying the blood. Suppose a captain upon discovering that his vessel was too heavy on one side, should "guess it would right itself in a day or so," and do nothing, could any one be blamed but himself, if in a storm his vessel foundered, and all perished? So people who carelessly and foolishly neglect the premonitory symptoms of disease can blame no one but themselves if an early death is the result. Reader, if you wish to "*know thyself*," and the hidden reefs and dangerous coasts upon which thousands have been shipwrecked, while navigating life's ocean, procure a copy of the People's Common Sense Medical Adviser, an illustrated work of nearly one thousand pages. Over one hundred thousand copies already sold. Price, postpaid, $1.50. Address the author, R. V. Pierce, M. D., Buffalo, N. Y.

There is Trouble in Store

For those who neglect to rectify irregularities of the stomach, liver and bowels, which they foolishly imagine will "come right of themselves." Of this silly error such persons are usually disabused by the development of some serious chronic malady, traceable to what they were pleased to consider a trifling disorder of the above named associate organs. Such a culmination is easily avoided. A course of Hostetter's Stomach Bitters invariably has the effect of renewing the secretive action of a torpid liver, restoring healthy digestion and assimilation, and rendering the habit of body perfectly regular. The activity of these all important functions being restored, and the entire system toned and regulated by this incomparable corrective and invigorant, no danger to the general health is to be apprehended from causes which, if not eradicated in time, will assuredly undermine it.

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

Patrons of a first-class hotel justly consider themselves entitled to comfortable rooms, a bountiful bill of fare, and courteous treatment in the office. All these, combined with a notable degree of elegance throughout, are to be found at the Colonnade Hotel, Philadelphia, Pa.

Alex. Frothingham & Co., brokers, 12 Wall st., N. Y., make careful investments for customers, in sums of $25 to $100, which frequently pay ten to twenty times the amount invested. Their *Weekly Financial Report*, sent free, gives full information. 9

Free Sample Bottles of Adamson's Botanic Balsam may be had of your druggists. Pleasant and never failing remedy for coughs, colds, bleeding from the lungs, asthma, &c., &c. Large bottles 75 and 35 cts. Try it.

E. G. PIERCE, JR., P. M.

THE CITY.

Mr. Elvin C. Newton dug potatoes as large as hens' eggs in his garden, on the first of June.

The war veterans are requested to meet at the armory of the City Guards this evening at half-past seven o'clock.

Mr. William Brennan owns a cat which has been in his family for twenty years, and is at present the mother of a young family.

The contract for building the new Normal School at Gorham, Me., has been awarded to Mr. John R. Giddings, of this city, and his brother Oliver Giddings, of Exeter. Their bid was $19,880.

The three o'clock train for Portland, Monday afternoon, consisted of baggage car No. 23 and passenger cars Nos. 79, 80 and 81, all spick span newly painted a light drab, fresh from the shop, with the word "Eastern" painted over the windows, the superfluous word "Railroad" being economically and sensibly omitted.

The fish weir that has for some time been set in the lower harbor off Fort McClary, was last week removed to the channel between White and Gerrish's islands, at the eastern side of the harbor's entrance. From this change of base we infer that the weir has been only moderately successful as a fish trap.

Harlow is before long to give a concert in Music Hall, when the youthful Paganinis and Camilla Ursos whose proficiency under his instruction has called forth such eomiums will appear, to the intense gratification of their friends, who will be on hand with profuse floral tributes and generous applause. It will be worth hearing.

A paper signed by a large number of citizens of Portsmouth was presented in the United States Senate, Saturday, certifying that the memorial previously presented by Senator Wadleigh, signed by J. F. Merrill and others, representing that they were citizens of this place, is a fraud, and that no such persons reside here; and Senator Wadleigh made a statement to that effect.

The Congregational churches of Rockingham county hold a conference in the North Church of this city, Tuesday and Wednesday of this week. The exercises open with a short prayer meeting at ten o'clock this morning, followed by a sermon by Rev. Charles Tenney of Chester. At two o'clock P. M. reports of the state of religion in the churches. At 3:30 P. M. the question "What is the best method of raising money for benevolent and parish purposes?" will be opened by Edward P. Kimball, Esq., of this city, followed by Rev. I. C. White of Newmarket. At 7:30 this evening, the topic for discussion will be, "Christian morality, with special reference to fidelity, honesty and truthfulness in business relations;" Rev. T. V. Haines of North Hampton will open it, to be followed by a general discussion. These sessions are all open to the public, and cannot fail of affording general interest.

One of the Portsmouth delegation in Concord relates the following incident which occurred under his eye in the State House yard on "Election day." An aged couple, evidently in from the country to see the sights of the day, sat for some time in the shade at the foot of a big tree, cosily chatting together. At length the old lady produced from her pocket a clay pipe, plug of tobacco and knife, and after skillfully loading up the pipe and lighting it took out a pocket-book, extracted therefrom a dime and a nickel, and gave the same to her "old man" to get something to cheer himself withal. The old fellow went off and probably got something, for he returned seeming much refreshed; and the old lady having finished her smoke her worser half then hauled out a copy of the *New Hampshire Patriot*, and to the old dame's evident satisfaction proceeded to read aloud to her the good democratic editorials of that sheet. It was a charming picture of rural felicity all through.

COMMISSIONER'S COURT.

Benjamin F. Shepard was before the Court on Monday for unlawfully taking a letter from the post office (continued case) and stealing money therefrom. His counsel, A. R. Hatch, contended that a man has the right to intercept letters forming part of a criminal correspondence between his wife and another man. Shepard was held in $200 to answer at the next term of the Circuit Court of the United States, Oct. 8th.

OUR BOYS AT CONCORD.

The Boston *Globe's* Concord correspondent thus alludes to the Portsmouth Cavalry and Light Artillery in the 'Lection Day procession at Concord:

* * Immediately in their rear came the Second Troop of Cavalry of Portsmouth, a handsome and stalwart body of men, handsomely mounted, and who evidently understood horsemanship thoroughly. Their uniform is of a dark blue, trimmed with white, the jacket cut only to the waist and fitting the form snugly; yellow belts and what seemed to be new sets of horse equipments. * * The Portsmouth Light Artillery made a gorgeous appearance in their red uniforms trimmed with blue, and passed in three platoons, varying from six to eight front, double rank. They created a decided sensation along the route and it was noticed that the ladies were far more partial to this organization than any other.

Concerning their appearence on the review the same writer says:

The Second Troop of Cavalry passed in the same formation as before; they looked equally as well, but were unfortunate in their alignments and steadiness, as several men lost their hats when almost opposite the reviewing officer; not a single salute was given. * * The Portsmouth Light Artillery evidently were in double rank, with a front of twenty files, but so many blanks in rear rank that it was a question of doubt. They did well and were abundantly applauded.

As in a company of *artillery* in double rank there must be two blanks to each section of the rear rank, it is quite probable that these were the blanks alluded to by the correspondent.

A 'BITUARY.

"The boy, Hoseur," who has for some years so ably aided the Manchester *Mirror's* legislative reporter in getting up his accounts of what happens or should happen in Concord while the Legislature is in session, has handed to his chief what he avers to be copies of "paste board 'bituaries" stuck on the trees in the State House yard. One of them is of local interest, and we copy it as follows:

Hereabouts lie what remains of Senator Eldredge.

He was a yearling when they slew him;
But very dear to all who knew him.
Little we thought they would undo him
And into little pieces hew him;
For the greenback mule that threw him,
And left the daylight shining through him,
Was bred and trained by one of his clan
On purpose to kill another man.

A HARD ROAD TO TRAVEL.

Edward L. Jordan, formerly of Dover, where he won the affections and the hand of a silly young woman who had $10,000 cash in bank, and who was so captivated by his perfection in neckties, gloves and canes as to place her bank-book in his keeping as soon as they were married, which resulted in his wasting all her property in cutting a swell in Saco, Biddeford, Dover and other places, after which he committed forgery and had to clear out from Dover, returning one night some months afterward to take away his beggared yet still trusting wife, has gotten himself into an iron-clad cell of the jail in Saratoga county, New York. He has been for some months confined in the jail awaiting trial for forging the name of Judge A. D. Waite of Fort Edward to a note, and on the 4th inst. it was found that he had severed two bars of his cell with a saw, and would have been free in a few hours. The jailor immediately transferred him from his comfortable cell to an iron-clad one. The *Saratogian* says "the polished criminal did not relish the change, and so expressed himself, but this did not disturb the equanimity of the sheriff, who proposes to keep a sharp lookout on the young man in the future. It is thought that the saw was furnished to him by his wife, who has been stopping in town here since his confinement, and has been allowed to carry his meals to him daily. Since the little occurrence described above she has been politely informed that henceforth the responsible task of caring for the prisoner would be conducted by the regular officials, and that not the shadow of her presence could be tolerated in the management of the county tombs. The discipline may seem rigid, but it is necessary with a class of prisoners—abetted and assisted by their wives—who seek to fix the date of their liberation."

THE VICINITY.

The Salmon Falls Manufacturing Co. pays a dividend of two per cent.

Mr. Freeman, of Manchester, who was so successful last year, is to be the caterer for the club dining-room at Straw's Point the present season.

Edward Flower, residing near the Saco Ferry, has recently captured nine seals. On Friday of last week he had three of them on exhibition in Biddeford.

Mr. George C. Mead, who for several years past has been manager of the Oceanic Hotel at the Shoals, and whose services have been secured by Laighton Bros. & Co. for this season, will on the first of October next take charge of the St. James Hotel in Boston, in company with Mr. J. S. Doyle, for eighteen years past connected with the American House in Boston.

The famous schooner Ceres, which has such a strong attachment for Portsmohth bridge, is at Dover discharging a cargo of coal. This time she passed the bridge in safety.

Rev. B. H. Davis, Universalist, has tendered his resignation as pastor of the church at Biddeford, to take effect July 1st. A meeting of the society was held Monday evening to act on the resignation.

Mr. Thomas Hanson, of Biddeford, caught a fine salmon in the Saco river near the falls, Saturday afternoon. It was two feet eleven inches long, and weighed thirteen and a half pounds. It was the largest salmon caught in that vicinity for a long time.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&eoseptl5 7

—An afflicted man offers a reward of five dollars for the best treatise on "How to make out door life attractive to the mosquito."

—Simon Cameron says that his first plunge into politics was incited by the sneer of the Congressman from his district, who asked, "What does Cameron know about politics? He couldn't run for town constable." Says Simon, "I knew that people in this world can get most things which they try hard for."

PRATT'S

Astral Oil!

THE SAFEST AND BEST

ILLUMINATING OIL!

For Safety and for Excellent Burning Qualities, it is without an equal.

CAUTION.

The great popularity of "ASTRAL" OIL has induced some unprincipled persons to sell worthless and dangerous imitations for "ASTRAL," while others palm off inferior oils, representing them as good as "ASTRAL." To prevent this fraud, purchasers should demand "ASTRAL" and take no other.

The Genuine Article is sold by

JOHN P. SWEETSER,

A Few Shares for sale by

WILLIAM H. HACKETT.

Portsmouth Chronicle

—The Greeks kept no cats. They domesticated the weasel, and with it hunted vermin.

—A New Jersey clergyman preached a sermon on a recent Sunday against dancing. He died in a fit the next day. Yet Fannie Ellsler is eighty-four years old, and well and happy.

— A contemporary is mean enough to expose the profession in this shameful way: "An editor's wife never goes through her husband's other trowsers' pockets to strike a package of love letters. Editors are not like the wicked, unfaithful men of the world—editors rarely have other trowsers."

— The tender hearts which pet the murderer are scattering such items as this, about the little monster Jesse Pomeroy: "The letters which he writes are marvels in the way of parental correspondence, and some of his descriptions of his lonely life are characterized by a sadness which is indeed harrowing." The "parental" letters are written to his mother!

— As a Fall River (Mass.) schooner was on its voyage from Florida, a few days since, the log was heaved, but could not be drawn in again. Several of the crew then took hold of the line and hauled lustily, when they were surpised to discover that they had a large sword-fish in tow, which had become entangled and was unable to release itself. The monster was finally hauled on board and found to weigh 300 pounds.

—At the last accounts the authorities of St. Paul's Cathedral, London, were looking for a man to regild the ball on the top of that immense structure, offering £20 sterling and a life-assurance policy to any one who would undertake the work. It is not easy to see, meanwhile, why any gilder should have more objection to doing the work at that height of four hundred feet than on the spire of an ordinary church. Would it kill a man any deader to fall four hundred feet than two hundred feet?

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 Dey St., New York.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very officacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 25 cents, and can be had of any Druggist.

This is one of many testimonials:

"Cornwall, Lebanon Co., Pa., Mch. 17, '74.
Dear Sir:—I have used your Castoria in my practice for some time. I take great pleasure in recommending it to the profession as a safe, reliable and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.
F. A. ENDERS, M. D."

Mothers who try Castoria will find that they can sleep nights and that their babies will be healthy.

J. B. Rose & Co., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms our Stomach and Disordered Bowels, there is nothing like Castoria. tang

INVALIDS' HOTEL.
The very large number of invalid people who daily visit Buffalo, from every quarter of the United States and Canada, that have recently consulted Dr. R. V. Pierce, and the widely celebrated Faculty of Specialists in Medicine and Surgery associated with him, rendered it necessary that the founder of this institution should provide a place on a grand and commodious scale for their entertainment and comfort.
ADVANTAGES OFFERED.—The Invalids' Hotel is more complete in its appointments than any similar institution in the world. The building is located in one of the most beautiful and desirable portions of the City of Buffalo, and commands a fine view of Lake Erie, Niagara River, and the surrounding country, being situated in the midst of an extensive system of beautiful parks. The Hotel is furnished with a patent safety passenger elevator, to convey patients to and from the different floors; is provided with all kinds of approved baths, and has also connected with it a well-appointed gymnasium and bowling alley to afford proper means of exercise.
CHRONIC DISEASES of all forms, whether requiring medical, surgical, or mechanical treatment, come within the province of our several specialties.
DISEASES OF WOMEN—Especially are the facilities of this infirmary of a superior order as regards the remedial means and appliances for the cure of all those chronic diseases peculiar to females. The employment, in moderation, of tonic, chemical, electro-thermal, and other approved baths, is in many cases an invaluable auxiliary to the remedial means to which we resort in such cases. Dry friction to the surface, general shampooing, Swedish movements, and light calisthenic exercises, to unloken and equalize the circulation of the blood in the system, relieve congested parts, improve digestion, and strengthen the muscles, produce important beneficial results in all cases to which these means are applicable. No experimenting is resorted to in the treatment. The most approved medicines are carefully employed, and the judicious regulation of the diet, to suit the condition of the patient, the thorough ventilation of the sleeping apartment, the cheering influence of music, social intercourse, innocent games for amusement, and all those agencies which tend to arouse the mind of the patient from despondency, and thoughts of recovery, are not neglected.
NERVOUS DISEASES.—Paralysis, Epilepsy (Fits), Chorea (St. Vitus's Dance), and other nervous affections, receive the attention of an expert in this specialty, by which the greatest skill is attained and the most happy results secured.
LUNG DISEASES.—This division of the practice in the Invalids' Hotel is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat, and Lung Diseases are treated by Inhalation in this department, and with results which have been highly gratifying to both physician and patients.
EYE AND EAR.—Special attention is given to the delicate operations on the eye and ear, a distinguished oculist and aurist being under engagements to conduct this branch of the practice.
Invalids arriving in the city and desiring to consult us, should come directly to the Hotel. It is easily accessible by carriage, omnibus, or street cars. Mrs. Lewis Overland, Agent, on all incoming trains can be relied upon to deliver passengers and baggage with security and dispatch.
☞ Address R. V. Pierce, M. D., World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $50 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who secure at once can make money fast. At the price of time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once. GUYSE 78
H. Hallett & Co., Portland, Me.

DR. JOHN TRIPP'S
BLOOD PURIFIER
IS the most wonderful discovery for the radical cure of SCROFULA and SYPHILIS. It never fails to eradicate either of these diseases and all Blood Poison from the system. ULCERS, CANCERS, WHITE SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM and GOUT yield to its power. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.
Sole Eastern Agency, 366 Columbus ave., Boston. Office hours, 8 to 11, A. M., 3 to 7 P. M.
Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. codinovlt

PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. 14feb20 79
FRANK THOMSON, L. P. FARMER,
General Manager. *Gen. Passenger Agent.*

DOCTOR PIERCE'S
ALT. EXT. OR
Golden Medical Discovery
COPES DISEASES OF THE
THROAT, LUNGS, LIVER & BLOOD.
In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has caught the spirit of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before connected in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or "**Biliousness.**" In many cases of "**Liver Complaint**" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.
SOLD BY DRUGGISTS AT $1 PER BOTTLE.
Prepared by R. V. PIERCE, M. D., Sole Proprietor, at the World's Dispensary, Buffalo, N. Y.

NEW FOUR PER CENT
GOVERNMENT BONDS.
The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.
The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.
The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.
Orders by mail will receive prompt attention.
Jan. 27, 1878. E. P. KIMBALL, Cashier. tf

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.
The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption,* that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.
PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.
Practical and Analytical Chemists.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY for DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. ***Glenn's Sulphur Soap*** produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts.* It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in so organism so delicate as the nasal passages. Yet all results are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. There is a cure for CATARRH in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen,—About twelve years ago, while travelling with Jenny Kempe's Old Folks Concert Company as a tenor singer, I took a severe cold and was laid up at Newark, O. The cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years after this I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had this symptom continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without avail. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its treatment, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours, GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1877.

DR. S.—I purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Rumford Building.

Each package contains Dr Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for two years, and have outstanding the testimony of number of remedies in the form of liniments, lotions, pain-curers, or ordinary plasters, they have steadily increased in sale and met with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many remarkable cases have been certified to by well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world of medicine.* All we ask from every sufferer in the land is a single trial. The price is 25 cents, although there is double the worth of any other plaster. But, notwithstanding the efforts of the proprietors to make the best plaster in the world for the least money, any similar remedy can be bought, numbers of unscrupulous dealers will be found ready to misrepresent them for *selfish malice* and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

PORTSMOUTH

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO., No. 3 BOW STREET.

Daily Chronicle.

The International Review.

There are but few periodicals that maintain such a uniformly high standard of excellence as does this ably conducted review. The last number opens with Reminiscences of Alexander H. Stephens vs. those of Gen. Richard Taylor. The article on the relation of morality to religion is from the pen of our former townsman, Prof. A. P. Peabody, D. D., whose writings always possess a charm for so many of our readers. The magazine is published by the celebrated publishing house of A. S. Barnes & Co., of New York. It appears bi-monthly, making a review of nearly one hundred and fifty pages. An excellent feature, in addition to the high order of the articles it produces, is the large, clear type and broad pages, which makes it a pleasure to read it, even by artificial light. The magazine circulates in Great Britain and on the Continent of Europe, and is highly appreciated by readers all over the United States. The terms are five dollars per year or one dollar per number.

—The Brooklyn ladies are circulating an agreement for signatures, which recites that for five years they will not patronize A. T. Stewart's store in consequence of the unseemly insinuations regarding the management and failure of the Women's Hotel, hoping that in that time the managers may better learn the characteristics of American women.

—A Germantown gentleman has a dog that will not permit him to enter the house if his wife is out of temper. The animal foresees a "time" between his master and mistress, and out of consideration for the latter prevents his entrance.

There is Trouble in Store

For those who neglect to rectify irregularities of the stomach, liver and bowels, which they foolishly imagine will "come right of themselves." Of this silly error such persons are usually disabused by the development of some serious chronic malady, traceable to what they were pleased to consider a trifling disorder of the above named associate organs. Such a culmination is easily avoided. A course of Hostetter's Stomach Bitters invariably has the effect of renewing the secretive action of a torpid liver, restoring healthy digestion and assimilation, and rendering the habit of body perfectly regular. The activity of these all important functions being restored, and the entire system toned and regulated by this incomparable corrective and invigorant, no danger to the general health is to be apprehended from causes which, if not eradicated in time, will assuredly undermine it.

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

Alex. Frothingham & Co., brokers, 12 Wall st., N. Y., make careful investments for customers, in sums of $25 to $100, which frequently pay ten to twenty times the amount invested. Their *Weekly Financial Report*, sent free, gives full information. 9

The Colonnade Hotel, Philadelphia, Pa., by its judicious reduction of rates, will maintain its famous reputation as a model first-class house, alive to the demands of the time.

Adamson's Botanic Balsam being free from opiates and squills, not only allays the local irritation, but improves digestion and strengthens the constitution; hence it is used with the most signal success in Asthma, Coughs, Colds, Bronchitis, Quinsy, affections of the throat and chest. All who wish to preserve health and thus prolong life, should use Adamson's Balsam.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&wtsept15 7

L.S.L.

Daily Chronicle

WEDNESDAY, JUNE 12, 1878.

Robeson's "Frauds."

Some of the newspapers have made considerable ado from time to time about certain contracts for boilers, made by Secretary Robeson, for the navy department. The newspaper articles upon the matter usually bore the stamp of ignorance, and generally also that of malice. But after repeated and searching investigations by House committees, apparently anxious to find something wrong about these boiler contracts, Mr. Willis, democratic representative from New York, declared in the House of Representatives, last Thursday, that "all of these contracts have undergone the most severe scrutiny at the hands of the naval committee. I am a member of both committees, the committee on naval expenditures and the committee on naval affairs, and I desire to say there has not been a scintilla of proof which affects the integrity, the honor, or the manhood of any of these contractors, whether they be the South Boston Iron Works, the Providence Steam Engine Company, John Roach, George W. Quintard, Delamater, or any of the others. They are all deserving men, and enjoy the confidence and respect of the communities in which they reside. Men who have been guided by envy, hatred or malice, have attempted in vain to assail their character, or to destroy their credit."

New Hampshire Legislature.

In the House, Monday afternoon, the committee to select a Chaplain reported Rev. George B. Spalding of Dover. The following notices of bills were given: Act to prevent pool-selling; act to authorize the construction of a railroad from Bethlehem to the Profile House; bill to incorporate the Concord Horse Railroad; act declaratory of changes rendered necessary by passing from the old to the amended Constitution, etc. The report of the Tax Commission and accompanying bills were referred to committees.

Naval Affairs

Among the officers who are ordered away from the Boston navy yard on account of the rules requiring rotation in office are Commodore Parker, Capt. McCauley and Capt. Ralph Chandler. Capt. Jonathan Young will probably be the successor of Capt. Chandler.

Commodore George H. Cooper, President of the Board of Inspectors, has received orders to inspect the U. S. S. Alaska, flagship of the European squadron, now nearly ready for sailing at the Brooklyn navy yard.

Commander Skerrett, U. S. N., who has been on duty for several years past on the navy yard, at this city, has been ordered away the 23d inst., and will take charge of the first light-house district on the 1st proximo. His headquarters will be at Portland, Me., and there he and his interesting family will reside for the next couple of years. Their departure will be much regretted by their many friends in this city.—*Washington Republican, 10th inst.*

Congress.

The House judiciary committee Tuesday morning adopted a resolution declaring that neither Congress nor the courts has the power to disturb the President's title. It was passed by a full vote, the chairman (Proctor Knott) voting no. Butler was not present.

The adoption of the conference report on the Washington monument by both houses of Congress secures the prompt completion of that structure in accordance with the modified design prepared by Larkin G. Mead.

The House refused to set aside Wednesday night of this week for the consideration of the pension bill. This is another illustration of democratic love for the "poor soldier."

News and Notes.

Barque Laura, with 300 passengers from Cara, where they had been starving on account of the failure of the crops, foundered off Para, Brazil, to which port she was bound, and 170 of the refugees were drowned.

In a wind and hail storm in Georgia a gin manufactory of Belair was blown down, outhouses and fences prostrated and crops destroyed. Three white children were killed.

John B. Vanderheld threw himself to death before a locomotive running on a trial trip at a fearful speed on the Coney Island (New York Central) railroad; and he nearly threw the locomotive off the track.

A boy in the Ohio House of Refuge, cut short at dinner by the guard's command "Attention," hastily tossed a chunk of beef into his mouth, and tried to swallow it; but it was too big to go down, so he choked to death.

At Newark, Vt., recently, George Carpenter eloped with the wife of Charles Coles, the two having a partnership fund of fifty cents to begin with. Walking to Island Pond, the woman took the train and rode out the fifty cents, when she got off and walked to Costicook, P. Q., where she waited till Carpenter, who walked the entire distance, joined her.

Mrs. Sarah Ross Corwin, widow of Gov. Tom Corwin of Ohio, died on the 10th inst., at the age of 83 years. Mrs. Elizabeth Jenkins, mother of Mrs. Surrat, died in Maryland on the 7th inst., aged 88 years.

Corporal Hassan Salih, the Turk who some months ago twice stabbed his paramour, Dollie May, in Providence, R. I., and then jumped from a third-story window, miraculously escaping serious injury though falling fifty feet to a brick pavement, has been discharged from custody, the woman refusing to testify against him.

The Roman Catholic pastor at Hopkinton, Mass., has joined the Milford priest in denouncing the Hibernians. He orders his parishioners to withdraw from the order, and says there will be no peace in the parish until they do.

Thomas Winans, of Baltimore, died on Monday at Newport, R. I. He leaves an estate estimated at $40,000,000.

The ticking of the Cambridge, Mass., observatory clock is distinctly heard upon some of the telephones in Boston City Hall. There is no connection by wire, but an observatory and City Hall wire are supposed to run near each other at some place.

The second trial of Colonel George C. Ellison, formerly Chief Engineer of the House of Representatives, who was indicted for the homicide of David Small fifteen months ago, is set down for the 17th or 18th of this month at Washington, D. C. His counsel are Representatives S. J. Ellis, of Louisiana, Casey Young, of Tennessee, and S. L. Mayham, of New York. On the first trial the jury failed to agree, there being only one or two for conviction.

Mrs. Jeannette Putnam, of Foster, Conn., who in March last blew the head off her paramour, Wm. Ide, with a shot-gun, after Ide had beaten and stamped her almost to a jelly, and left her upon the floor insensible and apparently dying, has been released, the grand jury finding no bill against her. Much sympathy has been shown the woman by her neighbors, who say Ide was a worthless ruffian of the worst stamp.

The seats in a large amphitheatre in the western suburbs of Montreal gave way during a Sunday show, when about 2000 persons were present. A panic ensued and a number were dangerously injured, some of whom are not expected to recover. Subsequently the police attempted to disperse the crowd when the latter attacked the officers and beat them badly.

Andrew True, of Haverhill, Mass., wound up a three weeks drunk on Tuesday by fatally stabbing his wife in the neck, and then effectually cutting his own throat. They leave two sons and a daughter.

Political.

The latest Oregon election returns conclusively show that the republican State ticket was elected, and that H. R. Hines, republican representative for Congress, was defeated by 500 majority. The Legislature on joint ballot will have a democratic majority of ten. It consists of fifty democrats, thirty-six republicans and four nationals.

The New York *World* suggests that an apothecary out of business, who owns a large mortar, might make a worse use of it than to try his hand with a pestle in it on the irrepressible Montgomery Blair. Has he no friends?

The Portland *Advertiser* says the greenback State ticket in Maine will receive 25,000 votes at the coming election.

General Hoyt, republican candidate for Governor of Pennsylvania, has invited Senator Dill, his democratic competitor, to be his guest during the Wyoming centennial celebration.

The Springfield *Republican* says: "With all their investigations nobody seems to think of inquiring into the scandal of letting a penitentiary bird occupy a seat in the U. S. Senate from South Carolina." Wonder who the "penitentiary bird" is that the *Republican* alludes to? Does it mean Massacre C. Butler, the Hamburg butcher, or Patterson, through whose vote Butler got into his present seat?

"Father Gobright," for nearly twenty-five years past the Associated Press agent at Washington, has been removed and a Mr. Phillips put in his place. His style of reporting the "investigation" evidence had led to earnest remonstrances on the part of republican papers in the association, they not caring to have their columns loaded up with his partisan spite and reckless assertions, labelled "news."

Senator Patterson, who is wanted in South Carolina for bribery, is shocked by the revelations from Louisiana. He thinks President Hayes will be out of office before the 1st of September.

It's all very well to talk about history repeating itself, but when we consider the case of the late Ananias, we are led to ask what kind of a lightning rod Anderson carries on his bat.—*Traveller.*

New Hampshire Items.

The towns on the line of the old survey of the Ogdensburg Railroad in the White Mountain district, are preparing to make strenuous opposition to the petition of the company for an amendment of the charter enabling them to complete their line at less expense of time and labor.

The store of C. J. Bowker, at Salem, which is also the post-office, was broken into and robbed Monday night. The thieves got $50 in money and $35 in stamps. A reward of $50 is offered for their detection.

MARRIAGES.

The Experience of a Lucky Man.

From the Norfolk Day Book.

Mr. Geo. R. Gornto, the lucky man of Princess Anne County, Va., who drew the $30,000 prize in the Louisiana State Lottery, was heavily in debt, with a mortgage on his farm, and things going behindhand with him generally. He got hold of a copy of the advertisement of the Lottery. He determined to make a venture. He had but $3.13 in the world. He wrote to M. A. Dauphin, P. O. Box 692, New Orleans, and enclosed $2 in the letter, and was just about to send it off to the Post Office by a boy, when a negro hand of his called on him and demanded his wages, which just amounted to $3. He offered the man the $3 he had left, but this was declined by the darkey, who threatened to leave his work just at a critical time unless he got the whole. He took the letter, and the two dollars out of it, which, with the $3, he handed to the man.

Thus was he with but fifteen cents cash in the world; and while in this melancholy frame of mind, about an hour afterward, a negro man drove up and bought a lot of fodder, amounting to $1.25, not enough to pay for the ticket, but with ten cents in his pocket he made up the amount, and rewrote the letter and enclosed $2. The next thing that turned up from that $2 was the gratifying intelligence that his ticket had drawn a prize of $30,000, more than enough to alter his current of bad luck, enable him to raise the mortgage, stock his farm well, and put him on his pins again. Such is luck.

GRAND CONCERT
AT MUSIC HALL,
Monday Eve'g, June 17,

THE CITY.

The worms are making sad havoc with the leaves of the noble elms on Middle street, and apple and elm trees all over the city are suffering greatly from their ravages.

A very handsome coach, built at Concord to run between the Thompson House at York beach and this city, passed through here on Tuesday. It was drawn by four horses, driven by Mr. James Thompson.

Capt. Melvin Clark, late of this city and also of the schooner E. H. Pray, which was "wrecked" with a two-inch augur in New York harbor, the circumstances attending which disaster are still fresh in the public mind, has been heard of at Ewbelo, Colorado, on his way to Mexico.

Commander Henry F. Picking, U. S. N., who has for some years past been Inspector of the 1st lighthouse district, which extends from Eastport, Me., to Hampton river in this State, will be relieved on the 1st of July by Commander Joseph S. Skerrett, at present on duty at Washingtod navy yard.

A lady and gentleman visiting Rev. George M. Paine, of York, while riding on the new road from York to Kittery one day last week, were thrown out of the carriage and the lady somewhat hurt, the gentleman escaping without injury. The accident was witnessed by several persons, who considered the escape almost miraculous.

THE NEW HAMPSHIRE GAZETTE, published on Thursday morning, will contain an interesting sketch of our well known townsman Hon. Daniel Marcy, giving a history of his ship-building on the Piscataqua; also the usual selection of the news of the week, abstract of the Governor's Message, Legislative and local news, etc. Copies can be obtained at Moses Bros.' news depot.

A game of fisticuffs occurred between two brothers on the "Banks" of the north millpond at the Creek, on Sunday evening. The elder overpowered the younger and was about to pitch him headlong into a well conveniently at hand, but was deterred by citizens who had been attracted to the spot by the outcry, and the younger escaped with the loss of his hat only. Too much benzine imbibed at a place notorious for its violations of the Sunday law was the cause of the fracas.

The ninth annual reunion of the Dover High School, and reception of the graduating class of '78 will be held in City Hall on the evening of the 28th inst. The exercises will consist of music by Reinwald's band, an oration, reading of a poem by one of the graduating class, election of officers for the ensuing year, and promenade concert and dance. The graduating class of the Portsmouth High School has accepted an invitation to attend the examination exercises in the afternoon and the reception in the evening.

CITY COUNCILS.

A special meeting of the Common Council was held Tuesday evening.

The amendments to the appropriation bill as passed by the Board of Aldermen were read and the rules so far suspended as to allow the taking up of each of them separately.

The council did not concur except in the appropriations for schools and printing; all other amendments were non-concurred in.

POLICE COURT.

TUESDAY, June 11; *Batchelder, J.*

Henry Peverly was assessed $9.90, fine and costs, for drunkenness.

George Stover, William Clark and James Clark were complained of for an assault on Addie Grover. Stover, the chief offender, is a boy of perhaps eleven years of age; one of the Clark boys is about the height of a spittoon, and the other a little taller. The assault complained of seems to have grown out of a boy's natural inclination to "pick upon" and tyrannize over anything that cannot effectively defend itself by brute force superior to that of the boy. Teasing the Grover girl appears to be a recognized staple amusement of certain boys at the south end, and on the occasion referred to the three mentioned surrounded her, and the Stover boy struck her two or three times with a switch. Stover was ordered to pay a fine of $.01, costs $6.90; the cases against the Clark boys were placed on file.

HIGH SCHOOL REUNION.

The fourth annual reunion of the high school alumni and reception by the class of '78 will be held at Franklin Hall on Tuesday evening, July 2d. An excellent literary and musical programme will occupy the first part of the evening. Harlow's orchestra will furnish the music for dancing, which will be commenced at nine o'clock. Tickets to the reunion will be furnished by the officers of the Association to the certificate holders *only*, and the number of tickets has been limited to the comfortable capacity of the hall. The annual meeting of the members of the Association for the election of officers will be held at Mercantile Hall, next Monday evening. Certificates of membership may be obtained of Geo. E. Hodgdon, Esq., or C. A. Hazlett, Esq., but they must be procured before the 29th of June. A portion of the literary exercises will be by graduates residing in other cities. Mr. Samuel N. Foss, of the Tilton Seminary, one of the alumni, has accepted an invitation of the literary committee to write a poem to be read at the reunion. The musical part of the programme will be first class.

[Communicated.]

A CORRECTION.

Editor of the Chronicle:—I want to intrude a little upon your space to correct a certain statement made by your correspondent O. P. Q. in Monday's issue, in a criticism of the recent pretended exposure of Spiritualism in Music Hall by a travelling mountebank. The statement referred to says that "Spiritualism has never done any good, while it has done an incalculable amount of harm." It may, possibly, be true, that it has done an amount of harm that is beyond estimation. But we do not think that its harmfulness exceeds that of any other doctrine. Edge tools are always unsafe in the hands of children. That it has never done any good, we emphatically deny. We can instance many cases of moral and even physical benefit from a belief in and a knowledge of the truths of Spiritualism, odious through the name is, and confounded tho' it be with every "ism" that is unpopular and unorthodox. To many, communion with the departed is as plain to the senses as was communion with them when in this life. To many, it is so thorough a knowledge (not faith) that they are indifferent to the thrusts and denials that are so frequently hurled at it. We, not having arrived at this point of experience, are anxious that the assertion alluded to should not go uncorrected; and, like the Samarian woman who, after exclaiming, "come, see a man who told me all things that ever I did," asked "Is not this the Christ?" so we ask, "Is not this the truth?" A BELIEVER.

A HOMESICK HORSE.

About eighteen months ago a bay horse was purchased in Manchester by Mr. Nathaniel Wiggin, of Greenland, and brought down to his farm. The horse was of course well fed and well treated, for Mr. Wiggin is too good a farmer (even if he were not too humane a man) to allow his animals to be neglected or abused, and he waxed fat and seemed as happy as it is given for the most fortunate horse to be. One night recently he escaped from his pasture, and was nowhere to be found when he was wanted next day. Harnessing another horse Mr. Wiggin set forth to capture the deserter, and traced him from place to place until he reached Newmarket bridge. Here he was informed by the toll-gatherer that the horse had been there and evidently wanted to pass through, but was driven back and the gate closed; but even then he would not go away, and the first time after his arrival that a team went through he made a dash, squeezed through alongside of the other horse, and clattered away up the road, snorting triumphantly as he went. Mr. Wiggin, having no longer any doubt as to where the runaway had gone, drove on to Manchester as directly as he could go, hearing from the horse occasionally all the way; and on arriving at Manchester there he was, sure enough, in his old stall in the stable which he had left eighteen months before.

THE VICINITY.

Mr. Reese Owen, of Seabrook, has recently purchased of Mr. Jeremiah Chase the fishing schooner George Washington, and fitted her for a fishing cruise on the coast. She is manned by a crew of eight experienced fishermen, and will start immediately for the fishing grounds.

The foundation for J. Albert Walker's new building at corner of Washington and Locust streets in Dover is being put in by Boston contractors, who erect the building entire. The excellence of the work is being constantly admired by an extensive side walk committee, who seem surprised that such first-class work should be put into a store, nothing less than the Cocheco Company having such thorough kind of work on its foundations.

The recent disturbance in Exeter, in which a number of the students of Phillips Academy were concerned, recalls the fact that when Robert Lincoln, son of the late President, was a student at that institution, he and several of his fellows played some mischievous prank, and all but Lincoln were arrested for the affair. As soon as Lincoln heard of it he too went to the justice's office and asked to have his name inserted in the warrant, as being equally guilty with the rest. This was done and he President's son was fined with the others.

SHERIFF'S REPORT.

To the Board of County Commissioners:

GENTS:—In accordance with your request, I have the honor to respectfully submit my second annual report of prisoners committed to and discharged from the jails in this county during the time from May 15th, 1877, (date of last report,) to May 1st, 1878, with some other matters which appertain to this office.

At the writing of my last report there were confined in the Portsmouth jail, ten prisoners, for the several offences, as follows:

Aggravated assault,	1
Brawl and tumult,	2
Drunkenness,	2
Fraud in Bankruptcy (U. S.)	1
Larceny,	2
Murder,	1
Perjury,	1

There have been committed since that time, up to the date of this report (May 1st, 1878,) ninety-five prisoners, charged with the following named offences:

Assault,	5
Assault on Police officer,	3
Attempt at rape,	1
Arson,	2
Adultery,	1
Breaking and entering,	3
Breaking, entering and robbery,	4
Breaking and entering freight cars,	4
Bastardy,	1
Brawl and tumult,	2
Bigamy,	1
Cruelty to animals,	1
Detained as witness,	1
Drunkenness,	18
Debt,	2
Execution for costs,	1
Felonious assault,	1
Horse stealing,	1
Keeping disorderly house,	10
Larceny,	15
Murder,	2
Malicious mischief,	6
Over-driving horse, (violation of Sec. 21, Chap. 263, Gen. Statutes,)	1
Perjury,	1
Receiving stolen goods,	2
Violation P. O. laws, (U. S.)	3
Vagrancy,	3
Highest number in jail at one time,	34
Lowest number,	10
Average,	22
At present in jail,	15
Fines and costs received by me,	$45.45
Conveyed to State Prison, (Sentences averaging from 14 months to 20 years)	13
Removed to Insane Asylum at Brentwood,	1

Relative to the sanitary condition of the jail and its inmates, I respectfully embody the report of Dr. J. F. Hall, who has been employed as physician and surgeon for the past year.

"The jail in Portsmouth for the last year, and more especially during the winter and spring, has had a large number of inmates, the wards at times being very much crowded. It may be easily understood that some prisoners come to the jail with disease, when the character of most is considered. Others, deprived of out-door exercises, and possessed of little judgment and discretion, as regards the amount of food they should take while confined, soon get their digestive organs deranged, and subject to attacks of fever when climatic changes occur; so that while I have been called often, (and by reason of the good judgment of those in charge,) and early, I have in most cases not been obliged to repeat my visit. I believe there has not been, during the winter or spring, with the apartments so full, a single case of protracted sickness. The reason is obviously much due to the proper management of the prisoners. So far as I have had an opportunity to observe, the prisoners have been under good discipline; the jail apartments and surroundings neatly kept; and the prisoners judiciously fed with a sufficient quantity of healthful food. Considering the number and the character of the inmates, the change from out-door exercise to one of confinement, without physical exercise, (a condition in my judgment which should never be allowed,) it has been a fortunate year for the inmates of the jail as regards sickness, and reflects much credit on those who are entrusted with its management."

Religious services have regularly been held at the jail, on the Sabbath day, at which City Missionary Loyne has presided. Mr. Loyne has also contributed appropriate reading matter. I am indebted for generous contributions of pamphlets, magazines, newspapers etc., to Alfred W. Haven, Esq., John Sise, Esq., Wm. R. Preston, Esq., Joseph H. Thatcher, Esq., Rev. Alfred Elwyn, Mrs. Helen C. Knight, Israel P. Miller, Esq., Mrs. O. M. Knight, John T. French, Esq., Miss A. S. Fernald and Mrs. Carlton, all of Portsmouth. Mrs. J. S. Fay, a philanthropic and benevolent lady of Boston, through her agent, Wm. M. Meloon, has presented both the county jails twenty-four volumes of interesting reading, for the prisoners.

A great increase in the number of vagrants and tramps has been noticed in all parts of our country, within a few years, and more especially within the two years last past; and this county, lying as it does on the direct routes between Massachusetts and Portland, has had its full quota, and a natural consequence has been an unavoidable increase of jail expenses. By the last report of City Marshal Entwistle, it appears that 1399 persons were lodged at the station-house in Portsmouth alone, during the year ending January 1st, 1878; and during the four months thereafter, to May 1st, (the date of this writing) there have been 847 additional lodgers at the same institution. Nearly all of these were tramps, there being very few, in fact hardly any, resident vagrants in Portsmouth. The mode of treatment adopted by the police authorities has been to give them a lodging and a breakfast of crackers and water, and send them along; only those who refused to go, or committed some crime, were arrested and brought before the Police Court; most were sent to Brentwood, but it was soon found that they considered this no punishment, and they rather liked a few months sojourn at the County Farm. A comparatively few were sent to jail, and although some appeared to care very little where they were sent, yet the example was valuable in deterring others from coming to Portsmouth. I have heard several times of tramps who said in neighboring towns that they were not going through Portsmouth, for they sent tramps to jail there.

These men, who are mostly young and able bodied, come frequently from the slums of our large cities, where they were held in check by rigid police laws, efficiently executed, but after passing the city limits they find themselves at liberty to steal or rob or commit graver crimes, as their inclinations prompt, without the strict surveillance to which they have been accustomed. Consequently the temptation is too strong for them to resist, and they become the terror of the country. They all pretend to be seeking work, but the instances are very scarce where I have ever heard that one of them asked for work, or ever did any work except such as they were compelled to do by the police.

A single instance will faithfully illustrate the general class of men they are. One was arraigned in the police court of Portsmouth for drunkenness one morning. Justice Batchelder, desiring to know how he obtained liquor to get drunk on, questioned him concerning it. He stated that the first thing he did after entering the city was to buy liquor with some money he had begged to buy victuals with, and the second was to beg something to eat.

There is, in my opinion, no remedy for the tramp nuisance except hard labor. The tramp in general cares nothing for a sentence of six months or less; especially in the fall. It is not long enough. The penalty provided by our laws will only carry him nicely through the winter, and set him free in the spring to beg or steal his living as before. If the tramp desires work, as he so earnestly protests, give it to him. In my judgement, our laws should be changed so that the sentence, of a non-resident vagrant, should be from six months to two years hard labor, and let the State provide the place of detention wherever it pleases; and furthermore the law should define the meaning of the word "tramp," and then leave the courts to receive such evidence as may be proper to prove one guilty of that offence. Any plan that will force the convicted tramp to perform hard labor during the summer as well as the winter, will, I think, put an end to the great influx of this class of persons, and thereby greatly decrease the county expenses. The present State Prison at Concord will before long be vacated for the new one now in course of erection. In this event why not make this institution a "tramp work-house," and self-supporting?

Another unavoidable increase in the expense of the Sheriff's office has been caused by the lengthy terms of the Courts. During and since the April Term, 1877, there have been 157 days of the Supreme Court, the much desired result of which is, that the docket has been very materially reduced.

As heretofore, I am indebted to your courtesy, attention and advice, always having found you ever zealous in the interests of your constituents, and I deem it appropriate in closing to refer in similar terms to the lamented late County Solicitor, Hon. Wm. B. Small.

Appended to this and as a part thereof, you will please find the report to me of the keeper of the jail at Exeter.

I am, gentlemen, very respectfully,
Yours and the people's ob't servant,
J. HORACE KENT, Sheriff.

May 1st, 1878.

EXETER, May 15, 1878.

Hon. J. Horace Kent:—Agreeable to request I make the following report with regard to the jail under my keeping:

Whole number of prisoners since last report,	36
Highest number at any one time,	12
Lowest number,	2
Have at this date,	5
Have averaged,	6

The offences for which they were committed were for

Harboring criminals,	1
Arson,	1
Assault,	6
False pretense,	1
Adultery,	2
Breaking and entering,	1
Drunkenness,	2
Liquor selling,	3
Tramps,	3
Passing counterfeit money,	1
Stealing,	6
Shooting,	1
Assault with knife,	1
Non-payment of taxes,	1
Debt,	1

The sanitary condition of the jail has been generally good; but little sickness, and that generally slight attacks of trifling consequence. A physician has been called but a few times during the year.

The improvements made at the jail last year, proved of great advantage. Our sewerage is now as perfect as it can well be made, and there is no cause for complaint on that account.

The Commissioners have put a new fence around a part of the lot, which is the only one since the jail was built, twenty-two years ago. The heating referred to in my last report has not yet been done, but I think is almost indispensable, and when completed will make the institution a credit to the county, and much reduce the expense of warming.

Respectfully yours,
JAMES W. ODLIN.
Deputy Sheriff and Jailor.

37 A FINE DISPLAY of Paper Hangings At 37 Market Stree

Portsmouth Chronicle

—There lives six miles from Richmond Va., Mrs Martha T. Hopkins, who is only 39 years old and has just married her sixth husband. She was first married at twenty years of age, took her second husband when she was 24 years of age, her third when she was 27, her fourth when 32 and her fifth when 37.

Hon. H. W. Blair, member of Congress from the Third New Hampshire District, has been attacked by a democratic newspaper of that State as a tool of the Pacific Railroad, and an advocate for unlimited subsides for all projects. Those who have watched Mr. Blair's course in Congress, will at once see both the untruthfulness of the charge and the motive of the attack. He has maintained a firm hostility to subsidies in any form, and has always labored in behalf of an economical administration of the government. He is too independent to be the tool of any railroad or interest whatever, and he has never hesitated to protest against any scheme or job intended to rob the treasury of the country.—*Lowell Courier.*

THE NEW HAMPSHIRE

GAZETTE

Established 1756.

The Gazette is published every Thursday, and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors writing more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Children

May be made healthy and strong by the use of Dr. Pitcher's Castoria, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The Castoria is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '74. *Dear Sir*:—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.

F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be easily.

SATISFACTORILY!

Don't Forget the Place!

UNDER FRANKLIN HALL, FLEET STREET.

INVALIDS' HOTEL.

The very large number of invalid people who daily visit Buffalo, from every quarter of the United States and Canada, that they may consult Dr. R.V. PIERCE, and the widely celebrated Faculty of Specialists in Medicine and Surgery associated with him, rendered it necessary that the founder of this institution should provide a place on a grand and commodious scale for their entertainment and comfort.

ADVANTAGES OFFERED.—The Invalids' Hotel is more complete in its appointments than any similar institution in the world. The building is located in one of the most beautiful and desirable portions of the City of Buffalo, and commands a fine view of Lake Erie, Niagara River, and the surrounding country, being situated in the midst of an extensive system of beautiful parks. The Hotel is furnished with a patent safety passenger elevator, to convey patients to and from the different floors; is provided with all kinds of approved baths, and has also connected with it a well-appointed gymnasium and bowling alley to afford proper means of exercise.

CHRONIC DISEASES of all forms, whether requiring medical, surgical, or mechanical treatment, come within the province of our several specialties.

DISEASES OF WOMEN.—Especially are the facilities of this Infirmary of a superior order as regards the remedial means and appliances for the cure of all those chronic disease peculiar to females. The employment, in moderation, of tonic, chemical, electro-thermal, and other approved baths, is in many cases an invaluable auxiliary to the remedial means to which we resort in such cases. Dry friction to the surface, general shampooing, Swedish movements, and light calisthenic exercises, to enliven and equalize the circulation of the blood in the system, relieve congested parts, improve digestion, and strengthen the nervous system are important accessories in all cases to which these means are applicable. No experimenting is resorted to in the treatment. The most approved medicines are carefully employed, and the judicious regulation of the diet, to suit the condition of the patient, the thorough ventilation of the sleeping apartment, the cheering influence of music, social intercourse, innocent games for amusement, and all those agencies which tend to arouse the mind of the patient from despondency and thus promote recovery, are not neglected.

NERVOUS DISEASES—Paralysis, Epilepsy (Fits), Chorea (St. Vitus's Dance), and other nervous affections, receive the attention of an expert in this specialty, by which the greatest skill is attained and the most happy results secured.

LUNG DISEASES.—This division of the practice in the Invalids' Hotel is very ably managed by a gentleman of long experience and skill. Bronchial, Throat, and Lung Diseases are very largely treated by this department, and with results which have been highly gratifying to both physician and patients.

EYE AND EAR.—Special attention is given to the delicate operations on the eye and ear, a distinguished oculist and aurist being under engagement to conduct this branch of the practice.

Invalids arriving in the city and desiring to consult us, should come directly to the Hotel. It is easily accessible by carriage, omnibus, or street cars. MILLER'S Omnibus Agents, on all incoming trains, can be relied upon to deliver passengers and baggage with security and dispatch.

☞ Address R. V. PIERCE, M. D., World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

"$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once.

H. HALLETT & Co., Portland, Me."

DR. JOHN TRIPP'S

BLOOD PURIFIER

IS the most wonderful discovery for the radical cure of SCROFULA and SYPHILIS. It never fails to entirely eradicate either of these diseases and all Blood Poisons from the system. ULCERS, CANCERS, WHITE SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM and GOUT yield to its power. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.

Sole Eastern Agency, 306 Columbus ave., Boston. Office hours, 8 to 11, A. M., 3 to 7 P. M.

Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. eodnov11

Transportation.

RE-OPENING

OF THE POPULAR

PROVIDENCE LINE

TO NEW YORK,

VIA PROVIDENCE.

Opens April 29, for the season of 1878.

Only 42 Miles of Rail.

Steamboat Express Train will leave Boston & Providence Railroad Station daily (Sundays excepted) at 6 P. M. Connect at Fox Point wharf, Providence, with the Entirely New and Magnificent

STEAMER MASSACHUSETTS

and the well-known and popular

STEAMER RHODE ISLAND,

Are ying in New York at 6 A. M. This is the only line affording a delightful sail through Narragansett Bay by daylight.

Returning, leave Pier 29, North River at 5 P. M., arriving in Boston at 7 A. M.

No intermediate landings between Providence and New York.

Tickets and State Rooms can be secured at Company's office, 214 Washington, corner State street, and at Boston & Providence R. R. Station.

J. W. RICHARDS N. Agent, Boston.

A. A. FOLSOM, Supt. B. & P. R. R. eodtoct1

PENNSYLVANIA

RAILROAD.

GREAT THROUGH LINE

AND

UNITED STATES MAIL ROUTE

The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In

Construction AND Equipment

THE

PENNSYLVANIA RAILROAD

stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.

The Safety Appliances

in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed

THE BLOCK SYSTEM OF SAFETY SIGNALS,

JANNEY COUPLER, BUFFER AND PLATFORM,

THE WHARTON PATENT SWITCH,

AND THE

WESTINGHOUSE AIR-BRAKE,

forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.

Pullman Palace Cars

Are run on all Express Trains

From New York, Philadelphia, Baltimore, and Washington,

To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,

WITHOUT CHANGE,

and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.

The Scenery

OF THE

PENNSYLVANIA ROUTE

is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form

A PLEASING AND MEMORABLE EXPERIENCE.

Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns.

FRANK THOMSON, L. P. FARMER,
General Manager. *Gen. Passenger Agent.*

C. S. HALDEMAN, New England Agent,
203 and 205 Washington st., Boston, Mass.

THE GREAT

FALL RIVER LINE,

BETWEEN

BOSTON and NEW YORK.

THE MAMMOTH STEAMSHIPS

Bristol and Providence,

Of this Line, are the Largest, Handsomest, and Most Costly in the World!

Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" Fall River daily (Sundays excepted), arriving in New York at 6 A. M.

No line can offer the accommodations presented by this favorite route—

ONLY 49 MILES OF RAIL,

Passing through Narragansett and Mount Hope Bays by daylight—

NO DISAGREEABLE NIGHT CHANGES,

But affording passengers a full night's rest, and having no open water route, *avoids the intricate and perilous river navigation* incident to other routes.

Grand Promenade Concert on each Steamer every evening during the summer.

New and Elegant Drawing-Room Cars on Steamboat Express Train.

BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 26, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.

Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.

GEO. L. CONNER, Gen'l Pass. Ag't.
J. R. KENDRICK, Supt.
L. H. PALMER, Agent, 3 Old State House.

DOCTOR PIERCE'S

ALT. EXT. OR

Golden Medical Discovery

CURES DISEASES OF THE

THROAT, LUNGS, LIVER & BLOOD

In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes that he has combined in harmony more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or **"Biliousness,"** in many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

SOLD BY DRUGGISTS AT $1 PER BOTTLE.

Prepared by **R. V. PIERCE, M. D.,** Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y.

NEW FOUR PER CENT

GOVERNMENT BONDS.

The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.

The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.

The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.

Orders by mail will receive prompt attention.

Jan. 27, 1878. E. P. KIMBALL, Cashier.

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston.

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration of the Patent Office." EDMUND BURKE, Late Commissioner of Patents. BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1849, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER. BOSTON, January 1, 1877. 3MwThJan178

$2500 a year. Agents wanted everywhere. Business strictly legitimate. Particulars free. Address J. WORTH & CO., St. Louis, Mo.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., successors to CHIPMAN, GILMORE & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,850 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. may cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, thereby the essential principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use, in an organism so delicate as the nasal passages. Yet all emulsions are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing, and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the system, and is about to enter into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while traveling with Father Kemp's Old Folks Concert Troupe as a bass singer, I took a severe cold, which was followed by Catarrh. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so deafened as to be scarcely able to hear, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for those who have had aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Other its influences, both internal and external, I rapidly recovered, and for the occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours, GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1876.

DEAR SIR:—I purchased the RADICAL CURE of GEO. H. BOKER, Druggist, Raymond, Rockingham Co., N. H.

Each package contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for two years, and, notwithstanding the immense number of remedies in the form of liniments, lotions, paint, oils, and other plasters, they have steadily increased in sale and met with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many remarkable cases have been cured by wearing these plasters, and in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements in many ways, have been made, as suggested by experience and use, until it is believed that they are the perfect in every respect, and *the best plaster in the world of medicine.* All we ask from every sufferer is the slight expense of a trial. The price is 25 cents, although the cost is double that of any other plaster. But, notwithstanding the efforts of the proprietor to make the best plaster in the world for the least money, any similar remedy can be bought, numbers of unscrupulous dealers will be found ready to misrepresent them for *selfish motives* and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canada, and by WEEKS & POTTER, Proprietors, Boston, Mass.

No. 3 BOW STREET.

Daily Chronicle.

A Sad Reverse of Fortune.

The New York Association for the Relief of the Poor has been applied to within the past week by a gentleman who, a few years ago, was well known in Wall street, and whose property at that time was valued at $200,000. His firm closed out its business in 1864, one member drawing out $800,000, another $100,000, and the person now asking for a pittance to buy bread, having, when the business was settled, $200,000. He invested nearly the entire amount in United States securities, and a short time after went abroad. While in London he met Hon. Hugh McCulloch and Mr. Jay Cooke. By the first he was induced to place a large sum of money in Chesapeake and Ohio railroad stock, and by the second to re-invest in the Northern Pacific. As the result of those unfortunate purchases almost every dollar of his fortune was swept away.—*New York Times.*

Blue Glass.

Gen. Pleasanton, of *blue* glass fame, argues that because in his hot house plants grow stronger and more rapidly under blue glass, the same covering is equally good for animal life, and capable of curing disease. If afflicted, hang no hope upon so doubtful a theory and remedy, but rather trust some thoroughly tested agent. Dr. Pierce's Golden Medical Discovery, which is successful above all other remedies yet known, in healing affections of the throat, lungs, and blood, works in perfect harmony with nature's laws. If the skin is sallow with blotches, and eruptions, or if there be headache, constipation, "biliousness," general and nervous debility, the Golden Medical Discovery and Dr. Pierce's Pleasant Purgative Pellets will if used according to directions, effect a perfect cure.

ALEXANDRIA, *Rapides Parish, La.*

DR. R. V. PIERCE:

Dear Sir—Six bottles of your Golden Medical Discovery has cured me of a hacking cough that I have suffered with for nearly four years. I take pleasure in recommending it to the world.

Yours &c., W. JOHN DELACY, P. M.

—A Boston man went off on an excursion with two young women the other day, but his wife caught him in a horse-car and gave him such a trouncing with her parasol that he was glad to leave his companions and flee.

—The Raleigh (N. C.) *Observer* gives this account of the State Library: "There are 25,000 volumes, bound and unbound, the boundless books having a clear and undisputed majority on joint ballot. Of the 25,000 the large fraction of four-fifths consists of such light and entertaining matter as is contained in public documents and dry statistical tomes of long-vanished and useless information. The remaining one-fifth is incomplete as to numbers, variety and interest. The historical division has a very meagre supply. The philosophical department contains many books that were very useful to our ancestors, we have no doubt, but are wanting in practical value to us of to-day.

Portsmouth Wholesale Prices.

Daily Chronicle

THURSDAY, JUNE 13, 1878.

Congress.

The Senate on the 11th passed the river and harbor bill, having amended it by adding about $1,500,000 to it as it came from the House.

The House spent the day in discussing the sundry civil appropriation bill in committee of the whole. At the evening session a bill introduced by Jones of New Hampshire, to restore Commodore Stephens to his place on the active list of the navy, was passed.

The Senate on Wednesday passed the deficiency bill as it came from the House without amendment and without general discussion.

New Hampshire Legislature.

Both parties of the Legislature held caucuses on the evening of the 11th, to nominate candidates for State offices. The republican caucus nominated the following gentlemen by acclamation: Secretary of State, A. B. Thompson of Concord; Treasurer, Solon A. Carter of Keene; State Printer, John B. Clark of Manchester; Commissary-General, William H. Sise of Portsmouth. The democratic nominations were: Secretary of State, John F. Cloutman of Farmington; Treasurer, Warren Clark of Concord; State Printer, Charles C. Pearson of Concord; Commissary-General, Nathan R. Perkins of Jefferson.

Chronicle Correspondence.

CONCORD, June 12th.

To-day bills and notices of others have been coming in and thus legislation has fairly commenced. As soon as the committees begin to make their reports then will the work commence in earnest. Among other notices of bills was one introduced to-day by Mr. Curtis of Portsmouth entitled "An act to form co-operative associations."

To-day is the day for the organization of the different county delegations. Rockingham county delegation met in agricultural room, and after the refusal of a number of persons Dr. Curtis of Portsmouth was chosen chairman, and Mercer Goodrich, of Portsmouth, secretary. A committee of three, consisting of Thos. E. Call of Portsmouth, Wm. Burlingame of Exeter, and Joseph H. Veasey of Deerfield, were appointed to examine the accounts and the report of the County Commissioners, which was presented at this meeting. Speeches were made in regard to the report and the debt of the county by Messrs. Norris of Epping, Curtis of Portsmouth and Philbrick of Rye. Mr. Cram, the Chairman of the County Commissioners, was present, and made various explanations and answered numerous questions. Dr. Curtis was particularly desirous of knowing the cause of so large a bill for liquor.

The same State officers were again re-elected in joint convention this morning: Al B. Thompson, Secretary of State; Solon A. Carter, State Treasurer; John B. Clarke, State Printer; and Wm. H. Sise, Commissary-General.

Rev. James DeNormandie of Portsmouth was on the floor this morning, being in the city to attend the meeting of the New Hampshire Historical Society.

The most of the members of the Portsmouth delegation have secured seats near one another, and where they sit is known as "Portsmouth Corner."

The newspaper question is now causing a good deal of stir, as well as some merriment. Some members who were particularly desirous of inaugurating a reform in this matter moved that a sufficient number of copies of the *Monitor* and *Patriot* be purchased for the use of the members. A number of amendments were offered to it. The whole matter was referred to the committee on retrenchment and reform. They reported a resolution that each member be allowed to select one copy from the following newspapers: Concord *Monitor*, Concord *People*, Concord *Patriot*, and Manchester *Mirror*. Amid much merriment the resolution was adopted. This morning the clerk called the roll to ascertain the preference of each member. Little more than one-half answered. The *Mirror* led in number of copies chosen, probably owing to "Put's" characteristic letters. It hardly seems possible that this will be the end of the matter. If the present system is adopted it will be an endless job to distribute them. A. B.

WASHINGTON, D. C., June 11th.

A bill to relieve Mrs. Ex-Senator Sprague, daughter of the late Chief Justice Chase, of the payment of taxes on an estate in this district left her by her father, has escaped the attention it deserves because of the more startling and sensational topics supplied us by Congress since it met last October. It was smuggled through the Senate in a semi-clandestine way, seemingly, or at least without provoking much discussion or comment, as though that body had determined to do something that it was ashamed of and hoped the public wouldn't hear of it. The same or another bill of like purport is now pending in the House. When it is remembered that members of Congress have stood resignedly by and seen two-fifths of the private property of the citizens of this District confiscated for taxes to pay the many millions of dollars criminally wasted, or stolen by its agents, their anguish over Mrs. Sprague's hardship in having to pay her share of taxes on property worth many thousands of dollars is extraordinary, especially as every dollar abated from her assessments must come out of the other tax-payers, many of whom find it exceedingly difficult to provide the necessaries of life for themselves and those depending on them, let alone any of the luxuries which Mrs. Sprague appears able to indulge in. It also sounds funny to hear "reformers" in Congress who groan and talk in the most lugubrious strains of the wrongs heaped on the poor, get up in their seats and urge this measure because Mrs. Sprague is the daughter of Chief Justice Chase—a man, by the way, many of them never tired of abusing when in political life and while on the bench. There are hundreds of tax-payers in this District so lost to every chivalrous sentiment and so tinctured with communism as to protest against this proposed abatement of taxes at their expense. They appear unable to comprehend the justice of any such discriminations in favor of those who live as though amply able to pay their proportional part of the public burdens. Some of them are descendants of an ancestry noted for its services to the government and to humanity; and they are so unreasonable as to demand that this kind of class legislation—making flesh of one and fish of another—should cease, and receive no further endorsement under this republican government, particularly from eminent reformers.

Perhaps at this late date it may be pertinent to inquire what the country has gained by most of the work accomplished by the first session of the 45th Congress, now about to close after a session of eight months. With the exception of less than a score of bills that can operate by any possibility to its advantage, and the passage of a few appropriation bills, what has the country to show for this waste of time and millions of treasure incident to this protracted sitting? Never in a time of peace was there greater opportunity for the display of practical statesmanship than since last October. Many of our most vital interests were languishing and perishing for intelligent, well directed legislation; social problems precipitated by last summer's riots were pressing for a wise solution that would insure us against their recurrence; the war preparations heard all over Europe were so many hints to so legislate that we could re-open our ship-yards, whose products would find a remunerative market with the probable belligerents, or profitable employment in transporting our surplus bread-stuff, beef, machinery and munitions of war. But to what purpose did its members come here? The few in Congress wise enough to appreciate the demands of the situation besought the attention of their associates in vain. They have called and appealed all the session long, and no man of the majority intent on their schemes for re-election has heeded their voices or the portentous storm clouds that shut us in on every hand. Class legislation and private jobs have been the order of the days and weeks and months thrown away. Scores of the cheapest kind of lobbyists have made a precarious living here as the middle-men through whom negotiations between honorable members and the fellows with axes to grind, have been conducted. Senators have given free rein to their Bacchanalian propensities, to the scandal of the whole nation, while the House Sergeant-at-Arms has frequently had to suppress drunken members or hustle them into retirement. Whole days have been devoted to attending horse-races and ship-launchings; and the entire machinery of the upper House is alleged to have been stopped for forty-eight full hours to accommodate a Senator desiring "to see his girl" and not lose his vote. KNOX.

RAYMOND, June 11th.

In some things there is progress in the right direction. One matter of interest, now to be named is, woman is being elevated to her proper place in society. Among heathens, barbarians and savage nations, she has never been regarded with respect, or treated as if she had any proper rights. In civilized nations she was formerly treated as inferior to man, and in some respects degraded. Macaulay, the English historian, states that in that country two hundred years ago, among the higher classes, men chastized their wives with whips as they would disobedient children.

Now woman is being treated somewhat largely with respect. She is raised up and placed by the side of man as his true friend and besom companion. She speaks in pulpits and on platforms, on scientific, moral and gospel subjects, and is being heard by listening multitudes.

Last Sabbath, June 9th, Mrs. Julia H. Clark, of Malden, Mass., conducted the services at the Free Baptist church here. This lady is a daughter of Portsmouth, (formerly Miss Hutchard,) and was long a lecturer on spiritualism and a trance medium. A few years ago, all was renounced for what are considered evangelical, gospel truths, and she now publicly advocates them. She is a ready speaker, very easy and graceful in manner, using language correct and forcible, arguments and illustrations convincing, with a voice rich in melody. She is listened to with the closest attention, is never long, even closing before those who hear wish. In the evening she addressed a very large congregation on temperance in the Town Hall. All, who heard, felt the Sabbath had been well spent. And was it not Sir Matthew Hall, who said, "A Sabbath well spent, brings a week of content." J. F.

News and Notes.

William Cullen Bryant died in New York on Wednesday.

The "Tally-ho coach" which left Newburyport for Boston Wednesday morning, driven by Mr. Edward Knights, a veteran stage driver of the old days, eighty years old, met with a serious accident at Lynn. While going down a steep hill one axle broke and the coach was upset. It contained sixteen persons, some of them being on the top, and several were badly hurt. Mr. Knights had his head cut and was injured internally, and it is feared will die. Silas Plummer had an arm broken; Charles H. Smith and Capt. Geo. L. Woods had each a leg broken; Caleb Stickney was badly bruised, and the other passengers slightly. The coach was one run on the line from Exeter to Amesbury, Mass.

Mr. and Mrs. Monroe, of Atlantic, Iowa, agreed to separate, but neither would consent that the other should retain their baby. They settled the question by selling the infant to a neighbor for $50.

The value of silk products in this country the past year is stated at $21,411,436.

Kate Southern, the Georgia murderess, has been put to work in a convict camp as cook, and now she wishes she had been hung—and so do the convicts.

Springfield, O., is all agog over a scandal which resulted in the marriage of Aaron Cochran at the pistol's mouth to Miss Laura King, and the disappearance of the bridegroom the same night. Aaron is the son of a retired minister, and has been paying attentions to pretty Miss Laura, who is about to become a mother. Learning of this, her father, a well-to-do citizen, and her brother visited the Cochran mansion, accused Aaron of the deed and swore with drawn revolver that he should marry the girl. He protested his innocence in vain, was taken to Columbus with the father and daughter, and married by a justice. On the return to Springfield each party went to its own home, and that night Cochran left town for parts unknown. His friends claim that it is a black mailing operation to get $50,000 he is to fall heir to, and legal proceedings are talked of.

"My Dear Savannah Home," a song and chorus, by H. P. Danks, (author of "Silver Threads among the Gold," and hundreds of other popular melodies,) is published complete in the June "*Score*," with four other pieces of standard music, viz: "Consolation," one of Mendelssohn's Songs without words: "Night is Fine," song by Guglielmo; "Aida," an instrumental arrangement, by Louis Falk, and "Im Strudel Galop," one of Faust's most popular. Besides we find interesting reading matter, which will be found valuable to all lovers of the art. The subscription price is only $1.15. Single copies sent by mail for ten cents. Send for Perry's catalogue of half price music. Address John F. Perry & Co., publishers, 538 Washington St., Boston, Mass.

A British bark boarded a Japanese junk, which she found drifting in the Pacific. Those living were three sailors, and one passenger. All the others, eighteen in number, died of scurvy, exposure and starvation. The junk left the island of Jesso on a coasting voyage, Oct. 25th, and was blown seaward and dismasted, since which she has been drifting about the ocean.

An effort is being made by ex-Governor Seymour of New York and others to have cheese adopted as a ration in the army. It is thought that if the United States should do this European nations would follow suit, and furnish an increased market for this important product.

A horse car in Newark, N. J., was rolled over some sixty feet Tuesday night by an express train. One passenger was badly, and eight seriously injured. Two others were uninjured. The escape of all the eleven was miraculous. The driver was drunk.

Five roughs entered a horse-car on Third avenue, New York, between nine and ten o'clock Tuesday night, with revolvers, beat Mr. Lafetra seriously, took a bag containing about $150 in change belonging to the railroad from him, and escaped. The car was full of passengers who did not help the conductor protect Lafetra. The conductor was badly beaten. No police were to be found. The wounds of Lafetra may prove fatal.

Trials are at the present time being made in France of a new equipment for the infantry soldier, designed by a colonel of the French army. Hitherto the French soldier has carried his kit in a pack very similar to the knapsack formerly worn in the English army; but in the equipment now being tried it is packed in two bags, somewhat resembling haversacks in shape, made of a kind of oil-cloth, and suspended partly from a belt, partly from braces, in such a manner that the weight is divided between the shoulders and the hips.

An important suggestion comes to the Department of State from the United States consul at Geneva. Mr. Montgomery has been for some time making inquiries as to the fuel supply of Switzerland, and finds that it is dear and poor. Coke, emitting little heat and soon burning away, is brought thither from Lyons and sold at eleven dollars per ton of 2,000 pounds. Wood is scarce as fuel, costing some eighteen dollars per cord. Could American anthracite coal be introduced into Switzerland and sold there at a price slightly below that now paid for inferior fuel, the consul is satisfied that it would command an extensive sale and be almost exclusively used.

Mansonville, Vt., has a social scandal involving a clergyman who is father of a family, and the young wife of a prominent merchant. The proofs of their guilt are conclusive, and society is much exercised in its mind in consequence, all the parties being highly connected.

Political.

Lieutenant-Governor Dorsheimer of New York is reported to have held a long interview with Socialist Schwab at the latter's beer saloon, in which Dorsheimer suggested an alliance of the socialists with the democratic party, on the ground that Dorsheimer and his party were friends of the workingmen; but Schwab declined any alliance with Dorsheimer, the democratic, the republican or the greenback party. Schwab said the socialists seek a social change, and none of the parties offer any guarantees. They will run an independent ticket at the election.

Several despatches from Pitkin, Packard, Kellogg and others from New Orleans to officials in Washington, under date of January 6th and 8th, 1877, showing the necessity of recognizing and sustaining the Packard Government, are printed, together with the reply of President Grant declining to use troops for either State Government, to show that there was no need of a bargain or arrangement, as the Louisiana question was to all intents settled by Gen. Grant on the confession of Packard to him that he was too weak to sustain himself without the aid of Federal troops.

On the occasion of a serenade to the greenback candidate for Governor, at Oldtown, Friday evening, Hon. George P. Sewall said he was a democrat but advised everybody to vote for Smith, and might vote for him himself. This means that, unless the Portland convention adopts substantially the greenback platform and nominates a greenback democrat, Mr. Sewall and the Penobscot drive generally will support Smith now as they did Munson last year. What the Penobscot democrats want may be inferred from the declaration of Mr. Sewall, that "the national debt will be paid in greenbacks, if it is paid at all." No Governor and no member of Congress will be elected in Maine on such a platform as that.—*Portland Advertiser.*

A scientific exchange describes a driving wheel of a new engine which makes one thousand revolutions per minute. Send it on to Potter.—*Philadelphia Bulletin.*

P. T. BARNUM'S

OWN AND ONLY

GREATEST SHOW

ON EARTH!

E. G. PIERCE, JR., P. M.

THE CITY.

On Wednesday, in Boston, Dover city sixes of 1893 sold at $105.50, and Portsmouth city sixes of 1893 at $105.75, at auction.

The porgie steamer Gracie, of Newport, R. I., arrived at this port on Wednesday. The porgie fleet has been doing well in the bay for a week past; the fish are plenty and fat.

We are informed that Lieut. Andrew P. Preston has resigned from the Heavy Artillery. The friends of the Heavies will be sorry to hear this, as Mr. Preston ranks as a fine military officer, and is a gentleman.

The Rockingham Conference of Congregational and Presbyterian Churches closed its two days' session in the North church, on Wednesday. The attendance was quite large, and both days' exercises interesting.

At the Probate Court at Exeter on Wednesday, the will of John S. Harvey, late of this city, was proved. R. Stuart Chase, of Haverhill, and Wm. H. Hill, of Brookline, Mass., are nominated by the testator as his executors.

On Dit, that Gen. Butler will stump the State at the coming election in the interest of the greenbackers, and that Portsmouth will receive its fair share of his attions. Also that Hon. Frank Jones has decided to have himself nominated for Congress by the democrats once more.

Mrs. Susan E. Robie, wife of Rev. Edward Robie of Greenland, passed away on the afternoon of the 12th inst., after a long and lingering illness of tumor in the stomach. Mr. Robie in the loss of his wife has the deepest sympathy of a large circle of friends, she being a woman of sterling worth, and highly beloved by her many friends and acquaintances. J.

The meeting of war veterans at the armory of the City Guards, Tuesday evening, the 11th inst., was well attended and considerable interest was shown. Messrs. Horace Waldron, George E. Hodgdon, Thomas Entwistle, Charles W. Shannon and Jeremiah F. Hall were appointed a committee to attend the convention of veterans at Concord on the 17th. A committee was appointed to confer with the Commander of the Grand Army of the Republic of the State relative to the re-establishment of a Post in this city, to report to an adjourned meeting on the 18th.

A CARD.

Mr. Frank L. Keyes, of Newcastle, who was badly crippled in the army and has since depended for support on the aid of friends, in addition to what he has been able to do for himself by fret-sawing, in which work he is quite ingenious, some months ago lost his horse. This was a serious misfortune for him, as it prevented his going about to dispose of his work, so Capt. Towle one day started out with a sheet of paper and pencil, and in a short time gathered enough money to purchase a good serviceable horse for the crippled soldier, who sends in the following for publication:

This will express my heartfelt thanks to Capt. George W. Towle and other kind friends, for the free bestowal of a horse to replace one I suddenly lost last fall—thus helping me to enjoy out-of-door exercise. Also, to each and all who have ever shown me favor and sympathy on account of my misfortune.

FRANK L. KEYES.

NEWCASTLE, N. H., June 12, 1878.

THE VICINITY.

There was a heavy hail storm in Rochester on Wednesday.

Ralph Waldo Emerson gave an address before the Golden Branch, a society of the Exeter students, at the academy on Wednesday afternoon. A large audience enjoyed the rare feast of listening to the celebrated man on this occasion.

Rev. Mr. LeLacheur of Biddeford is going into the temperance crusade, and says he wants to get acquainted with all the liquor drinkers and sellers in Biddeford, to the end that he may reform them, if possible, and if not he wants to get acquainted with the officers.

A greenback club has been formed in Stratham, starting off with fifty-three members. Mr. George E. Kelley, (the "Shadow" of the Exeter *News-Letter*,) a democrat, is the prime mover. Exeter has a greenback club, too; there are eleven members, all officers.

The pupils of Brackett Academy in Greenland, assisted by Harlow's quadrille band of this city, are to give an entertainment in their new and commodious hall on Thursday evening, June 20th. The programme will consist of music, illustrated readings, charades, tableaux, etc. Admission twenty-five cents.

The schooner Ceres, so well known in the waters of the lower Cocheco, came up to the wharf of C. H. Trickey & Co., yesterday, laden with coal from New York. It will be remembered that something more than a year ago, we think, the Ceres ran against the Portsmouth bridge and sunk to the bottom of the Piscataqua. She was then over twenty years old and had seen a good deal of service, and it was generally supposed she was "done for." But she was raised, put in repair, and is now nearly as good as ever. She is a decidedly interesting old craft and will do years of service yet.—*Dover Democrat.*

—He had made a hearty meal at a restaurant, and getting up, he said to the waiter, "I declare if I haven't forgotten my purse." The waiter fired up, and hurled big words at him for full three minutes before pausing for breath. When a chance came the stranger continued: "But I have a five dollar note here in my pocket." The waiter couldn't smile to save his life.

There is Trouble in Store

For those who neglect to rectify irregularities of the stomach, liver and bowels, which they foolishly imagine will "come right of themselves." Of this silly error such persons are usually disabused by the development of some serious chronic malady, traceable to what they were pleased to consider a trifling disorder of the above named associate organs. Such a culmination is easily avoided. A course of Hostetter's Stomach Bitters invariably has the effect of renewing the secretive action of a torpid liver, restoring healthy digestion and assimilation, and rendering the habit of body perfectly regular. The activity of these all important functions being restored, and the entire system toned and regulated by this incomparable corrective and invigorant, no danger to the general health is to be apprehended from causes which, if not eradicated in time, will assuredly undermine it.

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

Alex. Frothingham & Co., brokers, 12 Wall st., N. Y., make careful investments for customers, in sums of $25 to $100, which frequently pay ten to twenty times the amount invested. Their *Weekly Financial Report*, sent free, gives full information. 9

The Colonnade Hotel, Philadelphia, Pa., by its judicious reduction of rates, will maintain its famous reputation as a model first-class house, alive to the demands of the time.

Adamson's Botanic Balsam being free from opiates and equills, not only allays the local irritation, but improves digestion and strengthens the constitution; hence it is used with the most signal success in Asthma, Coughs, Colds, Bronchitis, Quinsy, affections of the throat and chest. All who wish to preserve health and thus prolong life, should use Adamson's Balsam.

THE NEW HAMPSHIRE

GAZETTE

Established 1756.

The Gazette is published every Thursday, and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains **full accounts** of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of **NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news**, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors writing more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a **WEEKLY INVITATION TO CUSTOMERS**, at a reasonable rate, and all those who desire to reach patrons Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

PROPOSALS.

NAVY PAY OFFICE, Portsmouth, N. H., May 22, 1878.

SEALED PROPOSALS will be received at this office until 12 o'clock, on the 15th day of June, 1878, for supplying such quantities of Fresh Beef and Vegetables, and Fresh Bread, as may be required at the Navy Yard and Station at Kittery, Me., during the fiscal year ending June 30, 1879.

Blank forms of offer, and all necessary information as to specifications and the quantities required, can be procured by applying to the Inspector of Provisions and Clothing at the Kittery Navy Yard. EDWIN PUTNAM,
je5,8,12,15 Paymaster, U. S. Navy.

37 A FINE DISPLAY of **Paper Hangings** At 37 Market Stree

Portsmouth Chronicle

—A most singular affair happened near Lynchburg, Va. While Col. A. H. Fulkerson was riding over his farm he was attacked by about one hundred swallows, who assailed him with great chattering, and pecked away lustily at his face and clothing. He was at first amused at the puny assaults, but the wounds which they soon inflicted upon his face and neck convinced him that he had nothing to laugh at, and he barely escaped with his life. It is feared that he will lose the sight of both eyes, and his nose is so badly mutilated that in all probability it will have to be amputated.

—The Taunton (Mass.) *Republican* says that a rare manifestation of jealousy among animals has recently occurred at the homestead of Mr. Job Godfrey, in Lakeville, Mass. The family have a cat and dog upon which they bestow much attention, and the cat, having a litter of kittens a short time ago, naturally received the most attention, to the neglect of the dog, which became disgusted with the new objects of favor. The dog reasoned that the proper thing for him to do to restore affection upon himself was to get rid of those kittens, and so he took them out and drowned them. Seeing the family in search of the lost kittens one day, the dog very kindly relieved their anxiety by suddenly disappearing and presently returning with a drowned kitten in his mouth.

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and heal. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibre of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 Dey St., New York.

Children

May be made healthy and strong by the use of **Dr. Fletcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"Cornwall, Lebanon Co., Pa., Mch. 17, '74. *Dear Sir:*—I have used your Castoria in my practice for some time. I take great pleasure in recommending it to the profession as a safe, reliable and agreeable medicine. It is particularly adapted to children where the repugnant taste of Castor Oil renders it so difficult to administer.

F. A. Enders, M. D."

Mothers who try Castoria will find that they can sleep nights and that their babies will be healthy.

J. B. Rose & Co., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Fletcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms or Stomach and Disordered Bowels, there is nothing like Castoria. taug

INVALIDS' HOTEL.
The very large number of invalid people who daily visit Buffalo, from every quarter of the United States and Canada, that they may consult Dr. R.V. Pierce, and the widely celebrated Faculty of Specialists in Medicine and Surgery associated with him, rendered it necessary that the founder of this institution should provide a place on a grand and commodious scale for their entertainment and comfort.

ADVANTAGES OFFERED.—The Invalids' Hotel is more superior in its appointments than any similar institution in the world. The building is located in one of the most healthful and desirable portions of the City of Buffalo, and commands a fine view of Lake Erie, Niagara River, and the surrounding country, being situated in the midst of an extensive system of beautiful parks. The Hotel is furnished with a patent safety passenger elevator, to convey patients to and from the different floors; is provided with all kinds of improved baths, and has also connected with it a well-appointed gymnasium and bowling alley to allow proper means of exercise.

CHRONIC DISEASES of all forms, whether requiring medical, surgical, or mechanical treatment, come within the province of our several specialties.

DISEASES OF WOMEN.—Especially are the facilities of this infirmary of a superior order as regards the remedial means and appliances for the cure of all those chronic diseases peculiar to females. The employment, in moderation, of tonic, chemical, electro-thermal, and other approved baths, is in many cases an invaluable auxiliary to the remedial means to which we resort in such cases. Dry friction to the surface, general shampooing, Swedish movements, and light calisthenic exercises, to enliven and equalize the circulation of the blood in the system, relieve congested parts, improve digestion, and strengthen the muscles, produce important medicinal results in all cases to which these means are applicable. No expense has been regarded in the treatment. The most approved medicines are carefully employed, and the judicious regulation of the diet, to suit the condition of the patient, the thorough ventilation of the sleeping apartment, the cheering influence of social intercourse, innocent games for amusement, and all those agencies which tend to equalize the circulation of the blood in the system, and thus promote recovery, are not neglected.

NERVOUS DISEASES.—Paralysis, Epilepsy (Fits), Chorea (St. Vitus's Dance), and other nervous affections, receive the attention of an expert in this specialty, by which the greatest skill is attained and the most happy results secured.

LUNG DISEASES.—This division of the practice in the Invalids' Hotel is very ably managed by a gentleman of extensive judgment and skill. Bronchial, Throat, and Lung Diseases are very largely treated in this department, and with results which have been highly gratifying to both physician and patients.

EYE AND EAR.—Special attention is given to the delicate treatment of the eye and ear, a distinguished oculist and aurist being under engagement to conduct this branch of the practice.

Invalids arriving in the city and desiring to consult us, should come directly to the Hotel. It is easily accessible by carriage, omnibus, or street cars. Miller's Omnibus Agents, on all incoming trains, can be relied upon to deliver passengers and baggage with security and dispatch.

☞ Address R. V. Pierce, M. D., World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once. 31yr28 78
H. Hallett & Co., Portland, Me.

DR. JOHN TRIPP'S
BLOOD PURIFIER
It is the most wonderful discovery for the radical cure of **SCROFULA** and **SYPHILIS**. It never fails to entirely eradicate either of these diseases and all blood taints from the system. **ULCERS, CANCERS, WHITE SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM** and **GOUT** yield to its power. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.

Sole Eastern Agency, 306 Columbus ave., Boston. Office hours, 8 to 11, A. M., 3 to 7 P. M.

Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. eodtnov11

Transportation.

PENNSYLVANIA RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND **Equipment**
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. 16ep20 79

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M. connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL,
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the season.
New and Elegant Drawing-Room Cars on Steamboat Express Train.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.

DOCTOR PIERCE'S
ALT. NT. OR
Golden Medical Discovery
CURES DISEASES OF THE
THROAT, LUNGS, LIVER & BLOOD.
In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has combined in *harmony* more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or **"Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.
SOLD BY DRUGGISTS AT $1 PER BOTTLE.
Prepared by **R. V. PIERCE, M. D.,** Sole Proprietor, at the World's Dispensary, Buffalo, N. Y.

NEW FOUR PER CENT
GOVERNMENT BONDS.
The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of **$50, $100, $500** and upwards, at par and accrued interest in coin.
The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.
The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.
Orders by mail will receive prompt attention.
Jan. 27, 1878. E. P. KIMBALL, Cashier.

ARTHUR BROWN & CO., - Fiberville, N. H.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. *Glenn's Sulphur Soap* produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts*. It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 60c. and $1.20.

N.B.—Sent by Mail, Prepaid, on receipt of price, and 5 cents extra for each Cake.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the essential medicinal principle is obtained in vapor, condensed and bottled. What remains in the still is harsh, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all results are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

is a local and constitutional remedy, and is applied to the mucous membrane, thus allaying inflammation and pain and at once correcting, cleansing, and purifying the secretions. Internally administered it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while travelling with Father Kemp's Old Folks Concert Troupe as a tenor singer, I took a severe cold and was laid up at Newark, N. Y. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to get worse. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained, from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours, GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1878.

N. B.—I purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Hunford Building.

Each package contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for two years, and, notwithstanding the immense number of remedies in the form of liniments, lotions, etc. that have, and ordinary plasters, they have steadily increased in sale and met with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many remarkable cases have been given by well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world of medicine.* All we ask from every sufferer is that he shall give them a fair trial. The price is 25 cents, although the cost is double that of any other plaster. But, notwithstanding the efforts of the proprietors to make the best plaster in the world for the least money, any similar remedy can be bought, numbers of unscrupulous dealers will be found ready to misrepresent them for sinister motives and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

No. 3 BOW STREET.

Daily Chronicle.

Concealed Guilt.

Mr. Bosbyschell came home late and drunk, and plunged with easy grace into the first chair that went past him, after he had made several vain attempts to seat himself on the piano. The reproachful figure of Mrs. Bosbyschell regarded him with calm severity, and her icy silence made him feel uncomfortable.

"Moggareck," he said thickly, but with grave earnestness, "Moggareck" (Mrs. Bosbyschell's front name is Margaret,) "I've—hic—I've gotta—gotta quickened coshielsce."

"A what?" asked Mrs. Bosbyschell, in calm disdain.

"A quickened coshience," repeated Mr. Bosbyschell. "A quickened coshience. A—hic—I've got something ommy min', Moggait. I've gotta—hic—coffessiol—codiession—gotacofession t'make."

"You can make it in the morning," she said, imperiously. "I am going to bed. You may sleep where you please, or rather where you can."

"Naw," protested Mr. Bosbyschell, with much vehemence, "can't -can't wait—hic—forgot'sleep 'ith th'sload ommy—ommy mind. Got coffessiou t'make, an' mus'—mus' make it. Done suthin', Moggart—hic—been—been a—beena load ommy mind long time. Been—hic—carryin' guilty secret 'round 'ith me too long. Quicked coshience won' gimme—won' gimmy nope—hic—no pence. Mus' tell you sumpin', Mogert; sumpin' 'll s'prise you. I've——"

"Mercy on me, man!" exclaimed Mrs. Bosbyschell, startled from her composure, "what *have* you been doing? Tell me quick, tell me, for heaven's sake!"

"Moggart," said Mr. Bosbyschell, "it's sumthin' ye nev—hic—never suspec—suspected. It'll mos' kill ye. Hic! S'pec it 'll n—nigh drive ye crazy. 'Sawfull' think 'bout it. Y'—y wouldn' b'lieve it of me. Margart, y'—ye wouldn'. I've been—"

"Speak!" wailed the anxious woman, wringing her hands. "Speak; let me know the worst! What have you been doing?"

"Moggart," said Mr. Bosbyschell, solemnly, and with the air of a man upon whom a quickened conscience had wrought its perfect work, "Margart," he said, nerving himself for the shock of confession, "Margort, I've—hic—I've been drinkin'!"

—"Anything new or fresh this morning?" a reporter asked in a railroad office. "Yes," replied the lone occupant of the apartment. "What is it?" queried the reporter, whipping out his note-book. Said the railroad man, edging toward the door, "That paint you are leaning against." Such are the loads a newspaper man must bear.—*Kockuk Constitution.*

—To some pungent remarks of a professional brother, a western barrister commenced his reply as follows: "May it please the court, resting on the couch of republican equality as I do, covered by the blanket of constitutional panoply as I am, and protected by the ægis of American liberty as I feel myself to be, I despise the buzzing of the professional insect who has just sat down, and defy his futile attempts to penetrate, with his puny sting, the interstices of my impervious covering."

Daily Chronicle

FRIDAY, JUNE 14, 1878.

Congress.

The Senate on Wednesday postponed the further consideration of the House joint resolution for enforcing the eight-hour law, to December next; Senators Wadleigh and Rollins voted against the postponement, as did most of the republican Senators. The select committee to inquire into the alleged frauds in Louisiana, under the resolution of Mr. Matthews, was authorized to sit during the recess of the Senate.

The House increased the appropriation for the signal service from $335,000 to $350,000.

The Fraud Movement.

The fraud investigation drags its slow length along. On Wednesday ex-Congressman Darrell of Louisiana was on the witness stand, and he and others conclusively proved that the paper Anderson swore was a forgery was really the original, as of course Anderson knew it to be when he lied about it, as his name was signed to it. But the sensation of the day was the severe and richly-merited rebuke of Gen. Butler by Gen. Cox for the disgraceful way in which he habitually attempts to bully witnesses. He began on General Smith, late Appointment Clerk of the Treasury, a gentleman his senior in years, and who was answering all his questions in a straightforward manner, but not so as to suit the legislative rowdy. Smith held his own until Butler become so impudent and overbearing as to arouse General Cox, who rose and denounced Butler's manner and methods in very dignified but in very severe and effective terms. Butler attempted one of his bullying replies, when Mr. Cox again denounced him, and this time so effectively as to silence him. Mr. McMahon took Mr. Cox's side, and the whole committee and audience stood with them. It is the worst defeat that has happened to Butler in Congress for a long time.

Ohio Republican State Convention.

The Ohio Republican State Convention met on Wednesday to nominate candidates for Secretary of State and Judge of the Supreme Court. Milton Barnes was nominated for Secretary and William White for Judge, by acclamation. The platform adopted shows the beneficial effect of the democratic attempts to to ruin the country in closing up the breaches in the republican ranks. It reaffirms the principles declared in the last national platform; recognizes that the pledges made to the soldiers during the war are sacred, and "therefore denounces as unpatriotic, heartless and infamous the act of the Ohio Legislature, introduced by a deserter, a bounty-jumper and a convict, intended and calculated to drive from the Soldier's Orphan Home the orphans and children of deceased or disabled soldiers, or to rob the widows and families of such of portions of the pittance paid them by the government of the United States, and demands its unconditional repeal;" opposes the further agitation of the financial question, that industries may be allowed a chance to revive; advocates a tariff for revenue "so adjusted as to secure incidental protection to home industry," and condemns the action of the democratic government of Ohio in prostituting the mining inspection law to the basest partisan purposes. Concerning the Potter-Tilden attempt to revolutionize the country the platform says:

The revolutionary movement inaugurated under cover of an investigation, but really as an attack upon the President's title, calculated as it is to Mexicanize the affairs of this country, to cause general distrust, to prostrate our industries and aggravate and prolong the distress of the laboring and industrial classes, we unqualifiedly condemn.

President Hayes having been duly elected and his title subsequently settled under the constitution by the highest tribunal, and by act of both political parties, it cannot be questioned, and we recognize in his administration the highest integrity and patriotism; the most sincere effort to promote political purity and harmony, and secure general business prosperity throughout the whole country.

The platform closes with a severe arraignment of the democratic State government, asserting that "in an unusually long session they passed no law for the benefit of the people of the State, but they revolutionized every State institution to make places for democratic partisans. They subordinated the welfare of the insane, the blind, the mute and the orphan to the interests of the democratic party." And it further condemns "the recent outrageous and unjust redistricting of the State by the legislature in violation of usage, and at the dictation of Speaker Randall, by which, on the basis of the vote at the last Presidential election, when the majority of votes cast was republican, the democrats would be enabled to carry fourteen out of twenty Congressmen."

News and Notes.

Mrs. Catharine Riley, of Meriden, Conn., was struck by lightning on Wednesday, 12th inst., and fatally burned.

George V., ex-king of Hanover, died in Vienna on Wednesday, aged fifty-nine years.

In the St. Albans, Vt., butter market, Wednesday, prices ranged from ten to fifteen cents a pound; extra fine selections brought sixteen and seventeen cents a pound.

There was a meeting in New York, Wednesday, of representatives of all the great railroads in the country, to see if some satisfactory arrangement for "pooling" freight could be made. No arrangement could be reached, and the meeting adjourned without day. The result of the failure to agree was immediately shown in the cutting down of freight rates, the reduction in some cases being thirty per cent. or more. A protracted freight-rate war is expected.

There was a serious riot by strikers at Quebec on Wednesday. The rioters plundered a flour store and took 400 barrels of flour, compelling teams to take the spoils to their homes. The military were called out, and after they had been well stoned by the rioters and had a number of men badly hurt, the Mayor (after reading the riot act) ordered the troops to fire, which was done. A number of the rioters fell, and the mob instantly dispersed.

According to the *Quarterly Journal of Inebriety*, statistics indicate that most of the suicides following inebriety occur among beer drinkers. It says that the ultimate effect of lager beer in many cases is melancholy, with a tendency to suicide. It is held that beer has a peculiar psychological action, developing a low grade of depression in all cases. But is not a man just as likely to commit suicide under the terrible depression following a whiskey debauch as the guzzling of too much beer? There can hardly be a doubt of it.

Hostile Indians in Wyoming Territory on Wednesday captured a stage containing arms and ammunition, killing the driver and stealing all the horses but one, on which the only passenger escaped. The settlers are crowding into Camp McDermitt.

John Starner, missing from Nelson, Tioga county, Penn., since May 27th, has written to his wife from Denver, Col., that at Corning, N. Y., he was knocked down, robbed, gagged and thrown into an Erie Fast Line freight car, and that he did not recover consciousness until the car was unlocked at Denver, when, he says, he was very weak and stupefied.

Business at St. Thomas and St. Domingo has improved since the close of the revolution in the latter.

Very few American exhibitors at Paris have any description or even the names of their articles placed near them in French. They seem to think that a "blarsted furriner" who can't read English isn't of enough account to be worth instructing. No other nation has made this mistake.

Two chronic rheumatics in Germany have lately been cured by the stings of bees. One of them, a farmer's wife, who had suffered for six months so as to be unable to sleep, and almost unable to use her right arm, kept three bees on the arm until their stock of poison had exhausted itself. The effect produced was astonishing, and the lady is rapidly recovering.

The dead body of Frank E. Davis, of Woburn, Mass., who had been missing since June 6th, was found in some bushes near the roadside in that town on the 12th. The condition of the body showed that a brutal murder had been committed. Davis was about eighteen years old, and his parents reside in Charlestown.

Charles Carlson is under arrest for the murder by shooting of Rudolph Modee in Boston. Modee was a boarding house keeper, and Carlson boarded with him. The latter having for his drunken habits been ordered to leave the house, deliberately planned and carried out the murder, purchasing a pistol to do it with, and going to Modee's house to find his victim. Carlson is thirty years old, a good workman, and neat in appearance, but very ugly when drunk.

The house of Leonard Benton, at Bennington, Vt., was entered Tuesday night by burglars, who chloroformed the family so that they did not awake until nine o'clock Wednesday forenoon, and stole $400 in bonds.

Captain Ralph Chandler is detached from the command of the receiving ship Wabash, at Boston, and Commander S. Livingston Breeze is ordered to the command of that ship.

New Hampshire Legislature.

The morning accommodation train on the Boston, Concord & Montreal Railroad collided with a wood train at Sanborn's Branch, Wednesday morning. Both engines were considerably damaged, but the passengers were uninjured. The passengers were delayed several hours.

A very large meeting of Dartmouth alumni was held in the Senate chamber at Concord, Wednesday evening. Hon. J. Sargent of Concord presided. Addresses respecting the needs of the college were delivered by President Bartlett, followed by Col. John H. George of Concord, Gov. Prescott, ex-Senator Patterson, Hons. Gilman Marston of Exeter, Harry Bingham of Littleton, George G. Fogg and others.

The second anniversary of the Jefferson Reform Club was celebrated at that place Wednesday. Over 1000 persons were present, Gorham, Carroll, Whitefield, Dalton, Littleton and Lancaster being represented by large delegations. Addresses were made by J. G. Crawford of Lancaster, Dr. Webster of South Boston, A. Sawtelle of Gorham, Rev. E. S. Moulton of Whitefield, E. H. Cushman of Dalton, Coburn of Littleton and others. A picnic dinner was prepared for all present by the citizens of the place.

Good Resolutions.

In view of Mr. J. M. Todd's remark at the Maine greenbackers' convention at Lewiston, that he had worked forty-eight years and was tired, a correspondent of the Boston *Advertiser* proposes the following supplementary resolutions for the greenback platform:

Resolved, That to all persons resident in the United States who have "worked forty-eight years and are tired," there shall be paid from the Treasury of the United States the sum of fifty dollars for each and every remaining month of their lives, such amounts to be assessed and collected from all voters between the ages of twenty-one and forty-eight years.

Resolved, That so much of the nineteenth verse of the third chapter of Genesis as is contained in the following words, "In the sweat of thy face shalt thou eat bread till thou return unto the ground," be and the same is hereby repealed.

The Petersburg (Va.) *Post* has put out its prophetic shingle for 1880. It says: "Grant and Conkling will be the next republican ticket for President and Vice President of the United States. Mark the prediction."

STATED MEETINGS.

CITY GOVERNMENT.

In City Building, Market Square.

BOARD OF MAYOR AND ALDERMEN—Thursday evenings.

FIRE COMPANIES—At their respective Engine Houses on the First Monday of each Month.

PORTSMOUTH FIREMEN'S MUTUAL RELIEF ASSOCIATION—Second Wednesday of January, April, July and October.

Mr. Singleton of Mississippi declared in the House of Representatives recently in reply to a pointed question by Mr. Foster, that his first and highest allegiance was due to his own State. With such a single idea of his duty, Mr. Singleton ought to remain in Mississippi and carry it out.

There is Trouble in Store

For those who neglect to rectify irregularities of the stomach, liver and bowels, which they foolishly imagine will "come right of themselves." Of this silly error such persons are usually disabused by the development of some serious chronic malady, traceable to what they were pleased to consider a trifling disorder of the above named associate organs. Such a culmination is easily avoided. A course of Hostetter's Stomach Bitters invariably has the effect of renewing the secretive action of a torpid liver, restoring healthy digestion and assimilation, and rendering the habit of body perfectly regular. The activity of these all important functions being restored, and the entire system toned and regulated by this incomparable corrective and invigorant, no danger to the general health is to be apprehended from causes which, if not eradicated in time, will assuredly undermine it.

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

Alex. Frothingham & Co., brokers, 12 Wall st., N. Y., make careful investments for customers, in sums of $25 to $100, which frequently pay ten to twenty times the amount invested. Their *Weekly Financial Report*, sent free, gives full information. 9

The Colonnade Hotel, Philadelphia, Pa., by its judicious reduction of rates, will maintain its famous reputation as a model first-class house, alive to the demands of the time.

Adamson's Botanic Balsam being free from opiates and equills, not only allays the local irritation, but improves digestion and strengthens the constitution; her ce it is used with the most signal success in Asthma, Coughs, Colds, Bronchitis, Quinsy, affections of the throat and chest. All who wish to preserve health and thus prolong life, should use Adamson's Balsam.

A General Rebellion.

TRIUMPH OF A GREAT DISCOVERY!

The public has *rebelled* against *cauterizing Hair Dyes*. Fashion has foresworn them. A sagacious community has adopted in their stead,

CRISTADORO'S HAIR DYE,

and for *these reasons:* It embrowns and blackens the *hair*, not the *skin*. It is a *vegetable emolient*, not a *burning fluid*. It does not burlesque nature with *blooming metallic tinges*, but produces her own *living hues*. Its cooling effect is *lasting*. It *defies detection*. Its results are *uniform*. It *never fails*. Manufactured by J. CRISTADORO, No. 93 William St., New York. Sold by all Druggists. Applied by all Hair Dressers. ¶y15

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, *Station D, Bible House, New York City.* cod&6tsept15 7

To the Hon. Judge of Probate for the County of Rockingham:

RESPECTFULLY shows FRANCES M. PERKINS of Boston, admx. of the Estate of SAMUEL C. PERKINS, late of said Boston, deceased., That her sister, M. E. P. EMERY, died and by her last will appointed (with another who declined it) said SAMUEL C. PERKINS a Trustee under her said will and devised and bequeathed unto said SAMUEL certain Estate to hold in trust for LULU EMERY, an infant daughter of said M. E. P. EMERY. That since the death of said SAMUEL said Trusteeship has become and is, vacant. That your petitioner is an aunt and one of the nearest relatives of said LULU, whose father is deceased. That as administratrix she is desirous of delivering to a legally appointed Trustee, all and singular the trust fund, investments, moneys and estate belonging to the *Cestui que trust*. Wherefore she prays that WASHINGTON FREEMAN, an uncle by marriage of said LULU, be appointed Trustee under said will of said M. E. P. EMERY, or such other person be appointed as shall be deemed suitable.

FRANCES M. PERKINS.

June 6th, 1878.

ROCKINGHAM, SS.

Probate Court at Exeter in said County on the 11th day of June, A. D. 1878.

Upon the foregoing Petition it is ordered that a hearing be had thereon at a Court of Probate to be holden at Portsmouth in said County, on the second Tuesday of July next, at ten o'clock A. M.; and that the Petitioner notify said LULU EMERY and all persons concerned or interested therein to appear at said Court, and show cause, if any they have, why the prayer of said petition should not be granted, by causing said petition and this order to be published three weeks successively in the Portsmouth Daily Chronicle, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least one week prior to said Court.

By order of the Judge.
WOODBURY M. DURGIN,
Register of Probate.

THE CITY.

The permanent pay roll of the Hayes farm has seventeen names of men on it, and two women.

Schooner Helen F. Tredick arrived on Wednesday at Tredick's wharf with 14,000 lbs. of split fish.

Steamer Appledore made her first trip to the Shoals with passengers on Thursday. She commences her regular trips the 15th.

Mr. D. H. Montgomery has bought a fine building lot on Austin street of Mr. G. T. Vaughan, and we understand will put up a dwelling house there.

It is currently reported that Mr. N. K. Raynes has gathered the nucleus of another greenback club in this city; also that he is using his influence among his friends in York to start a greenback club in that town.

The *Weekly* says "Mr. Wm. A. Meloon of Newcastle has bought the room paper and window curtain stock of Mr. Geo. H. Tripp, and will continue the business at No. 37 Market street. Mr. Tripp has gone to Manchester, and is employed in the saloon business."

An envious member of the Fourth Estate from Old Strawberry Bank accuses us of a most flagitious offence—nothing more or less than having "cuffed Gov. Prescott into subjection." Now, the Governor is a mild man, as the world goes, but we should feel safer were we given the task of boxing the ears of a regiment of such fellows as this Portsmouth chap, than to undertake to "cuff" never so slightly, save in sport, our most worthy Chief Magistrate.—*Concord Monitor.*

The annual exhibition of the High School, and graduation exercises, will take place on Tuesday, July 2d. The graduating class numbers ten young ladies and eight young men, as follows: Annie Almena Emery, Lizzie Wiley Freeman, Nellie Grace Ham, Flora Lydston, Mary Abbie Moulton, Mary Frances Rand, Jennie Lincoln Randall, Isabel Goodwin Roberts, Carrie Green Tanton, Florence Lillian Walker, Daniel Stephen Broderick, Charles Parker Brown, Charles Albert Davis, Willis Osman Lang, Isa Henry Leveen, Amos Revilo Locke, Charles John McDonald, Arthur Frisbee Williams.

Mr. Editor: It has come to my knowledge that a graduate of the High School, now a student of Tilton Seminary, fitting for college, finds himself embarrassed for funds; he is to take a leading part in the graduating exercises of the institution, having won, through close application to his studies, the second place of honor in his class. He is to give the salutatory, the exercises taking place this week. I make this statement public without his knowledge, hoping that others may thereby be induced to add their contributions to mine, and thus a small sum be raised to render him the aid which he so much needs—and deserves. T. E. O. M.

The annual meeting of the New Hampshire Historical Society was held in Concord on the 12th inst., Hon. W. H. Y. Hackett of this city presiding. Mr. J. B. Walker was appointed to prepare a memorial sketch of the life of the late Rev. Dr. Nathaniel Bouton. Five new members were added to the committee on coast names of New Hampshire, two of them being Hon. Charles H. Bell of Exeter and Mr. James F. Jenness of this city. C. H. Bell was chosen President for the ensuing year; B. F. Prescott of Epping and J. E. Sargent of Concord, Vice Presidents; Amos Hadley of Concord, Recording Secretary; George G. Fogg of Concord, Corresponding Secretary.

The *Times* of Thursday says: "A fatal case of hydrophobia occurred in this city yesterday. It appears that some ten or eleven months ago Mrs. Anna Lear, wife of Mr. Lewis Lear, residing on Hill street, was bitten several times by a dog, the animal at the time showing such mad antics that she had him killed. Mrs. Lear, who worked in the mill, did not suffer any great inconvenience from the bites, and continued at her work until Saturday night. On the following morning she began to exhibit symptoms peculiar only to hydrophobia, such as barking like a dog, foaming at the mouth, racing around and howling like a dog, attempting to bite any one who came in her way, while the sight of liquids would instantly throw her into spasms. She lingered in this state, the symptoms sometimes increasing in violence, until last evening, when she died."

The lower harbor on Thursday was alive with fish.

Persons desiring copies of the report of the County Commissioners can procure them by calling on the City Clerk at his office in the City Rooms.

A raft containing thirty thousand feet of logs, cut from the Wendell farm at Sagamore, and belonging to Mr. Wilbur of Greenland, floated up the river Thursday morning to Mr. Mason's sawmill. So the fine old wood which has been the resort for years for picnicers and wildflower seekers, is to be converted into lumber for building purposes.

THE "CONCORD FIGHT."

Editor Chronicle:—I hereby testify to the entire correctness of the report of the CHRONICLE's correspondent relative to the military display in Concord on inauguration day, and believe that he did exact justice to each of the companies from Portsmouth represented. I also know the *Times* report to be grossly inaccurate, and believe it to be malicious, prejudicial to good military discipline, and intended to stir up strife and bitterness between companies where none should exist. The Heavy Artillery ask for no honors but those they fairly earn, and seek not to build up a reputation on false statements, and at another company's expense.

ONE OF THE "HEAVIES."

[*Note.* We have been unable to see where fault could justly be found with our reporter's account; we were and are satisfied with it, and that he showed no favoritism to any organization. We know nothing about the *Times* report, or the animus of its reporter; but we do know that any unworthy rivalry between the various military companies of the city will be to their own injury, while a generous rivalry will inure to the benefit of all concerned.—*Ed. Chron.*]

CITY COUNCILS.

In Board of Mayor and Aldermen, Thursday evening:

Petition for crosswalk on Market street was referred to committee on streets to report.

Lyman D. Spaulding asked leave to remove a tree on State street in front of his residence.

A petition from a large number of citizens living at the west end of the city requesting that the sewer leading from the brewery to Cabot street be repaired or rebuilt was referred to committee on drains to report.

A petition from a large number of citizens of Kittery asking that a public landing stage be placed at the foot of Daniel street was referred to committee on city lands and buildings.

The committee on drains to whom was referred the matter of reporting some method by which the records and plan of the sewers be preserved, reported a plan which was accepted.

A communication from a number of tax payers asking that the sidewalk on Middle street be repaired was referred to committee on streets to report.

Voted, That the Board of Aldermen notify the Common Council that the Board adhered to the amendments to the appropriation bill, and ask for a committee of conference. Aldermen Hoyt and Yeaton were appointed on the part of the Board.

An ordinance relating to the paying of the Fire Department quarterly was received from the Common Council and referred to committee on bills on second reading.

A vote relating to the collection of taxes was passed.

Petition of Frank W. Miller for a sidewalk on South street was taken from the table and referred to committee on streets to report.

Voted, That the City Clerk be instructed to notify the chairman of the health committee that parties had used the premises on Hancock street for the purpose of slaughtering, and that he be notified to investigate the matter, and if found to be so, take measures to abate it.

The committee to whom was referred the matter of payment of land damages for land to build the proposed new road around the South Mill-pond reported a list of persons entitled to payment. Report accepted.

Adjourned to Tuesday evening, June 18th.

THE VICINITY.

Mr. Ephraim P. Packer, of Greenland, we are pleased to hear is recovering, though slowly, from his long illness.

A gentleman whose business has taken him over a large part of Rockingham and York counties within ten days past informs us that the hay crop promises well on good lands; on low-lying, clayey soils the crop will be below the average. Potatoes generally are looking finely; bugs are plenty—greatly in excess of the demand. Corn is backward and rather yellow, but a few hot days and warm nights—if they will only come along—will bring it up. Fruit has set well, though the prospect for an unusually large crop is not nearly so favorable as it was earlier in the season.

The hail storm at Rochester, Wednesday afternoon, 12th inst., was very severe. Three and five-eighths inches of rain fell in one hour, and after the storm was over the ground was white with hailstones as big as walnuts. Great damage was done to the growing crops.

The rumseller in Maine is a sadly persecuted individual. If he pays for a United States internal revenue license as a retailer the State authorities are thereby directed where to aim a "search and seizure" expedition; if he defrauds the revenue and sells "sly grog" the United States officials come down on him as badly as the State officers do. On Tuesday, 11th inst., a deputy marshal took Mrs. Louis Nedeaux from Biddeford to Portland to answer to a charge of selling liquor without a license; William LaFleur was wanted for the same offence, but gave the officers the slip. On Tuesday evening a Mrs. Riley, who was in hiding from the deputy sheriffs, who had previously found a stock of rum in her house, was captured and lodged in Saco jail to await trial. On Wednesday Frank Bernier was taken to Alfred jail and Narcisse Ladreut to Portland; the latter has to serve three months or pay fines and costs amounting to over $102.

FREE BAPTIST CONFERENCE.

The New Hampshire yearly meeting of Free Baptist churches has just closed a large and profitable session of two days with the Washington street church of Dover, Rev. G. C. Waterman pastor. A large amount of denominational business was disposed of; the reports from the churches were of an encouraging character; the devotional meetings very well attended, and deeply spiritual. The attendance on the meeting was unusually large, with delegations from several other denominations. Rev. D. H. Adams of Farmington preached the opening sermon, Tuesday evening; and Rev. E. Owen of this city, the closing one Thursday, at three o'clock P. M., to a very full, and deeply attentive audience. A communion service succeeded, and concluded the public services, and was largely attended. Rev. J. J. Hall, of Manchester, read a paper upon the Foreign Mission interest, which was also represented by Rev. Dr. and Mrs. Phillips, returned missionaries from India. The venerable secretary of the Home Mission Society, Rev. S. Curtis, of Concord, earnestly presented the claims of his society; as did Rev. H. Quimby, D. D., of Milton Mills, the State Charitable Society. Rev. J. A. Lowell, of Danville, spoke for the Education Society, and Rev. N. C. Lothrop, of Bristol, for the Sunday School interest. Mrs. F. S. Mosher read an able paper on the claims of the Woman's Mission Society, and its work. Rev. F. L. Wiley, of Whitefield, upon the printing establishment, stated that the circulation of the *Morning Star*, the organ of the denomination, had doubled its subscription list within a few months, the largest number of new subscribers from one place coming from this city. A full delegation from the Pearl street church was in attendance.

Two cows in Charles Pike's barn at Salisbury, Mass., and a horse in James Sands' barn, were killed by lightning Wednesday afternoon, 12th inst.

The greenback candidate for Governor in Maine got angry with Gov. Connor about two years since because he refused to displace a well qualified man holding the position of Indian Agent, and appoint the son-in-law of the candidate aforesaid. The son-in-law is now president of a greenback club.

DEATHS.

ROBIE. In Greenland, June 12th, Mrs. Susan E. Robie, aged 54 years, wife of Rev. Edward Robie.

☞ Funeral at the Congregational church in Greenland this (Friday) afternoon at half-past two o'clock. Friends and relatives invited to attend without further notice.

EMERY. In this city, June 4th, Mrs. Eliza W. Emery, aged 41 years, 7 months, wife of Mr. George T. Emery.

ABBOTT. In North Berwick, June 2d, Mrs. Sarah Abbott, aged 89 years, widow of Mr. George Abbott of South Berwick, formerly of this city.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

ARRIVED June 13.

Sch Mary E Amsden, Baker, Perth Amboy.

SAILED June 13.

Sch S S Hudson, Vaughan, Philadelphia.
Sch Samuel P Adams, Scott, Deer Isle.
Sch Hattie Lewis, Coleman, Boston.

Sch Willie Martin, Freeman, Baltimore for Dover, arr at Vineyard Haven 11th inst.

Bangor, June 13—Sch Emily A Staples arr in this port Monday night with a cargo from Boston, consigned to some Bangor parties, but was towed down river yesterday morning, without waiting to discharge. It is rumored that fears of an attachment caused this sudden departure, and that another schooner has gone down river, where the cargo will be transferred from the Staples.

Ship Maita, Newcomb, from New York March 22 for Liverpool with cargo of flour, is given up for lost. She was 1227 tons register, and carried 29 men all told.

Schs Herald, Frisbee, and Emily A Staples, Crockett, for Boston, and Mary Willey, Williams, for this port, cld Bangor 11th inst.

Sch Jesse W Knight, Lawrence, Baltimore for Dover, arr at Dutch Island Harbor 10th inst, and sld 11th.

Sch Lizzie M Stewart, of Boston, Capt Perkins, at New York, from Point-a-Pitre 25 days, had heavy N and W gales, during which lost jib and sustained other damage.

Sch T J Trafton, Hoyt, from Baltimore arr at Bangor 13th.

Sch J D Williams, Pearce, cld Philadelphia for this port 12th.

WM. B. HUSSEY,

No. 49 CONGRESS STREET, :: PORTSMOUTH.

THE NEW HAMPSHIRE

GAZETTE

Established 1756.

The Gazette is published every Thursday, and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Portsmouth Chronicle

—A Missouri law suit about a quart of buttermilk has cost several hundred dollars.

—That was a clever boy who said that he liked a "good rainy day—too rainy to go to school, and just rainy enough to go fishing."

— Rev. E. P. Couser has invented a churn which is worked by sitting down and rocking as in a rocking-chair. It is destined to be very popular.

—It has been said that the state of civilization a place is in can readily be determined by counting the number of bar-rooms to the square mile! If this is so, then St. Louis stands very high in the southern portion of the city, where on a certain street there are a very few houses that are not places where liquors are sold, the ratio of saloons and groceries where alcoholic beverages are for sale to other houses being six to five in favor of the fire-water buildings.—*St. Louis paper.*

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. **The White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 25 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON Co., PA., Mch. 17, '74. *Dear Sir:*—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.

F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. B. ROSE & CO., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms our Stomach and Disordered Bowels, there is nothing like Castoria. tawg

INVALIDS' HOTEL.
The very large number of invalid people who daily visit Buffalo, from every quarter of the United States and Canada, that they may consult Dr. R. V. PIERCE, and the widely celebrated Faculty of Specialists in Medicine and Surgery associated with him, rendered it necessary that the founder of this institution should provide a place on a grand and commodious scale for their entertainment and comfort.
ADVANTAGES OF PIERCE.—The Invalids' Hotel is more complete in its appointments than any similar institution in the world. The building is located in one of the most healthful and desirable portions of the City of Buffalo, and commands a fine view of Lake Erie, Niagara, River, and the surrounding country, being situated in the midst of an extensive system of beautiful parks. The Hotel is furnished with a patent safety passenger elevator, to convey patients to and from the different floors; is provided with all kinds of approved baths, and has also connected with it a well-appointed gymnasium and bowling alley to afford proper means of exercise.
CHRONIC DISEASES of all forms, whether requiring medical, surgical, or mechanical, treatment, come within the province of our several specialties.
DISEASES OF WOMEN.—Especially are the facilities of this infirmary of a superior order as regards the medical means and appliances for the cure of all those chronic diseases peculiar to females. The employment, in moderation, of tonic, chemical, electro-thermal, and other approved baths, is in many cases an invaluable auxiliary to the remedial means to which we resort in such cases. Dry friction to the surface, general shampooing, Swedish movements, and light calisthenic exercises, to stir from and equalize the circulation of the blood in the system, relieve congested parts, improve digestion, and strengthen the muscles, produce important beneficial results in all cases to which these means are applicable. No experimenting is resorted to in the treatment. The most approved medicines are carefully employed, and the judicious regulation of the diet, to suit the condition of the patient, the thorough ventilation of the sleeping apartment, the cheering influence of music, social intercourse, innocent games for amusement, and all those agencies which tend to arouse the mind of the patient from despondency, and thus cheer nature, are not neglected.
NERVOUS DISEASES.—Paralysis, Epilepsy (Fits), Chorea (St. Vitus's Dance), and other nervous affections, receive the attention of an *expert* in this specialty, by which the greatest skill is attained and the most beneficial results secured.
LUNG DISEASES.—This division of the practice in the Invalids' Hotel is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat, and Lung Diseases are very largely treated in this department, and with results which have been highly gratifying to both physician and patient.
EYE AND EAR.—Special attention is given to the delicate operations on the eye and ear, a distinguished oculist and aurist being under engagement to conduct this branch of the practice.
Invalids arriving in the city and desiring to consult us, should come directly to the Hotel. It is easily accessible by carriage, omnibus, or street cars. MULLER'S Omnibus Agents, on all incoming trains, can be relied upon to deliver passengers and baggage with security and dispatch.
☞ Address R. V. PIERCE, M. D., World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once. GUy2878
H. HALLETT & CO., Portland, Maine.

DR. JOHN TRIPP'S
BLOOD PURIFIER
IS the most wonderful discovery for the radical cure of SCROFULA and SYPHILIS. It never fails to entirely eradicate either of these diseases and all Blood Poison from the system. ULCERS, CANCERS, WHITE SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM and GOUT yield to its power. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.
Sole Eastern Agency, 306 Columbus ave., Boston. Office hours, 8 to 11, A. M., 3 to 7 P. M.
Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. eodtnovl1

PENNSYLVANIA RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. Its
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route.
ONLY 49 MILES OF RAIL,
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Train.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 26, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.

DOCTOR PIERCE'S
ALT. EXT. OR
Golden Medical Discovery

CURES DISEASES OF THE
THROAT, LUNGS, LIVER & BLOOD.
In the wonderful medicine to which the afflicted are advised to resort for relief, the discoverer believes he has combined to *harmony* more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver, or "Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.
SOLD BY DRUGGISTS AT $1 PER BOTTLE.
Prepared by **R. V. PIERCE, M. D.,** Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y

NEW FOUR PER CENT
GOVERNMENT BONDS.
The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.
The Bonds are redeemable after July 1, 1907, and bear interest, payable quarterly, on the first-day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.
The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.
Orders by mail will receive prompt attention.
Jan. 27, 1878. E. P. KIMBALL, Cashier. tf

PRATT'S
Astral Oil!
THE SAFEST AND BEST
ILLUMINATING OIL!
☞ *For Safety and for Excellent Burning Qualities, it is without an equal.* ☜
CAUTION.
☞ The great popularity of "ASTRAL" OIL has induced some unprincipled persons to sell worthless and dangerous imitations for "ASTRAL," while others palm off inferior oils, representing them as good as "ASTRAL." To prevent this fraud, purchasers should demand "ASTRAL" and take no other.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and have is subjected to distillation, whereby the essential medical principle is obtained in concentrated form, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in any compound so delicate as the nasal passages. Yet all results are insoluble compounds of woody fibre; all the cures, saturated solutions.

SANFORD'S RADICAL CURE

is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing, and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the system and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen:—About twelve years ago, while travelling with Father Kemp's Old Folks Concert Troupe as a tenor singer, I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with year after year, until by my constitution was almost evenly balanced, and was finally obliged to give up a most desirable position and return home; unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer, the last attack severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so deaf that I could not hear, talk or speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one who had such aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have not by an occasional cold or Catarrh, for the first time in twelve years.

Respectfully yours, GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1876.

P.S.—I purchased the RADICAL CURE OF GEO. H. ROGERS, Druggist, Rumford Falls.

Each package contains Dr Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas, WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for two years, and, notwithstanding the immense number of remedies in the form of plasters, they have steadily increased in sale and met with universal approval, as testimonials from one thousand unsolicited testimonials in our possession. Many remarkable cases have been certified to by well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Many sufferer in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world of medicine.* All we ask from every sufferer is a trial of a single trial. The price is 25 cents, although the cost is double that of any other plaster. But, notwithstanding the efforts of the proprietors to make the best plaster in the world for the least money, any similar remedy can be bought, numbers of unscrupulous dealers will be found ready to misrepresent them for *selfish motives* and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO.,

No. 3 BOW STREET.

Daily Chronicle.

Decay of the English Aristocracy.

No class of men seem more favorably situated for longevity than the British aristocracy, but time is constantly extinguishing their families. Of the Barons who met in the first Parliament, over six hundred years ago, the decendants of two only now sit in the House of Peers. More than a hundred of the original great families of England have thus become extinct. There are now but four surviving peerages which were creations of the fourteenth century, but seven surviving peerages of the fifteenth, twelve of the sixteenth, thirty-five of the seventeenth, and of the eighteenth century ninety-five. All the remainder are creations of the present century. Even New England, for the length of its existence, can show quite as much durability of old families, notwithstanding the hardships of early settlement and all that has been said against our climate. "Blue blood," however, like other things, appears to have a tendency to "passing away."

An Extinct Volcano on the Comstock.

Although little has ever been said about it, we have an extinct volcano within about three miles of this city. It is the largest of the several mountains lying immediately west of American Flat and a short distance southeast of the Virginia and Gold Hill Water Company's big reservoir. Those who doubt what we say have only to visit the mountain to be convinced. All the top and east side is covered with lava. In places the lava is from ten to twenty feet in depth. It is light brown in color and is honeycombed with holes resembling the openings in a sponge. The place where the crater once was is clogged up with this lava. The only depression on the mountain is a large sink on the west side, where part of the crust appears to have fallen in. Before water was brought from the Sierras for the use of the city, the old water company ran a tunnel under this large basin or depression, thinking to tap a good deposit of water. The mountain being of great height, snow lies till late in the season on its northern slopes, and the water from the melting drifts finds its way into the sink. It was to secure the water thus collected that the tunnel was run. For some reason all the geologists—our State geologist and all others—have failed to make mention of this, our extinct volcano. Nor have they ever said a word about the lava. They probably thought it the croppings of a sponge mine or something else equally valuable. *Virginia (Nev.) Enterprise.*

—Shoes can be made by machinery at an astonishing rate. During the recent trip of Senator Gordon and other southern Congressmen to New England, they visited the great shoe manufactories at Lynn. A pair of kid, side-laced woman's boots was made, from the stock, in just eleven minutes, in the sight of the visitors. There is one advantage in such boots. They cannot be worn out in less time than it took to make them.

Portsmouth Wholesale Prices.

Daily Chronicle

SATURDAY, JUNE 15, 1878.

Chronicle Correspondence.

CONCORD, June 13th.

At the Rockingham county convention, upon Mr. Cram being asked why the amount of the liquor bill was so large, he replied: "The doctor would mix up a dose of peppermint for the old persons when they *felt bad*; this did not make them feel any better, but when a dose of toddy was mixed for them their ailments were cured." Just then a number of the representatives made the remark that they "felt bad."

The House committee on elections were occupied nearly all day Thursday in hearing evidence regarding the remonstrance of Samuel E. Clifford and 120 others, against the right of Harvey F. Campbell of ward two of Concord to a seat in the House, which was referred to this committee. Evidence by the remonstrant was brought to show that Campbell occupied the seat by means of persons who were illegal voters. Campbell has for counsel, Judge Rand of Lisbon and J. H. Albin of Henniker. Clifford has for his counsel John Y. Mugridge and Charles Sanborn, of Concord. Late in the afternoon the committee adjourned to Tuesday afternoon.

The first bill of the session was passed on Thursday afternoon under a suspension of the rules, after having been reported from the committee. It was an act to incorporate the Concord Horse Railroad Company.

A number of remonstrances against the repeal of the law regulating the practice of medicine and surgery have been presented and have been referred to the committee on judiciary. This law has caused a vast amount of dissatisfaction, principally among "quacks," and they are doing all in their power to have the old law restored. Mr. Durant, a member of the last legislature, did all in his power to have the old law re-enacted. He has not given it up yet, for he is quite interested in the matter now.

Judge Sargent of Concord has introduced a bill which will cause a good deal of commotion among gamblers if it becomes a law; it is an act to prevent pool-selling.

Quite an enthusiastic meeting of the Dartmouth alumni was held in the Senate Chamber Wednesday to take into consideration the recommendation of Governor Prescott to appropriate a sum of money to assist Dartmouth College. The meeting was principally addressed by President Bartlett concerning the proposition. He is proposing to come again and present his views before the committee, and the House at large when the matter properly comes up.

Jim Fisk, father of the notorious Jim of New York, is in town exhibiting to wondering spectators his patent harness. It is so arranged that by means of simply touching a spring in the carriage the horse is instantly freed from the vehicle even though he be running ever so rapidly; at the same time a brake is applied to the wheels and the carriage is stopped without any injury to it. He gives practical illustrations of its operation.

The committee on mileage have far from a pleasant time just now to adjust the claims of the members. One man gave the distance from his home to Concord as 202 miles! A. B.

Congress.

The Senate on Thursday passed the following bill by a vote of 45 to 15, Senators Rollins and Wadleigh voting no: "That from and after the passage of this act United States notes shall be receivable the same as coin in payment of four per centum bonds, now authorized by law to be issued, and on and after Oct. 1, 1878, said notes shall be receivable for duties on imports."

The House was occupied all day and evening in wrangling over and amending the sunday civil appropriation bill, which was passed at midnight.

The sub-committee of the House committee on foreign affairs appointed to consider the bill in relation to the Japanese indemnity fund, authorizing the President to pay $125,000 to the officers and crews of the Wyoming and Takaing, report in favor of returning the amount of the indemnity with five per cent., interest from dates of paying the different installments, and the distribution of $125,000 to the seamen interested.

Michigan Republican Convention.

The Republican State Convention of Michigan organized Thursday with Hon. Zach Chandler as President. Gov. Chas. M. Croswell was re-nominated, as was Alonzo Sessions for Lieut. Governor. The resolutions adopted pledge unfaltering fidelity to the party, demand free suffrage for all citizens, express a feeling of relief at a prospect of reviving business, favor the resumption of specie payment, rejoice in the prospective early adjournment of Congress, denounce repudiation in every guise, view with apprehension the rise of the greenback party, denounce the various socialistic and communistic organizations throughout the land, and condemn any attempt to reopen the Presidential question.

New Hampshire Items.

Joel Taylor, Grand Scribe and Grand Secretary of the Grand Encampment and Grand Lodge of Odd Fellows of New Hampshire, has resigned after many years' service. Joseph Kidder, of Manchester, has been appointed successor.

The franchise and tolls of the Nashua, Acton & Boston Railroad are advertised to be sold at auction at Nashua next month, to satisfy a judgment obtained by John C. Moulton of Laconia.

Three gentlemen who were in a boat on Waukewan pond, Meredith, were fired at Thursday by some persons from the shore, and one was slightly wounded in the face by a bullet. The boat was struck several times with shot. There is no clue to the perpetrators.

News and Notes.

The Peace Congress at Berlin organized Thursday.

Steam collier Leopard, Capt. Wiley, struck on the Londoner, off Thatcher's island, Thursday, and bilged. She was bound for Newburyport from Philadelphia, with 1000 tons of coal. A steam pump was placed on board of her Friday, but failed to free her, and she will have to discharge her cargo before she gets off. An easterly storm will make her a total loss.

John M. Morton, son of the late Senator Morton, has been rescued from the island of St. Paul, Alaska, where, with his wife, he has been imprisoned nine months by ice. Four attempts were made to reach him. In one instance the vessel foundered and all perished.

Large numbers of children have of late been robbed in the streets of London. The thieves are women, and in some instances the children not only lost their wearing apparel, but their hair was actually cut off. The Chief Commissioner of Police has found it necessary to warn parents against trusting children in the streets alone with parcels or money in their possession

The Maine Medical Association adjourned Thursday. A resolution was passed declaring it unsafe to practice among the poor, owing to the condition of the laws for damages for malpractice, and a committee was appointed to present the matter to the Legislature.

Fresh fish has advanced in the market. Salmon are scarce, and worth thirteen cents a pound by the box. Blue fish are quoted at $6 per cwt., cod at $3 and haddock at $2; mackerel at $15 a barrel.

The Western Union Telegraph makes a quarterly dividend of one and a half per cent.

Prof. Richtel's flying machine was tested at Hartford on Wednesday. The machine not only rose in the air, but moved backward and forward, up and down, at the option of the aeronaut, and, although embracing in part the balloon principle, the evolutions were accomplished without waste of gas in descending or by the use of any ballast whatever.

The New York *Journal of Commerce* says the number of idle cards in woolen mills of this country is 591 sets, which means a curtailment of 768,300 yards of cloth or 110,000 suits a week, and that the number is increasing.

Max Strakosch is sued for breach of promise by Clementine Smedley of Chicago.

The total liabilities of Alden B. Stockwell, formerly President of the Pacific Mail Steamship Co., now a bankrupt, are about $1,100,000.

The Indianapolis base ball club was beaten by the Bostons on Thursday at Boston, one to nothing; the Manchesters beat the Hartfords at Manchester, two to one, in thirteen innings.

Frederick Whittaker, Gen. Custer's historian, charges Major Reno and Capt. Bouteen with cowardice at the Custer massacre. A Congressional investigation will be made.

Gen. Benjamin L. E. Bonneville, the oldest officer on the retired list of the United States Army, died at Fort Smith, Ark., on the 12th inst., aged eighty-five years. He was a native of France, entered West Point Academy in 1813, led an exploring expedition in the then far west from 1831 to 1836, served with distinction in the Florida and Mexican wars, and was supervisor of recruiting in Missouri during the rebellion.

New York had another mysterious explosion, Thursday. It occurred in a morocco factory, which was burned, together with a furniture factory and six tenement houses.

The captain of the steamer Leopard, after she struck the Londoner, was disgusted to find that his vessel was one of those leopards that can't change their spots.

Political.

"To Greece we give our shining blades" must have been the cry of the democratic pruners of the national House. It is discovered that the consular appropriation bill has no provision for the mission to Greece, and as we can have no consul there our communications with that kingdom must be through the Minister to Turkey. The second secretaries of legations are cut off. Some of these officers, who have recently been appointed and just arrived at their stations, will have a fine opportunity on the return passage to contemplate the liberality of the party which votes against proper consular representation and prohibits the army from being used as in Quebec the other day, to quell a mob.

The Indianapolis *Journal* reiterates that it is an open secret in Indiana that Mr. Hendricks feels very bitterly toward Mr. Tilden. His friends claim that he has ample reason for feeling so. They say that Tilden has not only acted in bad feeling toward him, but has treated him sometimes with indifference, sometimes with contempt, and always as if he knew nothing about politics, and was a very unimportant factor in public affairs.

Hon. A. H. Stephens, in referring to the Potter investigation, compares it to a rat-terrier in pursuit of a mouse—while the game is of trifling consequence if caught, the terrier may do great damage by overturning boxes, jars of preserves, etc., in the pursuit. In this case the democratic boxes will be overturned, but no mouse will be caught.

The Newburyport greenbackers will have a mass meeting on the 4th of July, and have invited Caleb Cushing, R. S. Spofford, Gen. Butler, Horace Binney Sargent, and William D. Northend to address them.

Jewels of the Crown of Scotland.

At Edinburg, Scotland, some years since, the Jewels of the Crown were locked in a box, that box in another, and so on, until they were supposed to be burglar-proof. They were then locked up in the vault of the castle, there to remain for one hundred years, the keys being placed in a mortar and fired into the sea. Scarce fifty years passed by, and the modern lock-picker opens the vault and boxes without trouble. So the science of medicine, when studied with the aid of cuemistry and the microscope, becomes plain and simple, and diseases that were regarded incurable a generation ago, now readily yield to remedies employed by the modern and progressive physician. A decade of years since, and women were taught to believe that their peculiar diseases and weaknesses were incurable; but now hundreds and thousands of once bedridden women in the United States will testify to the fact that Dr. Pierce's Favorite Prescription has effected their perfect and permanent cure.

TOLEDO, O., Dec. 6th, 1876.

DR. R. V. PIERCE, Buffalo, N. Y.:

Dear Sir—About five years since my wife was taken sick, and though we employed the best physicians in our city, yet she gradually grew worse, so that she was confined to the bed. Every remedy I had tried, or could find, failed to cure or even give relief. At last I procured a bottle of your Favorite Prescription and to my surprise it gave almost instant relief, and with a little perseverance, an entire cure was effected.

Ever gratefully yours,

GEO. BORDENMILLER.

The Correct Standard of Taste for the Surrounding Country, I hope to continue to receive the patronage of the Ladies, all of whom are cordially invited to visit my Millinery Parlors,

No. 69 Congress Street.

At their earliest convenience.

M. F. BICKFORD.

REMOVAL!

I WOULD respectfully inform the people of Portsmouth and vicinity, that I have removed from my old stand to the store formally occupied by BENJAMIN CHEEVER.

Having a larger store and better accommodations, I trust to receive the same liberal patronage which has been extended to me in the past. I shal endeavor to keep a

E. G. PIERCE, JR., P. M.

THE CITY.

The watering machines have had a vacation.

Rear Admiral Alfred Taylor, U. S. N., is at the Rockingham House.

Turnouts from Rye Beach, and stages with passengers for York sands, indicate that "the season" has begun.

The house on Richards avenue formerly occupied by the late James D. Butler, Esq., is to be sold at auction next Tuesday.

The cruise of the Una was a pleasant one despite the showers on shore. It is stated that one or two professional gentlemen were quite disinclined to partake of chowder not having their usual appetites at dinner time.

We are assured by Dr. Potter, the physician in attendance on Mrs. Lewis Lear, that she did not die of hydrophobia, but of nervous exhaustion and excessive weakness brought on by a refusal to take proper nourishment, which finally ended in a fatal faint.—*Times.*

Do not forget that the grand concert by Harlow's Orchestra, Prof. J. D. Boothman, flutist, and nine violin pupils of Mr. Harlow, comes off at Music Hall Monday evening, and that tickets are now ready at Preston's. It will be one of the most enjoyable entertainments ever given here.

Mr. Reuben E. Gilpatrick, of Co. D, 5th N. H. Vols., took from over his left lung a piece of a shell which he has carried since the battle of Gettysburg, July, 1863. It weighs twenty-eight grains, and the gallant Reuben prefers to carry it in his pocket rather than have it attached to his breathing apparatus.

Department Commander C. J. Richards of the Grand Army of the Republic was in this city Thursday, making arrangements for the revival of Storer Encampment, Post No. 1, which was the first Grand Army post established in the State, but surrendered its charter some years since. It is probable that the post will be revived immediately.

Steamer Clara Batemen takes a party of "railroad men" and others, from Manchester, on an excursion to the Shoals to-day. These gentlemen have for a number of years past employed the Clara Batemen several times during the hot weather, and have always been pleased with both commander and boat. The steamer already has contracts for taking out a number of other parties, and can be secured for a pleasure trip at any time.

A number of prominent citizens have signed a petition asking that the sidewalk in front of the house occupied by Mr. John Durgin on Congress street, opposite the crossing to Middle street, be put in order. A deep hole in the walk after every rain retains the water for a long time, or until it dries out, and the place has long been a reproach to those having the matter in charge. Such things ought to be attended to without waiting for petitions.

On Friday Mr. William Shannon, Superintendent of the City Farm, brought into town a bushel of new potatoes,—the first reported to us this year. He also exhibited a sample of winter rye seven feet high, pulled from the edge of a two-acre patch, and probably considerably less in height than that in the centre of the lot. Last year he measured forty bushels of winnowed rye from two acres of ground, and expects to do as well this year. At this rate rye should go a good paying crop, for the straw is worth nearly as much per ton as hay.

Steamer Appledore commences her regular trips to the Shoals to-day, and will hereafter make two round trips each day except Sunday. Both hotels are now ready for guests. Mr. Charles Salter, the efficient and gentlemanly clerk of the Appledore House last year, fills the same position this season; Mr. Hodgdon is clerk of the Oceanic. Several of the families that make a permanent residence of the Shoals each summer, arriving before "the season" opens and remaining until after it closes, are already in their old quarters at the Appledore. The steamer took out some dozen or more boarders on Thursday; and on Friday, on the arrival of the train leaving Boston at 12:30 o'clock P. M., she started out with thirty more. History will probably repeat itself this year by scoring a full house at the Shoals before guests have fairly commenced to arrive at the beach houses.

The general belief is that it is high time to cut the grass on the reservoir on Haymarket square.

Coal freights at Baltimore to this port and Newburyport are $1.40 per ton. From the Hudson river ninety cents is paid.

During the three months absence in Europe of Rev. A. J. Paterson, D. D., formerly of this city and now pastor of the Universalist church at Boston Highlands, his wife will supply the pulpit.

Bill Coombs, who escaped from Exeter jail two years ago, was on Thursday arrested at Springfield, Ill., by Sheriff J. Horace Kent of this city, who at once started for home with his prisoner.

Osgood Lodge of Odd Fellows have voted to occupy Knights of Pythias Hall, and will hold their first meeting there on Thursday evening, on which occasion the Grand Master of the State and other officers of the Grand Lodge will be present.

Mr. John Willey, of this city, who was in Capt. Reuben Hayes' company of New Hampshire militia stationed in this harbor in the war of 1812, has been granted a pension. His application was made through Wallace Hackett, Esq., on the second of April last, and is one of the earliest allowed from this section of the State.

THE VICINITY.

The poll tax in Exeter this year is $1.45.

A session of the United States District Court will be held in Exeter on Tuesday next.

The Advent Camp Meeting at Seabrook will begin June 29th, and continue over two Sundays. Seventh-day Adventists are expected to be present.

Dumas, at Boar's Head, Hampton Beach, and Albert Bachelder, at Little Boar's Head, already have summer guests beneath their hospitable roofs.

Edgar W. Warren, of Haverhill, Mass., sentenced to one year's imprisonment in Exeter jail last October, for stealing a watch at Hampton Beach, in August, 1876, has been pardoned by Governor Prescott.

Miss Lizzie Gardner, formerly of this town, has not only had two pictures accepted in the Paris Exposition, but, what is considered an even greater recognition of merit, has two pictures in the *Salon*, at Paris. This is the fourth consecutive year Miss Gardner has been accepted in that fastidious exhibition, so that her reputation may be considered as fairly established.—*Exeter News-Letter.*

Dr. C. M. Murphy, of Dover, our consul to Moscow that is to be, has been appointed one of the executive council of the New Hampshire Dental Association. Thus honors thickly cluster around the head of the Colonel. It is rumored that before he leaves to enjoy the honors and emoluments of his Russian position a public dinner will be tendered him by his fellow officers who perform staff duties with him, and by others who appreciate his social and other qualties.

During the thunder-shower of Wednesday, the 12th inst., Mr. George S. Chesley, of Durham, was almost instantly killed by lightning. He was at work in a field with Mr. Patrick Bean, hoeing, and when the shower came up the two men sought shelter under an apple tree, which was struck by one of the first flashes of lightning. Mr. Chesley lived long enough to make a few indistinct utterances, and breathe a few times. Mr. Bean had one leg blistered from the hip to the knee, but was not seriously injured. Mr. Chesley was forty-two years old, and leaves a widow and six children, the oldest about twelve years of age.

BARNUM'S CIRCUS,

Accompanied by the great showman himself, will exibit in Dover on Tuesday next. Excursion trains will be run on all the railroads leading into Dover, so as to give all who wish a chance to visit it. The performing horses which are a specialty of the show this year are said to be the most intelligent and best trained animals ever exhibited. The circus has been largely patronized wherever it has gone this season, and the horses, riders, performing elephants, acrobats, clowns, etc., are all spoken of as being first-class. We have received a letter from Mr. Barnum in which he assures us that his show this year is far the best he has ever put on the road, and that the performing horses fully merit the seemingly extravagant praises given them in the papers. The reason he does not exibit in Portsmouth this year is because the daily expenses of the show foot up over $3000, and he feared to take in on the route both Dover and this city. Next year the great show will come here. See advertisement.

SUNDAY SERVICES.

At the Court street (Christian) church, Rev. John A. Goss, pastor, preaching at 10:30, A. M., and 2:45 P. M.; prayer meeting at 7:30. All are welcome. Preaching to-morrow morning by Rev. E. Owen; at 2:45 P. M. by Rev. Dr. William H. Alden.

At the Congregational church, Rev. James W. Hubbell, pastor services at 10:30 A. M.; services at chapel at 7:30 P. M. The afternoon service in the church is omitted until Oct. 1st. Mr. Hubbell will preach in the church at Newington to-morrow afternoon at 2:30.

At the Advent church, services at 10:15 A. M., 2:45 and 7:30 P. M. Preaching to-morrow by Elder Hiram Munger, of Chicopee Falls, Mass.

At the Freewill Baptist church, on Pearl street, Rev. E. Owen, pastor, services at 10:30 A. M. and 2:45 P. M.; Sabbath school at 11:30 A. M.

At the Methodist church, Rev. C. B. Pilsbado, pastor, preaching at 10:15 A. M. and 2:45 P. M.

At the Universalist church, Rev. E. M. Grant, pastor, services every Sunday at 10:30 A. M. and 7:30 P. M.; Sunday school at 2:45 P. M. A cordial welcome to all.

At the South Parish, Rev. James DeNormandie, pastor, morning service at 10:30, vespers at 7; Sunday school at 2:45 P. M. Rev. Henry G. Spaulding, the distinguished lecturer, will preach to-morrow.

At St. Mary's (Catholic) church, Rev. E. M. O'Callaghan, pastor, Children's Mass at 8:30, Solemn Mass at 10:30 A. M.; Sunday school at three o'clock, P. M.

At St. John's (Episcopal) church, Rev. Chas. A. Holbrook, rector, services at 10:30 A. M. and 7:30 P. M. every Sunday,—except the first Sunday in each month, when the Children's Choral Service and public cathechising, commencing at four o'clock, is substituted for the usual one at 7:30; seats free at this service.

Mission services; William A. Loyne, Volunteer Missionary. Residence at Faith Home, 16 Deer street. At home daily from 8 to 10 A. M. and 12 to 2 P. M. Services every Sabbath at the Alms House at 10:30; at the County Jail at 12:30. Consecration Meeting every Monday evening at the Home.

At the Middle street (Baptist) church, Rev. W. H. Alden, D. D., pastor, services at 10:30 A. M. and 7:30 P. M.; Sunday school at the church at 2:45 P. M.

The Reform Club will hold a meeting in Franklin Hall at four o'clock, or immediately after church in the afternoon. Admission free. Rev. Mr. Pitbladd will make a few remarks, after which there will be speaking by several members of the club.

There is Trouble in Store

For those who neglect to rectify irregularities of the stomach, liver and bowels, which they foolishly imagine will "come right of themselves." Or this silly error such persons are usually disabused by the development of some serious chronic malady, traceable to what they were pleased to consider a trifling disorder of the above named associate organs. Such a culmination is easily avoided. A course of Hostetter's Stomach Bitters invariably has the effect of renewing the secretive action of a torpid liver, restoring healthy digestion and assimilation, and rendering the habit of body perfectly regular. The activity of these all important functions being restored, and the entire system toned and regulated by this incomparable corrective and invigorant, no danger to the general health is to be apprehended from causes which, if not eradicated in time, will assuredly undermine it.

It has been customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

Alex. Frothingham & Co., brokers, 12 Wall st., N. Y., make careful investments for customers, in sums of $25 to $100, which frequently pay ten to twenty times the amount invested. Their *Weekly Financial Report*, sent free, gives full information. 9

The Colonnade Hotel, Philadelphia, Pa., by a judicious reduction of rates, will maintain its famous reputation as a model first-class house, alive to the demands of the time.

Adamson's Botanic Balsam being free from opiates and equills, not only allays the local irritation, but improves digestion and strengthens the constitution; hence it is used with the most signal success in Asthma, Coughs, Colds, Bronchitis, Quinsy, affections of the throat and chest. All who wish to preserve health and thus prolong life, should use Adamson's Balsam.

MARRIAGES.

HODGDON—PAUL. In South Newmarket, June 5th, Mr. Lewis Hodgdon and Miss Mary M. Paul, both of that town. Miss Paul was organist of the Universalist society of South Newmarket from the time of its organization until her marriage.

BATCHELDER—FOGG. In Lewiston, Me., June 3d, Mr. Warren Batchelder of Hampton Falls and Miss Jennie R. Fogg of Lewiston.

DEATHS.

TUCKER. In this city, June 16th, Mr. John Tucker, aged 74 years.

MERRILL. In South Hampton, June 9th, Mr. Amos Merrill.

A General Rebellion.

TRIUMPH OF A GREAT DISCOVERY!

The public has *rebelled* against *conterfeiting Hair Dyes*. Fashion has foresworn them. A sagacious community has adopted in their stead,

CRISTADORO'S HAIR DYE,

and for *these reasons:* It embrowns and blackens the *hair*, not the *skin*. It is a *vegetable emollient*, not a *burning fluid*. It does not burlesque nature with *blooming metallic tinges*, but produces her own *living hues*. Its cooling effect is *lasting*. It *defies detection*. Its results are *uniform*. It *never fails*. Manufactured by J. CRISTADORO, No. 93 William St., New York. Sold by all Druggists. Applied by all Hair Dressers. 4yr15

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&teep1517

THE NEW HAMPSHIRE

GAZETTE

Established 1756.

The Gazette is published every Thursday, and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains **full accounts** of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of **NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news,** containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a **WEEKLY INVITATION TO CUSTOMERS,** at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Portsmouth Chronicle

The Philosophers Floored.

Philosophers Halstead, Medill and others of the silver school, were prophets in the days when they were shrieking for the daddy dollar. They prophesied that if the dollar should be remonetized silver would instantly advance to its old relation to gold; that sixteen ounces of it would instantly become equal in value to one ounce of gold. Well, more than three months have passed since the silver dollar was remonetized, and still silver has not advanced as predicted. On yesterday it was quoted at 116 3-8 per ounce in gold in New York. The gold value of the silver in a dollar was a fraction over ninety cents. About seventeen and three-fourths ounces, instead of sixteen ounces, of silver were equal in value to an ounce of gold. Silver was cheaper than it was before remonetization. European bi-metalists like Ernest Seyd and M. Cernuschi told us that we alone could not restore silver to its former value by remonetizing it; that the co-operation of all the leading commercial nations would be necessary in order to accomplish that result. But our philosophers thought they knew better. And now they have the satisfaction of knowing that they were false prophets, and that this country is not all powerful in regulating the value of things.—*Chicago Times.*

Centaur Liniments.

More than 1,000,000 bottles of the above celebrated **Centaur Liniments** were sold last year. We have not the least fear of contradiction that no man, woman or child will say that they were not benefited or perform according to the advertisement. We do not propose to tell the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Wintergreen Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. **The White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lumbago, Spavin, Ring-bone, Sweeney, Galls, Poll-evil etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 25 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '71. *Dear Sir:*—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.

F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. B. ROSE & Co., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms our Stomach and Disordered Bowels, there is nothing like Castoria. tsug

INVALIDS' HOTEL.
The very large number of invalid people who daily visit Buffalo, from every quarter of the United States and Canada, that fled thither to consult Dr. R. V. Pierce, and the widely celebrated Faculty of Specialists in Medicine and Surgery associated with him, rendered it necessary that the founder of this institution should provide a place on a grand and commodious scale for their entertainment and comfort.
ADVANTAGES OFFERED.—The Invalids' Hotel is more complete in its appointments than any similar institution in the world. The building is located in one of the most healthful and desirable portions of the City of Buffalo, and commands a fine view of Lake Erie, Niagara River, and the surrounding country, being situated in the midst of an extensive system of beautiful parks. The Hotel is furnished with a patent safety passenger elevator, to convey patients to and from the different floors; is provided with all kinds of approved baths, and has also connected with it a well-appointed gymnasium and bowling alley to afford proper means of exercise.
CHRONIC DISEASES of all forms, whether requiring medical, surgical, or mechanical treatment, come within the province of our several specialties.
DISEASES OF WOMEN.—Especially are the facilities of this Institute of a superior order as regards the remedial means and appliances for the cure of all those chronic diseases peculiar to females. The employment, in moderation, of tonic, chemical, electro-thermal, and other approved baths, in the many cases an invaluable auxiliary to the remedial means to which we resort in such cases. Dry friction to the surface, genteel shampooing, Swedish movements, and light calisthenic exercises, to enliven and equalize the circulation of the blood in the system, have competent parts, improve digestion, and strengthen the muscles, produce important beneficial results in all cases to which these means are applicable. No experimenting is resorted to in the treatment. The most approved medicines are carefully employed, and the judicious regulation of the diet to suit the condition of the patient, the thorough ventilation of the sleeping apartment, the cheering influence of music, social intercourse, innocent games and amusements, and all those agencies which tend to arouse the mind of the patient from despondency, and thus promote recovery, are not neglected.
NERVOUS DISEASES—Paralysis, Epilepsy (Fits), Chorea (St. Vitus's Dance), and other nervous affections, receive the attention of an expert in this specialty, by which the greatest skill is attained and the most happy results secured.
LUNG DISEASES.—This division of the practice in the Invalids' Hotel is very ably managed by a gentleman of acknowledged ability and skill. Bronchial, Throat, and Lung Diseases are very largely treated in this Department, and with results which have been highly gratifying to both physician and patients.
EYE AND EAR.—Special attention is given to the delicate operations on the eye and ear, a distinguished oculist and aurist being under engagement to conduct this branch of the service.
Invalids arriving in the city and desiring to consult us, should send their baggage to the Hotel. It is easily accessible by carriage, omnibus, or street cars. Miller's Omnibus Agents, on all incoming trains, can be relied upon to deliver passengers and baggage with security and dispatch.
☞ Address R. V. PIERCE, M. D., World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $10 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once. G1y278
H. HALLETT & Co., Portland, Me.

DR. JOHN TRIPP'S
BLOOD PURIFIER
IS the most wonderful discovery for the radical cure of SCROFULA and SYPHILIS. It never fails to entirely eradicate either of these diseases and all Blood Poisons from the system. ULCERS, CANCERS, WHITE SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM and GOUT yield to its power. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.
Sole Eastern Agency, 306 Columbus ave., Boston. Office hours, 8 to 11, A. M., 3 to 7 P. M.
Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. eodinov11

Transportation.

RE-OPENING
OF THE POPULAR
PROVIDENCE
LINE
TO NEW YORK,
VIA PROVIDENCE.
Opens April 29, for the season of 1878.
Only 42 Miles of Rail.

PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND **Equipment**
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. 16eb20 79

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL,
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer *every evening during the season.*
New and Elegant Drawing-Room Cars on Steamboat Express Train.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.

DOCTOR PIERCE'S
ALT. EXT. OR
Golden Medical Discovery

CURES DISEASES OF THE
THROAT, LUNGS, LIVER & BLOOD.
In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has combined in *harmony* more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or "**Biliousness.**" In many cases of "**Liver Complaint**" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.
SOLD BY DRUGGISTS AT $1 PER BOTTLE.
Prepared by **R. V. PIERCE, M. D.,** Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y.

NEW FOUR PER CENT

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation whereby the essential principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use as organism so delicate as the nasal passages. Yet all snuffs are insoluble compounds of woody fibre; all medicines, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and from there into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen,—About twelve years ago, while travelling with Father Kemp's Old Folks Concert Troupe as a temperance lecturer, I took a severe cold and was laid up at Newark, N. J. The cold brought on a severe attack of Catarrh, which I battled with every known remedy for nearly two weeks in vain, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one who has head aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours, GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1876.

P. S.—I purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Rumford Building.

Each package contains Dr Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for two years, and have universally proved the innumerable of remedies in the form of liniments, lotions, painkillers, and ordinary plasters, they have steadily increased in sale and net with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many remarkable cases have been made to by well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world of medicine.* All we ask from every sufferer is the land a single trial. The price (50 cents) is nominal, the cost is double that of any other plaster. But, notwithstanding the efforts of the proprietors to make the best plaster in the world for the least money, any similar remedy can be bought, numbers of unscrupulous dealers will be found ready to misrepresent them for *selfish motives* and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canada, and by WEEKS & POTTER, Proprietors, Boston, Mass.

NO. 3 BOW STREET.

Daily Chronicle.

A Wonderful Escape.

Ever since Lake Erie has been navigated by civilized people, especially for the last century, has she swallowed up large numbers of human being by shipwreck, by fire, and by other casualties, and while many bodies are recovered, there are hundreds that are never found and many that float ashore that are never indentified.

Capt. Gilman Appleby, of Conneaut, Ohio, was captain and part owner of the schooner New Connecticut. An aunt of his, then residing at Black Rock, below Buffalo, went to Conneaut to visit her brother there. After remaining for some time she became exceedingly anxious to get home. Capt. Appleby endeavored to dissuade his aunt from taking the home journey until he should be going out with his vessel, when he would take her home. His efforts in that direction, however, were unavailing, and he had her taken on board the schooner to go to Buffalo in charge of the crew.

Everything passed off quietly until after the vessel had passed Erie, when a sudden squall struck and rolled her upon her side, when she nearly filled with water, but continued to float. The crew loosening the vessel's yawl jumped in and pulled for the shore, leaving the woman in the cabin, as they supposed drowned. The party landed, and made their way as best they could back to Conneaut.

Three days after the accident Capt. Wilkins, of the steamboat William Peacock, in coming down from Detroit, was besought by Capt. Appleby to board the wreck if he saw it, and if possible to get the body of his aunt out of the cabin and convey it to Buffalo. Capt. Wilkins discovered the disabled vessel drifting down the lake, and, after coming alongside, the first mate of the Peacock boarded the wreck and made search. The schooner lay upon her side, and, to all appearances, was full of water. A pole was employed and it was supposed every part of the cabin was touched, and the conclusion was reached that the remains had floated out of the cabin into the lake, hence further search was given up.

Two days afterward Capt. Appleby came down with a vessel with facilities to right the schooner and tow her into the nearest port, the drowned woman's son being along to assist in the recovery of the body. The vessel was finally righted, and when the cabin door had nearly reached a level position, the woman walked through the water and came up the stairs upon deck.

She was caught by Capt. Appleby and supported, while her son wept and sailors screamed. Five days and nights had she been in the water, while a portion of the time she was up to her arm-pits. She could not lie down, and what sleep she got was in that position, and all the food she had was a solitary cracker and a raw onion, which floated on the water.

She stated that after the vessel capsized and was abandoned by the crew, she found herself alone in water waist-deep. The cabin door was open but the flood was two feet above it, and the sea made constant changes in her position. When Capt. Wilkins stopped she could hear the boarding-party talk and walk on the vessel, and although she used her voice to its utmost to attract attention she could not make them hear. She saw the pole thrust into the cabin door by Capt. Menton and asked if she should hold on to it and be pulled out, but no answer came, the captain hearing no noise other than the splashing of the water, and having not the remotest idea that the woman was there, alive or dead.—*Erie Dispatch.*

—An odd affair is reported from Hartford. The wife of a worthy clergyman thought her pretty servant girl was becoming too intimate with the owner of the tenement where they lived, a widower, who occupied rooms in the same building, and finally in a fit of indignation said, "Pack up your things and leave my house." The girl left, but returned in the afternoon and entering, said to her late mistress, "I am Mrs. ——; now pack up your things and leave my house." The servant girl had married the landlord and the order was enforced.

Daily Chronicle

MONDAY, JUNE 17, 1878.

The Flattened-Out Fraud Revolution.

Nothing in modern times has flattened out more thoroughly than the attempted revolution of the Tilden-Potter fraud engineers. The "bouncing" and bullying of the fraud leaders and editors when the movement was first started, have ceased; and the "democratic House," which under the lead of a dozen unscrupulous men and the tyranny of King Caucus once almost unanimously voted down a resolution that the aim of the Potter-Tildenites was not revolution, last Friday voted by an immense majority that there is no legal method of questioning President Hayes' title. The explanation of this sudden and complete right-about is plain; they had found their "evidence" to be such as would not be accepted in a police court squabble over ten cents; and more, they had heard from the people, and learned that the conspirators' meditated attempt at Mexicanizing this country would result disastrously for the revolutionists if it was persisted in. Hence their willingness now to affirm what before they refused to acknowledge or even discuss.

This vote leaves the miscalled "investigation" standing forth as a confessed partisan measure—to make political capital for the democratic party, at whatever expense to the business interests of the country, and force the people to pay the bills from the national treasury. And even as such a scheme it is up to the present time worse than a total failure. It has introduced to the country Night-Editor Anderson, the most versatile liar and perjurer who has lately sworn in public to his own crimes, and has given the democratic papers a chance to use staring head-lines as to what has been "proved" by that self-confessed scoundrel's perjuries. And that is about all.

On Friday a Mrs. Jenks, of Louisiana, whose testimony the democrats have been loudly proclaiming would show that at last Anderson had blundered into telling the truth, was again excused from appearing by the Potter committee, though she had been waiting two days to testify. The democrats, it was acknowledged, feared she would flatly contradict their champion liar, Anderson, so they did not want to hear her. Anderson, by the aid of Potter's campaign committee, on Friday played a trick on the Senate committee; on a plea that he wanted to hear Mrs. Jenks examined by the House committee, he asked the Senate to excuse him; this was done, and Mr. Morrison was requested to inform the Senate when he was through with Anderson. Instead of this, Anderson was discharged Friday evening, and left at once for Philadelphia. The whole thing appears to have been a trick to keep Anderson from being examined by the Matthews committee.

The Florida committee has returned to Washington without a particle of testimony of the least importance to the democratic cause. Mr. Hiscock, the republican member, says the Associated Press dispatches from the south constantly distorted and often flatly misrepresented the testimony taken. McLin, in addition to admitting the truth of the letter he wrote Noyes, swore that he only knew of the statements in his so-called confession from hearsay, and that if he had now to make a canvass of the State over again, he would be obliged to make it exactly as he did before.

The democratic campaign committee was in session on Saturday, but the managers were still too much afraid of Mrs. Jenks to call her as a witness.

Congress.

The House on Friday practically killed the Brazilian subsidy bill and the bill to partially restore the franking privilege. This was not bad, but as an offset the members of the "reform democratic House" the previous evening voted themselves $125 each for stationery and newspapers during the extra session last October and November.

The Senate modification of the resumption act was sought to be taken up by Ewing, but the motion was defeated by eleven majority; this insured its final defeat.

The following resolution was offered by the judiciary committee:

Resolved, That the two houses of the Forty-forth Congress, having counted the votes cast for President and Vice President of the United States, and having declared Rutherford B. Hayes and William A. Wheeler duly elected President and Vice President, there is no power in any subsequent Congress to revise that declaration; nor can any such power be exercised by the Courts of the United States or any other tribunal that Congress can create under the Constitution.

This resolution was passed by a vote of 234 to 14, the noes being Blackburn, Bliss, Boone, Cook, Cox of New York, Hamilton, Henry, Kimmel, Mayham, Pridemore, Robertson of Louisiana, Smith of Georgia, Springer and Warner.

The Senate on Saturday elected Wm. E. Spencer chief clerk, in place of Major MacDonald, deceased.

The resolution extending the session of Congress to Thursday was passed.

The House agreed to the conference report on the river and harbor bill. The bill appropriates $8,360,000—most of it for "jobs." It is one grand steal.

Mr. Jones has presented to the House of Representatives, the petition of John Dore, a survivor of the war of 1812, for pension. Mr. Blair has introduced a bill to establish a polytechnic school for the United States, or school for instruction in science and useful arts, to be supported by the surplus income of the patent office. In introducing this measure Mr. Blair offered some remarks which he has leave to print in the congressional record.

Don't Pass It, Gentlemen.

It is announced from Washington that "the democratic leaders in New Hampshire have written to prominent democrats of the House, urging the defeat of the Senate bill authorizing the present Legislature of New Hampshire to elect a Senator to succeed Mr. Wadleigh. They represent that there is a slight chance of the democrats carrying the Legislature next November, and that to allow the present Legislature to proceed to elect a Senator would be a direct blow to the democrats' prospects of success in the State. Owing to these representations there is not much prospect of the bill passing the House this session."

There is no doubt that the democrats' "chance of carrying the Legislature next November" is "slight" enough; but we do not believe there is any one thing that could be done that would aid them more than the election of a Senator by the present Legislature. With a Senatorship depending on the result of the November election the republicans will work—and that means victory, and three republican Congressmen in the next House. With the Senatorship decided it is possible that some apathy might obtain in the republican ranks; and it is also possible that a senatorial election at this session of the Legislature might breed discord in the party just when unity is most to be desired. We sincerely hope the "democratic House" will sit down on the bill referred to.

Naval Affairs.

Paymaster Henry T. Wright is ordered to report for duty at this navy yard July first, as paymaster of the yard, succeeding Paymaster Edwin Putnam, who is ordered to settle his accounts.

Surgeon Charles H. Burbank has been detached from the New York navy yard and placed on waiting orders.

Commodore W. D. Whiting has assumed the duties of Chief of Bureau of Navigation.

Commander J. S. Skerrett is detached from the navy yard at Washington, on the 25th June, and ordered as Inspector of the First Lighthouse District on the 1st July.

Commander Henry F. Picking is detached from duty as Inspecter of the First Lighthouse District on the 1st July, and ordered to settle accounts.

Medical Inspector A. L. Gihon is ordered to Washington for temporary duty connected with the physical examination of boys on board the training ship Saratoga, and when that duty is completed will return and resume his duties at Annapolis, Md.

Capt. Jonathan Young, U. S. S. Tennessee, reports to the department his arrival at Gibraltar on the 22d of May, four days from Villefranche. In consequence of the difficulty of getting coal he did not expect to get away until the 26th, and would take the southern passage home.

News and Notes.

Government bonds and other securities to the amount of $52,000, stolen from the Lechmore National Bank some time ago, have been recovered by the bank. The thieves are still at large.

Detectives from Cincinnati searched the medical college at Ann Arbor, Mich., and found some forty odd corpses in pickle in the cellar of the college, the most of which were shipped from Cincinnati. They are quite sure they have found the remains of young Devins, the nephew of the Harrisons, whom they were looking for when Hon. J. Scott Harrison's remains were found at the medical college in Cincinnati. The Harrisons have gone to Ann Arbor to identify the remains of Devins.

The great strike of English cotton workers is about over, many thousands having gone to work at the reduced rates of wages. The Quebec strikers have also yielded, and gone to work; the rioters there are said to have been led by foreign communists, who were brave to foolhardiness until the military opened fire, when they lost all interest in the matter.

A Boston merchant, who arrived at Portland by boat Friday morning, lost a wallet containing $9000, and gave one dollar to the finder who restored it.

New Hampshire Items.

Four men stole a valuable buggy belonging to M. A. Hastings in Lancaster, Thursday night. Some Frenchmen who have been lurking about town with teams and extra horses are suspected, and it is believed the stolen property is now in Canada.

William Hoyt died at Rochester Friday from injuries recently received by being run over by a hand car on the Boston and Maine Railroad.

At the Phillips Exeter Academy regatta Friday, there were four six-oar crews. Capt. Wylie's crew made the best time, a half-mile in two minutes and fifty seconds.

The White Mountain Ministerial Methodist Association closed a two days' session at Littleton Friday.

The annual meeting of the New Hampshire Prisoners' Aid Association was held in Concord Friday night. The following officers were elected for the ensuing year: President, Hon. H. G. Nesmith of Franklin; Vice-Presidents, Rev. F. D. Ayer of Concord, S. B. Page of Haverhill; Secretary and Agent, Rev. Elisha Adams of Concord; Treasurer, Hon. Oliver Pillsbury of Concord. A council of eleven was also elected.

A sportsman's club has been organized in Kennebunk, under the title of the Kennebunk Fish and Game Protective Association, one clause of its constitution being as follows: "This association, individually and collectively, pledges its earnest support to the protection of fish and game, and the enforcement of the game and fish laws of the State of Maine, using its earnest endeavors to bring any infringement of said laws before the courts of this State." The laws of Maine relating to the protection of fish and game have not been enforced as they should be by the authorities, and as a consequence the fish are rapidly disappearing from the brooks and rivers, and the game from the forests, of that State. The Kennebunk club announce that they "mean business," and will prosecute to the end any infringements of the game laws brought to their knowledge.

—Arrangements have been made for testing the utmost powers of carrier pigeons, by a flight of 700 miles, from Rome to Brussels, on June 22d. There are more than 600 birds entered for the race, but it is not expected that more than one per cent. of them will succeed in making the journey. The line of the projected race crosses Mount St. Gothard, and it is supposed that the successful birds will take the direct course, which must carry them over the peak, at 10,000 feet above the sea level.

—An odd affair is reported from Hartford. The wife of a worthy clergyman thought her pretty servant girl was becoming too intimate with the owner of the tenement where they lived, a widower, who occupied rooms in the same building, and finally, in a fit of indignation, said, "Pack up your things and leave my house." The girl left, but returned in the afternoon, and entering, said to her late mistress, "I am Mrs.——, now; pack up your things and leave my house." The servant girl had married the landlord, and the order was enforced.

—Steps are being taken by the Adirondack Club, composed principally of wealthy residents of New York, to restore the great North woods to their primeval condition, so far as game is concerned. With this end in view they have recently shipped from the wilds of Maine a magnificent pair of moose, the male standing over six feet high and weighing 1200 pounds. Four more of these animals are expected soon to arrive; and ten game constables are to be appointed at a salary of $200 each, to see that they are protected.

There is Trouble in Store

For those who neglect to rectify irregularities of the stomach, liver and bowels, which they foolishly imagine will "come right of themselves." Of this silly error such persons are usually disabused by the development of some serious chronic malady, traceable to what they were pleased to consider a trifling disorder of the above named associate organs. Such a culmination is easily avoided. A course of Hostetter's Stomach Bitters invariably has the effect of renewing the secretive action of a torpid liver, restoring healthy digestion and assimilation, and rendering the habit of body perfectly regular. The activity of these all important functions being restored, and the entire system toned and regulated by this incomparable corrective and invigorant, no danger to the general health is to be apprehended from causes which, if not eradicated in time, will assuredly undermine it.

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

Alex. Frothingham & Co., brokers, 12 Wall st., N. Y., make careful investments for customers, in sums of $25 to $300, which frequently pay ten to twenty times the amount invested. Their *Weekly Financial Report*, sent free, gives full information. 9

Adamson's Botanic Balsam being free from opiates and squills, not only allays the local irritation, but improves digestion and strengthens the constitution; hence it is used with the most signal success in Asthma, Coughs, Colds, Bronchitis, Quinsy, affections of the throat and chest. All who wish to preserve health and thus prolong life, should use Adamson's Balsam.

A General Rebellion.

TRIUMPH OF A GREAT DISCOVERY!

The public has *rebelled* against *conderning Hair Dyes*. Fashion has foresworn them. A sagacious community has adopted in their stead,

CRISTADORO'S HAIR DYE,

and *for these reasons:* It embrowns and blackens the *hair*, not the *skin*. It is a *vegetable emollient*, not a *burning fluid*. It does not burlesque nature with *blooming metallic tinges*, but produces her own *living hues*. Its cooling effect is *lasting*. It *defies detection*. Its results are *uniform*. It *never fails*. Manufactured by J. CRISTADORO, No. 68 William St., New York. Sold by all Druggists. Applied by all Hair Dressers. 4jy15

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&6tsep13 7

Special Notice.

PERSONS indebted to GEORGE H. TRIPP are requested to make payment to the undersigned, who is authorized to receipt for the same.

E. G. PIERCE, JR., P. M.

THE CITY.

A despatch was received in this city on Saturday announcing the arrival of ship Paul Jones at Shanghai.

Mr. Henry H. Ham, who for forty-two years has occupied the store No. 6 Exchange Building, moves to-day on Congress street.

Strawberry Bank Encampment of Odd Fellows on Friday evening voted to subscribe $1000 to the stock of the proposed Odd Fellows' Hall.

The Portsmouth nine played a game of base ball with the Marines at the navy yard, Saturday afternoon, and was taken into camp by a score of 32 to 27.

Mr. George E. Hanson, formerly a druggist in this city, has been appointed conductor of the Pullman car on the night train between Boston and Bangor.

Schooner J. W. Hall, carrying the largest cargo of coal (351 tons) ever shipped direct to Dover, passed up the river last Saturday, in tow of steamer Mystic.

City of Portsmouth sixes of 1893 railroad loan sold at $1.06 at auction in Boston on Saturday. Eastern Railroad three-and-a-halfs, $64 to $64.50. Eastern Railroad stock has advanced to $8.

The schooner yacht Wm. H. Russell, Capt. Charles W. Drown, left this port for Boston about midnight on Friday, with a party of pleasure seekers. She is a fine boat and has a competent skipper, and should find enough employment to make her pay well.

At the annual meeting of the New Hampshire Botanic Medical Society held in Concord on Thursday, the President Dr. Adams Perry of this city, delivered an address, which was followed by a general discussion and the presentation of papers. Dr. Perry was re-elected President.

A party of eighteen excursionists who took a day's trip outside the harbor Saturday, laid in as one item of the sea-stock twenty dozen of lager, probably to wash down a barrel of lobsters and half a halibut which they took along. That crowd evidently didn't expect to be seasick, or intend to suffer much from thirst. They can stand it; practice makes perfect.

In an item in Saturday's *Chronicle* regarding the rye field at the City Farm, it was said that Supt. Shannon last year "measured forty bushels of winnowed rye from two acres of ground." The item as written said he "measured forty bushels of winnowed rye an acre, from two acres of ground," which was correct, though it did not get into the paper that way.

The grand concert at Music Hall comes off this evening, when Harlow's orchestra, Prof. Boothman, Harlow's class of nine violinists (several of whom are young ladies,) and several pianists, will give a most enjoyable entertainment. One of the pieces to be given is the Fireman's Polka, which was formerly such a favorite here when performed by the Marine Band, with the singing which is part of the piece. Parquette and balcony reserved seats, 35 cents; gallery 25 cents. Tickets at Preston's.

Hon. A. M. Shaw, of the New Hampshire Senate, was in town on Sunday with his family, they having visited this city to inspect the Hon. Senator's recent purchase of a seaside lot at Kittery, whither—in company with United States Marshal Patterson—they proceeded on Saturday. The Senator will at once start the erection of a cottage upon the site purchased of the Austin estate, and after the responsible duties at Concord are over will proceed to enjoy that rest which comes only to the conscientious patriot.

A day or two ago the skipper of a coasting schooner in port here thought his vessel needed to have the name on her stern repainted, and accordingly sent a painter down to do the job as the vessel laid at the wharf. When the artist got there the line of the schooner's name was just on a level with the cap-sill of the wharf, and close to it, she being backed into the dock away up to its head, so as to obviate the use of a stage. Not noticing how things were situated the painter commenced operations on the cap-sill, putting two letters of the name on the timber and the rest on the vessel's stern. This looked all right at first, when viewed from a little distance, but when the schooner made sail out of the dock she only carried off half of her name, leaving the other half on the wharf!

Portsmouth papers are discussing the military display in this city on inauguration day with some acerbity. It has grown out of what Mrs. Malaprop would term "odorous comparisons." For our part, we think all the companies did remarkably well, and are, without exception, an honor to the State. In the matter of soldierly appearance, fine marching, and excellence in the manual of arms, the palm must be yielded to the Great Falls Cadets. Other companies excelled in some particulars or specialties, but this company excelled in every particular. No unprejudiced person with the slightest knowledge or appreciation of military tactics will gainsay this statement.—*Concord Monitor.*

Mr. John Amazeen, who formerly for several years ran Mr. John R. Poor's schooner "Creed" between this city and the Shoals during the winter, and took out fishing and sailing parties in her from the Oceanic during the summer season, has just returned from Florida, where he has been steam-boating during "the season" there, which is now ended. We believe he is to again have an engagement at Star Island this summer, but will go to the south once more next autumn. He can certainly sail a schooner—only give him wind enough, and have the spars and rigging all good and the sails new and strong; as long as the wind and gear both hang on, that schooner will have to go just where he wants her to.

George Getchell's store at Wells was broken into Friday night by thieves who removed a pane of glass from a rear door and then slipped back the inner fastenings. The thieves, Oren Goodwin and James Stackpole, secured $85 in money, $50 worth of postage stamps, $50 worth of railroad tickets, and other articles. The police authorities of this city were notified of the robbery Saturday forenoon, and between six and seven o'clock in the evening the thieves were discovered on Hanover street by the City Marshal and Assistant Marshal Gray; the thieves ran, but were soon overhauled and taken to the lockup, where they were searched and $47 of the stolen money found on them, and all the other articles which they had stolen. They confessed the robbery.

The floating debt of the county under the manipulation of that source of accurate information, the Associated Press, has grown to $51,000. It was but $15,000 when the Treasurer made his report.

POLICE COURT.

SATURDAY, June 15; *Batchelder, J.*

William Quinn (3d or 4th, or somewhere along there) was arraigned for an assault on Annie Scanlon. The evidence went to show that Quinn struck the woman a violent blow in the face with a glass tumbler which he threw at her; the Judge considered him probably guilty of an aggravated assault, and ordered him to furnish bonds in the sum of $100 for his appearance at the October term of the Supreme Court to answer to that charge.

FRANKLIN HALL,

It surpassed in dimensions and otherwise by our later tasteful place of amusement, has memories associated with it of scenes enacted there in former days that are most happily recalled by those that survive who shared in them. It was there the last of the old-time winter assemblies were held, which before were given at the Assembly Rooms, and the Washington balls, on the 22d of February, that brought them to a close; the Franklin balls of the Mechanic Association occurred there also for several successive years; it was there that the Lafayette ball was given when "the hero of three revolutions" visited Portsmouth in 1824, when he was introduced to and shook hands with all present, and from the portico in front of the windows on Congress street his voice had been heard on first entering town in the forenoon of the same day; and it was there the Centennial ball occurred the year before, when the walls were covered from the floor to the ceiling with the antique portraits of which Portsmouth still retains so many, and other interesting relics of the past, in which few places are so rich. It was a favorite place for dancing schools that are often referred to by those who attended them; of the teachers was George Schaffer, whose waggish tricks, some of them connected with Portsmouth, are still remembered and related all over the land, but especially in Boston, Providence and New York, where he practiced his vocation as well as here. The first mummy ever seen in this country was exhibited in Franklin Hall, and, very curiously, so much did it resemble him, every one exclaimed on first seeing it, "Why, it looks like Cæsar Whidden,"—a worthy colored man, and an active member of a religious sect who held their meetings over the store occupied in later years by Leonard Akerman & Son. It was in excellent condition, as well as the inner and outer sarcophagus in which it was enclosed; was not at all repulsive as are most of such things, and each visitor brought away specimens of the "fine-twined linen of Egypt" mentioned in the Scriptures, that had formed its numerous wrappings, and still retains its firm texture though more than thirty centuries have gone by since it first came from the loom. While it was on exhibition in Boston, a young gentleman of our city, who was long connected in his maturer years with one of its weeklies, printed some handbills that were posted up in the dark hours about town, announcing that "the mummy, from Boston," would be "exhibited for one day only at the Assembly Room," and the first to present himself at the door for admission, accompanied by two ladies, was "Joe B." (not Dickens's *Major* Joe B.) of a well-remembered firm in the dry goods trade of Market street, who, on finding *out* that he had been "taken *in*, suddenly remembered it was the first day of April. Potter, a travelling ventriloquist and magician, was wont to give there his exhibitions, which he called "an evening's brush to sweep away care," and it was at Franklin Hall that the largest and finest pictures ever seen here were at different times exhibited, including "The Christ Rejected," "Christ bearing the Cross," and "The Destruction of Sodom and the Cities of the Plain," in which the fire falling from heaven seemed so real, visitors were invited to look behind the picture to convince themselves it was not illuminated. The former of the scripture paintings was said to be from the brush of the great French artist, David, and the latter, if of the works of Benjamin West, as is the impression of the writer, was well worthy of him, as compared with his "Death on the Pale Horse" and "Christ Healing the Sick in the Temple," afterwards seen in this country. Other pictures, less in dimensions but of high merit, famed in their day, might also be mentioned. "The Dinner Party," if only six by four feet, gave a view of two large parlors, in the second of which was a party of Boston gentlemen, all likenesses, a dozen in number, surrounding a table from which the cloth had been removed, a servant standing by having a waiter in his hands and a towel across his arm, the shadow of both being seen upon the floor; the whole seeming so real, the glisten of the mahogany, the wine in the decanters and glasses, the dishes of fruit, etc., difficult it was to conceive it but the skill of the artist that made it so. Scarcely less was the surprise of those unaccustomed to look upon such specimens of art, to see in a picture no larger than the above, "The Capuchin Chapel," the interior of a large church, its pictures and statuary, the high altar sparkling with gems, the attendant priests in their rich attire, and a throng of kneeling worshippers around the shrine. It will thus be apparent that Franklin Hall was the scene of much festivity and of many pleasant hours spent there in its earlier history, as well as since its transformation and enlargement at a later time.

J. H. B.

THE KEARSARGE.

[On Sunday morning, June 10, 1864, the noise of the cannons was heard in English churches during the fight between the Kearsarge and the Alabama.]

Sunday in Old England;
In gray churches everywhere
The calm of low responses,
The sacred hush of prayer.

Sunday in Old England;
And summer winds that went
O'er the pleasant fields of Sussex,
The garden land of Kent,

Stole into dim church windows
And passed the oaken door,
And fluttered open the prayer-books
With the cannon's awful roar.

Sunday in New England;
Upon a mountain gray
The wind-bent pines are swaying
Like giants at their play;

Across the barren lowlands,
Where men find scanty food,
The north wind brings its vigor
To homesteads plain and rude.

Ho, land of pine and granite!
Ho, hardy northland breeze!
Well have ye trained the manhood
That shook the Channel seas,

When o'er those storied waters
The iron war bolts flew,
And through Old England's churches
The summer breezes blew;

While in our other England
Stirred one gaunt rocky steep,
When rode her sons as victors,
Lords of the lonely deep.

S. WEIR MITCHELL, *July Atlantic Monthly.*

THE NEW HAMPSHIRE

GAZETTE

Established 1756.

The Gazette is published every Thursday, and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Portsmouth Chronicle

—In a church festival in Newbury, Mo., meals were sold at a dollar apiece, at two long tables. A fine repast was served at one table by male waiters, while at the other exceedingly plain fare was dispensed by the prettiest girls in the village. The choice was a hard one to make, and the caters were about evenly divided.

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of these may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Sparin, Ring-bone, Sweeney, Galls, Foll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 Dey St., New York.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '74. *Dear Sir:*—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.

F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. B. ROSE & Co., New York.

The Centaur Liniments allay

pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless

remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms or Stomach and Disordered Bowels, there is nothing like Castoria. tawg

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by the class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and efficient remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed, in hundreds of long cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Prostration, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here. In all affections of this class my Favorite Prescription works cures—**the marvel of the world.** This medicine I do not extol as a cure-all, but admirably fulfills a **singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of these diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.

R. V. PIERCE, M. D., Prop'r,
BUFFALO, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once,

H. HALLETT & Co., Portland, Me.

DR. JOHN TRIPP'S BLOOD PURIFIER

IS the most wonderful discovery for the radical cure of **SCROFULA** and **SYPHILIS.** It never fails to entirely eradicate either of these diseases and all Blood Poison from the system. **ULCERS, CANCERS, WHITE SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM** and **GOUT** yield to its power. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.

Sole Eastern Agency, 306 Columbus ave., Boston. Office hours, 8 to 11, A. M., 3 to 7 P. M.

Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. eodlmoyl1

Transportation.

RE-OPENING
OF THE POPULAR
PROVIDENCE LINE
TO NEW YORK,
VIA PROVIDENCE.
Opens April 29, for the season of 1878.
Only 42 Miles of Rail.
Steamboat Express Trains will leave Boston & Providence Railroad Station daily (Sundays excepted) at 6 P. M. Connect at Fox Point wharf, Providence, with the **Entirely New and Magnificent**
STEAMER MASSACHUSETTS
and the well-known and popular
STEAMER RHODE ISLAND,
Arriving in New York at 6 A. M. This is the only line affording a delightful sail **through Narragansett Bay** by daylight.
Returning, leave Pier 29, North River at 5 P. M., arriving in Boston at 7 A. M.
No intermediate landings between Providence and New York.
Tickets and State Rooms can be secured at Company's office, 214 Washington, corner State street, and at Boston & Providence R. R. Station.

PENNSYLVANIA RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. ifeb20 79

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express), P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL.
Passing through Narragansett and Mount-Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Train.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 38, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.
GEO. L. CONNER, Gen'l Pass. Agt.
J. R. KENDRICK, Supt.
L. H. PALMER, Agent, 3 Old State House.

Pierce's Pleasant Purgative Pellets

SIZE OF PELLETS.

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of chalk, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious taste. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough, yet gently and kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings,** use **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their salutive impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative, or Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

BUFFALO, N. Y.

PRATT'S
Astral Oil!
THE SAFEST AND BEST
ILLUMINATING OIL!
☞ *For Safety and for Excellent Burning Qualities, it is without an equal.* ☜
CAUTION.
☞ The great popularity of "ASTRAL" OIL has induced some unprincipled persons to sell worthless and dangerous imitations for "ASTRAL," while others palm off inferior oils, representing them as good as "ASTRAL." To prevent this fraud, purchasers should demand "ASTRAL" and take no other.
The Genuine Article is sold by
JOHN P. SWEETSER,
46 Market Street, Portsmouth.

NEW FOUR PER CENT GOVERNMENT BONDS.

The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.

The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.

The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.

Orders by mail will receive prompt attention.

THE STANDARD BROILER.

PATENTED APRIL 10, 1877.

THE *simplest* and *best* article for *Cooking Beefsteak ever invented.*

Can be used over either a Coal or Wood fire.

Cooks Steak so *quickly* that all the *juices* and *flavor* are retained.

DOES not get *rusty* or *cooked* on the meat like broiling irons and gets out of the stove. Does not put out the fire.

Ask your Dealer for the STANDARD BROILER, *if it is just what you want.* The Trade supplied by FULLER, DANA & FITZ, 110 North St., Boston, and WILLIAMS & CO., Nashua, N. H.

MANUFACTURED BY ARTHUR BROWN & CO., Fitchburg, N. H.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. *Glenn's Sulphur Soap* produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts*. It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 60 & and $1.20.

N.B.—Sent by Mail, Prepaid, on receipt of price, and 5 cents extra for each Cake.

"HILL'S HAIR AND WHISKER DYE,"
Black or Brown, 50 Cents.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office. Extensions before Congress. Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & Co. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & Co., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in any organism so delicate as the nasal passages. Yet all snuffs are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing and purifying the secretions. Internally administered it acts upon the organs of circulation, keeps the skin active, and neutralizes the acid poison that has found its way into the stomach and distributes it throughout the system in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen,—About twelve years ago, while traveling with Father Kemp's Old Folks Concert Troupe as a tenor singer, I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack was severer than I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief, it is hardly possible for one whose head aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulation in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh for the first time in twelve years.

Respectfully yours, GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1876.

DR. SANFORD: I purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Rumford building.

Each package contains Dr Sanford's Improved Inhaling Tubes, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for several years, and have received the numerous number of reputations in the form of liniments, lotions, painkillers, and ordinary plasters, they have stood increased in sale and met with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many remarkable cases have been certified to by well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, and as suggested by experience and use, until it is believed that they are now perfect, *as the best plaster, in the opinion of the world of medicine.* All we ask from every sufferer in the land is a fair trial. The price is 25 cents, although the cost is double that of any other plaster. But, notwithstanding the efforts of the proprietors to make the best plaster in the world for the least money, any similar remedy can be bought, numbers of unscrupulous dealers will be found ready to misrepresent them for *selfish motives* and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass. ☞

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO.,
No. 3 BOW STREET.

Daily Chronicle.

From Across the Continent.

Mr. John Stiff, of Scio, Oregon, writes that Dr. Sage's Catarrh Remedy and Dr. Pierce's Golden Medical Discovery cured his wife of catarrh, bronchitis, and asthma, after she had been pronounced incurable by physicians. For nearly a quarter of a century Dr. Sage's Catarrh Remedy has been acknowledged as the favorite medicine for cold in the head, ozæna, and catarrh, while many physicians use it constantly in their practice, depending wholly upon it in this class of affections. We have only space for a few of the many thousand names of those cured, whose letters are on file in Dr. Pierce's office, at the World's Dispensary, Buffalo, N. Y. The following are among them:

E. L. Stewart, Carmi, Ill.; R. L. Harper, Anderson, S. C.; J. M. Howard, Choctaw Agency, Miss.; Allen Wood, Cuba, La.; Theodore Jones, Cherry Point City, Ill.; W. S. Stamps, Connarge, Texas; Robert Martin, Brady, Pa.; Sr. Directress St. Benedict's Academy, St. Mary's, Pa.; Samuel D. Remick, Rockport, Mass.; Thos. J. Bishop, 284 Thirteenth Street, Brooklyn, N. Y.; Chas. Q. Anderson, Brookville, Pa. A. P. Jones, Ringgold, La. says "The remedy is a god-send to the afflicted." Kate T. Wardner, Ravenwood, W. Va., says, "I owe my life to the remedy." For further particulars see Dr. Pierce's Memorandum Book, which is given away by druggists.

—At the Bennington County Court, in session at Manchester, Vt., a prisoner was arraigned to plead to an indictment for burglary. He said he wasn't ready to plead, and didn't care to plead either way, adding, "I'll tell you, Judge, just how the matter hangs. If I don't get bail by to-morrow morning I'm going to plead guilty, and if I do I ain't. See?" He pleaded guilty.

—Some singular phenomena attended the recent voyage of the Liverpool ship James Edwards from Huanillos. On sailing from that place a sharp earthquake was experienced, and for a week the sea was kept in a very disturbed state without any visible cause. During one night, also, the sea was so brilliantly phosphorescent that, though the night was very dark, every seam on the topsail and topgallant sails could be distinctly seen.

—A little girl in the church of Ashland, Va., has been one of a band of workers to raise money to complete the church building. She had earned by her own work a considerable sum for a child, when a friend heard her express a great desire to own a canary bird. It was suggested to her that she could easily purchase one from her own purse. "Oh!" she replied, "I can't get a thing for myself while I have that church on my shoulders."

—There is a case of most singular attachment between a kitten and a hen and brood of chickens, at the north end. The kitten spends most of the day, and the entire night, in the chicken coop in which the hen is confined, and where the chickens are fed and brooded. During the day the kitten lies near the entrance of the cook and occasionally gives the chickens, as they pass, a playful tap; but as night comes on, it curls up by the side of the hen, as she covers her brood, and lies there contentedly until morning. The mother hen offers no remonstrance to the attentions of the kitten to her brood, but rather seems to approve of it.—*Hartford Courant.*

—An Iowa student has succeeded in living on nothing and in earning it all himself. When he arrived in Keokuk, at the beginning of the present term, he paid his tuition bill and found that he had $7 left for current expenses. A quarter's room rent absorbed $3, and he had no bucket, no stove, no furniture, no bed, not even a blanket, and only $4 for board and washing. Twice a week he went to the pork-houses and baked a lot of corn bread, and by this single article of diet has kept soul and body together. He has earned $5 by doing chores, and has bought a blanket. He has brought his college expenses during the term within $12, and is said to be one of the most intelligent men in his class.

Daily Chronicle

TUESDAY, JUNE 18, 1878.

A Device of the Enemy.

The democratic *State Press*, of Dover, warns its party everywhere in New Hampshire "to beware of the so-called greenback movement. It is a snare and a delusion, a device of the enemy to weaken the democracy and thereby delay the time of their own discomfiture and defeat." This seems rather rough on the greenbackers, considering the encouragement given to them by the democracy in the past. Opposition to specie payments and hostility to the national banks are two fundamental principles of greenbackery, as we understand the matter; and on these points the democracy and greenbackers can certainly strike hands. The greenback party has sprung from the seed sown long since by the democratic party in Indiana and Ohio, which years ago declared for the "extinguishment of the national banks" and the substitution of a currency issued solely by the National Government; and this seed was abundantly watered by the democracy of the east when they applauded the victories won by the democrats of Ohio and Indiana on greenback platforms. Even in the last Democratic State Convention held in New Hampshire, a distinguished democrat denounced the national banks and the railroads in the most approved fashion of the "nationals," and no dissent was manifested then or afterwards in any democratic quarter, though the democratic candidate for governor was both a national banker and a railroad man. As to opposition to specie payments—to the "mint-drops" currency of the "honest-money" democracy of Jackson's day—the democrats and greenbackers are in accord; the democratic national platform of 1876 denounced the resumption act and demanded its repeal—and it has been repealed twice by the "democratic House," and is only a law now through the firmness of the republican Senate. For a democratic paper to now denounce the greenback movement as "a device of the enemy," when it owes all its strength to the fostering care of the democrats themselves, seems rather odd.

Congress.

The Senate on Saturday passed a bill appropriating $20,000 for the expenses of the Potter committee, with an amendment appropriating $10,000 more for similar purposes by the Attorney-General.

The Senate has concurred in the House amendment to the Shields pension bill, fixing the pension at $100 a month.

The House on Saturday receded from its previous demand for the reduction of the army, and agreed to the Senate amendments to the army appropriation bill. Both Houses adopted the report of the conference committee, and the "democratic House" cannot destroy the army this year.

The House has killed the scheme for re-imposing an income tax.

The Fraud Movement.

Hon. Edmund F. Noyes, United States Minister to France, arrived at New York on Sunday and started for Washington on Monday, to appear before the Potter-Tilden democratic campaign fraud committee. In conversation with an Associated Press reported Gov. Noyes remarked that he never made any promises to McLin or any other member of the Florida Returning Board, and that he never saw McLin alone for one moment before the vote of Florida was cast. He was surprised after arriving home to learn that even McLin does not say any promise was made him by Noyes, as the dying preamble to the Potter resolution would lead one to believe.

The Potter fraud committe on Monday adjourned over to Wednesday, without examining the much-dreaded Mrs. Jenks. The frauds are doing a good deal of pottering over trifles, to get rid of calling that woman to the witness stand.

Chronicle Correspondence.

WASHINGTON, D. C., June 14th.

By his course as a member of the Potter committee, Ben Butler has had his usual success in getting himself distrusted by both sides. He seems to be running an investigation on his own hook, and takes no one into his confidence. He is accused of working to secure the President's impeachment, rather than to bring out the facts he was designated to help develop. It seems the universal impression that he has gained no new laurels in his passages at arms with his associates of the committee; and not a few have ceased to be impressed with the relevancy or wit of his blundering scriptural quotations. They have not only become insipid by frequent repetition but strike many as in exceedingly bad taste. Many wonder that he is in Congress, where they contend he represents no one but Benjamin F. Butler and the most unscrupulous element in American politics. It has incidentally come out in the course of the investigation, that many of our State officials charged with the duty of transmitting the certificates of the Electoral vote in their respective States, were guilty of the grossest carelessness in the last attempt to discharge that duty. The certificates from nearly a dozen States were so far informal that it was only by a stretch of the law that some of them could be made to pass muster; and had not the representatives of both parties been about equally culpable the guiltiest one might have successfully challenged the vote of the other.

From data submitted it seems Capt. Eads has had to contend with many obstacles other than those inherent in the work he undertook to make the Mississippi river dredge its own channels. From his statement it is shown that he has been the victim of a spirit of jealousy on the part of army officers envious of the distinction earned by success. Mountains of difficulties have been heaped up across his path. It was sought to discredit his work by every form of misrepresentation that suggested itself to men determined to defeat him. A study of the causes contributing to many of the defeats suffered by the National arms during the late war would convince the most incredulous of the existence of such a spirit among men of whom better things are naturally expected. But Eads' plea before the Senate where both sides had equal facilities to be heard, was deemed so satisfactory that he came off more than conqueror; and a vote equally favorable is anticipated in the House.

M. Blaine never made a more effective speech than that of the other day, appealing for a subsidy to the Brazilian line of steamers. He did what very few men could have done, and what can only be accomplished by the lapse of time with all save the few whose attention is specially challenged by eloquence of an earnest and able advocate. That is, he so clearly presented the matter and its important bearing upon the developement of our commerce as to induce a majority of the Senate to consider the matter on its own merits, and not in the light of Credit Mobilier or Pacific Mail subsidy scandals. He was gratified by a decisive vote in its favor.

The rumor that Ex-Senator Pomeroy is about to again become a candidate for his old place, is confirmed by the warmth by which he is now frequently assailed and referred to at the loafing places of the politicians. Aside from his politics, Pomeroy has many friends among both parties because of his genial disposition.

About every power in Europe has signified its acceptance of Mr. Evart's invitation to take part in an International Money Conferference, save Germany and England. No more important gathering, as weighed by its relations to interests that are universal over the whole civilized globe, has ever been convened—at least not in modern times; and Mr. Evarts may feel a justifiable pride in the prominent part he has had in inaugurating a movement that will bring into personal conference the representatives of hundreds of millions of people.

It appears the settled conviction about the War Department that we are to have another Indian war this summer, and that we may deem ourselves fortunate if we can confine the discontent to tribes already in arms against us. The mutinous spirit seems to have infected about every tribe that Sitting Bull's emissaries have been able to reach. With no data on which to found such charges other than that furnished by the history of our Indian policy, the dishonesty, incompetency, or both, of Indian agents are made largely responsible for the present outbreak; and it must be acknowledged that there is much in the past to give color to such suspicions, though nothing, perhaps in the present situation to positively prove its correctness. KNOX.

News and Notes.

The United States ship-of-war Rio Brava has arrived at Rio Grand City, Tex., three hundred miles above Matamoras, being the first vessel of war that has ever been so far up the Rio Grande.

News from Idaho and Oregon indicates that there is a general uprising among the Indian tribes and a terrible struggle with the hostile savages is threatened. The red men are concentrating in large force in Idaho, their number being estimated at over 1000 warriors.

The extensive pork-packing establishment of C. H. North & Co., in Somerville, Mass., was burned Sunday night. Four hundred hogs were burned to death. The loss is estimated at $300,000.

Harriman, the Haverhill, Mass., pedestrian, on Saturday finished a walk of 400 miles in 127 hours, 36 minutes and 45 seconds, and was quite fresh at the close. At the completion of the 395th mile he stepped from the track to lead a set in the dance of Lady Washington's reel, dancing seven minutes, when he returned to conclude the walk.

The Willimantic Thread Company, employing 1000 operatives at Willimantic, Conn., paid off their help in gold on Saturday. Hundreds of the employes never saw gold coin before. A number requested bills instead, and the appearance of the strange money created a marked sensation in the town.

Joseph McGrath, one of the five masked burglars who entered the residence of Hon. George W. Harmon at Rutland, Vt., April 24, was on Saturday found guilty and sentenced to fifteen years' hard labor in the State prison. Two others of the gang are under arrest.

News from Sierra Leone, May 19, announces the arrival of bark Azor, from Charleston, S. C., April 21, with 250 negro emigrants for Liberia. There was much suffering on the voyage, water having become short. The ship fever broke out and twenty-three died. The rest are reported in good spirits at having reached Africa.

Saturday's record of murders is large. Wm. Carey, a drunken loafer, shot Max Hegwein, a brother of Carey's divorced wife, dead, in Lake, Ill.; cause, Hegwein had sheltered his sister and her children from Carey's persecutions. Two Germans, named Kranz and Boheim, were fatally shot by a party of drunken roughs who made an unprovoked attack upon them, in Wheeling, W. Va.; the murderers escaped, and are unknown. James Davis, while in a fit of rum horrors, went to the bedside of Robert T. Horn, sixteen years old and a clerk in a Philadelphia coffee house, and stabbed him to death with a butcher knife; he then attempted to hang himself, but was arrested and locked up. Stephen J. Moore and Albert Gentry, two young farmers living near Sturgeon, Mo., had a fight, and Gentry was fatally shot; Moore fled. Alden Lyle, a negro, was murdered while in bed in a boarding house at Washington, Mo., by another negro named King; the motive was robbery. At Coal Creek, Ind., John Kelly, an Irish ex-miner, fatally shot a colored miner named Thomas Nims, and then emptied his revolver into a squad of colored miners, wounding two of them; the assassin was arrested. At Omaha, Neb., a colored man named Charles Sommers killed Ellen McMasters for refusing to live with him, and was himself shot dead by the city marshal of Plattsmouth while resisting arrest.

Miss Lulu Prangee, aged twenty, of Brooklyn, chased and captured a man who robbed her of her pocket-book, and then learning the destitute condition of the man and his family, shared her money with him, and endeavored, but in vain, to shield him from arrest.

The *International Review* for May and June contains, among other interesting articles, "Science and Theology, Ancient and Modern," by James Anthony Froude; "The New King of Italy and the New Pope," by Prof. Gubernatis, of Italy; "The Bible"—two papers, one on Egyptology and the Bible, by Philip Schaff, the other on the Gospel according to John, by Lyman Abbott. Mr. John B. Jervis, civil engineer, contributes an interesting article full of valuable information; he discusses the future of the Erie canal, and advocates that its usefulness and economy can, despite other modes of transportation, be continued. David A. Wells brings forth in an article on the "Elements of National Wealth" his usual array of authentic statistics and reliable figures, to sustain his positions. This periodical is not only of value to-day, but as a part of one permanent and endurable publication is of immense value, the articles possessing a solidity that brings its value when compared with much that finds a place in the ordinary magazine of the day.

Major Dan Simpson, aged eighty-eight years, has for sixty-eight years been the drummer of the Boston Ancient and Honorable Artillery. Major Stanley has been the fifer for fifty-seven years. The aged pair made the music for a recent parade of the company.

The son of the late Speaker Kerr says that his father died absolutely without money. His account with the Sergeant-at-Arms was overdrawn, he having used the advance to pay local bills at New Albany, Ind. His life was insured, and the family's first application of the insurance money was to settle the account with Congress.

Madame Hahnemann, the widow of the founder of homœpathy, died recently in Paris at the age of seventy-eight years.

New Hampshire Items.

The Treasurer of the Congregational and Presbyterian Churches of the county of Hillsboro' for the year ending Dec. 31, 1877, acknowledges the receipt of $9659, appropriated for the benefit of colleges, missionary work, etc., connected with that body.

A party of tourists on Mount Washington, last week, found the wind blowing eighty-four miles an hour and a heavy snow storm in progress. One had his ears frozen, and another two fingers frost bitten. At the foot of the mountain the weather was the warmest of the year thus far.

Recently Hon. Lemuel P. Cooper, of Croydon, found a valuable colt about four years old, owned by him, dead in his mowing lot. Upon examination it was found that some miscreant had driven the colt into a corner, and stabbed it twice with a large knife, thereby letting out its bowels and causing its death. The colt was worth about $125.

First Class Rooms

WITH BOARD can be had at 39 STATE STREET.

Wanted.

A GOOD COOK and a girl to take care of children; good recommendations required. Apply at this Office.

—The Hazardville powder factories use from 140,000 to 240,000 kegs a year, and a machine had been started in the place that will make 150 kegs each day out of paper. They are water and air tight and more durable than iron or wood, but not as cheap. The sheet-iron keg has been much used by the powder company, but there is always more or less danger attending the proximity of metal to powder.

STATED MEETINGS.

CITY GOVERNMENT.

In City Building, Market Square.

BOARD OF MAYOR AND ALDERMEN—Thursday evenings.

COMMON COUNCIL—Thursday evenings.

THE CITY.

See advertisement of mortgagee's sale of real estate by auction to-day.

Mr. Albert H. Hanscom of this city is now filling the position of first clerk on the steamer Katahdin, plying between Boston and Bangor.

At the annual meeting of the High School Association in Mercantile Hall, Monday evening, the old board of officers was re-elected by acclamation.

Steamer Kearsarge, No. 3, which has been at Manchester having a thorough overhauling, will return on Wednesday, and will be tested on Market square.

Harper's Magazine for July is now ready for delivery at Moses Brothers' and W. G. Myers' bookstores. It contains about sixty illustrations, and the usual variety of instructive and entertaining reading matter.

Bragdon and Stackpole, the two men who robbed Getchell's store in Wells Friday night, and who were arrested in this city Saturday, were taken to Alfred by the Maine officers. Marshal Entwistle and Assistant Marshal Gray, who had been summoned to appear against them, went down on Monday, on which day the thieves were arraigned, and committed to jail in default of bail in $2000 each.

Steamer James Sampson, of Dover, was down the river on Sunday with an excursion party. The steamer took a run half-way out to the Shoals from Whale's-back, but finding the water rather too "hubbly" for comfort returned and anchored under the lee of Wood island, where her passengers whiled away an hour or too in fishing for cunners. The little boat looks nicely, and travels well.

Sheriff Kent arrived home at three o'clock Monday afternoon from Springfield, Ill., bringing with him William Coombs, who was lodged in the jail here while awaiting transit to Exeter. Coombs is a somewhat noted personage. Some years ago he kept the "Buffalo House" at Messer's Crossing in Salem, in this State, and disgusted the respectable inhabitants of that region by running the worst kind of a rum-hole and brothel. The first time he was arrested he escaped while handcuffed from the custody of two officers, jumping into a sleigh driven by two of his pals. Next, Coombs' barkeeper was arrested, but he too was rescued from the officers by Coombs and another, at a railroad station. Coombs was finally secured, convicted and sent to Exeter jail to serve out a sentence for keeping a disorderly house, other indictments against him being filed. June 11th, 1876, he escaped in company with one Fenton, it was said at the time by the aid of Boston parties with a two-horse team—but this turns out to have been wholly an error. He was arrested at Chicago June 11th of this year, just two years from the date of his escape, on a telegram from Sheriff Kent, and arrived back as before stated. The Sheriff says his slippery prisoner behaved in the most exemplary manner on the route.

AWAY WITH IT.

We find the following item of State news going the rounds: "A petition, numerously signed, is in circulation in Nashua asking the Legislature to change the form of government of the city, the governing power to be vested in a Board of Mayor and Aldermen, with salaries, thus doing away with the cumbersome body of Councilmen." That is a good move, unless the Nashua Common Council is of more importance than the Common Council of this city, compared with which as a branch of the city government the fifth wheel of a coach is indispensably useful. By this we do not mean in any way to reflect upon the worth or ability of the members of the present or any previous Council; but we know perfectly well what we are talking about when we say that all the Portsmouth Common Council can do is to share the responsibility—and the blame, if there is any—for whatever is done or neglected by the city government, while it is an absolute nonentity so far as power to do anything or preventing it being done is concerned. With all the responsibility concentrated where the power already is, in the Board of Mayor and Aldermen, the tax-payers would know exactly where to bring their influence to bear.

THE VICINITY.

Barnum's Circus in Dover to-day; performances afternoon and evening.

Last Thursday the United States officials took to Portland from Biddeford and Saco no less than five persons charged with selling liquor at retail without paying the United States internal revenue tax as retail dealers. This made eight "sly grog" sellers gobbled up by Uncle Sam in one week, in those cities. All the parties arrested are foreigners, those arrested Thursday being Sylvester Kerwin, T. Monette, Ned Provencher, William LaFleur, and David Bleu.

Mr. George Bowden, of York, was on Friday arrested for non-payment of taxes, but was immediately released on giving his personal recognizance to appear to answer the complaint. The claim is for taxes assessed on the Bowden House at York beach, burned some time since, and has been allowed to remain in abeyance while Mr. Bowden's suit against the insurance company (the company having refused to pay) was in progress. The suit having been decided in Mr. Bowden's favor, payment of the tax is now demanded, but is resisted by him.

The Supreme Court has decided the dispute between the city of Dover and the Strafford National Bank, as to the right of the city to tax the bank on its surplus, in favor of the city. The disputed tax was assessed in 1875, on a surplus of $70,000. The bank refused to pay, and by subsequent agreement of the parties a case was made up for the Supreme Court by the bank paying a portion of the tax and then bringing suit against the city for recovery of the amount paid. It is understood that this decision settles the question of the right of cities and towns to tax the surplus of national banks, and is therefore a very important one. Dover alone will gain by it in the increased tax paid by the Strafford bank, about $1200 yearly.

There was quite an excitement in portions of York, on Friday, over a "search and seizure" raid by Dep. Sheriffs Durgin and Grant of Saco. The first place called at was the Cape Neddick House, kept by Mr. and Mrs. Grant. The officers we are informed had no warrant, but were given permission to search the house, which they did most effectually from attic to cellar, tumbling up the beds, overhauling closets and trunks, and peering into every possible or impossible place of concealment for a keg, jug or pint flask. The officers had lots of "search" but made no "seizure," finding nothing whatever to seize; but they seriously ruffled the usually placid temper of the landlady, who is very indignant at the manner in which her neat housekeeping was disarranged, and things generally capsized and thrown into admirable confusion. Having totally failed to discover anything suspicious at the Cape Neddick House the officers then visited the store of Mr. Charles F. Plaisted at York Corner, where again their search and seizure movement resulted in arduous search and no seizure. No other places were visited.

JOHNSON'S UNIVERSAL CYCLOPÆDIA.

We are informed in the publisher's preface to the volumes of "Johnson's Universal Cyclopædia*," that it was due to the origination and suggestion of Horace Greeley, and was intended to carry out his idea of a busy man's book of universal reference,—a book which should not be a library in itself in bulk, form and style, with elaborate essays, criticisms, and history, valuable but unhandy for the prompt reference that wants to get at the salient facts alone. This is the sort of cyclopædia that would suggest itself to the busy journalist, who could write with it at his elbow, and verify his fact or date without breaking the current of his thought, or chilling the glow of composition, and it is that which would also best suit the busy man generally, who wants the skeleton of facts, and not an elaborate essay upon them. In this era of universal knowledge, the art of condensation has become a necessity, and nowhere are its needs better understood than in the pressure upon the columns of a daily newspaper. Mr. Greeley had thoroughly learned the lesson, and it was one that he impressed upon the editors and publishers of this new Cyclopædia. We have no hesitation in saying that it seems the highest type of the art of condensation, of close packing, as it may be termed, which has yet been produced, and this includes not only the skill of the editors and contributors, but that of the printers and paper makers. The type is small but very clear, and the paper thin but firm in texture and smooth. All energy and ingenuity has been bent into getting as much into as little space as possible; not by throwing away, but by condensing, and the value of this art becomes more and more apparent as the mass of knowledge increases.

*Johnson's New Universal Cyclopædia: A Scientific and Popular Treasury of Useful Knowledge. Illustrated with Maps, Plans and Engravings. A. Johnson & Son, Publishers, New York City. J. Reid, Jr., Canvasser for Portsmouth. Address P. O. Box 1111.

REAL ESTATE CONVEYANCES.

The following transfers of real estate in this vicinity have been recorded in the office of the Register of Deeds:

PORTSMOUTH.

John R. Reding, of Portsmouth, trustee, to Alfred S. Wentworth, of Portsmouth, land and buildings, $1050.

Hanson Hoyt, of Portsmouth, to John Downing, of Portsmouth, land and buildings, $900.

Sarah A. Jenkins, of Portsmouth, to Ethel and Sybil Whiton of Boston, land and buildings, $3260.

Benjamin F. Webster of Portsmouth, to James M. Jarvis, of Portsmouth, land, $3500.

NEWCASTLE.

John W. Noyes of Chester, and Greenleaf C. Bartlett, of Derry, to George A. Bartlett, of Cambridge, Mass., land, $2500.

NEWINGTON.

Samuel Furber, of Newington, to Sophia F. Hoyt, of Newington, land and building, $1350.

RYE.

William H. Locke, of Rye, to Sarah E. Jenness, of Rye, land, $200.

John J. Noble, of Lee, to Albert W. and Moses W. Davis, of Lee, land, $50.

NORTH HAMPTON.

Simon Brown, of North Hampton, to Lydia A. Breed, of North Hampton, land, $200.

RAYMOND.

David Pocker, et als., of Raymond, to Amos S. Polly, of Raymond, land, $300.

Eating is a Torture,

And sleep often a mere travesty of repose, to the dyspeptic. Appetite is correspondingly impaired by this most prevalent of maladies, and headaches, biliousness, constipation, poverty of the blood, loss of flesh and of vitality, and a thousand annoying and indescribable sensations, are its concomitants. It is, moreover, the progenitor of numerous and formidable bodily disorders. Obstinate as it is, however, its complete eradication may be effected by the persistent use of Hostetter's Stomach Bitters, a medicine which communicates both vigor and regularity to the organs of digestion and secretion, relaxes the bowels gently but thoroughly, enriches and purifies the blood, promotes appetite, and gives tranquility to the nervous system. Persons of weakly constitution and feeble physique who use this superb tonic infallibly derive from it the stamina of which they stand so much in need, and it is invariably successful in remedying and preventing malarial diseases.

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

The Colonnade Hotel, Philadelphia, Pa., by its judicious reduction of rates, will maintain its famous reputation as a model first-class house, alive to the demands of the time.

Alex. Frothingham & Co., brokers, 12 Wall st., N. Y., make careful investments for customers, in sums of $25 to $100, which frequently pay ten to twenty times the amount invested. Their *Weekly Financial Report*, sent free, gives full information. 9

Adamson's Botanic Balsam being free from opiates and squills, not only allays the local irritation, but improves digestion and strengthens the constitution; hence it is used with the most signal success in Asthma, Coughs, Colds, Bronchitis, Quinsy, affections of the throat and chest. All who wish to preserve health and thus prolong life, should use Adamson's Balsam.

DEATHS.

YEATON. In Newcastle, June 15th, Mr. John Yeaton, aged 77 years, 9 months and 21 days.

A General Rebellion.

TRIUMPH OF A GREAT DISCOVERY!

The public has *rebelled* against *cauterizing Hair Dyes*. Fashion has foresworn them. A sagacious community has adopted in their stead,

CRISTADORO'S HAIR DYE,

and for *these reasons:* It embrowns and blackens the *hair*, not the *skin*. It is a *vegetable emollient*, not a *burning fluid*. It does not burlesque nature with *blooming metallic tinges*, but produces her own *living hues*. Its cooling effect is *lasting*. It *defies detection*. Its results are *uniform*. It *never fails*. Manufactured by J. CRISTADORO, No. 63 William St., New York. Sold by all Druggists. Applied by all Hair Dressers. 6y15

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&teoxp157

THE NEW HAMPSHIRE

GAZETTE

Established 1756.

The Gazette is published every Thursday, and sent to Subscribers at the low price of

$1.50 per year, paid in advance, or

$2 at the end of the year.

It contains **full accounts** of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of **NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news**, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a **WEEKLY INVITATION TO CUSTOMERS**, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Portsmouth Chronicle

Nothing has been heard of Fernando Wood since the brutal slaughter of his tariff bill. A bold correspondent who approached the great man's place of abode found it so enveloped in a blue fog of profanity that he dared not attempt an entrance.—*N. Y. Tribune.*

Would it not be well, while the drag net is out and Butler afflicted with antiquarian proclivities, for the democratic investigators to instruct their Special Louisiana Committe to see if it will not be possible to bring to light a few facts regarding the Plaquemine frauds, which gave the State to Polk in 1844? The polls in those days were opened three days, and roughs and rowdies who voted on Monday in New Orleans were carried to Plaquemine on Wednesday by the democrats, and voted again. The democrats had never polled higher than three hundred and six in this place, but in 1844 they carried Plaquemine by nine hundred and seventy majority, and as Polk carried the State by only six hundred and ninety, the triumph was achieved by a gross fraud.—*Boston Journal.*

—Seventeen-year locusts have appeared in large numbers in the vicinity of Des Moines, Iowa. No injury reported to crops.

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of these may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 45 DEY ST., NEW YORK.

Children

May be made healthy and strong by the use of *Dr. Pitcher's Castoria*, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '74. *Dear Sir:*—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession as a safe, reliable* and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.

F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be calthy.

J. B. ROSE & CO., New York.

The Centaur Liniments

allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy,

and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms or Stomach and Disordered Bowels, there is nothing like Castoria. tang

WOMAN.

By an immense practice, extending through a period of twenty years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and promptness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as it by magic, to an extent certainly never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here. In all affections of this nature, my Favorite Prescription works cures—**the marvel of the world.** This medicine I do not extol as a cure-all, but it admirably fills **a singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects will find it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of these diseases peculiar to Females, and gives much valuable advice in regard to the management of these affections.

FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.

R. V. PIERCE, M. D., Prop'r,
BUFFALO, N. Y

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once. ottp278
H. HALLETT & CO., Portland, Ma'ne.

DR. JOHN TRIPP'S
BLOOD PURIFIER

IS the most wonderful discovery for the radical cure of **SCROFULA** and **SYPHILIS.** It never fails to entirely eradicate either of these diseases and all Blood Poison from the system. **ULCERS, CANCERS, WHITE SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM** and **GOUT** yield to its power. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.

Sole Eastern Agency, **306 Columbus ave., Boston.** Office hours, 8 to 11, A. M., 3 to 7 P. M.

Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. codtnov11

PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the traveling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. ufeb20 79
FRANK THOMSON, L. P. FARMER,
General Manager. *Gen. Passenger Agent.*

203 and 205 Washington st., Boston, Mass.

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Palaces of Pleasure" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route.
ONLY 49 MILES OF RAIL.
Passing through Narragansett and Mount Hope Bays by daylight.
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Train.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.
GEO. L. CONNER, Gen'l Pass. Agt.
J. R. KENDRICK, Supt.
L. H. PALMER, Agent, 3 Old State House.

Prince's Pleasant Purgative Pellets
SIZE OF PELLETS.
Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.
The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching** and **thorough,** yet **gently** and **kindly operating, cathartic.**
$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.
Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. **For Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Irritability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their salutive impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved, unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative,** or **Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.
They are sold by all Druggists at 25 cents a bottle.
R. V. PIERCE, M. D., Prop'r,
BUFFALO, N. Y.

PRATT'S
Astral Oil!
THE SAFEST AND BEST
ILLUMINATING OIL!
☞ *For Safety and for Excellent Burning Qualities, it is without an equal.*
CAUTION.
☞ The great popularity of "ASTRAL" OIL has induced some unprincipled persons to sell worthless and dangerous imitations for "ASTRAL," while others palm off inferior oils, representing them as good as "ASTRAL." To prevent this fraud, purchasers should demand "ASTRAL" and take no other.
The Genuine Article is sold by
JOHN P. SWEETSER,
46 Market Street, Portsmouth.

NEW FOUR PER CENT
GOVERNMENT BONDS.
The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of **$50, $100, $500** and upwards, at par and accrued interest in coin.
The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.
The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.
Orders by mail will receive prompt attention.
Jan. 27, 1878. E. P. KIMBALL, Cashier.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. *Glenn's Sulphur Soap* produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts*. It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 80c. and $1.20.

N.B.—Sent by Mail, Prepaid, on receipt of price, and 5 cents extra for each Cake.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fee in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.

Old Country Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

Butler & Laighton,

No. 1 MARKET SQ.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all results are insoluble compounds of woody fibre; all impurities, saturated solutions.

SANFORD'S RADICAL CURE

is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen,—About twelve years ago, while traveling with Father Kemp's Old Folks Concert Troupe as a tenor singer, I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position

ments to have this session one of the most popular and successful of all the series. Let there be a grand rally by "The smile of the Great Spirit." The assignment for each day is as follows:

Tuesday, General Exercises.
Wednesday, Church and Children.
Thursday, Patriotism and Temperance.
Friday, Reform Clubs.

Circulars will soon be issued giving arrangements in detail.

A. C. HARDY, Presi.

Daily Chronicle

WEDNESDAY, JUNE 19, 1878.

Congress.

The Senate on Monday postponed the bill amending the patent laws to next session. The bill to re-organize the life-saving service was passed without amendment. The sundry civil appropriation bill was worked on; an amendment empowering heads of departments to pay the usual commercial rates for advertising was adopted without discussion; an amendment appropriating $6000 for the expenses of the commission sent to Louisiana by the President was laid on the table, Senators Spencer, Conkling and Blaine opposing its adoption, and Thurman and Beck supporting it. The Senate committee on elections received the report of Mr. Cameron of Wisconsin (who, with Mr. Hill, composed the subcommittee on the subject) that Corbin was entitled to a seat from South Carolina, and Hill verbally reported Butler entitled to it; the full committee voted to postpone the matter to the next session.

The House considered the internal revenue bill; and being urged thereto by an immense lobby of tobacco manufacturers, adopted an amendment reducing the tax on tobacco to sixteen cents a pound. An amendment abolishing tax on matches after Jan. 1st, 1879, was also adopted. Taking off the tax on these articles will lessen the internal revenue by $15,000,000 or more. Ben Butler introduced a resolution requesting the Senate to allow Stanley Matthews to appear before Potter's fraud committee, which was adopted. Harris of Virginia, from the committee on elections, reported in the contested election cases of Elam and Robertson (the sitting members) of Louisiana; they being democrats, of course they are entitled to their seats. The House by a strict party vote—132 to 121—refused to concur in the Senate bill authorizing the present Legislature of New Hampshire to elect a United States Senator.

On Tuesday the Senate concurred in the House resolution previously passed for adjournment at six o'clock P. M. on Wednesday. The payment of rebel mail contractors (many of them already paid once by the Confederacy) was added to the "omnibus bill." The fishery award of $5,500,000 was passed as an additional section of the sundry civil bill.

The House non-concurred in the Senate substitute for the House bill repealing the resumption act. Jones and Briggs of New Hampshire voted for concurrence.

News and Notes.

The United States ship Alaska left New York the 13th instant for the South Pacific station. Lieutenant Commander Benjamin P. Lamberton goes out in her as Executive Officer.

P. T. Barnum addressed the Universalist Sabbath school in Bangor Sunday morning, and lectured on temperance in the evening.

The underwriters and owners of the barque Antiech have presented Captain Henry Hemingway a valuable gold watch for the able manner in which he managed his vessel after she sprung aleak, on her voyage to Manila last year. The watch is a chronometer stem-winder and is a very handsome and valuable present.

The steamship Russia, of the Cunard line, will leave the other side this week on her two hundredth round trip. This vessel has traveled over 700,000 miles since she was launched, and in all her trips she is said never to have lost a boat nor incurred the slightest accident, nor even lost a piece of rope.

A sham battle was fought on the morning of June 17th, at the Government Hospital farm, opposite the Naval Academy at Annapolis, between midshipmen and marines, in the presence of the board of visitors and a large concourse of other spectators. The thermometer was high in the nineties and the heat intense. The midshipmen represented naval forces landing and attacking and carrying the stronghold defended by the marines as infantry. The maneuvers were well executed. One midshipman had his face burned with powder, and a marine carelessly blew his own fingers off.

A novel cure for hydrophobia is reported by a Littleton, Me., paper, which says that when Noah Hatch, a wealthy Northumberland farmer, had three children bitten by a rabid dog, many years ago, he immediately took them to Portland, embarked on a vessel, and sailing out a short distance, weighted and sunk them in the sea, keeping them under water as long as it was safe without drowning them. Though one of the children had all the symptoms of hydrophobia, they were all cured. Mrs. Charlotte Waters, now living at Stratford is one of the number, while another resides in Bethlehem.

Hon. Edward O'Brien, of Thomaston, Me., has given to that town the sum of $10,000 in trust, the interest to be used to assist the deserving poor.

Lucien Levy, a wealthy New York Hebrew, who married a Christian flower girl eight days ago, was found dead in his bed on Wednesday. He left a note stating he had taken strychnine. No cause is known.

Edward Cahill of New York has been sent to the State prison for three and a half years for sneezing in church. He committed the offence in the organ, where he had hidden himself after robbing the poor box.

Three young boys have been arrested, charged with climbing to the track of the New York Elevated Railroad, and placing a large paving stone between the guards and the track, with the intent of precipitating the train to the pavement below. The train's escape was miraculous, for the last car jumped the obstruction, and settling down on the track, proceeded safely to the next station. The train was full of passengers.

The illustrated articles in *Lippincott's Magazine* for July are attractive both by their literary and artistic merits, and the subjects to which they relate. "Here and There in Old Bristol," by Dr. Alfred S. Gibbs, is rich in description and anecdotical matter connected with the quaint customs and former celebrities—Chatterton, Hannah More, and others—of what was once England's chief seaport. "An Atelier des Dames," by Margaret B. Wright, gives very amusing glimpses of art life in Paris. Leonard Woolsey Bacon gives the history of "The Real Prisoner of Chillon"—a very different character from the hero of Byron's poem. The other articles are very varied, comprising "A Levantine Picnic," by a U. S. Naval officer; an account of the "Popular Marriage Customs of Sicily," by Dr. Giuseppe Pitre; "A Tartar Fight at Kazan," by D. Ker; "The Idyl of the Vaucluse," by Charlotte Adams, and a paper on the Census of 1880, by Henry Stone, who shows the necessity for a new law of Congress to remedy the defects in the present method of taking the Census. There is also much diversity in the fiction of the number, which includes several amusing short stories by Wm. M. F. Round, Jennie Woodville, Mary Wager Fisher, and the opening chapters of a new serial, "Through Winding Ways," by Ellen W. Olney, author of "Love in Idleness." There are poems by Paul H. Hayne and Kate Putnam Osgood, and the usual number of light papers in the "Gossip."

It has been ascertained that a large amount of the appropriation of $45,000 made by the present Congress for the restoration of models destoyed by the fire at the patent office has been paid to persons not employed on the work.

New Hampshire Items.

The Supreme Court (law term) came in at Concord on Tuesday, the full bench being present. Cases upon the Grafton and Coos county dockets were heard.

A member of the Legislature smacked his lips over a fine flavored pineapple at a Concord hotel, and then, turning to a waiter, remarked, "I never tasted of a better pudding than that. Give me some more."

In a heavy rain-storm at Concord, Monday morning, sulphur fell in considerable deposits in many parts of the city.

Summer visitors are beginning to arrive at the mountain hotels in goodly numbers.

In response to a call issued by Major A. B. Thompson, President of the New Hampshire Veteran Association, a meeting was held at Concord, Monday, to make arrangements for the veterans reunion. It was voted to hold a reunion during the year. An executive committee, committees for veterans out of the State and for the State and Legislature, were appointed.

A novel suit has been begun by Seth Webber, a Hopkinton undertaker, against Moses Perry, a wealthy Henniker farmer, who refuses to pay for a coffin for his mother because Webber would not take back the handles of the coffin after the funeral was over.

The anniversary exercises at the Tilden Ladies' Seminary, West Lebanon, were opened Sunday morning in the Congregational Church. The class examinations end on Thursday.

At a meeting Monday, at Laconia, it was decided to hold the next annual reunion of the State veteran soldiers at Weir's camp ground, Lake Winnipesaukee.

Joseph Hastings, a member of the Legislature from Grantham, went to Concord by rail, being his first ride in a car, and the first time he has been in Concord since 1838.

The dwelling-house situated in Kearsarge village, North Conway, owned and occupied by Mrs. Hannah Hall and her sister, was entirely destroyed by fire Sunday night. It is supposed to have caught from a lighted candle. Loss about $700; no insurance.

Political.

Says the Lowell *Courier*: "The democrats begin to doubt if they are going to make anything out of the bill which passed the Senate allowing the present New Hampshire legislature to elect a senator, and the House is likely to refuse to pass the bill. We hope it won't pass. Keep the senatorial question in issue and the republicans are dead sure of carrying the State next fall." That's just our way of thinking; and it is with great pleasure that we learn that the "democratic House" has decided to insure a republican victory in this State by removing all chance of a squabble over the senatorship. The House has disagreed with the Senate on this question.

The fact has been ascertained that two months before the commencement of the Potter "investigation" Manton Marble and General Winslow were in Washington, urging prominent democrats to lay a basis for putting Hayes out as soon as the democrats came into power in Congress, and thus give Tilden two years, which would satisfy his ambition and put him out of the way for 1880.

Ex-Senator Chandler has been placed at the head of the Republican State Executive Committee of Michigan.

Lost Seven Pounds in Three Weeks.

Allan's Anti-Fat is a genuine medicine, and will reduce corpulency from two to five pounds per week. Purely vegetable and perfectly harmless, acting entirely on the food in the stomach, preventing the formation of fat. It is also a positive remedy for dyspepsia and rheumatism.

BOSTON, MASS., Feb. 11th, 1878.

BOTANIC MEDICINE CO., Buffalo, N. Y.:

Gentlemen:—The lady alluded to lost seven pounds in three weeks, by the use of Allan's Anti-Fat. Yours truly,

SMITH, DOOLITTLE & SMITH,
Wholesale Druggists.

Eating is a Torture,

And sleep often a mere travesty of repose, to the dyspeptic. Appetite is correspondingly impaired by this most prevalent of maladies, and headaches, biliousness, constipation, poverty of the blood, loss of flesh and of vitality, and a thousand annoying and indescribable sensations, are its concomitants. It is, moreover, the progenitor of numerous and formidable bodily disorders. Obstinate as it is, however, its complete eradication may be effected by the persistent use of Hostetter's Stomach Bitters, a medicine which communicates both vigor and regularity to the organs of digestion and secretion, relaxes the bowels gently but thoroughly, enriches and purifies the blood, promotes appetite, and gives tranquility to the nervous system. Persons of weakly constitution and feeble physique who use this superb tonic infallibly derive from it the stamina of which they stand so much in need, and it is invariably successful in remedying and preventing malarial diseases.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East Indian missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. Sent by mail, by addressing with stamp, naming this paper, W. W. Sherar, 149 Powers' Block, Rochester, New York. ly18

The contest between the Cuban Lottery people and the Louisiana State Lottery, at New Orleans, is in statu quo. It is cheeky on the part of the Spaniard to run opposition to the Hospitals and Free Schools, as well as other charitable and educational institutions, and pay their prizes at the rate of thirty cents on the dollar, the value of Cuban currency. For particulars of next drawing of the Louisiana State Lottery Company, see the scheme in another column.

Every one speaks well of it, and those who have been there once patronize the place ever afterwards. Is it necessary to add that we refer to the Colonnade Hotel on Chestnut Street, Philadelphia, Pa.

Brig Redowa, Capt Byrne, from New Orleans to Providence, arrived at Tybee June 17th with American barque J E Chase of New York, found abandoned the 14th, in lat 20 10, lon 80 15, with a cargo of 1100 hogsheads of sugar. The sails were set and the vessel not injured much when sighted.

A General Rebellion.

TRIUMPH OF A GREAT DISCOVERY!

The public has *rebelled* against *cauterizing Hair Dyes*. Fashion has foresworn them. A sagacious community has adopted in their stead,

CRISTADORO'S HAIR DYE,

and for *these reasons:* It embrowns and blackens the *hair*, not the *skin*. It is a *vegetable emollient*, not a *burning fluid*. It does not burlesque nature with *blooming metallic tinges*, but produces her own *living hues*. Its cooling effect is *lasting*. It *defies detection*. Its results are *uniform*. It *never fails*. Manufactured by J. CRISTADORO, No. 23 William St., New York. Sold by all Druggists. Applied by all Hair Dressers. ly15

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&tiseptl5 7

"A friend in need is a friend indeed." *Adamson's Botanic Balsam* has proved itself a friend to the suffering, and its best recommendation is that where it has once been faithfully tried no other remedy will be used for coughs and colds.

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

Alex. Frothingham & Co., brokers, 12 Wall st., N. Y., make careful investments for customers, in sums of $25 to $100, which frequently pay ten to twenty times the amount invested. Their *Weekly Financial Report*, sent free, gives full information. 9

E. G. PIERCE, JR., P. M.

THE CITY.

Capt. G. Frank Towle, 19th U. S. Infantry, arrived in this city on Tuesday on a visit to his friends.

Mr. James M. Jarvis has bought the new house on Highland street recently erected by Mr. Benjamin F. Webster, for $3500.

The matter of subscribing $6000 toward the proposed Odd Fellows' Hall by Piscataqua Lodge was on Monday evening laid over for two weeks.

One of the handsomest signs in the city is the one placed on the eastern end of the Kearsarge House last Saturday, designed and painted by Mr. Edward D. Coffin.

The house No. 10 Richards avenue was sold at auction on Tuesday by Morse & Ilsley, for $1600, the purchaser being Charles H. Mendum, Esq. The property is assessed at $2000 for taxation purposes.

Mr. Daniel Hurd, who lives at Gravelly Ridge, brought into our office on Tuesday an early rose potato weighing ten ounces. Mr. Hurd says the seed was planted on the 17th of April, and he has a large patch which is doing well.

Steam fire engine Moses H. Goodrich was engaged on Monday in watering the new schooner now building by Mr. Daniel Littlefield at Noble's island. The vessel is fast approaching completion, and has a model adapted both for burden and sailing qualities.

Fifteen coopers from Boston have been engaged at Jones' Brewery, all the barrels of the establishment having to be enlarged, in order to compete with New York brewers, as by a law of that State recently passed brewers are obliged to make their barrels to contain thirty-two gallons instead of twenty-five as heretofore.

An Age-to-come tent meeting is to be held on the Middle street circus ground every evening this week, and over Sunday. On Sunday there will be three services—at 10:30 o'clock A. M., 2:45 P. M., and the usual hour in the evening. A general invitation is extended. The first meeting will be held this (Wednesday) evening.

Sunday was Trinity Sunday, or the octave of Whitsunday, the religious meaning of the day being the Trinity in unity; it is observed also as the end of the first half of the Christian year, a period in which fall most of the fasts and feasts of the church, such as Christmas, Easter, Lent, etc. It was observed by appropriate religious services at the Episcopal and Catholic churches.

The managers of the Portsmouth Cricket Club have arranged for a game with the Lawrence club of this city on the 4th of July. The game will be played on the fine grounds of the Portsmouth club, in the field near the Creek known as the Sheldon field. This is the first move made for any local celebration of the Glorious Fourth, so far as we have heard, excepting the projected picnic of St Mary's Benevolent Society at Pinkham's Grove, near Dover Point.

The Eastern Railroad people we think "missed it" in a small way, in not running a special excursion train to Dover on Tuesday, Barnum's circus day. There being no extra train to leave Dover for this city after the evening show, a large number of circus-goers found their own means of conveyance. Two well filled beach wagons and twenty or more single teams went up, and a number of persons took to the river in boats. Had a special train been run a still larger number of Portsmouth people would have paid their respects to the great showman.

HARLOW'S CONCERT.

The musical entertainment in Music Hall, Monday evening, under the management of Mr. Henry L. Harlow, was a rare treat to lovers of instrumental music. The ten young violin pupils were, of course, the attraction of the evening, and more than met the anticipations of their friends, besides affording a pleasant surprise to many who were not aware of the existence in our city of so much local talent and skill with that sweetest of all musical instruments—the violin. The proficiency that they have attained, and the remarkable ease with which they performed the pieces set down for them in the programme, are greatly due to the indefatigable Harlow, who is not only an accomplished musician and violinist, but is a thorough and painstaking teacher. Too much cannot be said in praise of one who labors so patiently in the difficult task of leading the young mind through the delicate and elevating mysteries of the violin. His merit as a teacher should have been recognized by the presence of a full house, and we blush for the taste of our people when we remember that a minstrel show or a variety troupe, with their low attractions, will draw a large audience, while a really meritorious performance, like that above referred to, receives but barely enough to cover expenses. In extenuation, however, we are forced to the belief that had its worth been fully known, a larger number would have greeted the entertainers of Monday evening. We hope Mr. Harlow will repeat it in the early autumn. We should not forget to mention the cornet solo by Mr. Ralph Reinewald, which was loudly and persistently encored, the modest performer reluctantly responding with a repetition of his effort. Mr. Beckett, of Portland, was especially pleasing in his piccolo and flute playing, and is certainly an artiste in his specialty. L. T.

HIGH SCHOOL ASSOCIATION.

At the annual meeting of the Portsmouth High School Association, held at Mercantile Hall, Monday evening, the following officers were elected for the ensuing year;

President, W. H. Y. Hackett;

Vice Presidents, Rev. E. A. Rand of South Boston, Henry C. Barnabee of Boston, Sephen W. Clarke, Mrs. Charles C. Akerman, Miss Lizzie S. Pray;

Treasurer, George E. Hodgdon;

Recording Secretary, W. Russell Foster;

Corresponding Secretaries, Miss Mary W. Harratt, Miss Carrie A. Whitcomb;

Directors, Charles A. Hazlett, Plumer D. Norton, Ed. H. Hall, Miss Georgie Hill, Miss Edith Gerrish.

CITY COUNCILS.

Special meeting, Tuesday evening. In Board of Mayor and Aldermen:

An ordinance relating to the payment of the Fire Department quarterly, in the months of January, April, July and October, was passed.

A request that a catch basin be constructed to prevent the sediment from filling the pond in Harmony Grove cemetery was received, and referred to committee on drains with power.

A message was received from the Common Council that that board was ready for business.

Subject of drainage on State street was referred to committee on drains, with power.

Same committee reported concerning sidewalk on Congress street, that George E. Hodgdon was willing to pay his share for a relay. Referred back, with power.

The matter of the city paying the whole expense of laying or relaying sidewalks was referred to the committee on streets, to report.

The Common Council gave notice that Messrs. Hodgdon, Pfeiffer and Prior had been appointed conferees on the appropriation bill, on the part of the Council. The conference committee met and made a report, which was adopted by both Boards, and the appropriation bill was finally passed, as follows:

State tax,	$20,260 00
County tax,	27,750 56
City debt,	5,000 00
Interest,	8,750 00
Salaries of city officers,	5,000 00
Streets,	9,500 00
Fire Department,	10,000 00
Support of the Poor,	4,000 00
Police,	1,500 00
Watch,	4,300 00
Street lights,	2,300 00
Repairs and rents of school-houses,	2,500 00
Printing,	800 00
Roads out of compact part of the city,	1,700 00
Repairs of bridges,	1,000 00
Schools, in addition to literary fund,	21,500 00
Sidewalks,	1,000 00
Sewers,	1,600 00
Sprinkling streets,	500 00
Health Committee,	300 00
Celebration of Independence,	100 00
Memorial Day,	150 00
Repairs of Almshouse and buildings	500 00
Collector's commissions	800 00
Discount on taxes,	6,500 00
Contingent,	4,000 00
Land damges, and making extension of Jackson Hill street	1,400 00
	$142,690 56

The committee on streets reported adversely on the petitions for crosswalk on Market street opposite A. H. Ladd's, and for gravel walk on South street.

Notice was received that the Common Council had passed under suspension of the rules a bill authorizing the payment of $800 land damages for the proposed road around the south millpond. The Board of Aldermen also suspended the rules and passed the bill.

The committee on city lands and buildings were granted further time to report on the matter of a public landing at the foot of Daniel street.

Adjourned to Thursday evening, July 11th.

CHARLES B. GOODRICH.

Hon. Charles B. Goodrich, for many years one of the most prominent lawyers of Boston, died on Monday at his residence, No. 253 Beacon street, aged seventy-five years. He was born at Hanover, in this State, and came to Portsmouth soon after his admission to the bar, soon becoming prominent as a lawyer. He was at one time a member of the New Hampshire Legislature and was one of the foremost citizens of Portsmouth. About forty years ago he removed to Boston, and very soon was recognized as one of the leading lawyers of the city. He continued his studies, and acquired a great knowledge of the higher branches of legal learning. Though not a brilliant speaker, he had fine powers of logic, and his arguments were models on this point. He practised largely in the United States Courts, and during the war he argued many important cases before the Supreme Court, among them being that of the Floyd acceptances. On the death of Webster and Choate it was generally considered that the leadership of the bar lay between Mr. Goodrich and Bartlett and Curtis. For many years, however, he has confined himself to chamber practice, and has rarely appeared in Court. Some years ago he published a valuable work on constitutional law, on which he was considered good authority. He was a good lawyer and a safe counsellor. In early life he acted with the democratic party; and was once run as the democratic candidate for Mayor of Boston. His last visit to Portsmouth was to attend the session of the Circuit Court of the United States a few years since, when he spent several days amidst the scenes of his former legal contests.

THE VICINITY.

The United States District Court, Judge Clark presiding, came in at Exeter on Tuesday. No jury was summoned, and after a brief session the Court adjourned without day.

A cow belonging to John R. Lowell, of Biddeford, on Saturday attempted to climb a steep bank whence gravel had been taken, when she fell backward and broke her neck.

There is to be a public picnic in Elm Grove at Kittery, near Rogers' cemetery, on the 4th of July, with dancing, croquet, and the other recreations customary on such occasions.

H. H. Titcomb, a prominent business man of East Kingston and Deputy Sheriff of Rockingham county, who was taken to the Insane Asylum at Concord recently, died there on Sunday.

A colony of emigrants to Kansas, to settle on lands of the Atchison, Topeka & Santa Fe Railroad, has been formed in Biddeford, and now numbers twenty members. It is called the "Biddeford Kansas Colony."

In the House of Representatives at Concord, Tuesday, Mr. Amazeen of Newcastle introduced a bill entitled an act to incorporate Unique Lodge, Independent Order of Substantials, at Newcastle. The day's session of the House was without interest.

Among the coaches from York and Cape Neddick we notice the well known mail line of Stewart & Grant. They have had their vehicles put in excellent order, and are prepared to serve their many patrons as satisfactorily as ever. Mr. Charles E. Grant, the well known driver of the coach, will still draw the reins over his four-in-hand.

The greenback county convention of York county, Me., assembles in Alfred next Tuesday. In the list of possible nominees for office we find the names of Ephraim C. Spinney, Esq., of Kittery, for senator, and Mr. Edward C. Moody, of York, for what office is not stated. One thing the York county greenbackers may rest assured of; if "Ed" doesn't get some kind of an office there'll be a split in the party right away.

Admirers of a fine turnout will find something worth looking at in the new four-horse coach that will make its appearance in this city this afternoon from the Thompson House, York Beach. Its superior has never been driven into Portsmouth. The body is painted straw color, with dark trimmings. On one of the doors is a beautiful view of Boon Island Light; on the other, Yellow Rocks, which are situated not far from the hotel. On the side of the driver's box is a view of Bald Head Cliff, also showing Capt. Jim Weare's yacht; on the opposite side is a yacht under full sail. The coach is made to seat nine persons inside, and is lined with red plush; the total weight is 1780 lbs. Mr. Thompson has purchased twelve first-class horses, which will be driven in teams of four. The coach is from Abbott Downing & Co., and the harnesses from J. R. Hill & Co., the well known Concord manufacturers.

THE NEW HAMPSHIRE

GAZETTE

Established 1756.

The Gazette is published every Thursday, and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of wha transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Portsmouth Chronicle

There are signs of a vigorous republican revival in several of the Southern States. In Georgia a party paper has been established at Atlanta, which is doing quiet but effective service. In Alabama the Republican State Committee has been re-organized, and an address has been issued calling a State Convention at Montgomery on July 4th. There are conditions in both these States which are encouraging to the republicans. The recent declaration of the Alabama democrats for a white man's government shows that the Bourbons have full control of that organization, and when the Bourbon obtains sway in the party there is sure to be a split sooner or later.* In Georgia the democratic majority is so enormous it is full of dissensions, and at the mercy of independent movements.

Henry Watterson was excluded from the House democratic caucus Friday, Hewitt objecting to his presence.

—Forty thousand pounds of oleomargarine "butter" is reported to be daily bought and consumed in New York city.

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 Dey St., New York.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"Cornwall, Lebanon Co., Pa., Mch. 17, '74. *Dear Sir:*—I have used your Castoria in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.

F. A. ENDERS, M. D."

Mothers who try Castoria will find that they can sleep nights and that their babies will be healthy.

J. B. Rose & Co., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms our Stomach and Disordered Bowels, there is nothing like Castoria. tsug

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws whose govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, and in most cases, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here. In all affections of this nature, my Favorite Prescription **works cures—the marvel of the world.** This medicine I do not extol as a cure-all, but it admirably fulfils **a singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can find it in **The People's Common Sense Medical Adviser,** a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.

R. V. PIERCE, M. D., Prop't,
BUFFALO, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the prese t time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once. G1y2678
H. Hallett & Co., Portland, Maine.

DR. JOHN TRIPP'S
BLOOD PURIFIER

It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.
Sole Eastern Agency, **306 Columbus ave., Boston.** Office hours, 8 to 11, A. M., 3 to 7 P. M.
Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. eodnovl1

Transportation.

RE-OPENING
OF THE POPULAR
PROVIDENCE LINE
TO NEW YORK,
VIA PROVIDENCE.
Opens April 29, for the season of 1878.
Only 42 Miles of Rail.
Steamboat Express Train will leave Boston & Providence Railroad Station daily (Sundays excepted) at 6 P. M. Connect at Fox Point wharf, Providence, with the **Entirely New and Magnificent**
STEAMER MASSACHUSETTS
and the well-known and popular
STEAMER RHODE ISLAND,
Arriving in New York at 6 A. M. This is the only line affording a delightful sail **through Narragansett Bay** by daylight.
Returning, leave Pier 29, North River at 5 P. M., arriving in Boston at 7 A. M.
No intermediate landings between Providence and New York.
Tickets and State Rooms can be secured at Company's office, 214 Washington, corner State street, and at Boston & Providence R. R. Station.
J. W. RICHARDSON, Agent, Boston.

PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND **Equipment**
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and roadbed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. 1feb20 79

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL,
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Trains.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 38, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.
GEO. L. CONNER, Gen'l Pass. Ag't.
J. R. KENDRICK, Supt.
L. H. PALMER, Agent, 3 Old State House.

Pierce's Pleasant Purgative Pellets

SIZE OF PELLETS

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of clumsy, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough,** yet **gentle and kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietors of these Pellets, to any chemist who upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative,** or **Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

BUFFALO, N. Y.

PRATT'S
Astral Oil!
THE SAFEST AND BEST
ILLUMINATING OIL!
☞ *For Safety and for Excellent Burning Qualities, it is without an equal.* ☜
CAUTION.
☞ The great popularity of "ASTRAL" OIL has induced some unprincipled persons to sell worthless and dangerous imitations for "ASTRAL," while others palm off inferior oils, representing them as good as "ASTRAL." To prevent this fraud, purchasers should demand "ASTRAL" and take no other.

The Genuine Article is sold by
JOHN P. SWEETSER,
46 Market Street, Portsmouth.

NEW FOUR PER CENT
GOVERNMENT BONDS.
The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the New Per Cent. Funded Loan of the United States, in denominations of **$50, $100, $500** and upwards, at par and accrued interest in currency.
The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.
The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.
Orders by mail will receive prompt attention.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. *Glenn's Sulphur Soap* produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts*. It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 60c. and $1.20.

N.B.—Sent by Mail, Prepaid, on receipt of price, and 5 cents extra for each Cake.

MORSE & ILSLEY,

FIRE, LIFE AND ACCIDENT

INSURANCE

AGENTS,

Represent the following reliable companies:

THE INSURANCE COMPANY OF NORTH AMERICA, *Of Philadelphia, Penn.*

LIVERPOOL and LONDON and GLOBE, *U. S. Office, New York City.*

SPRINGFIELD, *of Springfield, Mass.*

QUEEN, *of Liverpool and London.*

PHŒNIX, *of Hartford, Conn.*

ORIENT, *of Hartford, Conn.*

TRAVELERS LIFE & ACCIDENT COMPANY, *Of Hartford, Connecticut.*

NEW ENGLAND MUTUAL LIFE *Of Boston, Mass.*

The above companies are well known and reliable, and we solicit the patronage of our friends and the public. All losses adjusted and promptly paid at our office.

MORSE & ILSLEY,

NO. 13 PLEASANT STREET,--UP ONE FLIGHT.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,900 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

GILMORE & CO.,

WASHINGTON, D. C.

LIBRARY LAMP.

HOUSE'S ARGAND BURNER,

Ask your dealer for this Lamp. If he will not supply you, write to us for it. It gives the light of twenty candles, or one-third more than any other lamp of similar style (same size burner) in the world; the light being, also, steadier and every way more satisfactory.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the medicinal medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all snuffs are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing, and purifying the secretions. Internally administered, it acts upon the organs of digestion, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while travelling with Father Kemp's Old Folks Concert Troupe as a tenor singer, I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks, but had avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal passages and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, which became so to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I truly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one who has head aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under his influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh for the first time in twelve years.

Respectfully yours, GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 5, 1877.

P. S.—I purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Rumford Building.

Each package contains Dr. Sanford's Improved Inhaler. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for two years, and, notwithstanding the immense number of remedies in the form of liniments, lotions, painkillers, and many imitations, they have always been accessed in sale and met with universal approval, as evidenced by ever one hundred unsolicited testimonials in our possession. Many remarkable cases have been cured by the well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Introduced in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world of medicine.* All we ask from every sufferer is a fair and impartial trial. The price is 25 cents, although the cost is double that of any other plaster. But, notwithstanding the efforts of the proprietors to make the best plaster in the world for the least money, any similar remedy can be bought, numbers of worthless imitations will be found ready to misrepresent them for *selfish motives* and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for. Sold by all Wholesale and Retail Druggists throughout the United States and Canada, and by WEEKS & POTTER, Proprietors, Boston, Mass. 6

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO.,

No. 3 BOW STREET.

Daily Chronicle.

Not a Coward.

An ex-soldier, residing in Omaha, has written to the *Lee*, of that city, a brief communication, contradicting a charge of cowardice made against Col. Robert G. Ingersoll by one of the local clergymen. He writes, "As to their difference on theological questions I have nothing to say at present, but when the reverend doctor tries to prove him a coward by saying that he resigned his colonelship in the face of the enemy, I must emphatically protest against such a foul slander on Col. Ingersoll's war record. Col. Ingersoll fought manfully until overpowered and compelled to surrender, but not until one of Forrest's men had him covered with a gun and had drawn a bead on him. Ingersoll sang out, 'Hold on there! What do you want to shoot me for? I have been recognizing your d—d old Confederacy for the last two minutes!' When Ingersoll was exchanged his horse was returned to him by the rebel General, with the remark that he was the man that saved his life by a joke."

A Recognition.

At a ball the other day a young man in the medicinal line of life came suddenly face to face with a dear, kind, old, fatherly-looking gentleman with white hair, of highly respectable and almost Biblical appearance. They both stood transfixed. The same idea flashed across both of them. "Your face is familiar to me, very familiar; but I can't remember where we have met so often." However, the friendly impulse was carried out; they shook hands warmly, partook of a friendly glass, and departed, still ignorant of each other's name and occupation. But the young man was determined to solve the problem, and he seized on the waiter, and said to him: "Tell me, waiter, who is that distinguished stranger, with the white hair all about him?" And the waiter whispered slowly: "Please, sir, that's the pawnbroker."—*London Truth.*

—Uneasy rests the head that wears a tidy.

Eating is a Torture,

And sleep often a mere travesty of repose, to the dyspeptic. Appetite is correspondingly impaired by this most prevalent of maladies, and headaches, biliousness, constipation, poverty of the blood, loss of flesh and of vitality, and a thousand annoying and indescribable sensations, are its concomitants. It is, moreover, the progenitor of numerous and formidable bodily disorders. Obstinate as it is, however, its complete eradication may be effected by the persistent use of Hostetter's Stomach Bitters, a medicine which communicates both vigor and regularity to the organs of digestion and secretion, relaxes the bowels gently but thoroughly, enriches and purifies the blood, promotes appetite, and gives tranquility to the nervous system. Persons of weakly constitution and feeble physique who use this superb tonic infallibly derive from it the stamina of which they stand so much in need, and it is invariably successful in remedying and preventing malarial diseases.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East Indian missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. Sent by mail, by addressing with stamp, naming this paper, W. W. Sherar, 149 Powers Block, Rochester, New York. Qy18

Lost Seven Pounds in Three Weeks.

Allan's Anti-Fat is a genuine medicine, and will reduce corpulency from two to five pounds per week. Purely vegetable and perfectly harmless, acting entirely on the food in the stomach, preventing the formation of fat. It is also a positive remedy for dyspepsia and rheumatism.

BOSTON, MASS., Feb. 11th, 1878.

BOTANIC MEDICINE CO., Buffalo, N. Y.:

Gentlemen:—The lady alluded to lost seven pounds in three weeks, by the use of Allan's Anti-Fat. Yours truly,

SMITH, DOOLITTLE & SMITH, Wholesale Druggists.

Every one speaks well of it, and those who have been there once patronize the place ever afterwards. Is it necessary to add that we refer to the Colonnade Hotel on Chestnut Street, Philadelphia, Pa.

"A friend in need is a friend indeed." *Adamson's Botanic Balsam* has proved itself a friend to the suffering, and its best recommendation is that where it has once been faithfully tried no other remedy will be used for coughs and colds.

It has been **Customary** in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

Alex. Frothingham & Co., brokers, 12 Wall st., N. Y., make careful investments for customers, in sums of $25 to $100, which frequently pay ten to twenty times the amount invested. Their *Weekly Financial Report*, sent free, gives full information. 0

A General Rebellion.

TRIUMPH OF A GREAT DISCOVERY!

The public has *rebelled* against *cauterizing Hair Dyes.* Fashion has forsworn them. A sagacious community has adopted in their stead,

CRISTADORO'S HAIR DYE,

and for *three reasons:* It embrowns and blackens the *hair*, not the *skin*. It is a *vegetable emollient*, not a *burning fluid*. It does not burlesque nature with *blooming metallic tinges*, but produces her own *living hues*. Its cooling effect is *lasting*. It *defies detection*. Its results are *uniform*. It *never fails*. Manufactured by J. CRISTADORO, No. 93 William St., New York. Sold by all Druggists. Applied by all Hair Dressers. Qy13

Portsmouth Chronicle

THURSDAY, JUNE 20, 1878.

Chronicle Correspondence.

WASHINGTON, D. C., June 17th.

The fault-finder's role is not a difficult one to play. The unfavorable criticism of Congress by the Washington correspondent is often unreasonable, and largely destitute of any real foundation in fact. It may be, and doubtless is, prompted by personal motives not infrequently. But after making due allowance for misrepresentations and perversions prompted by personal or party consideration, and for the spiteful asseverations of those disgruntled by refusal of favors, a dispassionate review of what has been done and what left undone at this session, leaves a large margin for doubting the competency and the honesty of men who inaugurated the present session of Congress as the special champions of reform and economy. It is now a matter of record how little this aggregation of statesmanship, and wisdom above their fellows, has been able to devise for the great industrial interests of the country. Nor is the impartial critic able to stop with showing that it has been an unprofitable and negatively unfruitful session. Without mentioning the flood of private bills that have been introduced, intended for the benefit of favorites at the expense of all not included in the designation, the addition of millions of dollars to the appropriation bills during the past ten days above the amounts agreed upon by the committees as necessary, will make it notorious as one of the most wasteful sessions ever held. The unanimity with which the House voted itself nearly $50,000 to pay its newspaper and stationary charges for the session, is perhaps, a small matter to mention when millions were being voted away; but it serves to show with what avidity those voting for it have seized upon every doubtful provision that could be so twisted as to justify an increase of their own already liberal pay. Though not a positive violation of law, the charge was often heard that it was a plain perversion of its spirit. But the record of the session is nearly complete and the information requisite to making up a just verdict will soon be within the reach of every voter. Most of the appropriation bills have necessitated one or more conference committees, but it is believed they will all have been agreed to by Wednesday, rendering an adjournment by that date possible. The army bill was very difficult to harmonize. Several conference committees wrestled with it, but finally by a good deal of concession on the part of the House and a little on the part of the Senate an agreement was reached. It leaves the strength of the army at 25,000 men, and the pay proper as heretofore, though some of the allowances of officers have been cut down. The House clause prohibiting the use of any portion of the army as a *posse comitatus* was so modified as to deprive it of much force.

The motion of Burchard on Friday, declaring, substantially, that any attempt to dispossess Mr. Hayes of the office accorded him by the Electoral Commission would be revolutionary and therefore not to be countenanced or encouraged by this or any other subsequent Congress, took the democratic side by surprise—fairly "took away its breath," seemingly, for the nonce. They rallied, but no time was allowed for consultation or concerted action. It was an ugly predicament. They were ambushed, and the easiest way probably commended itself as the best one to a large majority; at least all but twenty-one followed the lead of the first democrat called to put himself on record, by voting aye. The unfavorable report of the House judiciary committee on the Kimmell resolution, coming immediately on the heels of the ratification of Burchard's motion, seemed to add to its significance; and the matter of the President's title is now generally accepted as authoritatively settled and removed from the domain of politics until the next Congress, at least. Under the circumstances very little interest is now felt in the revelations of the Potter investigation, as only the fortunes of individuals can be influenced to any great extent. The members of the committee will probably make a show of going through to the end with their several parts; but the vote and report alluded to have dissipated the startling possibilities which lay along its course or at its termination, and which probably constituted its chief charm to actors and spectators. Mr. Blackburn dissented from the conclusions of other democrats of the judiciary committee, and took occasion Saturday to state his views to the House. Later he is reported to have engaged in a knock-down argument with another democratic member, who took exceptions to Mr. Blackburn's uncomplimentary allusions to those daring to differ with him in opinion.

The workingmen of this District have held several largely-attended public meetings within the past few weeks. An evening parade two weeks ago was estimated to have in line from 5000 to 6000 men. Their meetings lately have been held within hearing of Members of Congress at the east front of the Capitol; and the old adage that "listeners never hear any good of themselves" held good on these occasions, if any member was so curious as to listen. Another meeting is called for to-night, and under the circumstances they are probably regarded as so many menaces. Their effect may prove wholesome, but signs are not wanting that the most arrant demagogues are already figuring to control and manipulate the gatherings for personal aggrandizement.

KNOX.

CONCORD, June 19th.

Yesterday afternoon, agreeably to previous notice, Dr. Curtis of Portsmouth introduced a bill into the House providing for an amendment to the charter of the city of Portsmouth. The object of this bill is to change the election of city and ward officers from August to November, at the same time the State election occurs; the officers so elected to take their positions on the first Monday in January, and all officers now chosen to hold their positions until their successors are qualified; referred to committee on judiciary.

At a meeting of the New Hampshire Medical Society in Rumford Hall in this city on Thursday evening, Dr. John W. Parsons of Portsmouth read an obituary notice on the death of Dr. Ben. Crosby, the distinguished surgeon and esteemed late president of the association, written by an intimate friend, of Flushing, L. I. It was received with marked attention and interest.

The Rockingham County Convention meets again this afternoon, and the County Commissioners are in town.

The first matter in relation to the work of the tax commission came up yesterday. The separate parts connected with the tax commission had been referred to the appropriate committees. That part relating to an act to tax billiard tables and bowling alleys was referred to the judiciary committee. The report from the committee was that the matter be indefinitely postponed. After some discussion the report of the committee was not adopted. It was finally recommitted to the judiciary with instruction to report it in a new draft.

A bill was introduced this morning by Mr. Adams of Portsmouth to limit the number of men in the Portsmouth Light Artillery.

A. B.

Maine Democratic Convention.

The Democratic State Convention of Maine on the 18th inst. nominated Dr. Alonzo G. Garcelon of Lewiston for Governor. The platform adopted is brief. It squarely declares for the "payment of the bonded debt of the United States as rapidly as possible;" against the further issue of government bonds; against the present national bank system, and in favor of the substitution of greenbacks for national bank bills; and against an irredeemable currency. An attempt was made to secure a declaration of the convention against the liquor law, but great confusion was excited, and after the motion was once declared carried by a rising vote of 220 to 111, it was defeated on an actual vote by county delegations, by 179 noes to 167 ayes.

Murder at Plymouth.

Martin V. Dickey, who keeps a place near Plymouth that has for some time been the resort of dissolute young men and disreputable women, on Tuesday night, 18th inst., fatally shot Frank H. Eastman of Ashland, eighteen years old, and badly wounded Alvah N. Rowe, with a gun loaded with heavy bird-shot. The two young men called at Dickey's house on their way home from the Advent camp meeting at midnight, asking for "Liz," one of the inmates. They were told to go along, and after some talk got into their team and were driving off when Dickey came out and fired at them. The murderer was arrested on Wednesday. The young men had been drinking before they called at Dickey's den.

It is said that in 1863 Dickey gave John C. Thornton, a boy fourteen years old, such a beating that he died from its effects, but was never called to account for the crime.

Dickey's brother was recently sentenced at Laconia to State prison for thirty years, for setting numerous fires.

News and Notes.

Judge Davidson, of Fountain county, Indiana, on Wednesday telegraphed the governor of the State for troops to assist in suppressing riots among the miners. Troops were at once sent from Indianapolis.

Wm. L. Vermilye, a well known New York banker, died Tuesday night at the age of 77 years.

Deacon Smith, who has been on trial at Middlebury, Vt, for the murder of his wife by poison, was found not guilty by the jury, Tuesday afternoon, 18th inst. He was immediately arrested on a charge of adultery with Mrs. Champlin.

The grand jury has indicted Dr. Morton, the North Bend, Ohio, ressurrectionist who rifled the graves of young Devins and J. Scott Harrison, and also J. O. Marshal, janitor of the Ohio Medical College at Cincinnati, where Harrison's body was found. Morton has fled, but Marshall is held for trial. Gen. Harrison and Joseph C. Devins have each brought civil suits for $10,000 damages against the Ohio Medical College, and also against the Ann Arbor Medical College of Michigan, where young Devins' body was found.

On the night of the 17th inst., a crowd of roughs in South Boston assaulted John Fahey, a sailor just arrived from the West Indies, and attempted to fleece him. Fahey, who was slightly inebriated, stabbed Thomas Ward, aged twenty-six, fatally, and badly cut the hand of another of his assailants, when he was arrested by the police.

Eighteen persons were poisoned at Pittston, Pa., by drinking the milk of a cow whose udder had been bitten by a snake, and two will probably die.

John O'Conor, the notorious ex-member of the Ohio legislature, has been arrested by a special agent of the Pension Department on the charge of forging physicians' certificates. He was already under arrest for swindling the inmates of the Dayton Soldiers' Home.

The President on Tuesday, the 18th inst., nominated Sumner J. Kimball, of Maine, to be general superintendent of the life-saving service. This appointment is under the new bill which became a law the previous day. Mr. Kimball is the present chief of the life-saving service, and it is mainly owing to his exertions and energy that it has been brought to such a state of efficiency.

Oregon, Nevada and Idaho advices announce the Indians apparently all ready for an extended war; the situation is regarded as critical in the extreme. The few handsful of soldiers in and near the threatened districts are trying to do the work of a large army in protecting a vast extent of country, but the settlers are flying from their homes through fear that the army cannot accomplish impossibilities. Why, oh why was not the "democratic House" allowed to still further reduce the army? after Hewitt authoritatively announced "there is no danger whatever of an Indian uprising this summer," too.

Gus Harris, colored, a United States Deputy Marshal, while trying to arrest a murderer named Brooker Toney at Edgefield Court House, S. C., was shot and killed by Toney. The latter was arrested—and released on bail.

Mr. Lamb, acting superintendent of the New York Banking Department, has addressed a letter to the officers of various savings banks throughout the State suggesting to them the propriety of reducing salaries.

Twenty-six ships are now on their way to Boston from the East Indies, thirteen of which have valuable cargoes.

New Hampshire Items.

A lady named Mary Danforth, of Manchester, has been admitted to membership in the New Hampshire Medical Society.

At a meeting of the Governor and Council, Tuesday, 18th inst., William O. Clough was appointed Assistant Justice of the Police Court of Nashua.

Patrick Sullivan, alias Whitehead, was arrested at Manchester on the 18th inst., for a murderous assault on William Dunn, an old rag-picker and junk dealer. Dunn was badly cut about the head and neck.

John S. Whittier and wife, in going from Newton to Salisbury Beach on the 18th inst., were thrown from a carriage by an unmanageable horse. The lady's leg was broken. Mr. Whittier was slightly injured.

Tobias Perry and his wife Matilda, who were bound over some weeks ago to appear before a Deerfield justice to answer to a complaint for cruelly illusing their adopted child, had an examination before Justice Shackford on Tuesday, the 18th inst. Mr. Perry was discharged; Mrs. Perry was held in the sum of $1200 to answer before the Supreme Court.

Deerfield has a greenback club of 300 members, over half the voters in that town.

The United States Patent Office has granted letters patent to New Hampshire inventors as follows: Hazen R. Underhill of Derry, ploughs; Albert T. L. Davis of Lake Village, folding chairs; Geo. A. Blanchard of Concord, churns.

The Supreme Court at the present law term has adopted the following rule concerning law students: "Any young man desiring to enter as a student-at-law in the office of an attorney in the State, must make application to the Supreme Court at either the June or December law terms and obtain its consent. The course of study shall be three years. A student, upon completing the prescribed course of study, shall be examined at one of the above terms of court by the full bench, and pass a satisfactory examination before he shall be admitted to practice."

MARRIAGES.

JELLISON—NORTON. In Greenland, June 18th, Mr. John Jellison and Miss Cora Norton, daughter of H. J. Norton, Esq.

DEATHS.

EATON. In Wakefield, Mass., June 15th, Rev. Horace B. Eaton, of the Baptist church, aged 67 years. He was formerly pastor of the church in Salem, N. H.

E. G. PIERCE, JR., P. M.

THE CITY.

The Young People's Association of the Pearl street church will by request this evening repeat their Sunday School Concert of a few weeks since. A collection will be taken.

The House of Representatives at Concord, on the afternoon of the 18th inst., passed the act in amendment of the act to incorporate the Portsmouth Temperance Mutual Relief Association.

Mr. Lewis Holmes has recently built at his place on Goodrich's wharf, off Water street, four very pretty little rowboats, which he keeps for hire. A fifth one is fitted with paddle wheels; as a boat she looks all right, but we don't know about her as a steamboat.

The Butler house, No. 10 Richards avenue, was on Wednesday purchased of Mr. John Yeaton at private sale by Mr. James M. Sheldon, for $1700. It was knocked down at the auction sale the previous day at $1575, but the bid being claimed by two gentlemen it was again put up and knocked off at $1600—a "bid in," probably.

Alpha Council, No. 83, Royal Arcanum, had an election of officers last evening which resulted in the choice of S. W. Clarke, Past Regent; R. H. Perkins, Regent; O. M. Knight, Vice Regent; M. C. Fay, Orator; T. F. Stackpole, Secretary; A. C. Hoyt, Collector; S. C. Whittier, Treasurer; E. A. Furguson, Chaplain; H. H. Ham, Jr., Guide; E. B. Prime, Wardon; .C M. Anthony, Sentinel.

Acting First Assistant Postmaster General James H. Marr has notified Postmaster Varney of Dover that in accordance with the recommendations contained in the report of Special Agent Bigelow, the Department accepts the proposition of Mr. J. Albert Walker of this city "to lease to the government for post office purposes a portion of his new block in Dover, situated on the corner of Washington and Locust streets." Mr. Walker has also been notified of the acceptance of his offer.

On Tuesday, the 18th inst., as Mr. Howard Newman and a friend were driving on Islington street, the horse became frightened and shied, striking the carriage against a post in front of the residence of Ex-Gov. Goodwin. Mr. Newman was thrown out, and striking the ground heavily was rendered insensible, and remained so for some time; fortunately no bones were broken, although he sustained some painful bruises. The horse ran down Islington street, and partially demolished the carriage. Mr. Newman was fortunate in escaping death.

One evening recently a Market street storekeeper who had occasion to enter his place of business at a late hour, accompanied by a friend, was startled when he got in the back of the store to see a man partially concealed behind a pile of boxes, awaiting with an uplifted club a good chance to crack him over the head. He made a skillful and rapid retreat to the door, which he locked and left his friend to guard while he summoned assistance; the posse soon arrived at the seat of war, and a charge upon the enemy developed the fact that the murderous burglar had been built for the occasion out of buckets, a broom and the storekeeper's own coat. The crowd laughed, and the storekeeper "smiled."

M. Ulysses D. Tenney, the artist, has achieved another triumph in a portrait of the late Col. Joshua Peirce, which could not help being at once recognized by those familiar with the face of the original. Mr. Tenney's pictures, in their accuracy of likeness and as works of art, will render his name familiar to after generations in this region, beyond that of any of his profession who ever preceded him. While we have many portraits among us, both of foreign and native production, that would do credit to any period, curiously amusing it is to compare those by Mr. Tenney with others that might as well have been designed for their next door neighbors for any resemblance they ever bore to the individuals who sat for them.

PORTSMOUTH DIVORCE COURT.

On Tuesday evening of this week, when the City Councils were in special session to struggle with the appropriation bill, and while they were awaiting a report from their committee of conference, a man and woman appeared and asked for the Mayor. On the Mayor's answering the call he was greeted with a correct military salute by the masculine visitor, who announced himself to be the husband of his female companion, and informed His Honor that he—the husband, not the Mayor—was drunk at the time he was married, and didn't realize the true condition of things, and now wanted to be unmarried, for which purpose he had called on the chief magistrate of the city. On being asked his name he announced himself as a Mr. Whalen, of the United States Marine Corps, his wife having been named, at the time he married her, Mrs. Artie Barney; as the records show that she had been seven times married before Mr. Whalen surrendered to her charms, there is a little obscurity as to what her name was in the first place. Mrs. Whalen flatly dissented from some of her lord's statements, and raised objections to being unmarried by the Mayor and City Councils; so the matter was finally referred to City Marshal Entwistle, who being unable to find any authority in law enabling him to grant an absolute divorce, concluded to decree a limited separation, as the husband was very evidently drunk—possibly the remains of the drunk he says he was on at the time he got married—and accordingly locked the husband up in a cell to get sober, and sent the fair Artie home, still a married woman. Parties desiring brevet divorces from the City Councils must make their applications when sober.

CITY TAX ITEMS.

The Board of Assessors met Wednesday evening, and completed the tax lists for 1878.

The rate of taxation is two per cent.

The whole amount of money to be raised is $127,989.72.

The valuation of the city, including polls, is $6,388,486, an increase from last year of $83,360.

The number of dogs taxed is 299—278 male and 21 female.

The number of horses is 619; average value, $95.

The number of polls is 2205.

MISS MORGAN'S CLASS-DAY EXERCISES.

The above always most pleasantly anticipated annual event occurred on Wednesday of this week, and afforded the same gratification to the many present to witness it as on former like occasions. Miss Morgan has the same cause as heretofore to be proud of the progress of her pupils in their studies, and Portsmouth that it has an institution of the kind which confers upon it so much credit both at home and elsewhere. The same gay and happy scene as that of last year, enlivened by the music of Mr. Harlow—for a sight of which visitors were indebted to Miss Morgan and her young ladies—was re-enacted in the evening; recalling to the more mature in years their own youth, and furnishing to the young and the gay happy memories for after times. One could not but think in looking upon the scene, what a picture it was of human life. Fair faces among the pupils of last year were no more to be seen, others had come to fill their places; and so it will be when the parting of this season has occurred; some will not return to the place, where, while pursuing their studies, they passed many pleasant hours, and they, in turn, will have their successors. May much happiness attend both teacher and pupils, wherever they may be, during the period of summer recreation.

B.

THE VICINITY.

It was Simon P. Towle's barn that was burned at Hampton on the night of the 17th inst. The contents included two horses, two bulls, three cows, a flock of sheep, ten tons of hay, carriages, tools, lumber, etc. Loss $2000, with $450 insurance.

Mr. Frank Hidden, who will try to row a thirteen-foot dory from Star island to Newburyport in three hours on the 4th of July, is confident that he will succeed. He will start at six o'clock in the morning, and expects to land before nine. He paddled a gunning-float from Star island to Newburyport some years ago, when he was only about fourteen years old.

Four schooners, of from twenty to sixty-five tons register, built in Kennebunkport last winter for the fishing business, have all been away—some of them several months—to find purchasers, but without success. Not a single sale has been effected, and all have returned to Kennebunkport. One of the vessels did get a job, to take a freight of corn from New York to Bangor at a low rate.

George Bowden of York was before Judge Chase of Saco on Monday to answer to a charge of an assault upon J. Frank Paul, collector of taxes of that town. Bowden had been arrested for non-payment of his taxes but was released from custody on promise to pay. He, however, failed to do as he agreed, and when asked for the money not only refused to pay, but assaulted the collector. A posse was summoned and an attempt made to arrest Bowden, when he took refuge in his son's house and threats of using fire-arms were made. The case was put in Dep. Sheriff Durgin's hands and he went to York and arrested Bowden. On trial Judge Chase considered the assault of a nature to warrent his binding Bowden over for appearance at the September term of Court.—*Biddeford Times, 18th.*

Our York correspondent, "P," writing in reference to the recent unsuccessful search (already reported by us) of the Cape Neddick House for liquor, by Deputy Sheriffs Durgin and Grant of Saco, says: "These same gentleman performed a like ceremony about a year ago. Now with all due deference to the contemptible sneak who anonymously writes scandalous reports to these officers, upon which they are led to come here on the county's expense and search his house, to the injury of its good name under its present unexceptional management, we are led to say that in our opinion Mr. Grant keeps a respectable and orderly house, and that his guests are well cared for, at moderate prices. The officers made a thorough search, but in vain.

CITY ORDINANCES.

AN ORDINANCE making transfers of Appropriations.

Be it ordained by the City Councils of the City of Portsmouth as follows:

SEC. 1. That all money arising from the taxation of dogs remaining in the treasury of this city at the last city election, which has not been ordered to be paid for damages to domestic animals, shall be transferred and applied for the support of schools, agreeably to chapter 18 of the laws of 1876.

SEC. 2. That all unexpended balances of appropriations December 31, 1877, be transferred to the amount of Contingent Expenses; and that such sums as may be needed for the purpose shall be transferred from the amount for Contingent Expenses to supply deficiencies in various accounts; provided that the money held for payment of coupons on city bonds shall not be transferred.

Passed April 4, 1878.

W. A. HODGDON,
President of the Common Council.
JOHN H. BROUGHTON, Mayor.

A true copy.
Attest, M. BUFFORD, City Clerk.

JOINT VOTES authorizing Discounts on Taxes, and directing when notice shall be given to all persons whose taxes then remain unpaid.

VOTED by the City Councils of the city of Portsmouth, That the inhabitants of this city and non-residents who shall pay to the collector of their taxes for the year 1878 within thirty days next after the Assessors shall have committed to him the said collector the lists of assessments of taxes for this city, shall be entitled to a discount of six per cent. on the amount of their said taxes; and such persons as shall pay their said taxes within sixty days after the time aforesaid, shall be entitled to a discount of four per cent. on the amount of their said taxes; provided, that no discount shall be allowed to any person until the whole tax of such person for the year is paid.

VOTED further, That the collector of taxes shall, four months after he shall have received the lists of assessments of taxes from the Assessors, issue notices to all persons whose taxes shall then remain unpaid, stating the amount of the same, and that if the same shall not be paid, with twenty cents for such notice, within fourteen days thereafter, the collector shall distrain for the same.

Passed June 13, 1878.

W. A. HODGDON,
President of the Common Council.
JOHN H. BROUGHTON, Mayor.

A true copy.
Attest, M. BUFFORD, City Clerk.

AN ORDINANCE making appropriations for the year 1878.

Be it ordained by the City Councils of the City of Portsmouth as follows:

There shall be raised and is hereby ordered to be raised on the polls and estates of the inhabitants of the city and non-residents, to pay the current expenses of the city for the year ending December 31, 1878, and to pay such debts of the city as are required to be paid the current year, the sum of one hundred and twenty-two thousand dollars, which, with the sums to be received from the railroad and savings bank taxes and other income of the city, shall be appropriated as follows:

WM. A. HODGDON, *Pres. Common Council,*
JOHN H. BROUGHTON, *Mayor.*

A true copy, Attest,
M. BUFFORD, *City Clerk.*

AN ORDINANCE relating to the Fire Department.

Be it ordained by the City Councils of the City of Portsmouth:

That the chief and assistant engineers and officers and members of the several companies belonging to the Fire Department shall be paid quarterly on the first Monday of January, April, July and October annually.

Passed June 18, 1878.

WM. A. HODGDON, *Pres. Common Council,*
JOHN H. BROUGHTON, *Mayor.*

A true copy, Attest,
M. BUFFORD, *City Clerk.*

THE NEW HAMPSHIRE

GAZETTE

Established 1756.

The Gazette is published every Thursday, and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Political.

Thayer, republican, is elected governor of Oregon by forty to seventy majority. The democrats have a majority of twelve in the legislature on joint ballot.

In a recent speech in his own county, Colonel Dill, democratic candidate for Governor of Pennsylvania said that he had been "reared in all parts of Pennsylvania; he was a Methodist preacher's son, and as such was raised in spots."

Proctor Knott, the very little statesman from Kentucky who is chairman of the judiciary committee of the national House, dissents from the committee's report on the Potter-Tilden revolutionary scheme, and gives what he suspects are his reasons for thinking Hayes ought to be turned out and Tilden put in, and why such a proceeding would not be revolution. Ben. Butler, also one of the judiciary committee, follows Knott, giving his (Butler's) reasons for assuming that President Hayes can be put out in a legal manner in spite of the law and Constitution. Butler's manifesto is but another powder-ship explosion, and is inferior even to Proctor Knott's—if that is possible.

John O'Connor is under arrest at Columbus, Ohio, charged with swindling transactions while in the Soldiers' Home at Dayton. This O'Connor is the deserter, bounty-jumper, perjurer and ex-convict who, as chairman of the military committee of the late democratic legislature of Ohio, introduced a bill to prevent the inmates of the Soldiers' Home from voting, and in other ways to show the democratic animus against those who fought on the Union side during the rebellion, which bill was passed. O'Connor was denounced as a perjurer and thief by the republicans of the legislature, and they proved their assertions, too, but the democrats considered perjury and theft only "technical" offences when committed by a democrat, and they wanted O'Connor's vote in the interest of reform, and for the gerrymander ordered by Speaker Randall, so he was kept in his seat until the last hour of the last day's session, when he was "expelled" with a great flourish of trumpets!

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Rock Oil, Menthe and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. **The White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fleshy of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 Dey St., New York.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"Cornwall, Lebanon Co., Pa., Mch. 17, '74. *Dear Sir:*—I have used your Castoria in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.

F. A. ENDERS, M. D."

Mothers who try Castoria will find that they can sleep nights and that their babies will be healthy.

J. B. Rose & Co., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms our Stomach and Disordered Bowels, there is nothing like Castoria. tang

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of these diseases peculiar to women, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act in perfect unity and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid, lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommended it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** works wonderful cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to women not mentioned here. In all affections of this nature, my Favorite Prescription works **cures—the marvel of the world.** This medicine I do not extol as a cure-all, but it admirably fulfills **a singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of these diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.

R. V. PIERCE, M. D., Prop'r,
BUFFALO, N. Y.

$777 is not easily earned in these hard times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 outfit free. Address at once.
GUv2878 H. Hallett & Co., Portland, Me.

DR. JOHN TRIPP'S
BLOOD PURIFIER
IS the most wonderful discovery for the radical cure of **SCROFULA** and **SYPHILIS.** It never fails to entirely eradicate either of these diseases and all Blood Poisons from the system. **ULCERS, CANCERS, WHITE SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM** and **GOUT** yield to its power. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.
Sole Eastern Agency, **306 Columbus ave., Boston.** Office hours, 8 to 11, A. M., 3 to 7 P. M.
Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. eodnov11

Transportation.

RE-OPENING
OF THE POPULAR
PROVIDENCE LINE
TO NEW YORK,
VIA PROVIDENCE.

PENNSYLVANIA RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. ulcb20 79

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL,
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Trains.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.
GEO. L. CONNER, Gen'l Pass. Agt. J. R. KENDRICK, Supt.
L. H. PALMER, Agent, 3 Old State House.

Pierce's Pleasant Purgative Pellets
SIZE OF PELLETS.
Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.
The novelty of modern Medical, Chemical, and Pharmaceutical science. No use of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough, yet gently and kindly operating, cathartic.**
$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.
Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Blood feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative,** or **Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.
They are sold by all Druggists at 25 cents a bottle.

BUFFALO, N. Y.

PRATT'S
Astral Oil!
THE SAFEST AND BEST
ILLUMINATING OIL!
☞ *For Safety and for Excellent Burning Qualities, it is without an equal.* ☜
CAUTION.
☞ The great popularity of "ASTRAL" OIL has induced some unprincipled persons to sell worthless and dangerous imitations for "ASTRAL," while others palm off inferior oils, representing them as good as "ASTRAL." To prevent this fraud, purchasers should demand "ASTRAL" and take no other.
The Genuine Article is sold by
JOHN P. SWEETSER,
46 Market Street, Portsmouth.

NEW FOUR PER CENT
GOVERNMENT BONDS.
The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.
The Bonds are redeemable after Sept. 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.
The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.
Orders by mail will receive prompt attention.
Jan. 27, 1878. E. P. KIMBALL, Cashier. tf

PATENTED APRIL 10, 1877.

THE *simplest* and *best* articles for Cooking Beefsteak ever invented.

Can be used on any Either a Coal or Wood fire.

Cooks Steak so quickly that all the *juices* and *flavor* are retained.

DOES not let *ashes* or *coal* on the meat to make it smoke and gas out of the stove. DOES not put out the fire.

Ask your Dealer for the STANDARD BROILER, *it is just what you want.* The Trade supplied by FULLER, DANA & FITZ, 110 North St., Boston, and WILLIAMS & CO., Nashua, N. H.

MANUFACTURED BY ARTHER BROWN & CO., - Fiskerville, N. H.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. *Glenn's Sulphur Soap* produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts*. It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 60c. and $1.20.

N.B.—Sent by Mail, Prepaid, on receipt of price, and 5 cents extra for each Cake.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the essential medicinal principle is extracted by vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all saults are insoluble compounds or woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing, and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while travelling with Father Kemp's Old Folks Concert Troupe as a tenor singer, I took a severe cold which was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one who never had aches, eye ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy myself, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours, GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1876.

P.S.—I purchased the RADICAL CURE of GEO. H. BOGGISS, Druggist, Hamilton Building.

Each package contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for two years, and, notwithstanding the immense number of remedies in the form of liniments, lotions, poultices, and ordinary plasters, they have steadily increased in sale and met with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many remarkable cases have come to our notice by wholesale agents in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Marked improvements in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world of medicine.* All we ask from every sufferer is the trifling sum of 25 cents, although we think the cost is double that of any other plaster. But, notwithstanding the fact that it is the proprietors claim the best plaster in the world for the least money, any worthless article can be bought, numbers of unscrupulous dealers will be found ready to misrepresent them for selfish motives and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which we have been in such demand for the last twelve months.

C. E. MYERS & CO.,

No. 3 BOW STREET.

Daily Chronicle.

New Hampshire Items.

There will be a fireman's muster at Keene, July 4th.

Rev. M. W. Prince, formerly High School teacher of Nashua, has been offered the Presidency of the New Hampshire Conference Seminary at Tilton.

Dickey, the murderer of young Eastman at Plymouth, jumped from a carriage while being taken to jail on Wednesday, and took to the woods. Thirty men went in pursuit of him.

It is reported from Marlboro' that the laborers along the line of the Manchester & Keene Railroad were paid off Saturday, and there has been a perfect bedlam ever since all along the line. A gang of some twenty men tried to force into a drug store Sunday night to get some liquor, but did not succeed. One saloon had to shut up Saturday night and has not opened yet, on account of the trouble. Men lay dead drunk along the road from Keene to Hancock. The police have their hands full.

The annual meeting of the New Hampshire Biblical Institute was held at New Hampton Wednesday, and was largely attended. Dr. Edward Spaulding of Nashua presided. The report of the Treasurer showed an increase of contributions from last year.

Concerning the reported fall of sulphur at Concord, a Boston *Journal* correspondent writes: While the storm was rising several persons noticed a brazen hue of atmosphere, as if a fire were near. Looking towards some pine woods to the north of our village (there was a strong wind at the time,) clouds of dust arose from the trees in such quantities that in the sun's rays the woods seemed on fire. This was the yellow pollen that people called "sulphur." There was a similar deposit six years ago.

Eating is a Torture,

And sleep often a mere travesty of repose, to the dyspeptic. Appetite is correspondingly impaired by this most prevalent of maladies, and headaches, biliousness, constipation, poverty of the blood, loss of flesh and of stability, and a thousand annoying and indescribable sensations, are its concomitants. It is, moreover, the progenitor of numerous and formidable bodily disorders. Obstinate as it is, however, its complete eradication may be effected by the persistent use of Hostetter's Stomach Bitters, a medicine which communicates both vigor and regularity to the organs of digestion and secretion, relaxes the bowels gently but thoroughly, enriches and purifies the blood, promotes appetite, and gives tranquility to the nervous system. Persons of weakly constitution and feeble physique who use this superb tonic infallibly derive from it the stamina of which they stand so much in need, and it is invariably successful in remedying and preventing malarial diseases.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East Indian missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. Sent by mail, by addressing with stamp, naming this paper, W. W. Sherar, 149 Powers Block, Rochester, New York. 4jy18

"A friend in need is a friend indeed." *Adamson's Botanic Balsam* has proved itself a friend to the suffering, and its best recommendation is that where it has once been faithfully tried no other remedy will be used for coughs and colds.

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

Portsmouth Chronicle

FRIDAY, JUNE 21, 1878.

Let Us Give Thanks.

At seven o'clock Thursday morning, after closing up an eight months' session with an all-night sitting, Congress adjourned.

There was much drunkenness in the House during the night, the only member of the committee on enrolled bills who thoroughly attended to his duty being Rainey, the colored South Carolina Congressman.

The Senate passed the sundry civil bill as it came from the conference committee, without knowing what was in it.

The Senate bill making legal tenders on and after October 1st receivable for customs, failed to receive the requisite two-thirds vote for taking up and passing it.

The House bill making legal tenders receivable for customs, was objected to on its second reading in the Senate, and therefore went over to the next session.

The post route bill, containing the Brazilian steamship subsidy, the restoration of the franking privilege, the regulation of postage on mail matter and the regulation of railroad service, failed between the two houses.

All public and other bills presented to the President were approved. It is roughly estimated that the aggregate appropriations made by Congress for the fiscal year ending June, 1879, will be about one hundred and seventy millions of dollars.

Our New York Fashion Letter.

ARCHERY COSTUMES.

Scene 1. Fashionable young lady exceedingly affectionate towards her papa. Scene 2. Tearful request for a bow and arrows, and an indefinite number of archery costumes. Now we enter, for with this part of the business we have much to do. We will premise by observing that at present one is a nobody if one does not belong to an archery club. Piano playing is superseded; operatic screams are hushed, and when one does not go coaching, one practices at a target. All this of course gives a wonderful impulse to short costumes. Every known device is resorted to, in order to render them just as coquettish as can be. Chiefest of all perhaps, our would-be Dianas affect Hunter's green, and this really charming color thereby takes rank as extremely stylish. It is effectively contrasted with pale shades of *Havane*, or the costume may be composed of Hunter's green lightened by such admixtures. Then again, we find brilliant combinations of divers hues, to say nothing of the dazzling results of gilt or silver braidings, buttons, and other metal ornaments. Let me add a word about vests. 'Tis not inappropriate, for just now the vest in more senses than one, lies close to the feminine heart. The expenditure of thought in this direction is something marvellous, but there is a good deal to show in result. Vests are now even sold separately, and worn upon occasion with different suits. Black costumes are relieved by the most masculine of white vests, pique, Turkish towelling or black and white checked. Rich vests are of striped silk or brocade.

BATHING AND YACHTING SUITS.

Yachting suits are of navy blue or ecru batiste, relieved by braiding in which anchors are conspicuous. The irrepressible kilt skirt appears; sometimes the waist is a plaited blouse to match, or again, it is in one with the skirt. The sailor collar, with anchor in the corners, is an indispensable finish. The innate ugliness of bathing suits is modified by additions of fancy braiding, and here also we find little anchors worked in sailor collar and cuffs. For material, both flannel and serge are employed; the latter of course being preferable, but more expensive. Flannel suits vary from $5 to $10; serge from $8 to $15. Scarce in this connection, yet too pretty to be passed by, are some costumes lately seen. Walking and house costumes let it be understood. The first was a walking costume made Theresa princess dress of *damassic* grenadine and silk—both deep green. The mantelet was in shape, the new Mignon visite, made in black silk, and trimmed with French lace and rainbow jet. A charming costume of organdy is made demi-trained skirt, Lavenue overskirt, and surplice basque. The Ethelka is another exceedingly stylish polonaise.

JEWELRY.

Let me say a word as to engagement rings. for I am sure that somebody's Theodore is on the point of buying one. Say then, my good Somebody, to your Theodore, that fashionable ones are now so slenderly made as scarce to seem more than a golden thread, though true enough the solitaire diamond glitters in the centre. If neither you or Theodore like diamonds (which means that as sensible young people, you intend to begin economically) then you may choose pearls, emeralds, or sapphires. Very pretty rings are of colored and white pearls united, and it may be added that the long medaillion setting is most fashionable. Scarf pins are the rage, and are all the more convenient because the earrings need not match. But then we do find very pretty sets—scarf pins and earrings corresponding. As to earrings in general, they are short, and close to the ears.

PARASOLS.

No one who makes a business of being fashionable will fail to have a bright red parasol for driving. Bright red, with a terrible looking club for the handle. Only some degrees less striking are parasols of satin overspread with small figures or stripes—in appearance exactly like that used for gentlemen's cravats. Charming parasols are of brocaded silk in refined shades, and plain silk parasols are beautifully embroidered, edged with fine white or black lace.

CURIOSITIES OF HOUSEKEEPING.

The other day I was greatly interested in going over the St. Nicholas Hotel. The perfection of discipline which prevails seems to my somewhat disorderly imagination quite wonderful. The dining room with its corps of waiters, the lunch room, the nurses' dining room, the kitchen with its white capped *chef*, the dish washing reduced to a science, the arrangements for keeping plates and dishes always warm are edifying spectacles. Below are ice houses hung with meats and vegetables, the pastry kitchen, and the servants' dining room. Above, in the linen room, five persons are kept constantly employed in this one department. But the half is not told. Sometime when you are in the city go the rounds and take a lesson in systematic and beautiful housekeeping. You will be rewarded, and if you are once an inmate of this hotel you will never be found elsewhere.

LUCY CARTEE.

NEW YORK, June 19th.

News and Notes.

A woman in New Orleans, exhausted with sitting up nights with a sick pet dog, recently took laudanum to quiet her nerves and allay her grief at its death, and killed herself.

The *Eclectic Magazine* of Foreign Literature for July contains a sketch of Edmund Burke—not the present Burke of ours, who furnishes salient articles for the Concord *People*, and advises Mr. John H. Pearson as to the best mode of making the ins in the Concord Railroad feel that he owns nineteen hundred shares and yet is not represented in the Direction, but the Irish celebrity of the last century. The article is from Temple Bar. The Eclectic is gaining friends as a monthly visitor, full of excellent selections from the foreign reviews. It is published by Pelton of 25 Bond street, New York. The numbers contain about one hundred and thirty pages each month, and give a great variety of instructing and entertaining reading. A new volume commences with the July number.

The court appointed by President Hayes to examine the case of General Fitzjohn Porter consists of Generals Schofield, Terry and Getty. Porter's counsels are Joseph H. Choate and Anson Waltby of New York, and John C. Bullitt, of Philadelphia.

A trunk filled with silk dresses, seized by New York officers after being taken in a suspicious manner from the Stonington boat, proves to be the property of Mrs. Winthrop Sargent, whose Boston residence must have been robbed in her absence at Fishkill. The value of the plunder thus fortunately recovered was $4000. The man in whose custody it was found, gave his name as Richard Mitchell, of Providence.

A long box was shipped on the Truckee Railroad in Nevada, and at the Virginia City station it was rudely thrown out while a change of cars was being made. A moan inside the box led the baggagemen to open it. They found a young Chinese woman, insensible through standing on her head. She had been brought to the United States by one of the Chinese companies, whose price for her was $300. Ah Kim and she fell in love, and, as he could not buy her, he boxed her in order to get her away from her captors.

A prominent railroad official of St. Louis, just back from New York, whither he went to take part in the recent meeting of the pool in east-bound freight, says that the west-bound pool will undoubtedly be maintained. He states that the revenue of this pool for the eleven months it has existed shows an increase of ten million dollars over the eleven months preceding its formation, while the tonnage haul has been about the same.

In England and Wales the ratio of insane to the population is one to 373; in Massachusetts, one to 423; New York, one to 587; Illinois, one to 866; and Iowa, one to 1,101. This shows that the density of population has a more or less predisposing effect, producing, as it decidedly does, a deteriorating influence of the human race, morally and physically.

R. W. Pearson and G. J. Bruesinger, two clergymen, have been arrested at Pittsburg, Pa., on charges of forgery.

Albert Fisher, nineteen years old, was instantly killed at Lyndonville, Vt., on the 19th inst., by being literally cut in two by a circular saw.

Edwin Andrews, late cashier of the Washington County National Bank of Greenwich, N. Y., committed suicide Wednesday morning by hanging. The bank recently suspended, and is found entirely wrecked by the operations of the cashier, who had enjoyed a high reputation as a man and a Christian.

Dr. M. A. Watts, of Northville, N. Y., was called to the door of his house Wednesday evening, by an unknown man and woman who threw vitriol in his face. He will lose both eyes, and possibly his life.

Mr. Randall had to rap so often and hard during the disorderly session of the National House Monday night, the 17th, that he broke a hole through the Speaker's desk.

Daniel Stevens, a tramp who outraged a young girl near Buffalo, N. Y., a few weeks ago, has been sent to the penitentiary for twenty years.

Two tramps on Wednesday assaulted John and Isaac Haun, two old men of Huntington, Pa., in their own house, beating them until both were insensible, and injuring Isaac fatally. They then knocked the housekeeper down, ransacked the house, and escaped with over $4000 in bonds and money. They were pursued, but drove off their pursuers with pistol shots.

A grand nephew of ex-Gov. Leslie Coombs, of Kentucky, was mortally wounded last week, in a duel with a fellow student in Lee county, Va.; the two had been rivals in a love affair.

There was a wedding at the White House, in Washington, Wednesday night. Russell Hastings, who entered the army as a private at the outbreak of the rebellion, and rose to the brevet rank of brigadier general, was married to Miss Emily Pratt, neice of President Hayes.

The Chippewa Indians in northern Wisconsin are reported to be in collusion with Sitting Bull's Sioux, and the settlers are earnestly calling on the governor of the State for protection, as a general outbreak is feared.

Tuesday night, the 18th inst., a drunken row occurred at Mapleville, R. I., among mill operatives just paid off. Nelson Armstrong, owner of the building where the disturbance occurred, went out in his night clothes, with a revolver in hand, to quell the tumult. Most of the rioters fled, raising the cry of "ghost" but one Englishman, Samuel Hoyle, attacked Armstrong with a stone and knocked him down. Armstrong, who is over sixty years old, managed to get up, when Hoyle attacked him again and was shot, probably fatally. Hoyle has a wife in Worcester, where he was employed.

W. G. Williams, a Wells-Fargo express messenger, has been convicted at Salt Lake of a robbery which occurred in Utah two years ago. Williams was found bound and gagged when the train arrived at Salt Lake, and claimed it was done by men who entered the cars at the last station, and then jumped off the car. Seventeen thousand dollars was stolen, which was not recovered.

The Louisiana sugar crop has been very much improved by recent heavy rainfalls.

Naval Affairs

Rear-Admiral John C. Howell, who succeeds Rear-Admiral Trenchard in command of the North Atlantic fleet, will not be relieved until Sept. 22d as chief of the Bureau of Yards and Docks at the Navy Department. He will hoist his flag on board the Powhatan Oct 1st. It was intended that the change should take place Aug. 1st., but Admiral Howell's term of office as Chief of the Bureau will not expire until the date first given, and Secretary Thompson is anxious that he shall remain as long as possible. Among the candidates for appointment as Chief of the Bureau in his place are Rear-Admiral John Lee Worden of monitor fame, Commodore William G. Temple, and Capt. Richard L. Law.

Assistant Paymaster Z. T. Brown of this city was on Wednesday nominated for Passed Assistant Paymaster. The appointment was confirmed by the Senate.

The Secretary of the Navy, in compliance with the act of Congress approved May 4th has issued an order directing that appointments of secretaries and clerks from civil life on vessels out of the waters or ports of the United States, on and after July 1st, 1878, will cease on the arrival of the vessels on which they are serving within the waters and ports of the United States, and such secretaries and clerks will be allowed mileage to their actual homes or residences. The secretaries and clerks on vessels in our waters will be be discharged July 1st with mileage.

The *Navy Register* will be ready for distribution about July 15th.

THE CITY.

A large number of mackerel were brought in by the dragers on Thursday. They were caught between Boon island and the Shoals.

An ocean weir—a new device, so far as we have heard—is to be placed near the Isles of Shoals. It will be set and managed by Capt. Thomas Jamieson and the crew of the fishing schooner Anabel.

"Quilp," the travelling correspondent of the Boston *Post*, writes from London as follows about Mr. Henry C. Barnabee: "Mr. Barnabee is knocking about London with his eyes and ears open especially for musical attractions, though I venture to say that he has seen nothing in his own peculiar line that can approach the excellence of Barnabee."

Steam fire engine Kearsarge, No. 3, which returned on Wednesday from Manchester, where she had been undergoing repairs, was tested on Market square Thursday afternoon in presence of the Mayor, Board of Engineers and the Aldermanic committee on fire department, who were satisfied with the results of the test. Steam was made in five minutes from the time the fire was lighted; in six and a half minutes the gauge indicated a pressure of ten pounds, and twenty pounds one minute later. The repairing has been done in the very best manner; and with this steamer's return to duty the Portsmouth Fire Department becomes as nearly perfect in its material and organization as the fire department of any city of its size is likely to be.

"WONDERS OF THE DEEP."

That enterprising and energetic individual, Major Urch, who a year or so ago leased the Newcastle bridges and put them in thorough repair, and has since so beautified the approaches thereto, has at considerable expense just placed in position at the second bridge a finely-stocked salt-water aquarium, twenty-seven feet square and six feet five inches in depth. A walk five feet wide runs around the aquarium, neatly enclosed with closely woven rattan fences three high, rendering it absolutely safe for ladies and children to inspect, while convenient rattan chairs invite the pleasure seeker to take a rest after inspection. The aquarium is connected with the bridge by a brow twenty-eight feet long and five feet wide, guarded by similar railings to those of the aquarium, making it very easy of access for children and ladies unaccompanied by gentlemen. The inside of the tank has been painted white, so that the smallest specimens of the finny tribes are distinctly visible; above the water line, in big black letters, are the words "Wonders of the Deep." The whole affair is handsomely conceived and well carried out, and the aquarium is well worthy a visit; it will probably be a popular place of resort, as soon as its attractions become generally known. Among the inmates of the tank are lumps weighing twenty and twenty-five pounds; sturgeon, thirty pounds; cunner; tautog, a fish rarely seen in these parts, caught in a seine; cod, twenty-five lbs.; flounders; sea and river sculpins, the former covered with moss and barnacles; bass, alewives, herring, bluebacks, porgies, lobsters, skates, scup, butterfly fish, hake, frost fish, crabs and eels. The proprietor has had in the tank two of the largest shad ever taken on this river, but unfortunately both died; but he has made arrangements to get others to take their places, and also with parties at the Shoals and running the weir at Gerrish's island for other specimens. He also has the material all ready for the construction of another tank for larger fish, such as mackerel-sharks, swordfish, porpoises, or anything else that "comes to the net." The fish are fed daily with clams, muscles, conchles, and fish cut in small pieces. The sturgeons do not eat solid food, but live on the "sun-fish" that cannot be seen by day, but shine in the water at night. Major Urch is pleased to give all who visit him all the information he can, and brings to the surface any fish the visitor desires to closely inspect—all but the sturgeons, which fight the dip-net and won't be taken up. This is the only sea-water aquarium in this vicinity, and we do not know of any other built on the same plan; we assure our readers that it is well worth a visit, and it is the intention of the proprietor to make it one of the most popular places in the vicinity for visitors. Last Sunday the number of pedestrians over the bridge exceeded the number on any previous Sunday since it was built.

MEMORIAL DAY COMMITTEE.

The Citizens' General Committee on Memorial Day observances had their final meeting in the Common Council room on Wednesday evening, when the following report was offered and accepted:

PORTSMOUTH, June 19th.

To the General Committee of the citizens of Portsmouth having in charge the observance of Memorial Day:

Gentlemen: As Treasurer of the Committee I have the honor to submit my final report of funds received and expended in the observance of Memorial Day, May 30th, 1878:

Postal cards and papers	2 75
Telegraphing	2 80
Distributing bills	3 00
Incidentals	10 90
Total	$299.75

Respectfully, etc.,
J. HORACE KENT.

The following resolution was unanimously adopted, after which the committee adjourned without day:

Resolved, That the thanks of this general committee on the observance of Memorial Day for 1878 are eminently due, and are hereby extended to Col. J. Horace Kent, for the true and efficient manner of performing his official duties as Chief Marshall on said occasion.

A FOG-HORN LETTER.

A lody of this city having in a letter to a friend at Newport, R. I., (off the harbor of which place one of the huge automatic fog-signal buoys is moored,) mentioned the fact that this harbor now has a fog-horn, that is plainly heard at times all over the city, received the following in answer:

"O for a blast of that *dread horn*,
On Fontarabian echoes borne."—SCOTT.

The death of Thomas Winans at Newport, R. I., is attributed to an automatic buoy in the harbor, near his residence; its ceaseless noises disturbed his rest, and he died of exhaustion—*New York paper.*

Just think of it! A man worth forty millions of dollars killed by a fog-horn! And you—you still have the courage to cling to Portsmouth. Fly,

"Then fly betimes, for only they
Survive a fog-horn, that run away."

But perhaps you are fond of it; there is no accounting for taste, and what is one man's meat is another man's poison. For did not Wordsworth write

"Great God! I'd rather be
A Pagan suckled in a creed outworn,
So might I, standing on this pleasant lea,
Have glimpses that would make me less forlorn;
Have sight of Proteus rising from the sea;
Or hear old Triton blow his wreathed horn,"

and certainly we are justified in supposing the fog-horn to have been invented by Triton or some other old heathen; civilization is a failure, if to civilization is due the fog-horn.

I am unacquainted with your pet fog-horn, and do not know if it is automatic or not; if it is not, congratulate yourself; a regulated, steady blast, although strong enough to take you off your feet, is as nothing to the wail and scream of an automatic, measured in its height, length and depth by the height, length and depth of the ocean wave, varying in its voice from the shout of the charge, the shriek of the wounded and the groan of the dying, to the moan of the bereaved.

Is it any wonder that Mr. Winans died? Is it not more wonderful that he lived so long? Think of living with this perpetual trumpet ringing in your ears; think of the strain of expectancy and doubt, not knowing, from minute to minute, from second to second, what chord of your heart is next to be wrenched and tortured; whether your overstrung nerves are to be called upon to respond to triumphal rejoicings or despairing hopelessness — and this continuous, never ceasing, rain or shine; Monday, Tuesday, Wednesday, Thursday, Friday, Saturday and Sunday—always fog-horn—fog-horn in the bright morning, fog-horn at noon, fog-horn at night—eating, drinking and breathing fog-horn. Can the imagination conceive or the pen depict a more wretched existence? Death! what was death to him? Simply, for him, the fog-horn ceased. What had he to live for? what prevented suicide? this—forty million dollars. We may say what we will of the fog-horn, still if the offer were made of forty million dollars and a fog-horn, who would be strong enough to reject the fog-horn and forty millions, for that which we talk so flippantly about, and so seldom see, comfort and peace? Not I, certainly. Give me the forty millions and bring on your fog-horn—with forty millions I would defy—yes, defy—two fog-horns.

G. H. G.

THE VICINITY.

The Cliff House, at Bald Head Cliff, will open for the season June 26th. Mr. Theodore Weare, the proprietor, has made many improvements about the grounds, and has built a substantial fence along the edge of the cliff, to guard against accidents.

Edward C. Moody of York for State Senator, Daniel A. Hill of Kittery for County Treasurer, and Ephraim C. Spinney of Kittery for Member of Congress, is part of the possible greenback ticket for York county as suggested in the Biddeford *Times* of the 18th inst.

The commencement exercises of Phillips Academy at Exeter, on the 18th inst., were interesting. The orator was Ernest H. Mariett of St. Armand, Quebec; historian, James W. Babcock of Chester, S. C.; poet, Frederick C. Cowper of Havana, Cuba; prophet, George M. Richardson of Framingham, Mass. The class of '78 planted a tree instead of the usual class ivy. The ball in the evening was a grand affair. The ninth annual commencement of the Robinson Female Seminary occurred next day. The young ladies and teachers, with the trustees of the seminary and the clergy, headed by the Exeter cornet band, marched in a procession to the Town Hall, where the graduating class exercises were held, the essays and speaking being meritorious. The grand final reception was held at the seminary in the evening by the twelve graduates.

The Biddeford *Times* has the following concerning the thieves Goodwin and Stackpole, who were arrested in this city a few days ago for robbing George Getchell's store in Wells: "Mr. Getchell's safe was blown open and the rogues planned that portion of their game well. The safe had a large key-hole; this they filled with powder, and when a train on the Eastern road passed beneath the bridge (Mr. Getchell's store is close by the railroad) they lighted the fuse and blew open the safe. Goodwin, who appears to be the ring-leader, and Stackpole merely an 'outside guard,' was asked what made him think of blowing open the safe, when he replied he noticed it had a key-hole similar to the one in Burleigh's safe! This remark immediately fixed another burglary upon him. Some time since Mr. Burleigh's safe was blown open, and although Goodwin was suspected at the time he was not arrested. He is said to belong to a gang of suspected thieves."

Lost Seven Pounds in Three Weeks.

Allan's Anti-Fat is a genuine medicine, and will reduce corpulency from two to five pounds per week. Purely vegetable and perfectly harmless, acting entirely on the food in the stomach, preventing the formation of fat. It is also a positive remedy for dyspepsia and rheumatism.

BOSTON, MASS., Feb. 11th, 1878.

BOTANIC MEDICINE CO., Buffalo, N. Y.:
Gentlemen:—The lady alluded to lost seven pounds in three weeks, by the use of Allan's Anti-Fat. Yours truly,
SMITH, DOOLITTLE & SMITH,
Wholesale Druggists.

Every one speaks well of it, and those who have been there once patronize the place ever afterwards. Is it necessary to add that we refer to the Colonnade Hotel on Chestnut Street, Philadelphia, Pa.

Alex. Frothingham & Co., brokers, 12 Wall st., N. Y., make careful investments for customers, in sums of $25 to $100, which frequently pay ten to twenty times the amount invested. Their *Weekly Financial Report*, sent free, gives full information. 9

MARRIAGES.

LARKIN—BALL. In this city, June 20th, at St. John's church, by the rector, Rev. Charles A. Holbrook, Miss Mary L. Ball, daughter of T. M. Ball, to Alfred Otis Larkin of San Francisco, Cal.

DEATHS.

FREEMAN. In this city, June 19th, Elbridge Doane Freeman, only child of Sarah A. and the late Allen D. Freeman, aged 16 years and 11 months.

☞ Funeral this (Friday) afternoon at two o'clock, from the Universalist church.

A General Rebellion.

TRIUMPH OF A GREAT DISCOVERY!

The public has *rebelled* against *cauterizing Hair Dyes*. Fashion has foresworn them. A sagacious community has adopted in their stead,

CRISTADORO'S HAIR DYE,

and for *these reasons:* It embrowns and blackens the *hair*, not the *skin*. It is a *vegetable emollient*, not a *burning fluid*. It does not burlesque nature with *blooming metallic tinges*, but produces her own *living hues*. Its cooling effect is *lasting*. It *defies detection*. Its results are *uniform*. It *never fails*. Manufactured by J. CRISTADORO, No. 23 William St., New York. Sold by all Druggists. Applied by all Hair Dressers. Qy15

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&tsept15 7

THE NEW HAMPSHIRE

GAZETTE

Established 1756.

The Gazette is published every Thursday, and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains **full accounts** of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of **NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news**, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of wha transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a **WEEKLY INVITATION TO CUSTOMERS**, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Political.

The Democratic State Convention of Vermont on Thursday nominated W. H. H. Bingham for governor.

The committee, at first led by Mr. Potter, has fallen under the guidance of the member from Essex, and should now be known as the Butler committee. We are bound to admit that the squabbling over the intrigues of obscure office-beggars has become so petty and utterly disgusting that it is rather to the credit of Mr. Potter and the other gentlemen that they begin to exhibit a willingness to allow Butler to do for them the dirty work for which his taste and training have so eminently qualified him.—*Buffalo Advertiser.*

—In about two weeks from now if you hear your neighbor slam a pillow against his bedroom wall you may be sure that the mosquito got away.

—One B. F. Taylor, who has recently written much poor rhyme for the papers, has lately produced some verses about "the blue-eyed faith of a child." There are various kinds of faith, but never before have they been distinguished by the color of their eyes. What does faith want of sight, anyhow?

—George (who has just engaged himself to the girl of his heart) breaks the happy news to his friend Jack (who has been married some time.) Jack: "Ah! well, my dear fellow, marriage is the best thing in the long run, and I can assure you that after a year or two a man gets used to it, and feels just as jolly as if he had never married at all."—*Punch.*

Wood per cord, Hard, $7 @ $8; Pine $4.

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Pollevil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Children

May be made healthy and strong by the use of *Dr. Pitcher's Castoria*, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '74.
Dear Sir:—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.
F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. B. ROSE & CO., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms our Stomach and Disordered Bowels, there is nothing like Castoria. fang

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** On a month, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system. I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer to refund it in full, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommended it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly marvelous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine of its kind: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Inward Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here. In all affections of this nature, my Favorite Prescription works **cures—the marvel of the world.** This medicine is not cried as a cure-all, but it is admirably fulfills **a singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.

R. V. PIERCE, M. D., Prop'r,
BUFFALO, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once. GUy2878

PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. ulcb20 79

203 and 205 Washington st., Boston, Mass.

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World.
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these Floating Palaces. Fare $1. Excursion tickets, good Sundays excepted, arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL,
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Trains.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.
GEO. L. CONNER, Gen'l Pass. Agt.
J. R. KENDRICK, Supt.
L. H. PALMER, Agent, 3 Old State House.

Pierce's Pleasant Purgative Pellets
SIZE OF PELLETS.
Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.
The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of clumsy, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by the delicate of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough, yet gently and kindly operating, cathartic.**
$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.
Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, Highly-colored Urine, Sensibility and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative, or Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.
They are sold by all Druggists at 25 cents a bottle.
R. V. PIERCE, M. D., Prop'r,
BUFFALO, N. Y.

PRATT'S
Astral Oil!
THE SAFEST AND BEST
ILLUMINATING OIL!
☞ *For Safety and for Excellent Burning Qualities, it is without an equal.* ☜
CAUTION.
☞ The great popularity of "ASTRAL" OIL has induced some unprincipled persons to sell worthless and dangerous imitations for "ASTRAL," while others palm off inferior oils, representing them as good as "ASTRAL." To prevent this fraud, purchasers should demand "ASTRAL" and take no other.
The Genuine Article is sold by
JOHN P. SWEETSER,
46 Market Street, Portsmouth.

NEW FOUR PER CENT
GOVERNMENT BONDS.
The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.
The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.
The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.
Orders by mail will receive prompt attention.
Jan. 27, 1878. E. P. KIMBALL, Cashier.

BEFORE AND AFTER
ANTI-FAT
The GREAT REMEDY for
CORPULENCE.
ALLAN'S ANTI-FAT
is purely vegetable and perfectly harmless. It acts upon the food in the stomach, preventing its being converted into fat. Taken in connection with diet, it will reduce a fat person from two to five pounds per week.
"Corpulence is not only a disease itself, but the harbinger of others." So wrote Hippocrates two thousand years ago, and what was true then is now the law to-day.
Sold by druggists, or sent, by express, upon receipt of $1.50. Quarter-dozen $6.00. Address,
BOTANIC MEDICINE CO.,
Proprietors, Buffalo, N. Y.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. ***Glenn's Sulphur Soap*** produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts.* It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 60c. and $1.20.

N.B.—Sent by Mail, Prepaid, on receipt of price, and 5 cents extra for each Cake.

No. 1 MARKET SQ.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the essential medicinal principles are obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all snuffs are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus alleying inflammation and pain and at once correcting, cleansing and purifying the secretions. Internally administered it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen,—About twelve years ago, while traveling with Father Kemp's Old Folks Concert Troupe as a tenor singer, I took a severe cold which so laid up my voice, for me. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterward I was unable to sing at all. The first attack of Catarrh had left my nose and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The air, even, was so severe upon my lungs, I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believed that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for anyone, whose head aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours,
GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1876.

P.S.—I purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Rumford Building.

Each package contains Dr Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas, WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for two years, and, notwithstanding the immense number of remedies in the form of liniments, lotions, painkillers, and ordinary plasters, they have steadily increased in sale and met with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many remarkable cases have been cured by these plasters by well-known parties in all parts of the United States; copies of which will be sent free of charge to any one visiting them. Improvements are being made in ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world of medicine.* All we ask from every sufferer is the trial of a single trial. The price is 25 cents, although the cost is double that of any other plaster. But, notwithstanding the efforts of the proprietors to make the best plaster in the world for the least money, any other article can be bought, numbers of unprincipled dealers will be found ready to misrepresent them for *selfish motives* and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

PORTSMOUTH

INSURANCE

No. 3 BOW STREET.

Daily Chronicle.

Sleep for the Brain.

"Blessings light on him that first invented sleep," says Sancho Panza; and the tired workman, tired in brain or body, echoes the benediction. The best possible thing for a man to do when he feels too weak to carry anything through, is to go to bed and sleep as long as he can. This is the only actual recuperation of brain-force, because during sleep the brain is in a state of rest, in a condition to receive and appropriate particles of nutriment from the blood, which take the place of those which have been consumed by previous labor, since the very act of thinking burns up solid particles, as every turn of the wheel or screw of the steamer is the result of consumption by fire of the fuel in the furnace. The supply of human brain substance can only be had from the nutriment particles in the blood, which were obtained from the food eaten previously; and the brain is so constituted that it can best receive and appropriate to itself those nutritive particles during the state of rest, of quiet and stillness of sleep. Mere stimulants supply nothing in themselves; they goad the brain and force it to a greater consumption of substance, until it is so exhausted that there is not power enough left to take up a fresh supply.

—In the good old times when Ireland had a Parliament of her own, one honorable gentleman said pleasantly, in the course of debate, of another honorable gentleman, as well: "The house of the honorable member are and have ever been political and personal hirelings, from the white livered hound that is trembling on the floor to the painted hag that is grinning in the gallery." After the duel some one asked the speaker how he came to know that the sister of his adversary, the "hag" of the peroration, was to be present in the House. "Sure I walked down with him, and he told me himself," answered the orator.

—A singular character has just died at Hartford. He was a man about 50 years of age and of some means, but somewhat deranged in intellect, who was every day upon the streets walking with downcast eyes carefully removing from the sidewalks all stray pieces of orange peel and banana skin, that are really so dangerous and occasion so much profanity. It is said to be a fact that in early life his lady love broke her leg by slipping on a piece of orange peel, and eventually died from the effects of the accident. This it was that affected his mind and led to his unselfish occupation for the rest of his life.

—Some years ago a minister was addressing a Sabbath school. Interspersing his remarks with questions on the life and exploits of Samson, he asked among others, the following, "With what remarkable weapon did Samson, at one time slay a number of Philistines?" For a while there was no answer, and the minister, to assist the children a little, commenced tapping his jaw with the tip of his finger, at the same time saying, "What's this—what's this?" Quick as thought, a little fellow, quite innocent of mischievous intent, replied, "The jawbone of an ass, sir!" A loud titter ran through the school, in which the minister was compelled to join; and he many times afterward related the incident with thorough appreciation of its fun, though it made him careful in assisting "young ideas" for the future.

Portsmouth Chronicle

SATURDAY, JUNE 22, 1878.

Washington Correspondence.

WASHINGTON, D. C., June 19th.

We are passing through the last throes of an expiring session whose record will soon be made up for the commendation or condemnation of "the people." How many of the members of this first session of the 45th Congress shall hear the plaudit, "Well done, good and faithful servant; thou shalt have a renomination," or the other salutation of awful import, "depart ye," etc., further political preferment is reserved for your rival." The confusion that has reigned supreme at the House end of the Capitol, and to a less extent about and in the Senate chamber; the sharp rivalry among members of both bodies to obtain the floor, the attendance of about an acre, more or less, of real or pretended lobbyists, and the presence of the principals themselves of the many jobs on the Speaker's table threatened with an untimely death, all indicate the anxiety consuming many of our residents and visitors lest the nice little schemes for a grab into Uncle Sam's strong box should ultimately fail. An unknown member of go-betweens have been subsisted here all this session to interest Congressmen, and by all other means, legitimate and illegitimate, to secure the final success of these jobs. Nearly all of them must fail, and those most interested will find themselves out of pocket just to the extent they have invested in the thousand and one ways required to be efficacious in procuring "special" legislation.

Allow me to tender a little gratuitous information. There are a few men here at every session of Congress who are professional lobbyists—men, and women too, it is generally believed, who by hook or crook are able to, and undoubtedly do, influence legislation; but their number is insignificant as compared with the hordes of seedy individuals encountered at every turn, pretending to have such ability. The latter have an air of general dilapidation about them that unmistakably proclaims them what they are, viz: "dead beats," wholly without influence in any direction. Any member of Congress with average sense would snub them on general principles, let alone encouraging anything like the confidential relations absolutely requisite to success in the "profession." But they can talk with the readiness and volubility of a lightning-rod man or a book agent. These are they who "take in" and "do for" the unpracticed gentleman in search of lobby aid. As proof, the fact may be cited that scores of them without visible means of support, manage to keep soul and body in juxtaposition. It is always safe to avoid them, and correspondingly perilous to pocket and reputation to do otherwise. The man whose services in this connection are valuable never has occasion to seek customers. Crowds are always after him, and those offering the greatest inducements are first served. But the class of which I speak is a recognized feature of Washington life; and the counterfeit are much more numerous than the genuine. I trust I have sufficiently warned a worthy class of my fellow men, who would willingly deal in the "queer" if they only knew how.

Among the measures introduced that promised to be of benefit to the laboring masses who earn a little more than they spend and consequently have the excess to deposit, was that providing for the establishment of Government Postal Savings Banks. But it was deficient in anything making it particularly worth the while of members to give it their attention. Hence it falls into the great abyss of bills not reached, and expires by the unwritten statute of limitation of Congress. The amounts of money—the millions required to meet deficiencies—should retroactively affect the demagogues of the last House who sought to build up a reputation for "economy and reform" by postponing the appropriations needed for the fiscal year for which they legislated, to a succeeding Congress. This, of course, enabled them to point to comparatively small appropriations, and to rail against their immediate predecessors in Congress with a great show of reason to those not familiar with the facts. From the Postmaster-General alone came a loud wail for over $1,000,000; other departments were in the same bankrupt condition; by this dishonest makeshift a little temporary popularity was gained at the expense of the Government's reputation with its creditors; but not a few branches of the public service have been very seriously crippled—some wholly suspended—by it. It is to be hoped these false pretenders will be dealt with according to desert at the next election, whose results they were so anxious to forestall.

Potter and the "Essex Statesman" will find it a hard job to prolong interest in the respective roles they have undertaken or in the subject-matter under investigation. Many witnesses are waiting here at heavy expense to the government, but Mr. Potter seems to regard the business as a bore since by vote of the House and report of its judiciary committee all hope is dispelled of upsetting the decision of the only body that was recognized as competent to decide a grave dispute.

From reports received it is impossible to analyze the Indian situation. The only thing that seems assured is a bloody, devastating war.

KNOX.

News and Notes.

At Stockbridge, Mass., Wednesday, two brothers named Lutesinger had a quarrel with a man named Riley, and Riley's head was split open with a hatchet, making a terrible, and perhaps fatal, wound. The brothers left the injured man in care of his family and delivered themselves to the officers.

Jacob Shaefer is matched to play William Sexton, the champion billiard player of America, three games of 1000 points each for $4000. The first game will be played in Tammany Hall, New York city, about the 17th of July, the second in Chicago, and the third game in Cincinnati.

Samuel Mousley, of Orfordville, served under Wellington at Waterloo. He was a member of the Seventh Cavalry, under command of Lord Partridge, and was near him when he fell. He has recently, by the death of relatives in England, become heir to an estate of $20,000, so it is to be hoped the remaining years of his life may be made more comfortable. He is now eighty-one years old, and hale and hearty.

Night Editor Anderson, of the red head and inexhaustible perjuries, is night editor no more. The Philadelphia *North American*, that when he first commenced his story warned the public to believe him because he told the truth, got so muddled up in trying to decide *which* of his stories was the truth that the only way out of the muddle was to bounce him. So he now has only his reputation to live on.

The daughter of Hon. Lot M. Morrill was married in Augusta Tuesday evening to Mr. Charles Nason Hamlin of that city.

Pearson and Saddler, two men who have been for some time in jail at Springfield, Tenn., on suspicion of having outraged a Mrs. Graves on the 16th of May, were taken from jail Thursday by an armed mob, and hung. Both victims protested their innocence to the last.

Fishing schooner Cunard recently arrived at Gloucester from the Grand Banks with 171,500 lbs. of split fish. The *Cape Ann Advertiser* learns that the mackerel are more numerous off the Nova Scotia shore than for many years, and that the prospect for a large catch in the bay is good.

The entire amount of gold in the world at present is estimated at $7,000,000,000 in value in United States coinage. This immense sum is hardly comprehensible to the mind, but if it were put into a solid mass it would measure only seventeen feet high, twenty-eight feet wide and fifty-six feet long.

Mr. Jacob Milliken of Scarboro', Me., a gentleman in his ninety-fifth year, enjoys good health, and is remarkably smart for one of his age. This season he harrowed a lot of plowed ground, made the holes, fertilized, and planted one thousand hills of potatoes, and has just completed hoeing them for the second time! Mr. Milliken is hale and hearty, in fact is rather afraid of fully satisfying his appetite. He still posseses a fine memory.

Buenos Ayres has closed its ports against all vessels from Montevideo or Brazil.

A crater of an extinct volcano, 6,000 feet long and 2,500 feet wide, has been discovered in Oregon.

Lemons sixteen inches in diameter grow abundantly in the mild neighborhood of Galveston, Texas.

New Hampshire Items.

E. B. Parker, of Franconia, shipped over the Passumpsic road from Canada last week 620 car-loads of railroad ties.

The Legislative Committee visited the Reform School Thursday.

Freeman Blanchard of Manchester got his hand crushed while coupling cars Thursday.

The Manchester High School graduating class, Wednesday evening, performed the ceremony of cremating the obnoxious text-books in the presence of a large audience in and about the school grounds.

A daughter of Mr. William Hills, of Londonderry, fell into a pond at that place on the 18th inst., and was drowned. Her age was four years.

Three hundred and three shares of the City National Bank of Manchester, belonging to the assignee of a Savings Bank in Manchester, are to be sold at auction on the 29th inst.

—A remarkable pedestrian challenge has just been made by Capt. John T. Guire of Cincinnati, who has proposed, on a wager of $10,000, to walk under water, on the bottom of the Ohio river, from Cincinnati to Cairo, in the space of twenty-five days. The distance is something over five hundred miles, requiring him to make over twenty miles a day. He stipulates that he is to have a flat accompany him, with an air pump to supply him with air, and, moreover, to be allowed to come up as often as he likes, but the boat is to be stopped whenever he comes up, so that he shall walk every foot of the way.

—Joseph, the abused "phenomenal" pitcher, is still carving the leather—that is, he is working in a shoe factory in Philadelphia.

Tramps Organizing.

The St. Louis *Times* says: Among recent developments is that of a thorough organization among tramps and wandering harvesters. Those of this class who stopped in this city or passed through within the past fortnight have, almost without exception, worn upon the left breast a little scrap of red flannel pinned or sewed to their clothing. It is their badge, by which they recognize each other. They have signs and grips, and talk mysteriously of trouble to come during the heated term. Their part, they say, will not be to start a revolution, but to act as auxiliaries. They wait for the initiative to be taken by railroad men, and when the strike commences the country will discover the tramps' power in the immediate cutting off of all telegraphic communication.

Why Is It.

The truths of science and progressive thought have always been compelled to batter down the bulwarks of prejudice and disbelief, or remain forever unknown. Why is it that people are so reluctant to receive facts that relate directly to the phenomena of their own existence? Astronomess, upon discovering a star, assign it a place at once, and it is forever fixed. The rule by which a mathematical problem is once solved becomes forever an axiom; but no matter how clearly the principles which govern health and sickness be demonstrated, some refuse to believe. Dr. Pierce's Family Medicines, which are now so generally used, and deservedly popular, were, in their early days, very reluctantly received by the people. To-day, Dr. Pierce's Golden Medical Discovery has outrivaled the old-time sarsaparillas, his Pellets are in general use in place of the coarse, huge, drastic pills formerly so much employed, while the sales of his Dr. Sage's Catarrh Remedy and his Favorite Prescription are enormous. Where the skin is sallow and covered with blotches and pimples, or where there are scrofulous swellings and affections, a few bottles of his Golden Medical Discovery will effect an entire cure. If you feel dull, drowsy, debilitated, have sallow collor of skin, or yellowish-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from *torpid liver*, or "*biliousness*." In many cases of "*Liver Complaint*" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy. Debilitated females who have undergone all the tortures of caustic and the knife, and yet suffer with those peculiar *dragging-down* sensations and weaknesses, can have guaranteed to them prompt and positive relief by using Dr. Pierce's Favorite Prescription; while constipation and torpid liver, or "biliousness," are promptly relieved by the Pleasant Purgative Pellets. Sold by all druggists.

—The wine-growers of California are opposed to a reduction of the import duty on foreign wines.

MUSIC HALL, PORTSMOUTH.

Anthony & Parsons, Lessees.

E. G. PIERCE, JR., P. M.

THE CITY.

Rev. J. W. Hubbell will preach at Newcastle at 2:30 P. M., Sunday.

Mr. John H. Cheever has bought the house No. 14 Chapel street, of Mr. Thomas Lydston, for $1650.

The Heavy Artillery have decided to remain in their present quarters, the rent having been fixed at a more reasonable figure.

Childrens' (or rose) Sunday at the Universalist church to-morrow. Baptism of children, etc., in the forenoon. The church will be decorated.

If the gentleman who a few evenings since borrowed our *New Hampshire Register* will loan the same to us for a short time, he will confer a favor.

The fish market in this city was glutted on Thursday. Several of the fishermen could not dispose of their fares to the regular buyers at any price, and were obliged to themselves split and salt their fish. Prices are ruling low, right along.

The fishing schooner Helen F. Trodick has fitted out for mackerel fishing, and will sail to-day. Capt. Caswell is well pleased with her, she being a good sailer and carrying sail well. With two topmasts and a fresh coat of paint, she looks quite as much like a yacht as like a fishing boat.

Subjects of addresses to be delivered by Elder Cummings at the tent meetings on Middle street at the usual hours: This (Saturday) evening: "The restoration of the nation of Israel, the final settlement of the Eastern Question." Sunday forenoon: "Some men have souls, others have not." Sunday afternoon: "The true Age-to-Come doctrine." Sunday evening, (last meeting:) "Show who will be saved, and how; and who will not be saved, and why." All are invited; admission free.

Mr. C. W. Stevens, president of the Nashua Reform Club, in a communication to the Newmarket *Advertiser* denies that the club ever had anything to do with Mr. Drake, one of the men who was arrested in Newmarket on a charge of attempting to blackmail a rumseller and until Wednesday confined at the jail here on a charge of conspiracy. Not only has Drake never been hired by the club, but no person whatever has been hired, as the members do not approve of the detective system, the club working solely by moral suasion.

We have often heard it said that the canker worms left—disappeared somehow—went somewhere unknown—on the 20th of June. We supposed that they might disappear about that date, but this year we watched the destructive pests, having an excellent chance to do so, and found that they did actually disappear on the very day specified. There were plenty of them to be found, Thursday morning, on the trees they have ravaged; Friday morning not one was to be seen. What puzzles us is, how the little nuisances can so accurately keep the run of the time in such a season as the present, when we had June weather in April, and April weather all through May and half through June.

BASE BALL.

The Granite States of this city visited South Berwick on Friday to play the Resolutes of that town. The score was eighteen to seven in favor of the Granite States. Our boys excelled themselves; the Resolutes not getting a run until the fourth inning. Buckley's catching and McClinchy's pitching were worthy of praise, as was also the fielding of Walden and Rowe; Conhig as first-base did remarkably well; in fact all did well. Mr. Frank E. Mack of this city acted as umpire.

The "Same Old Game" of this city play the Marine nine at the navy yard this afternoon.

THE LADY OF LYONS.

On Thursday evening next, at Music Hall, Bulwer's great play "The Lady of Lyons" will be produced by a combination of the leading performers of the Boston Museum and Boston Theatre; Manager H. A. M'Glenen, of the Boston Theatre, will be here in person to see that the arrangements are carried out in every detail. The cast is a very strong one, as will be seen by referring to the advertisement; the play is ever popular, and the elegant wardrobes and stage mounting required are all on hand with this combination. The sale of reserved seats will commence on Tuesday at Preston's. The farce "the Limerick Boy" will conclude the evening's entertainment.

ODD FELLOWS' REUNION.

On Thursday evening Osgood Lodge of Odd Fellows held their first meeting in their new quarters in Pythian Hall, on which occasion a large number of prominent members of the order were present as visitors, among them being Grand Master H. A. Farrington, Deputy Grand Master L. F. McKenney, Grand Secretary Joseph Kidder, District Deputy Grand Master Lewis E. Staples, Past Grand Representatives True Osgood, (who when Grand Master instituted Osgood Lodge,) Joseph H. Gardiner and James H. Hartshorn, Past Grand Masters Ellis and Craig, Grand Conductor Robie, Gen. Natt Head and Mr. Ham of Hooksett, Chief Patriarch John H. Locke, Dr. Curtis and a large number of past officers. The visiting brethren from out of town were met at the depot in the afternoon by a delegation of Odd Fellows, and escorted to their quarters at the Rockingham House. The exercises of the evening consisted of the initiation of two candidates, after which a number of speeches were made, and all present then adjourned to the banquet hall, where supper was served. Grand Secretary Kidder, in explanation of a report that the building erected by the Odd Fellows of Manchester, and in which they have their hall, is not a success financially, stated that the report is incorrect, and that there is not a single bond in the market for sale. Owing to the length of the exercises the question of aiding in the construction of the proposed new hall in this city was laid over for one week. The meeting lasted until midnight, when the participants retired to their homes in the hope of soon again meeting on a similar occasion in Friendship, Love and Truth.

JOHNSON'S UNIVERSAL CYCLOPÆDIA.

The fundamental idea of *practicability* has been carried out in the whole construction of this cyclopædia. The editors have aimed to give the largest scope to matters concerning which the need of exact information is most generally and most frequently felt, and they have secondly treated all large subjects analytically, exhibiting each elementary topic under its own head, in alphabetical order, thus making the work its own index, and combining the dictionary with the cyclopædia. Even in the long and elaborate articles on the most important subjects, comments, discussions, speculations and criticism have, as a rule, been avoided, and nothing but the facts of positive knowledge have been given. Some of the special points, in which the superiority of Johnson's Cyclopædia is manifest, are in geography, biography, law, pathology and medicine, and physics, chemistry and natural history, all practical subjects. In Geography the work is a complete gazetteer of the United States, embracing every township and every town of over one thousand inhabitants, while the larger towns and States have been treated with reference to their relative importance, and foreign geography, arthough not treated with such minute detail, is no less careful and exact, embracing all towns of over five thousand inhabitants. Every important country has been treated by specially competent writers in every variety of aspects, including its history, politics, industrial condition, physical geography and everything relating to it.

*Johnson's New Universal Cyclopædia: A Scientific and Popular Treasury of Useful Knowledge. Illustrated with Maps, Plans and Engravings. A. Johnson & Son, Publishers, New York City. J. Reid, Jr., Canvasser for Portsmouth. Address P. O. Box 1111.

SUNDAY SERVICES.

At the Court street (Christian) church, Rev. John A. Goss, pastor, preaching at 10:30, A. M., and 2:45 P. M.; prayer meeting at 7:30. All are welcome. Preaching to-morrow by the pastor.

At the Congregational church, Rev. James W. Hubbell, pastor, services at 10:30 A. M.; services at chapel at 7:30 P. M. The afternoon service in the church is omitted until Oct. 1st.

At the Advent church, services at 10:15 A. M., 2:45 and 7:30 P. M. Preaching to-morrow by Elder Albion Ross, of Boston.

At the Freewill Baptist church, on Pearl street, Rev. E. Owen, pastor, services at 10:30 A. M. and 2:45 P. M.; Sabbath school at 11:30 A. M.

At the Methodist church, Rev. C. B. Pitblado, pastor, preaching at 10:15 A. M. and 2:45 P. M.

At the Universalist church, Rev. E. M. Grant, pastor, services every Sunday at 10:30 A. M. and 7:30 P. M.; Sunday school at 2:45 P. M. A cordial welcome to all.

At the South Parish, Rev. James DeNormandie, pastor, morning service at 10:30, vespers at 7:30; Sunday school at 2:45 P. M.

At St. Mary's (Catholic) church, Rev. E. M. O'Callaghan, pastor, children's Mass at 8:30, Sermon Mass at 10:30 A. M.; Sunday school at three o'clock, P. M.

At St. John's (Episcopal) church, Rev. Chas. A. Holbrook, rector, services at 10:30 A. M. and 3:00 P. M. every Sunday,—except the first Sunday in each month, when the Children's Choral Service and public catechising, commencing at four o'clock, is substituted for the usual one at 3:00; seats free at this service.

Mission services; William A. Loyne, Volunteer Missionary. Residence at Faith Home, 16 Deer street. At home daily from 8 to 10 A. M. and 12 to 2 P. M. Services every Sabbath at the Alms House at 10:30; at the County Jail at 12:30. Consecration Meeting every Monday evening at the Home.

At the Middle street (Baptist) church, Rev. W. H. Alden, D. D., pastor, services at 10:30 A. M. and 7:30 P. M.; Sunday school at the church at 2:45 P. M.

The Reform Club will hold a meeting in Franklin Hall at four o'clock, or immediately after church in the afternoon. Admission free.

"Age to come" meetings in tent on Middle street circus ground, at 10:30 A. M., 2:45 P. M., and in the evening. All invited.

THE VICINITY.

J. S. H. Frink, Esq., as referee, has announced his decision in the case of Geo. Janvrin vs. Jane S. Janvrin, of Hampton, for divorce. He orders that the prayer of the petition be granted, the petitioner to pay the libelee $1400 alimony. Exceptions have been taken by the libellant's counsel.

An Eliot farmer we are informed boasts that he has this year destroyed seventy-five crows, by exposing corn which had been previously treated with strychnine. He has not footed up the number of noxious insects these seventy-five crows would have destroyed during the season had they been allowed to live, nor the amount of damage the spared insects will do to his crops.

A lecture and concert will be given in the Methodist Episcopal church at South Eliot on Sunday, for the benefit of the church—the lecture by Major David Urch of this city, on "Wealth and fame; or, true manliness;" the concert by the church choir, and the Braxton family of colored vocalists of this city.

The New Hampshire Press Association will not arrange for any summer excursion this year. A desire has been expressed by many for one later in the season to the seashore, including a sojourn at Hotel Wentworth, Newcastle, with diverging lines to the Isles of Shoals, Rye, Hampton and York beaches, the excursion to occupy about a week.

BOARD OF INSTRUCTION.

The following transfers of real estate in this vicinity have been recorded in the office of the Register of Deeds:

PORTSMOUTH.

George T. Vaughan, of Portsmouth, to David H. Montgomery, of Portsmouth, land, $600.

NEWMARKET.

Joseph Cilley, of Nottingham, to Martha A. C. Downs, land, $1.

NEWCASTLE.

Veranus C. Rand, of Newcastle, to James W. Wheeler, of Newcastle, land and buildings, $500.

SEABROOK.

James Sanborn, of Seabrook, to Almira R. Walton, land and building, $100.

STRATHAM.

John Prior, of Stratham, to Henry H. Staples, of Stratham, land, $325.

HAMPTON FALLS.

Hannah H. Dodge, of Beverly, Mass., to Harriet P. Dodge, of Hampton Falls, land, $500.

—New York's police board is threatened with indictment because of extravagance in street cleaning.

—It is not generally known that in the oil region of Pennsylvania many of the engines which pump the oil wells are run with natural gas instead of steam. The gas is conveyed from the well to the engine through an iron pipe, being forced from the well through the pipe into the cylinder.

Eating is a Torture,

And sleep often a mere travesty of repose, to the dyspeptic. Appetite is correspondingly impaired by this most prevalent of maladies, and headaches, biliousness, constipation, poverty of the blood, loss of flesh and of vitality, and a thousand annoying and indescribable sensations, are its concomitants. It is, moreover, the progenitor of numerous and formidable bodily disorders. Obstinate as it is, however, its complete eradication may be effected by the persistent use of Hostetter's Stomach Bitters, a medicine which communicates both vigor and regularity to the organs of digestion and secretion, relaxes the bowels gently but thoroughly, enriches and purifies the blood, promotes appetite, and gives tranquility to the nervous system. Persons of weakly constitution and feeble physique who use this superb tonic infallibly derive from it the stamina of which they stand so much in need, and it is invariably successful in remedying and preventing malarial diseases.

MARRIAGES.

BURLEIGH—LORD. In Montpelier, Vt., June 20th, Mr. Wm. R. Burleigh of Great Falls, N. H., and Miss Mary E. Lord, daughter of the late Rev. Dr. W. H. Lord.

DEATHS.

DRESSER. In South Boston, June 18th, of heart disease, Miss Florence E. Dresser, aged 22 years and 6 months, daughter of Emery A. and Mary F. Dresser, formerly of this city. Her remains were brought to this city for interment on Friday.

CURTIS. At Enfield, N. C., June 17th, Frances Mary Curtis, wife of George B. Curtis of Enfield, and daughter of William Tuckerman of Brooklyn, N. Y., formerly of this city.

MARINE CHRONICLE.

Schs Royal Arch, Crowell, and E. M. Buehler, Maloy, cld Philadelphia for this port 18th.

THE NEW HAMPSHIRE

GAZETTE

Established 1756.

The Gazette is published every Thursday, and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Second-hand Furniture Repainted, and made to look as good as new.

—Mrs. Don. Cameron is still praised by the newspaper correspondents, and she certainly deserves to be. Only the other night she put her arm about the Senator's neck and said pleadingly: "Please, Don, don't kill off the newspapers for a couple of months yet, will you? I know you hate them, but spare them yet a little while for my sake." And this is the reason that so many of the newspapers still live. — *Buffalo Express.*

—A newspaper of Jan. 8th, 1821, mentions an extraordinary and absurd performance by the Postmaster of Lismore, Ireland, then in his 97th year. He travelled for a wager from that town to Fermoy in a Dungarvin oyster tub drawn by a pig, a badger, two cats, a goose, and a hedge-hog, with a large red night-cap on his head, a pig driver's whip in one hand, and in the other a common cow's horn, which he blew to encourage his team.

—A matter of interest to selenographers is a recent discovery by Dr. Herman Klein of Cologne, who for twelve years has made a study of the moon. For the last century, especially since the investigations of Herschel and others, the moon has been thought to be an entirely dead body, but Dr. Klein has now found an active crater near the centre of the lunar disc, the opening being larger than any continuously active crater on earth, except that of Kilauea in the Sandwich Islands.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East Indian mis. sionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. Sent by mail, by addressing with stamp, naming this paper, W. W. Sherar, 149 Powers Block, Rochester, New York. 1yr18

Lost Seven Pounds in Three Weeks.

Allan's Anti-Fat is a genuine medicine, and will reduce corpulency from two to five pounds per week. Purely vegetable and perfectly harmless, acting entirely on the food in the stomach, preventing the formation of fat. It is also a positive remedy for dyspepsia and rheumatism.

BOSTON, MASS., Feb. 11th, 1878.

BOTANIC MEDICINE CO., Buffalo, N. Y.:

Gentlemen:—The lady alluded to lost seven pounds in three weeks, by the use of Allan's Anti-Fat. Yours truly,

SMITH, DOOLITTLE & SMITH, Wholesale Druggists.

Every one speaks well of it, and those who have been there once patronize the place ever afterwards. Is it necessary to add that we refer to the Colonnade Hotel on Chestnut Street, Philadelphia, Pa.

Alex. Frothingham & Co., brokers, 12 Wall st., N. Y., make careful investments for customers, in sums of $25 to $100, which frequently pay ten to twenty times the amount invested. Their *Weekly Financial Report*, sent free, gives full information. 9

"A friend in need is a friend indeed." *Adamson's Botanic Balsam* has proved itself a friend to the suffering, and its best recommendation is that where it has once been faithfully tried no other remedy will be used for coughs and colds.

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

A General Rebellion.

TRIUMPH OF A GREAT DISCOVERY!

The public has *rebelled* against *cauterizing Hair Dyes.* Fashion has foreworn them. A sagacious community has adopted in their stead,

CRISTADORO'S HAIR DYE,

and for *these reasons:* It embrowns and blackens the hair, not the skin. It is a *vegetable emollient*, not a *burning fluid.* It does not burlesque nature with *blooming metallic tinges*, but produces her own *living hues.* Its cooling effect is *lasting.* It *defies detection.* Its results are *uniform.* It *never fails.* Manufactured by J. CRISTADORO, No. 81 William St., New York. Sold by all Druggists. Applied by all Hair Dressers. 1yr15

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* cod&6tsept15 17

Children

May be made healthy and strong by the use of Dr. Pitcher's Castoria, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The Castoria is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '74. *Dear Sir:*—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.

F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be calthy.

J. B. ROSE & CO., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms or Stomach and Disordered Bowels, there is nothing like Castoria. tang

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the value thereof being taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Hard, I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Womb, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here. In all affections of the kidneys, my **Favorite** Prescription works cures—**the marvel of the world.** This medicine I do not extol as a cure-all, but it admirably fulfills **a singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can find it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, postpaid, on receipt of $1.50. It treats minutely of these diseases peculiar to Females, and gives much valuable advice in regard to the management of these affections.

FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.

R. V. PIERCE, M. D., Prop't,

BUFFALO, N. Y

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. Any one of the following cities can be made a home for a year in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once.

H. HALLETT & Co., Portland, Maine. 6tyr278

DR. JOHN TRIPP'S

BLOOD PURIFIER

IS the most wonderful discovery for the radical cure of **SCROFULA and SYPHILIS.** It never fails to entirely eradicate either of these diseases and all Blood Poison from the system. **ULCERS, CANCERS, MERCURIAL SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM** and **GOUT** yield to its power. It has been in private practice eighteen years, and over 10,000 cures affected by it are on record.

Sole Eastern Agency, **306 Columbus ave., Boston.** Office hours, 8 to 11, A. M., 3 to 7 P. M.

Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. codinorl

Transportation.

RE-OPENING

OF THE POPULAR

PROVIDENCE LINE

TO NEW YORK,

VIA PROVIDENCE.

Opens April 29, for the season of 1878.

Only 42 Miles of Rail.

Steamboat Express Train will leave Boston & Providence Railroad Station daily (Sundays excepted) at 6 P. M. Connect at Fox Point wharf, Providence, with the **Entirely New and Magnificent**

STEAMER MASSACHUSETTS

and the well-known and popular

STEAMER RHODE ISLAND,

Are vlag in New York at 6 A. M. This is the only line affording a delightful sail **through Narragansett Bay** by daylight.

Returning, leave Pier 29, North River at 5 P. M., arriving in Boston at 7 A. M.

No intermediate landings between Providence and New York.

Tickets and State Rooms can be secured at Company's office, 214 Washington, corner State street, and at Boston & Providence R. R. Station.

J. W. RICHARDSON, Agent, Boston.

PENNSYLVANIA

RAILROAD.

GREAT THROUGH LINE

AND

UNITED STATES MAIL ROUTE

The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In

Construction AND Equipment

OF THE

PENNSYLVANIA RAILROAD

stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.

The Safety Appliances

in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed

THE BLOCK SYSTEM OF SAFETY SIGNALS,

JANNEY COUPLER, BUFFER AND PLATFORM,

THE WHARTON PATENT SWITCH,

AND THE

WESTINGHOUSE AIR-BRAKE,

forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.

Pullman Palace Cars

Are run on all Express Trains

From New York, Philadelphia, Baltimore, and Washington,

To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,

WITHOUT CHANGE,

and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.

The Scenery

OF THE

PENNSYLVANIA ROUTE

is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form

A PLEASING AND MEMORABLE EXPERIENCE.

Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. 16eb20 79

THE GREAT

FALL RIVER LINE,

BETWEEN

BOSTON and NEW YORK.

THE MAMMOTH STEAMSHIPS

Bristol and Providence,

Of this Line, are the Largest, Handsomest, and Most Costly in the World!

Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.

No line can offer the accommodations presented by this favorite route—

ONLY 49 MILES OF RAIL,

Passing through Narragansett and Mount Hope Bays by daylight—

NO DISAGREEABLE NIGHT CHANGES,

But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.

Grand Promenade Concert on each Steamer every evening during the summer.

New and Elegant Drawing-Room Cars on Steamboat Express Train.

BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.

Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.

25 ELEGANT CARDS, No two alike. With name 10c. Post paid. Hunted & Co., *Nassau*, N.Y.

Dr. Pierce's Pleasant Purgative Pellets

SIZE OF PELLETS.

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical science, by means of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful catharic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough, yet gently and kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative,** or **Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

THE STANDARD BROILER.

PATENTED APRIL 16, 1877.

This *simplest* and *best* article for **Cooking Beefsteak** *ever invented.*

Can be used over either a Coal or Wood fire.

Cooks Steak so **quickly** that all the juices and *flavor* are retained.

DOES not get *ashes* or *coal* on the meat DOES not let smoke and *gas* out of the stove. DOES not put out the fire.

Ask your Dealer for the STANDARD BROILER, *it is just what you want.* The Trade supplied by FULLER, DANA & FITZ, 110 North St., Boston, and WILLIAMS & CO., Nashua, N. H.

MANUFACTURED BY ARTHUR BROWN & CO., Fisherville, N. H.

GLENN'S

SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. *Glenn's Sulphur Soap* produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts*. It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Doz. (3 & 6 Cakes), 75, and $1.20.

N.B.—Sent by Mail, Prepaid, on receipt of price, and 5 cents extra for each Cake.

"HILL'S HAIR AND WHISKER DYE,"

Black or Brown, 50 Cents.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in so organic as delicate as the nasal passages. Yet all snuffs are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, (snuffing) allaying inflammation and pain and at once correcting, cleansing, and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational remedy.

SURPRISING CURE.

Gentlemen:—About twelve years ago, while traveling with Father Kemp's Old Folks Concert Troupe as a tenor singer, I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my throat, larynx and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was in bed over six weeks, so deaf as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours, GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1878.

P. S.—I purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Hamilton, Illinois.

Each package contains Dr Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for two years, and, notwithstanding the immense number of remedies in the form of liniments, lotions, painters, and other ordinary plasters, they have steadily increased in sale and met with universal approval, as testified to by over one thousand unsolicited testimonials in our possession. Many remarkable cases have been certified to by physicians, and sold in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements in manufacture have been made, as suggested by experience and use, until it is believed that they are now perfect, *every respect, and the best plaster in the world of medicine.* All we ask from every sufferer in the land is a single trial. The price is 25 cents, although the cost is double that of any other plaster. But, notwithstanding the efforts of the proprietors to bring the best plaster in the world for the least money, any similar remedy can be bought, numbers of worthless ones will be found ready to misrepresent them for *selfish motives* and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

Daily Chronicle.

More Literary Trash.

An addition has just been made by a Philadelphia publishing firm to the trashy literature in which the present age is so prolific, and a circular regarding it is being left at every door, to be followed by an agent who will have the book to sell. It relates to a murder committed in New York more than forty years ago, and this is its title: "The truly remarkable life of the beautiful Helen Jewett, who was mysteriously murdered, that the guilty son of an old and wealthy family might rid himself of his too-confiding victim." The heroine is styled "the idol of men and the envy of women." There was not a particle of the romance now attempted to be thrown around the crime that at the time excited the greatest attention. This is the plain truth of the matter, as all will remember who can recall it. Helen Jewett was an inmate of a house of ill-fame kept by Rosina Townsend at No. 41 Thomas street, New York, and before emigrating to that city had been a servant in the family of Judge Western, who resided in some part of Maine. She was good looking, and rather intelligent, but without any pretensions to great beauty; could be seen any night in the week but that of Sunday in the third box of the Park theatre and in the saloon attached to it between the acts, and for the year preceding her murder on her way almost daily through Wall street to the old post-office, for the letters she received from her murderer in response to her own; but what occasion there was for such a mode of communication could not be imagined by others, when they were in the habit of meeting nightly at the home of the feminine member of the pair, who was something over twenty in years. Richard P. Robinson, was not "the son of an old and wealthy family," and the idea of "his too-confiding victim" would have been regarded at the time as the height of the ridiculous. He was a clerk in the clothing store of Joseph Hoxie, a prominent whig politician and stump speaker, and his parents, though most worthy people of Connecticut, were very far from being wealthy. At the same time of his close intimacy with Helen Jewett, he was engaged to a girl, but seventeen years of age, respectably connected in Brooklyn, whom he betrayed. Though but nineteen himself, he was as old in the experience of a dissolute life as any "man about town" twice his age, as was apparent on his trial, and yet a sympathy was attempted to be got up for him, "an innocent boy" as one of his counsel styled him, to the great disgust of the hundreds of spectators in court, for the reason that his victim was a year or two older than him; as if she had "led him away," as the phrase was, who had pretty effectually led himself away long before she had ever seen him. The circumstances of the murder were as follows: On a Saturday night, when Robinson had come as usual to visit Helen, on his ringing the bell in her room and calling for a bottle of champagne, it was taken up to him by Rosina Townsend, the keeper of the house, whom he paid for it, so there was no doubt but that he was seen with her last. About one o'clock in the morning, a city watchman saw smoke issuing from the top of a window above Helen's bed, and on the room being entered when an alarm of fire was given, she was found dead, with fearful gashes in her head that showed the cause of her death. The bed had been set on fire, leaving no doubt that the murderer had attempted by such means in burning the house, to obliterate all evidence of his crime, but not leaving sufficient of an aperture above the window to allow the smoke to escape, it had smothered the fire. The front door of the house was found as left by the last to retire, but that in the rear was unfastened. In the next yard a hatchet was discovered with a piece of twine tied to the handle, and in that adjoining was Robinson's cloak, having a similar piece of string attached to the cord and tassel, thus showing that he had scaled the fences until reaching the nearest street. His room-mate testified that he came home in the night without his cloak, the hatchet was recognized by the porter as one he used for splitting kindling wood in the store where Robinson was employed as a clerk, and Rosina Townsend gave evidence that she left him with Helen after receiving from him her pay for the wine.

So infamous a trial never occurred before in New York, it seeming to be the purpose of both prosecution and defence that the prisoner should be acquitted whether innocent or guilty. So far as the former was concerned, though the ablest counsel was employed, it was little better than a farce. As a specimen of the manner in which the laws were perverted, a barber, employed by his friends for

the purpose, was permitted to enter his cell, cut off his hair, and fit him to a wig very different from it in color, so that the woman Townsend might not be able to identify Robinson as the person she had left in Helen's room; but she was too familiar with his face from seeing it daily to be deceived by the substitution of a wig for his own hair. The supposed reason for his taking the life of the girl, was that she was deeply attached to him, as appeared by her letters, which were well written, and in language rather above the average of such things, and that he wanted to get rid of her. So apparent was his guilt, few, if any doubted it, though he was acquitted by the jury, when he at once left New York, and nothing was heard of him for a long period of years; news then came of his death at Houston, Texas, where under a feigned name he married, and had been the proprietor of a line of stages. A writer for one of the flashy weekly newspapers of New York interwove into a romance, of which the murder it was affected formed the theme, the letters of Robinson and Helen found in their trunks; the rest being for the most part fancy. Everything relating to the matter was searched out and published by the newspapers, in which the *Herald*, under the editorship of the elder Bennett, took the lead; Robinson was too glad to remain in obscurity, unknown in connection with his crime, to make a confession, so that the pretence of new light regarding the matter that had once made him famous, and the story of its being procured at great cost is the veriest sham; those who purchase the book thus making a very foolish use of their money. We have enough of pernicious sensation literature already, without needing any addition to it. J. H. B.

Portsmouth Chronicle

MONDAY, JUNE 24, 1878.

The Fraud Campaign.

Anderson, the champion liar and chief reliance of the fraud democracy, appeared before the Senate committee on Friday, but refused to testify unless he was allowed counsel. This reason was a mere pretext to avoid testifying, but his action probably stops any further proceedings by the committee until Congress reassembles, as the committee cannot proceed against a witness for contempt during the recess. Anderson has sought to avoid testifying before this committee from the first, and the Potter fraud committee has aided him in every way, first requesting the Senate committee not to insist on his presence until he was through perjuring himself before the House committee, and when the request was granted refusing to examine him for several days, and then discharging him quietly one evening so that he could run away, which he did, and was only brought back by an officer.

Before the fraud committee, Friday, the husband of the dreaded Mrs. Jenks testified that he was formerly Deputy United States Marshal in East Felicians. He knew Anderson and saw much of him. Jenks made several strong points against the democratic case. He swore that he saw Anderson sign and swear to the protest as to intimidation, which Anderson has denied; that Anderson afterwards asked him to make affidavit that he was "tight" when he signed; and on another occasion Anderson asked him to make an affidavit that he had not sworn to the protest. Anderson also said he could make money by denying the protest. He swore that Anderson's testimony, that he had shown the Sherman letter to him, was false, and that he (Jenks) had never seen such a letter, and knew nothing of its existence. The drift of the democratic cross-examination was an attempt to prove Mr. Jenks a man of no special standing, and to make an indirect attack in advance upon his wife.

The democrats on Friday were claiming privately that they will soon be ready to begin the presentation of testimony that will make a "profound impression on the country." They have succeeded in making such an impression already, but it is not favorable to the reputation of the democracy for honesty, patriotism or common sense.

Mrs. Jenks testified on Saturday. She said she knew nothing of what Anderson called the "Sherman letter" until January last, and did not think she ever had the "original document" at all. She did have a document that she picked up from a table in a parlor of the St. Charles Hotel, and kept it about two months and a half.

Chronicle Correspondence.

CONCORD, June 22d.

A bill was introduced in the Legislature Wednesday to amend the city charter of Concord so that elections will take place biennially.

Thursday forenoon the committee on judiciary, to whom was referred a joint resolution to provide for a special committee to consider amendments to the pauper laws, presented by Mr. Randall of Pittsfield, reported that it be indefinitely postponed. After some slight discussion it was tabled until the members of the judiciary could explain their views for making such a report. In the afternoon it was taken from the table and after being discussed by Sargent and Stevens of Concord, Randall of Pittsfield, and Stevens and Moore of Nashua, the report was not adopted by a decided vote of the House. Then under a suspension of the rules the joint resolution was passed. It provides for a committee of seven members of the House and three members of the Senate to be respectively appointed by the Speaker of the House and President of the Senate, whose duty shall be to take in consideration the pauper laws and make such changes as in their opinion they may deem necessary. On Friday the Speaker on his part appointed as the committee from the House, Moore of Nashua, Mosher of Dover, Hodgdon of Barnstead, Stearns of Rindge, Tutherly of Claremont, Hobbs of Ossipee, and Stockwell of Lancaster.

Friday morning the committee on elections, to whom was referred the remonstrance of S. E. Clifford and 120 others, against the right of Mr. Henry F. Campbell of Concord to a seat in the House, and the protest of Sylvester Swett and 145 others, against the attempt being made to deprive Henry F. Campbell of a seat in the House, having considered the same, reported that they had examined witnesses, and find that the whole number of votes cast was 242, of which John B. Tallant had 27, S. E. Clifford 95, H. F. Campbell 120, and that there was no choice; and consequently Mr. Campbell is not entitled to his seat. There was only one dissenting vote in the committee and that was Mr. Roles of Ossipee, who is to make a minority report. The consideration of the report was made the special assignment of Tuesday at 11 A. M. A lively time may be anticipated, as report has it that Mr. Campbell's case is to be handled by Sinclair of Bethlehem.

The committee on State prison made a report in relation to that part of the Governor's message which asks for an appropriation for an enlargement of the new State prison. The committee reported a bill appropriating $30,000, for an enlargement of the corridor of the new prison so as to give sixty additional cells. The bill was ordered to a second reading.

A report of the committee on education was made, that the bill entitled an act in addition to an act to suppress exhibitions of fighting birds, dogs, and other animals, approved July 7, 1877, presented by Mr. Tredick of Portsmouth, be indefinitely postponed. The report was adopted.

At the county convention on Wednesday the committee to index the deeds was abolished and the report of the committee to adopt the appropriations asked for was laid on the table.

House adjourned until Monday at eight o'clock P. M. A. B.

Old Time Chronicles, No. 171.

BY UNCLE JOSEPH.

The more part of the believers of the Bible understand it to teach that the world will not always exist, but be destroyed. At different times there has been much speculation on the event, and the end believed near. A hasty reference to these suppositions will be given in this sketch.

Paul, in 1st Thessalonians, wrote of the second coming of the Savior, and some to whom he wrote, got the impression it would be soon. But in the second epistle to the same people he corrected their wrong ideas, and stated other events would take place first, as the "falling away" and the coming of the "man of sin," etc.

About the close of the tenth century some who had studied the Scriptures in Europe, calculated that the thousand years named in Revelations, chapter 20th, were about fulfilled, and the end was to come. Some gave up business and hurried to Palestine, where it was believed the Savior would come to judge the world and receive his people to himself. Time corrected the delusion.

The next excitement was in Germany in the sixteenth century. One Thomas Munzer led. There was a demand for the abrogation of law, and the dominion of man over man, and all distinctions of rank in society. It was announced that Christ would soon come, set up his kingdom and all thing be changed. Nothing of the kind took place.

The next century came and with it in England in 1655 Thomas Vennar and others maintained that the day of the Lord was at hand. Enthusiasts will not listen to reason nor the truth. Sometimes they became violent. It was so then. They armed themselves to put down opposition. Charles II. was on the throne. His forces went against them, slew some, arrested, tried and executed others, who declared if they were deceived, the Most High had deceived them. Lord Napier, a great mathematician, calculated from the 1335 days in Daniel, chapter 12th, that the world would end between 1688 and 1700. It did not. In 1812 a man named Edwards believed that the world was about to end. He had plenty of followers, but the end did not come.

But a few words need be employed to describe the remainder. William Miller of our country got it by ciphering that the end would come in 1843. Multitudes fell in with the view. A year or two before the time fixed for the end a great camp-meeting was held in East Kingston in this State. Miller was there, also Hines of Boston and others. Elias Smith, well known in Portsmouth and vicinity, was there. He had written much on the prophecies, and was then advanced in years. Some asked him what he thought about this subject. He, in a way in which he often spoke of what he considered error, said, what the Most High had not revealed to angels nor the Savior, He would not be likely to reveal in those bushes.

The year 1843 came and went as other years had. Other dates were fixed one after another to the present time, as one after another time fixed for the end passed. Not long ago 1880 was named as the time. But that was too far away in the judgment of some, and the present year was substituted. So much for efforts to pry into what cannot be known. Searching and ciphering has not yet determined it, and it is pretty certain never will.

Naval Affairs.

The orders detaching Comdr. Henry F. Picking from duty as inspector of the 1st lighthouse district are suspended until Oct. 1st.

The orders detaching Commander J. S. Skerritt from the Washington navy yard are suspended, and he will remain on duty at that yard.

The Tennessee, Captain Young, arrived at Funchal, Madeira, May 30th, and intended to sail June 1st for New York, where she is expected to arrive July 1st.

The deficiency appropriation under "Pay of the Navy" is now being drawn on by the Secretary of the Navy, and the officers and men will be paid up to June 30th. There has been very little embarrassment so far and that only among those of the navy at home. The ships abroad, under the system of drawing on the London bankers, have been fully supplied with funds.

The Attorney-General, in a recent opinion, has reiterated the opinions of his predecessors that volunteer officers tranferred to the regular navy are not entitled under the 3d section of the act of March 2d, 1867, to the benefit of their sea service, except so far as it may go to entitle them to examination for promotion, or in their assignment to duty; and that it does not entitle them to have their commissions dated back to the period of their entering the volunteer service.

Captain Oscar E. Badger forwards to the Navy Department, under date of June 3d from Havre, a report of Ensign Lucien Young, who was in charge of the detachment of seamen sent to Paris to assist in arranging the exhibits, at the request of Commissioner General McCormick. The force was from the Constitution, Portsmouth and Supply, and arrived in Paris on 22d May. Excellent quarters were assigned by the Commissioner General to the petty officers and men. They were furnished with three excellent meals daily, and at night were allowed the free run of the city, clothed in clean blue. At the close of the work they were allowed four days liberty to visit the places of interest. The work assigned them was in some instances rather heavy, such as transporting exhibits, setting up engines, etc., and at others was quite light, such as decorating, cleaning up, and general usefulness, all of which they performed cheerfully, quickly, and to the satisfaction of the commission; and Ensign Young thinks had it not been for their assistance the United States section would have been several weeks longer in getting ready. The conduct of the men, with one exception, was excellent. They were clean and neat, orderly and obedient, cheerful and willing, and set an example that reflected credit not only on themselves but on the American navy at large. When drawn up in line at the opening ceremony their cleanliness and good general appearance caused President MacMahon to stop and speak to Ensign Young personally in very complimentary terms. That officer takes occasion to especially commend John Flannigan, boatswain's mate of the Supply, who was left in charge at night and when Mr. Young was away, and recommends him for appointment as boatswain—he being a man of firmness, cool, quick, and intelligent, knowing how to handle his men.

News and Notes.

One night last week the post-office at Shelburne Falls, Mass., was robbed, as was also a jewelry store. Friday morning the bag containing the plunder, consisting of gold watches, jewelry, gold pens, postage stamps, etc., was found on the railroad bridge at South Montague. An old man named Marsh, who lives near the bridge, says that on Thursday evening three men put up a team at his house, and after dark went out. At about eleven o'clock he heard pistol shots from the direction of the bridge, the noise being kept up for about two hours. He was afraid to go out until daylight, when he went to the bridge and found the bag. Spots of blood and bullet holes were found in the vicinity, but the three men and team were missing.

The English in Ireland, by Thomas Adolpcus, which, though just published, has made a decided hit in this country, has been purchased by F. W. Robinson & Co., Philadelphia. The first edition is nearly exhausted and a second is in active preparation. The little *brochure* is a very sharp reply to Freeman's "Turks in Europe."

Friday was general hanging day in many places. At Springfield, Ill., Jerry Connolly and George Sherry were hung for the murder of Hugh McConville; at Chillicothe, Ohio, Perry Bowster was hung; at Frederick, Md., Edward H. Costley was hung for the murder of Solomon Costley; at Paris, Ill., John Burns was hung for the murder of Elijah Burdwell; at Little Rock, Ark., Jacob Levels was hung, the death sentence of four others having been commuted a few hours before the time set for their execution.

A negro named Crawford, of Beach Island, S. C., on Wednesday murdered his wife and then killed himself. On the same day and at the same place a white man named Terry murdered a white woman with whom he had been living, and then blew his own brains out.

Mrs. Tilton and her quickened conscience were excommunicated from Plymouth church, Friday evening.

Washington is excited over a disgraceful occurrence at one of the hotels, no less than the attempt of a Congressman to outrage a young lady of high social standing. He was caught in the act and kicked out of the room. His name is not given.

Wednesday evening a party of boys, while bathing in the river below Lewiston, Me., were attacked by a bull-dog, and one named Eagan was fearfully wounded, the flesh being eaten off so as expose his ribs. Small hopes are entertained of his recovery. The dog was killed.

The British Empire has 236,000,000 inhabitants; the Russian Empire, 86,000,000; the French, 41,800,000; the Ottoman, 41,700,000.

Colonel Wild, a Swiss artillery officer, serving in the Russian army of the Caucausus, writes to a Zurich paper that the Russians have lost more men by typhus since the conclusion of peace than they lost by battle during the entire campaign in Asia Minor.

The silver service of Mackay, the California bonanza king, at the Paris Exposition, consists of not less than 1000 separate pieces; it fills nine huge boxes, which thirty-six porters carry with difficulty; 200 men have been a year in its manufacture, and the cost exceeded $125,000.

A Secretion that Contaminates the Blood.

When the bile is diverted from its proper channels, into the blood, which is always the case in liver complaints, it ceases to be a healthy secretion, and becomes a poison. Its abnormal presence in the circulation and stomach is indicated by the suffusion of the skin with a hideous saffron tinge, by headaches, vertigo, nausea, pain in the right side and under the right shoulder blade, by indigestion, obstruction of the bowels, and other minor symptoms. Order may be substituted for this state of chaos, and further bodily evil averted by using the beneficent alternative and tonic, Hostetter's Stomach Bitters, which, by relaxing the bowels, promotes the escape from the circulation of bilious impurities; besides rendering the action of the liver regular, and removing every trace of dyspepsia. This pleasant and purely vegetable anti-bilious medicine is not only infinitely more effective than any form of mercury, but is on account of its freedom from hurtful properties, infinitely to be preferred to that poisonous drug.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East Indian missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. Sent by mail, by addressing with stamp, naming this paper, W. W. Sherar, 149 Powers Block, Rochester, New York. ljy18

MUSIC HALL, PORTSMOUTH.

THE CITY.

A valuable horse employed in sawing wood at Walker & Co.'s wood yard at the north end, on Saturday stepped off the apron of the tread-mill and was badly injured by being jammed and cut.

Strawberries were selling at ten cents per box Saturday evening, and nice strawberries at that, large, fair and well flavored. A poor man with only half a dollar could have a good feed of them, at that price.

Quite a number of caulkers have been sent for from Bath and Portland to go to work on the navy yard, we are informed. There are plenty of first-class caulkers in this vicinity now out of a job, who would be glad to get work on the yard.

It is said that the new uniforms for the City Guards will soon be forthcoming. The arrival of these much-needed uniforms will not only gratify the members of the company but will please our citizens generally, who recognize the commendable and very successful efforts of this company to improve.

The yacht William H. Russell, with the party she took out on the 15th inst., arived back at noon of Saturday last, the excursionists having had a glorious time. She is just the boat to take a trip along the coast in, and Capt. Drown is a genial and accommodating skipper, and a competent one as well.

The schooner yacht Lone Star has been fitted up this spring in good style, and Mr. C. Morris Tredick, her owner, accompanied by his brother, Mr. Charles Tredick of Philadelphia, and Mr. Henry Mathes of this city, have gone on a two weeks' trip to the eastward in her. The Lone Star has good sailing qualities, and with Capt. Sol. White of Newcastle as skipper will do her level best.

The Lady of Lyons, which is to be given at Music Hall Thursday evening, is a play that is always popular when well put on the stage and well played; and the grand combination that will present it has all the needed accessories and the talent to give it as it should be given. The entertainment will be a superior one, and we expect to see one of the largest audiences of the season. The sale of tickets commences at Preston's to-morrow.

A procession of eight dump-carts from the new fort on Gerrish's island stopped for a half hour on Market square while conductors and engineers took something, Friday evening, and attracted considerable attention. It was at first hoped that somebody was going to have something to do, but enquiry developed the unpleasant fact that the owner of the carts, after keeping them laying idle for many months in vain hope of a job, had given it up, and was taking the property to Hampton for sale.

The grass in the Universalist church field was cut Saturday forenoon. Of course we had rain Saturday afternoon, for mowing that field as infallibly brings rain as the 20th of June finishes the canker worms. Some of the other local weather signs occasionally fail; a three-masted schooner on the river long since ceased to have any meteorological influence, owing no doubt to the great increase in number of vessels of that rig, and occasionally a load of ladders and another of baskets appear together on Market square without rain immediately falling; but mowing the Universalist field never fails to bring a storm.

We clip the following from the Biddeford *Times*: "It is said that Prof. Dare, who performed on the rope in this city a short time ago, fell and broke his neck while performing in one of the towns down east." This "Prof. Dare" is the rope-walker who crossed Market street in this city head downward on a rope stretched across from the tops of two high buildings; he was a cool and skillful rope-walker and trapeze performer, drew large crowds to see his several exhibitions, and gathered considerable small change when the hat was passed around. A few days after he went away two other rope-walkers appeared, and "incidentally remarked" among the crowd gathered to look at their performances that Prof. Dare had met with a serious accident. Just what the accident was could not be very definately ascertained, one of the rival athletes saying his back had been broken by a fall in Biddeford, while the other hinted that his neck was broken by a tumble in Bangor. Whether he broke his back in Biddeford before he went to Bangor to break his neck, or broke his neck and then returned to Biddeford to break his back, neither of them knew. But he had broken himself badly in two places, and took two cities to do it in. It is rather queer, if the "Professor" has really broken his neck while performing in "one of the towns down east," that the name of the town has not been discovered yet.

MUCH ADO ABOUT NOTHING.

A correspondent informs us that certain persons are making a great outcry over Sheriff Kent's bringing back from the west Bill Coombs, the escaped convict, they loudly proclaiming that the game was not worth the candle—that the expense to the county will not be counterbalanced by any corresponding advantage, and that as the State was well rid of the presence of the notorious rascal he should have been left at large. Even if this narrow view is accepted as correct, the Sheriff had no option in the the affair. Having—as was his sworn duty to do—worked up the case and discovered the escaped criminal's whereabouts, the officer laid the whole matter before Judges Doe, Stanley and others, and was instructed that it was unquestionably his duty, as well as important for the best interests of justice, to see that Coombs was returned to the jail from which he escaped, to be punished for the crime of which he stands convicted, and tried for the others of which he is charged. Ex-County Solicitor John S. H. Frink, and the present County Solicitor, Walter C. Harriman, both heartily approve of the Sheriff's action, independently of the instructions of the Supreme Court Judges; and Mr. Harriman says that though he had nothing to do with the case,—the late County Solicitor Wm. B. Small, who was earnestly interested in the affair, having given the Sheriff his instructions before his death,—he would, had the case come before him officially, have insisted on Mr. Small's instructions to the Sheriff being carried out.

THE VICINITY.

A strawberry festival was given on Thursday evening at the York Court House by the York Cornet Band. It was for the benefit of the band, and they realized the sum of sixty dollars. It was *the* time of the season; everybody enjoyed themselves, and the music was good.

Eight schooners, having on board 1970 tons of coal, arrived at Dover recently within forty-eight hours. The vessels were the J. W. Hall, with 351 tons; William A. Morrill, 190 tons; Jesse W. Knights, 277 tons; Willie Martin, 212 tons; P. T. Willets, 284 tons; David Milliken, 223 tons; Boston, 182 tons; Free Wind, 251 tons.

No. 1 MARKET SQUARE.

THE NEW HAMPSHIRE GAZETTE

Established 1756.

The Gazette is published every Thursday, and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of wha transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

New Hampshire Items.

There are four members of the present House of Representatives who were members in 1859, viz: Sargent of Concord, Dodge of Manchester, Kimball of Charlestown and Gould of Piermont.

The graduating exercises of the Concord High School occurred Friday, and were largely attended.

The Glover smelting committee, which made a thorough investigation of the charges preferred against Dr. Linderman, Director of Mints, by overhauling the books of the Treasury Department and searching telegraph offices for alleged dispatches, were utterly unable to make out a case against him. No report against Dr. Linderman was drawn up as has been stated, the report as published being simply the lie of a democratic Washington correspondent; and as Mr. Glover before departing for home did not call the attention of Secretary Sherman to the case, the latter does not think it necessary to order an investigation, in order that Dr. Linderman may disprove the statements of one or more employes of the government who were discharged by Dr. Linderman for cause.

—A cheese factory recently started in Spring Valley, Colorado, is expected to use up the milk of 800 cows.

—Edison is asked to invent a quart bottle that will hold a quart. It seems simple enough, but a pint and half is about as near as most dealers in liquids get to it.

—A Washington correspondent says that the name of Senator Davis' favorite horse is "Hoodle-bug;" but, as Senator Davis weighs in the neighborhood of 300 pounds, there is a superstition in southern Illinois that his Hoodle-bug is an elephant.

—A few days ago a company of Portland militia, who were little versed in drill, were parading the streets and in some way got upon the horse car track. They went along well until they met a horse car, and then there was trouble, for neither of the officers knew what command to give to prevent a collision with the car, and if the officers had known, it is doubtful if the men would have been able to do it properly. Seeing the danger, a young lieutenant, at once appreciating the exigency of the occasion, hawled out "Get off the track," a command not laid down in books of tactics, indeed, but so well understood by the soldiery in question that the track was vacated in an instant.

Lost Seven Pounds In Three Weeks.

Allan's Anti-Fat is a genuine medicine, and will reduce corpulency from two to five pounds per week. Purely vegetable and perfectly harmless, acting entirely on the food in the stomach, preventing the formation of fat. It is also a positive remedy for dyspepsia and rheumatism.

BOSTON, MASS., Feb. 11th, 1878.
BOTANIC MEDICINE CO., Buffalo, N. Y.:
Gentlemen:—The lady alluded to lost seven pounds in three weeks, by the use of Allan's Anti-Fat. Yours truly,
SMITH, DOOLITTLE & SMITH,
Wholesale Druggists.

Beautiful Helen no doubt owes her complexion, but it is more than doubtful whether it proceeded in purity the complexions of the ladies who use that inimitable auxiliary of female loveliness, GLENN'S SULPHUR SOAP. Sold by all Druggists. HILL'S HAIR & WHISKER DYE, Black or Brown, 50 cents. tjy21

Every one speaks well of it, and those who have been there once patronize the place ever afterwards. Is it necessary to add that we refer to the Colonnade Hotel on Chestnut Street, Philadelphia, Pa.

"A friend in need is a friend indeed." *Adamson's Botanic Balsam* has proved itself a friend to the suffering, and its best recommendation is that where it has once been faithfully tried no other remedy will be used for coughs and colds.

A General Rebellion.

TRIUMPH OF A GREAT DISCOVERY!

The public has *rebelled* against *cauterizing Hair Dyes*. Fashion has forsworn them. A sagacious community has adopted in their stead,

CRISTADORO'S HAIR DYE,

and for *these reasons:* It embrowns and blackens the *hair*, not the *skin*. It is a *vegetable emollient*, not a *burning fluid*. It does not burlesque nature with *blooming metallic tinges*, but produces her own *living hues*. Its cooling effect is *lasting*. It *defies detection*. Its results are *uniform*. It *never fails*. Manufactured by J. CRISTADORO, No. 23 William St., New York. Sold by all Druggists. Applied by all Hair Dressers. tjy13

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. **The Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '74.
Dear Sir:—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.
F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. B. ROSE & CO., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any scalp, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms our Stomach and Disordered Bowels, there is nothing like Castoria. taug

UNDER FRANKLIN HALL, FLEET STREET.

INVALIDS' HOTEL.
The very large number of invalid people who daily visit Buffalo, from every quarter of the United States and Canada, that they may consult Dr. R. V. PIERCE, and the widely celebrated Faculty of Specialists in Medicine and Surgery associated with him, rendered it necessary that the founder of this institution should provide a place on a grand and commodious scale for their entertainment and comfort.
ADVANTAGES OFFERED.—The Invalids' Hotel is more complete in its appointments than any similar institution in the world. The building is located in one of the most healthful and desirable portions of the City of Buffalo, and commands a fine view of Lake Erie, Niagara River, and the surrounding country, being situated in the midst of an extensive system of beautiful parks. The Hotel is furnished with a patent safety passenger elevator, to convey patients to and from the different floors; is provided with all kinds of approved baths, and has also connected with it a well-ventilated gymnasium and bowling alley to afford proper means of exercise.
CHRONIC DISEASES of all forms, whether requiring medical, surgical, or mechanical treatment, come within the province of our several specialties.
DISEASES OF WOMEN.—Especially are the facilities of this Infirmary of a superior order as regards the remedial agents and appliances for the cure of all those chronic diseases peculiar to females. The employment, in moderation, of Sohl's chemical, electro-thermal, and other approved baths, is in many cases an invaluable auxiliary to the remedial means to which we resort in such cases. Dry friction to the surface, general shampooing, Swedish movements, and light calisthenic exercises, to enliven and equalize the circulation of the blood in the system, relieve congested parts, improve digestion, and strengthen the muscles, produce important beneficial results in all cases to which these means are applicable. No experimenting is resorted to in the treatment. The most approved medicines are carefully employed, and the judicious regulation of the diet, to suit the condition of the patient, the thorough ventilation of the sleeping apartment, the cheering influence of music, social intercourse, innocent games for amusement, and all those agencies which tend to arouse the mind of the patient from despondency, and thus promote recovery, are not neglected.
NERVOUS DISEASES.—Paralysis, Epilepsy (Fits), Chorea (St. Vitus's Dance), and other nervous affections, receive the attention of an expert in this specialty, to which the greatest skill is attained and the most happy results secured.
LUNG DISEASES.—This division of the practice in the Invalids' Hotel is very ably managed by a gentleman of patient application and skill. Bronchial, Throat, and Lung Diseases are very largely treated in this department, and with results which have been highly gratifying to both physician and patients.
EYE AND EAR.—Special attention is given to the delicate operations on the eye and ear, a distinguished oculist and aurist being under engagement to conduct this branch of the practice.
Invalids arriving in the city and desiring to consult us, should come directly to the Hotel. It is easily accessible by omnibus, or street cars. MILLER'S Omnibus Agents, on all incoming trains, can be relied upon to deliver passengers and baggage with security and dispatch.
☞ Address R. V. PIERCE, M. D., World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once. GUY & CO.
H. HALLETT & CO., Portland, Maine.

DR. JOHN TRIPP'S
BLOOD PURIFIER
IS the most wonderful discovery for the radical cure of SCROFULA and SYPHILIS. It never fails to entirely eradicate either of these diseases from the Blood. Poison in the system, ULCERS, CANCERS, WHITE SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM and GOUT yield to its power. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.
Sole Eastern Agency, 306 Columbus ave., Boston. Office hours, 8 to 11, A. M., 3 to 7 P. M.
Send for pamphlet. All communications confidential. Cure in all cases of Syphilitic disease guaranteed. codnov11

Transportation.

RE-OPENING
OF THE POPULAR
PROVIDENCE LINE

PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns.
FRANK THOMSON, L. P. FARMER,
General Manager. *Gen. Passenger Agent.*
C. S. HALDEMAN, New England Agent,
203 and 205 Washington st., Boston, Mass.

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces." Train leaves daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL,
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Trains.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.
GEO. L. CONNER, Gen'l Pass. Agt.
J. R. KENDRICK, Supt.
L. H. PALMER, Agent, 3 Old State House.

DOCTOR PIERCE'S
ALT. EXT. OR
Golden Medical Discovery

CURES DISEASES OF THE
THROAT, LUNGS, LIVER & BLOOD
In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has compounded in harmony more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from "Torpid Liver, or "Biliousness." In many cases of "Liver Complaint" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.
SOLD BY DRUGGISTS AT $1 PER BOTTLE.
Prepared by R. V. PIERCE, M. D., Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y.

PRATT'S
Astral Oil!
THE SAFEST AND BEST
ILLUMINATING OIL!
☞ *For Safety and for Excellent Burning Qualities, it is without an equal.* ☜
CAUTION.
☞ The great popularity of "ASTRAL" OIL has induced some unprincipled persons to sell worthless and dangerous imitations for "ASTRAL," while others palm off inferior oils, representing them as good as "ASTRAL." To prevent this fraud, purchasers should demand "ASTRAL" and take no other.
The Genuine Article is sold by
JOHN P. SWEETSER,
46 Market Street, Portsmouth.

NEW FOUR PER CENT
GOVERNMENT BONDS.
The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.
The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.
The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.
Orders by mail will receive prompt attention.

THE STANDARD BROILER.

PATENTED APRIL 16, 1877.

The *simplest* and *best* article for **Cooking Beefsteak** *over charcoal.*

Can be used over either a Coal or Wood fire.

Cooks Steak so **quickly** that all the juices and flavor are retained.

It does not get ashes or charcoal on the meat, does not let smoke and gas out of the stove, does not put out the fire.

Ask your Dealer for the STANDARD BROILER, *it is just what you want.* The Trade supplied by PULSIFER, DANA & FITZ, 110 North St., Boston, and WILLIAMS & CO., Nashua, N. H. MANUFACTURED BY ARTHUR BROWN & CO., Westerville, N. H.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. *Glenn's Sulphur Soap* produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts*. It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 60c. and $1.20.

N.B.—Sent by Mail, Prepaid, on receipt of price, and 5 cents extra for each Cake.

"HILL'S HAIR AND WHISKER DYE," Black or Brown, 50 Cents.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy, every herb, plant, and bark is subjected to distillation, whereby the essential medicinal principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all results are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, this allaying inflammation and pain and at once correcting, cleansing and purifying the secretions. Internally administered it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while travelling with Father Kemp's Old Folks Concert Troupe as a choir singer, I took a severe cold and was laid up at Newark, N.J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrate for weeks, in the worst condition to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be especially unable to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe I should have had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE AND CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours, GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1876.

DEAR—I purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Rumford Building.

Each package contains Dr. Sanford's improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for two years, and, notwithstanding the immense number of remedies in the form of liniments, lotions, pain-killers, and ordinary plasters, they have steadily increased in sale and met with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many remarkable cases have been cured by the use of these plasters, in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world of medicine.* All we ask from every sufferer is the hard to a single trial. The price is 25 cents, although the cost is double that of any other plaster. But, notwithstanding the efforts of the proprietors to make the best plaster in the world for the least money, any similar remedy can be bought, numbers of unprincipled dealers will be found ready to misrepresent them for *selfish motives* and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO.,

No. 3 BOW STREET.

Daily Chronicle.

MY NEIGHBOR.

"Love thou thy neighbor!" I am mute.
He lives across the way,
And plays upon the German flute
Some twenty hours a day;
On him I do not waste my labor,
Nor even try to love my neighbor.

"Love thou thy neighbor!" I am dumb.
She lives next door to me;
A single dame, with years overcome;
Her age is forty-three.
Ah! it were surely foolish labor
For me to try to love my neighbor.

"Love thou thy neighbor!" Heaven forefend!
He hath of gold galore,
And at usurious rates doth lend
Me small sums of his store.
Ah! wherefore should I squander labor
Or waste my love on such a neighbor?

"Love thou thy neighbor!" Nay, not so;
This was too much to ask;
My heart with love is all aglow,
But finds a happier task.
Oh! not in vain my heart hath sought her;
You see? I love my neighbor's daughter.

Mrs. Jenks as a Witness.

The Washington correspondent of the Providence *Journal* thus describes Mrs. Jenks' performance as a witness before the Potter-Tilden fraud committee on Saturday:

A mere report of the examination of Mrs. Jenks before the Potter committee can give but a faint idea of the scene in which she played a leading role, and in which Butler and McMahon played subordinate parts. She came to the witness chair with an air of conscious superiority, and she preserved it to the last. When Butler addressed himself to the task of eliciting facts from her, he set himself to work in a serious manner, as if he realized the difficulty of the enterprise, but from the very first she assumed the attitude of a disdainful coquette. She repeated many of the questions put to her, and then replied to them in a manner of her own, half scornfully, while taking good care not to transgress the rules of propriety. She leaned back confidently in her chair which she occupied beside Mr. Butler, played coquettishly with her fan, and answered his questions with most irritating self-possession. At last, after amusing herself, the members of the committee and the audience for over half an hour in this manner she closed her fan, laid it on the table before her, assumed a more dignified attitude in her chair and thus began: "I wish to state in the presence of this august committee (of course using the adjective in an ironical sense) and of the country at large"—then she paused a long time and looked solemn, and Butler broke the silence by asking her "are you going to give us anything more?" "Yes," said she, with her matchless imperturbability, "I am going to say considerably more." Then there was another equally long pause, as if she was gathering up all her mental and intellectual powers for a superb burst, and after a while continued: "I distinctly and entirely exonerate Mr. Secretary Sherman from any complicity, indirect or direct, in the so-called Anderson and Weber guarantee. If there is criminality in that document, if there is public dishonor attached to it, I alone know the out-go and the in-come of it; no one else knows aught in regard to it, and I do not think I am compelled to tell any more. It is sufficient for me to exonerate Mr. Sherman and also Mr. Anderson. Although I believe Anderson to be one of the most sublime scoundrels on record, still, gentlemen, in the matter of the guarantee, he, at least, has been sincere. I award to him that little merit. He has always deemed it genuine. That is a single ray of light admitted in the darkness that surrounds him." As she ended this speech, which was delivered with a melodramatic air, Springer, a member of the committee, was so carried away by the theatrical effect of it that he burst out with the exclamation, "Now let the curtain drop; the act is finished." This was, however, her sole deviation from the mocking and contemptuous air with which she invested her role, and which she maintained in the most perfect style during the five hours she was under examination. Her accent and pronunciation are strongly marked with French peculiarities, and she acted as a finished comedienne as she described how she took Weber and Anderson's letter to Sherman into parlor "P" of the St. Charles Hotel, bit the ends of it and then could not think of such an act of disrespect as the presentation of such a note to the "visiting statesman," but as she said, an idea struck her, and when Butler pressed to know what the idea was, she replied with an arch mimicry, "Weber wished an answer and he got it." She did not then say (as she afterwards did) that she herself dictated that letter to some one else and palmed it off on Weber as a genuine document, and whenever Mr. Butler attempted to assume that, he was met by

a sharp rebuke and by a reminder that he must not impute to her what she did not say. Finally, after a couple of hours, Butler realized he was besieging an impregnable fortress, and he retired from the siege, leaving the enemy with colors flying. After the recess, Mr. McMahon tried his hand for three hours, but met with no better success, and at five P. M., when Mr. Cox suggested they were all tired and witness must be, she repudiated the suggestion with scorn, said whoever else might be fatigued she was not, and she could keep it up all summer.

Portsmouth Chronicle

TUESDAY, JUNE 25, 1878.

Democratic Economy.

The democratic House succeeded, after hard fighting, in holding steadily to the course of retrenchment which its predecessor set out upon. The resistance of the republicans to its efforts on the side of economy makes the record for them an ineffaceable one.—*Boston Post.*

The appropriations last year amounted to about eighty-eight millions. The appropriations for the same purposes this year foot up to ninety millions. Besides, there is an appropriation of twenty-six millions for the army, which was neglected last year, eight millions for rivers and harbors, and twenty-two millions more for deficiencies and other extra expenses, including five and a half millions for the Halifax award, making a grand total of $146,000,000. This Congress has not even been pretendedly economical. The average for the two years comes to $117,000,000 a year.

Washington Correspondence.

WASHINGTON, D. C., June 22d.

The record is complete. Congress has adjourned and the members are rapidly leaving us to our summer inertia and the "heated term" stretching from now on to the middle of September or the first of October. The hurry and confusion that had been growing more decided during the last two weeks of the session continued to the very end. The vicious habit of spending the first months in cheap talk and dilly-dallying was never more persistently adhered to than during the session just passed. The law requiring that the appropriation bills be reported thirty days after the beginning of the session has been as completely ignored as though it had no existence. Had it been complied with at any time during the first three months both House and Senate would have been without the shadow of an excuse for the enormous amounts that have been crowded into the appropriation bills and rushed through during the last hours of the session, allowing the Senate committee no time for intelligible scrutiny.

After urging everything possible in the way of extenuation it must be admitted that the money contributed in grains by the overburdened tax-payers has been taken out of the Treasury by tons as though it was the most pressing and vital duty to get rid of it in the shortest space of time. It is true many millions are for the deficiencies resulting from the low trick of the demagogues of the last House in reducing every Departmental estimate by millions and transferring the duty of providing for the deficiencies they knew must result from their own to the shoulders of the succeeding Congress. But after making every allowance on that and the score of the Fishery Award ($5,500,000), after allowing members of Congress full credit for telling nothing but the truth in their explanations that the enormous appropriations have been wisely and charitably voted that we may take advantage of the low prices of material and labor to build necessary Government buildings, and that we may give employment to as many as possible of the enforced idlers now abounding, there yet remains an overplus of millions between appropriations absolutely necessary and those voted for all manner of jobbery and to reward individual and ring favorites. It seems the general judgment of men knowing a great deal more of the matter than the average member of Congress that $5,000,000 could be struck out of the River and Harbor bill allowances without prejudice to a single public interest; and that of the whole amount not one-half will be expended for improvements that are of more than local or neighborhood importance. The same ratio of cutting down might well be observed with other of the appropriation bills. But the written law and public opinion will hold the House primarily responsible. The false character of its economic and reform pretensions is so conspicuously shown by this freebooter raid on the Treasury its Bourbon majority organized and sanctioned, that further cozening and boodwinking the public by their cheap gasconade seems out of the question.

Voorhees apparently never misses an opportunity to palm himself off as a regular Dam- Pythias sort of a fellow in his overwhelming devotion to the laborer; every opportunity to cater to the fell spirit of communism is utilized with true demagogue instinct. Every one appears content with the compromise by which greenbacks are made receivable like gold for our four per cent. bonds immediately, and for duties on imports after October 1st, 1878. KNOX.

The Fraud Investigation.

Mrs. Jenks is by far the sharpest witness the Potter committee has had. Her examination Saturday was as good as a show. She was quite cool, thoroughly self-possessed, and often turned the laugh on Butler and McMahon. She amused the democrats, although her testimony went to overthrow that part of their case which is founded upon the alleged Sherman letter. In brief, she testified that she undertook to deliver Anderson and Weber's request for guarantees to Sherman; that, instead of doing so, she caused a reply to it to be prepared, dictating it herself, and took it to Weber, and that Sherman knew nothing whatever about the matter. As to Anderson, while she regarded him the sublimest villain on earth, she still thought he had always honestly believed that the letter she brought back to Weber and himself was genuine. The democrats think this part of their case has gone, since they are convinced that Mrs. Jenks, who knows the truth, whatever it is, would not swear as she has unless she was certain no original letter, granting there is one, could be produced.

The farce was continued on Monday by the further examination of Mrs. Jenks, who was just as impertinent and unsatisfactory in her replies as on Saturday.

News and Notes.

It is stated that there is a great scramble among brokers, lobbyists and agents for the money appropriated to pay claims against the navy department. The Secretary of the Navy has not yet determined how this money is to be paid out, and the matter will be referred to the Attorney General for his decision.

"Long John" Wentworth has acquired new popularity in Chicago by presenting the city with five or six acres in the heart of the south division for a park; it is the remnant of a large tract bought cheap in Chicago's early days.

Two men have escaped from Brazil where they went on the steamer City of Richmond to work for Collins, the railroad contractor. According to their story they were shot at and afterwards imprisoned for asking for food. They escaped from prison, and were given a passage to Charleston by the captain of a brig, recently arrived there. A number of men had left and fled for Bolivia; half of them starved to death. Consul Cone at Para has reported the facts to Washington. As the escaped men were leaving, a great number of men who went from Philadelphia begged them to make known the cruelties and brutalities they were suffering at the hands of Collins.

Two hundred and eighty-three bluefish were caught in the river near Newburyport at one sweep of a net on Saturday.

Excitement prevails in Newburyport on the temperance question. Three "spotters" (two men and a woman) have been doing up the village liquor business preparatory for the Police Court, to which the parties are to be called this week. The work has been in progress some weeks, and a large number of sellers have been trapped.

Among the curiosities in a pawnbroker's shop on the New York Bowery, is the bill of the play at Ford's theater which President Lincoln used on the night of the assassination, and the account the *Tribune* gave of the occurrence, framed together.

The commission to consider the subject of reorganizing the army, provided for in the army appropriation bill, met at the Capitol Friday, organized with Senator Burnside as chairman, and adjourned to meet in Washington on the 22d of July, when it is expected they will have the counsel of Generals Hancock, Schofield, and McDowell, who have been invited to appear before them.

The chief annoyance from the elevated roads in New York is from the great noise made by every train in passing over the iron trestle work. This is so great and so continuous that sleeping is almost impossible along the line of the road, and business men complain that it is difficult to carry on conversation with customers. The trains pass every ninety seconds, and will soon be running both night and day. The result must inevitably be, unless some remedy is discovered, that real estate owners along the line of the road will see their property reduced more than two-thirds in value, and many will be ruined. It would seem that the nuisance could be in a great measure allayed by having the rails and ties rest on rubber cushions.

An unknown gentleman in Philadelphia sent a check for $25,000 as a gift to the centennial fund of the Phillips Academy at Andover, Mass. The person withholds his name or any information leading to his identity.

Captain Matthew Webb, the famous swimmer, is to prove by an exploit of his own that a man can swim in the sea for thirty-six hours without artificial aid.

The Naval Academy closed its academic year Friday night with its customary ball, which was attended by the society people of Washington and of Baltimore.

The Congressman who was kicked out of a room in Washington last week for making improper proposals to a lady and then attempting to accomplish his purpose by force, is J. H. Acklen of Louisiana; he is the youngest member of the House, being only twenty-eight years old, and this is his first term in Congress, the present House having unseated Hon. C. B. Darrall, the republican member from the third Louisiana district, and given the seat to Acklen. The gentleman who disciplined Acklen was the ex-confederate General Rosser, who heard the lady's cries, burst open the door of the room, found the lady in a fainting fit, and without asking any impertinent questions kicked the Congressman vigorously.

Chief Justice Waite, in the United States Circuit Court at New York, has affirmed the decision of the District Court, for $15,894 damages, with interest since 1874, against the Cunard Steamship Company, for the sinking of the bark Anita by the steamship Java.

H. Fitz John Porter, son of the General, takes the degree of mechanical engineer and is salutatorian at Lehigh University, Bethlehem, Pa., this year.

George B. Kane, Mayor of Baltimore, died in that city on Sunday. He was chief of police of Baltimore on the 19th of April, 1861, when the Sixth Massachusetts Regiment was mobbed by the roughs and secession sympathizers on its passage through the city.

Moses A. Wheelock, a native of Providence, but a member of the New York Stock Exchange from its organization, and for twenty-six years its vice president, committed suicide Sunday. He failed in business last fall, and it is supposed that loss of property and intemperate habits prompted his suicide.

S. Angier Chace, the Fall River, Mass., defaulter, on Monday pleaded guilty and was sentenced to twelve years in the State prison.

Charles Matthews, the actor, died in London on Monday.

The young Queen Mercedes, of Spain, was reported to be dying on Monday.

The Washington gossips have settled it that Congressman Acklen is to marry Mrs. Godfrey, whom he insulted, and fight a duel with Gen. Rosser, who kicked him for his conduct to the lady.

Success is likely to result from the efforts of a Philadelphia company to introduce American anthracite coal into noncoal-producing regions of Southern Europe. A couple of cargoes, received at Genoa, were readily taken when found to be well adapted for smelting purposes by the Italian iron-founders, who have heretofore used English coke.

The husband of Kate Sothern of Georgia, who was sentenced to be hanged for the murder of her rival, and who had her sentence commuted to imprisonment for ten years, has been appointed a guardsman at the Georgia penitentiary, that he may be near his wife.

The latest New York swindler visits women whose husbands are absent, representing that he is a Custom House officer, and has a package of goods to be delivered upon which there are more or less charges, warning them that unless it is paid immediately the goods will be sent to the seizure room, and the party to whom the package is addressed will be arrested.

Political.

When Mrs. Jenks was coming to Washington to support the vevacious and red-headed Anderson, she was "a Louisiana lady of unquestioned worth" in the democratic papers; now she is "the notorious Mrs. Jenks." The reform papers have not yet reached the point of referring to their champion perjurer as "the notorious Anderson."

Anderson's confession that he is acting under Mr. Springer's advice places the latter in an unenviable light since it makes him Anderson's abettor in his contempt of the Senate committee.

In speaking of the bearing of President Hayes pending the Tilden (limited) investigation, the Indianapolis *Journal* says: "The storm may howl around him and the heathen may rage; he goes straight forward in the path of duty, apparently careless as to consequences and evidently strong in his innocence. No dirt has been brought home to him, nor will there be. He can look the American people in the face, as he practically does to-day, and declare upon the honor of an honest man that he has done no wrong. Now, as on the battle-field, he does not flinch under fire. The only difference is that the democrats did succeed in putting a bullet into him then, while they are unable to hit him now."

A New York despatch says it is stated that the Congressional election committee were to report in favor of paying ex-Congressman Nash's expenses in contesting Robertson's seat from Louisiana, but the testimony of Anderson showing that Nash had made a corrupt bargain with him determined the committee not to make the report.

Anderson has sworn himself into public notice and out of a job, but that is all the practical benefit yet apparent as the result of his able-bodied lying.

Butler prefers to address the greenbackers of eastern Massachusetts, Fourth of July, rather than Windham county republicans.

—How to acquire shorthand—Fool around a buzz saw.

Lost Seven Pounds in Three Weeks.

Allan's Anti-Fat is a genuine medicine, and will reduce corpulency from two to five pounds per week. Purely vegetable and perfectly harmless, acting entirely on the food in the stomach, preventing the formation of fat. It is also a positive remedy for dyspepsia and rheumatism.

BOSTON, MASS., Feb. 11th, 1878.

BOTANIC MEDICINE CO., Buffalo, N. Y.:
Gentlemen:—The lady alluded to lost seven pounds in three weeks, by the use of Allan's Anti-Fat. Yours truly,
SMITH, DOOLITTLE & SMITH, Wholesale Druggists.

A Secretion that Contaminates the Blood.

When the bile is diverted from its proper channels, into the blood, which is always the case in liver complaints, it ceases to be a healthy secretion, and becomes a poison. Its abnormal presence in the circulation and stomach is indicated by the suffusion of the skin with a hideous saffron tinge, by headaches, vertigo, nausea, pain in the right side and under the right shoulder blade, by indigestion, obstruction of the bowels, and other minor symptoms. Order may be substituted for this state of chaos, and further bodily evil averted by using the beneficent alterative and tonic, Hostetter's Stomach Bitters, which, by relaxing the bowels, promotes the escape from the circulation of bilious impurities; besides rendering the action of the liver regular, and removing every trace of dyspepsia. This pleasant and purely vegetable anti-bilious medicine is not only infinitely more effective than any form of mercury, but is on account of its freedom from hurtful properties, infinitely to be preferred to that poisonous drug.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East Indian missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. Sent by mail, by addressing with stamp, naming this paper, W. W. Sherar, 149 Powers Block, Rochester, New York. ıjy18

Beautiful Helen no doubt had a fine complexion, but it is more than doubtful whether it exceeded in purity the complexions of the ladies who use that inimitable auxiliary of female loveliness, GLENN'S SULPHUR SOAP. Sold by all Druggists. HILL'S HAIR & WHISKER DYE, Black or Brown, 50 cents. ıjy21

Every one speaks well of it, and those who have been there once patronize the place ever afterwards. Is it necessary to add that we refer to the Colonnade Hotel on Chestnut Street, Philadelphia, Pa.

"A friend in need is a friend indeed." *Adamson's Botanic Balsam* has proved itself a friend to the suffering, and its best recommendation is that where it has once been faithfully tried no other remedy will be used for coughs and colds.

A General Rebellion.

TRIUMPH OF A GREAT DISCOVERY!

The public has *rebelled* against *cauterizing Hair Dyes*. Fashion has foresworn them. A sagacious community has adopted in their stead,

CRISTADORO'S HAIR DYE,

and for *these reasons:* It embrowns and blackens the *hair*, not the *skin*. It is a *vegetable emollient*, not a *burning fluid*. It does not burlesque nature with *blooming metallic tinges*, but produces her own *living hues*. Its cooling effect is *lasting*. It *defies detection*. Its results are *uniform*. It *never fails*. Manufactured by J. CRISTADORO, No. 93 William St., New York. Sold by all Druggists. Applied by all Hair Dressers. ıjy15

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* cod&wtsept15 7

Letters for the night mails [and no others] east or west may be deposited in the box at the Eastern depot, every day except Sundays.

E. G. PIERCE, JR., P. M.

THE CITY.

Hon. Frank Jones arrived home from Washington Saturday.

The handsomest suit of boat-sails on the river are spread on Mr. Fentress' boat.

The civil list at the navy yard has not been paid off since December last. "Economy" of the "democratic House." On Monday the clerks and writers received their pay for April, May, and the first half of June, but will have to write to the Fourth Auditor for the balance.

A Raymond correspondent writes: "Rev. J. A. Goss of Portsmouth lectured here on temperance on the evening of June 22d. It was a lecture for the times. The vices of intemperance were set forth in their terribly dark aspects, and destructive forms. The traffic was made to appear somewhat as it is. Abstinence and the pledge as the remedy, were urged in strong terms. The lecture was calculated to do good."

A schooner loaded with bricks, working down river Monday afternoon, when near the navy yard undertook to go about, but a sudden change of wind made her miss stays and she went for the ferry steamer Emerald, moored at the navy yard landing, like a shot. The anchor was let go in a hurry and brought the schooner up all standing, the strain on the chain pretty well scaling it of rust. No damage was done, though an eye-witness informs us that he would not have given ten cents for the Emerald at the time the schooner's anchor was dropped.

The *Army and Navy Journal* says that the Portsmouth Light Artillery cannot claim a history further back than 1876. Col. Beck, Capt. Towle, N. D. Miller and Benj. Cheever, all members of the old company, say that it can, as the present company is a perpetuation of the former, inasmuch as it has all the records of the old company, and bears on its rolls as honorary members all of the old company now living. We opine that the active members of the Light Artillery will take as "authority" these old veterans, rather than a paper which bases its opinions on a letter which does not state all the facts in the case.

POLICE COURT.

MONDAY, June 24; *Batchelder, J.*

Henry Moulton, for drunkenness, was sentenced to thirty days at Brentwood, and to pay $6.90 costs.

Charles Horton, John O'Brien, Richard Rogers, James Brady and John Daly, all drunk, were each assessed $9.90, fine and costs, and all go to Brentwood to work it out.

William Quinn, 3d, was last week released from jail, having procured bonds for his appearance before the Supreme Court to answer to a charge of aggravated assault. He has signed the pledge, and if he keeps it will probably do well enough, as we are informed that so long as he is sober he is all right, though when drunk he is an unmitigated nuisance.

THE VICINITY.

Rev. Mr. Prince, pastor of the Methodist church in Dover, has declined the offered Presidency of the New Hampshire Conference Seminary, and will remain in his present position until next May, if not longer.

The people of York county are to hold a mammoth meeting under the auspices of the Patrons of Husbandry, on the Forth of July, at Deering's grove in Waterborough, on the Portland & Rochester railroad. Oration by Hon. D. H. Thing, master of the Maine State Grange.

The Boston *Post* says: "At Lowell, Saturday night, the frauds perpetrated by Mrs. Hannah Pickering of Rochester, N. H., in the name of the materelization of spirits were exposed. While personating an Indian maiden's spirit, Mrs. Pickering was caught in the arms of Mr. Clark of Lowell and held until her identity was established."

William W. Hooke, of Dover, who has been in the State prison for about a year and a half, has been pardoned. Hooke is about eighteen years old, and was sent to prison for three years for burglarizing a number of stores in Dover by means of a tunnel under the dividing walls of the cellars, he being a clerk in one of the stores in the block, and his older brother being engaged with him in the surreptitious enterprise. The brother, who is older than William, was considered the more guilty one at the time, and is still in prison.

New Hampshire Items.

Bishop Niles of this State preached at Trinity church in Hartford, Sunday.

A thunder-storm, accompanied by one of the most violent winds ever known, passed over Concord Sunday afternoon. Trees were broken off and uprooted, and some chimneys were blown down. No serious damage to property is reported.

The American Society of Civil Engineers ascended Mt. Washington on Saturday.

Dennis Sullivan of Nashua was found dead in his cellar Saturday. Heart disease.

Rev. William C. Dawson, rector of St. Thoma's Episcopal church of Hanover, has declined a call to Wheeling, W. Va.

The officers of the Sullivan county Agricultural and Mechanical Fair Association met at Claremont Saturday and perfected arrangements for holding their first county fair in Claremont, Sept 25th and 26th.

The Sugar Hill Starch Company's factory at Lisbon was burned Thursday afternoon. It was occupied by Kimball Priest. Loss $5000, insurance $2500.

The Newburyport *Herald* says: Joseph Hills of Plaistow, N. H., was ninety-five years old on the 11th inst., and is in good health, although somewhat feeble. He was born in West Newbury, and learned the trade of house carpenter in Newburyport, where he resided until he was thirty-one years old. He removed from here to Plaistow sixty-four years ago. Mr. Hills was drafted as a soldier in the war of 1812, and was stationed at Portsmouth. He is a brother of the late Joshua Hills, a cooper, doing business on the bridge road, and cousin to Joshua Hills, father of Philip K. Hills. The patriarch is a republican in politics, and at the late election walked from his home a mile to vote. He has been a member of the Haverhill North Parish church for upwards of sixty years. The family is one noted for intelligence and integrity in this region for several generations, many of its members having been in prominent positions. William H. Hills, a son of the old gentleman, is a practicing lawyer in Plaistow, and two daughters are living.

The farm buildings of Sylvester Rowell, of Croydon, were destroyed by fire Sunday night. Loss $4000; insured $2600. Incendiary.

Practical Wisdom.

An ancient adage says, "In time of peace prepare for war." Is it not equally wise to prepare for sickness in time of health? When anticipating a journey, guide books and maps are studiously examined, and all possible information of the route and country obtained. Yet many make the "journey of life" and throughout the entire trip remain almost strangers to themselves, in profound ignorance of their abilities, and have no knowledge of the physiological laws that govern mind and matter. To such, life is like a boy handling an engine, he may have ascertained how to start and stop it, but he knows not how to keep it in running order. The People's Common Sense Medical Adviser, an illustrated work of over 900 pages, is designed by its author as a popular hand-book of anatomy, physiology, hygiene, medicine and the most common diseases to which all are liable, and with which many are afflicted. The work is replete with sound, practical suggestions. Price $1.50. Address the author, R. V. Pierce, M. D., Buffalo, N. Y.

—A clerk in a Philadelphia bookstore, thinking to annoy a Quaker customer who looked as though he was fresh from the country, handed him a volume saying, "Here is an excellent essay on the rearing of calves." "Thee had better present that to thy mother, young man," was the spontaneous reply of the Quaker.

MARRIAGES.

THORNTON—WHITNEY. In this city, June 24, by Rev. James W. Hubbell, Mr. George W. Thornton and Miss Jennie Whitney, both of Lawrence, Mass.

JELLISON—NORTON. In Greenland, June 18th, at the residence of the bride's father, by Rev. George W. Roland, Mr. John G. Jellison, of Portsmouth, and Miss Cora J. Norton, daughter of A. J. Norton, Esq.

HANSON—SMITH. In Farmington, June 16th, Dr. Orrin B. Hanson and Miss Addie O. Smith, daughter of Capt. George H. Smith, all of Farmington.

PARKER—FURNALD. In Farmington, Dr. David T. Parker and Mrs. Lucy A. Furnald, daughter of the late Seth Wentworth of Lebanon, Me.

DEATHS.

CHAPMAN. In this city, June 22, Mrs. Abby Chapman, widow of the late Mr. Nathan Chapman, aged 79 years and 2 months.

DENNETT. In Minneapolis, Minn., June 16, Mr. Cyrus F. Dennett, son of Mr. Hiram Dennett, formerly of this city, aged 32 years.

THE NEW HAMPSHIRE

GAZETTE

Established 1756.

The Gazette is published every Thursday, and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains **full accounts** of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of **NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news,** containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a **WEEKLY INVITATION TO CUSTOMERS,** at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Isn't It Lovely.

"Isn't it lovely?" A dry goods clerk on Main street was showing a lady some parasols yesterday. This clerk has a good command of language and knows how to expatiate on the good qualities and show the best points of goods. Picking up a parasol from a lot on the counter, and opening it, he struck an attitude of admiration, and, holding it up so the best light would be had, said, "Now, there. Isn't it lovely? Look at that silk! Particularly observe the quality, the finish, the general effect. Feel of it. Pass your hand over it. No foolishness about that parasol, I tell you!" he said, as he handed it over to the lady; "ain't it a beauty?" "Yes," said the lady, "that's my old one. I just laid it down there." The clerk was immediately seized with a severe attack of quickened conscience, and passed right off from the subject of parasols on to the weather.—*Keokuk Constitution.*

—Bishop Clark tells a story of a city clergyman who was once invited to preach in a small country church, and the choir thought they would get up a very elaborate performance for his benefit. They were more ambitious than successful, and when they had finished, before giving out his text, the preacher looked up to the gallery and said: "My friends, if the angels in Heaven should hear you sing, they would come down and wring your necks."

—The doctors of Lauderdale county, Miss., are puzzled over one of the strangest deaths on record, that of James Knox, who was apparently frozen to death on the 8th inst. For a year Knox has been in vain trying to warm himself, the warmest weather, the hottest fire, the heaviest wraps having no more effect upon him than if he had been cursed by Goodey Blake. The doctors found his animal heat at normal pitch and his health and appetite good, but while riding on the 8th he kept complaining that he was freezing to death, and he did die before he reached home, with the thermometer at nearly ninety degrees.

—A jealous lover donned petticoats in Painesville, Ohio, last Wednesday, in order to kill the girl he had left behind him. When an aged spinster, clad in a long black dress, heavily veiled and gloved, alighted from the eastward bound train, and tottered into the omnibus, the loungers about the station saw little resemblance in the figure to the light-footed Johnny Blake, who had arrived on a visit to Mary Durham a year before. The disguised Blake was taken to the hotel, and went to the dining room and took supper, registering as "Mrs. Woodruff, St. Louis." At noon on Friday a phaeton was hired, and the old lady hobbled down stairs, and with the help of the driver got into the vehicle. About this time, Mary Durham, a compositor in a newspaper office, was going home to her dinner. The phaeton stopped, "Mrs. Woodruff" sprang out, and the gentle Mary recognized her discarded lover, John Blake. She screamed. He embraced her and brandished a razor. She screamed. He drew a revolver from his belt and threatened to shoot her. She screamed. Sheriff Morley appeared upon the scene and overtook the couple. The man in the petticoats then fired, the ball whizzing by Mary's left ear. She screamed once and again. The sheriff knocked down his man and led him off to jail. Theb lue-eyed maiden went home to dinner, returned in the afternoon to her case in the newspaper office, and set up with her own fingers the account of this diabolical attempt to assassinate her, smiling grimly at every adjective.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '74. *Dear Sir:*—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.

F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. R. ROSIE & Co., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Fletcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil.—For Wind Colic, Worms our Stomach and Disordered Bowels, there is nothing like Castoria. 1aug

INVALIDS' HOTEL.

The very large number of invalid people who daily visit Buffalo, from every quarter of the United States and Canada, that they may consult Dr. R. V. PIERCE, and the widely celebrated Faculty of Specialists in Medicine and Surgery associated with him, rendered it necessary that the founder of this institution should provide a place on a grand and comodious scale for their entertainment and comfort.

ADVANTAGES OFFERED.—The Invalids' Hotel is made complete in its appointments than any similar institution in the world. The building is located in one of the most healthful and desirable portions of the City of Buffalo, and commands a fine view of Lake Erie, Niagara River, and the surrounding country, being situated in the midst of an extensive system of beautiful parks. The Hotel is furnished with a patent safety passenger elevator, to convey patients to and from the different floors; is provided with all kinds of approved baths, and has also connected with it a well-appointed gymnasium and bowling alley to afford proper means of exercise.

CHRONIC DISEASES of all forms, whether requiring medical, surgical, or mechanical treatment, come within the province of our several specialties.

DISEASES OF WOMEN.—Especially are the facilities of this infirmary of a superior order as regards the remedial means and appliances for the cure of all those chronic diseases peculiar to females. The employment, in moderation, of tonic, chemical, electro-thermal, and other approved baths, is in many cases an invaluable auxiliary to the remedial means to which resort is made in such cases. Dry friction to the surface, general shampooing, Swedish movements, and light calisthenic exercises, to enliven and arouse the mind of the patient from despondency, and thus promote recovery, are not neglected.

NERVOUS DISEASES.—Paralysis, Epilepsy (Fits), Chorea (St. Vitus's Dance), and other nervous affections, receive the attention of an expert in this specialty, by which the greatest skill is attained and the most happy results secured.

LUNG DISEASES.—This division of the practice in the Invalids' Hotel is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat, and Lung Diseases are very largely treated in this department, with results which have been highly gratifying to both physician and patients.

EYE AND EAR.—Attention is given to the delicate operations on the eye and ear, a distinguished oculist and aurist being under engagement to conduct this branch of the practice.

Invalids arriving in the city and desiring to consult us should come directly to the Hotel. It is easily accessible by carriage, omnibus, or street cars. Mr. Pierce's Agents, on all incoming trains, can be relied upon to deliver passengers and baggage with safety and dispatch.

☞ Address R. V. PIERCE, M. D., World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once.
otjyr278 H. HALLETT & CO., Portland, Me.

DR. JOHN TRIPP'S
BLOOD PURIFIER
IS the most wonderful discovery for the radical cure of **SYPHILIS** and **SCROFULA.** It never fails to entirely eradicate either of these diseases and all Blood Poison from the system. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.
Sole Eastern Agency, **206 Columbus ave., Boston, Mass.** Office hours, 8 to 11, A. M., 2 to 7 P. M. Send for pamphlet. Cure in all cases of Syphilis in either stage guaranteed. eodtjy19

PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. otcb20 79

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" in New York every evening (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL,
Passing through Narragansett and Mount Hope Bays by daylight.
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the fogbrinds and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Train.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.
GEO. L. CONNER, Gen'l Pass. Ag't. F. R. KENDRICK, Supt.
L. H. PALMER, Agent, 3 Old State House.

DOCTOR PIERCE'S
ALTERATIVE OR
Golden Medical Discovery

CURES DISEASES OF THE
THROAT, LUNGS, LIVER & BLOOD.
In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has combined in *harmony* some of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimples, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver, or "Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.
SOLD BY DRUGGISTS AT $1 PER BOTTLE.
Prepared by **R. V. PIERCE, M. D.,** Sole Proprietor, in the WORLD'S DISPENSARY, Buffalo, N. Y.

PRATT'S
Astral Oil!
THE SAFEST AND BEST
ILLUMINATING OIL!
☞ *For Safety and for Excellent Burning Qualities, it is without an equal.* ☜
CAUTION.
☞ The great popularity of "ASTRAL" OIL has induced some unprincipled persons to sell worthless and dangerous imitations for "ASTRAL," while others palm off inferior oils, representing them as good as "ASTRAL." To prevent this fraud, purchasers should demand "ASTRAL" and take no other.
The Genuine Article is sold by
JOHN P. SWEETSER,
46 Market Street, Portsmouth.

NEW FOUR PER CENT
GOVERNMENT BONDS.
The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.
The Bonds are redeemable after 1, 1867, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.
The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.
Orders by mail will receive prompt attention.
Jan. 27, 1878. E. P. KEMBALL, Cashier. tf

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,569 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

GILMORE & CO.,

WASHINGTON, D. C.

LIBRARY LAMP.

HOUSE'S ARGAND BURNER.

Ask your dealer for this Lamp. If he will not supply you, write to us for it. It gives the light of twenty candles, or one-third more than any other lamp of similar style (same size burner) in the world; the light being, also, steadier and every way more satisfactory.

Butler & Laighton,

No. 1 MARKET SQ.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy, every herb, plant, and bark is subjected to distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is hard, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all south are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the membrane of the nasal passages by inducing inflammation and pain and at once correcting, cleansing, and purifying the secretions. Internally administered it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while traveling with Father Kemp's Old Folks Concert Troupe as a boy singer, I took a severe cold, which was laid up at Newark, N.Y. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I referred the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head aches, eyes ache, who can scarcely articulate distinctly on account of the choking secretions falling in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours, GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1876.

DEAR—I purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Rumford Building.

Each package contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for two years, and, notwithstanding the immense number of remedies in the form of liniments, lotions, pain-curers, and ordinary plasters, they have steadily increased in sale and met with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many remarkable cases have been published to be well-known instances in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world of medicine.* All we ask from every sufferer is the land is a simple trial. The price is 25 cents, although the cost is double that of any other plaster. But, notwithstanding the efforts of the proprietors to make the best plaster in the world for the least money, any imitations which may be bought, numbers of unprincipled dealers will be found ready to misrepresent them for a little more profit and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO.,

No. 3 BOW STREET.

Daily Chronicle.

Congressman Washington C. Whitthorne, who was one of the fillibusters during the electoral count, says that their plan contemplated a final stand upon the vote of Vermont when the question of the irregularity in the status of one of the electors of that State was to be contested, and the yeas and nays called upon every motion, the intention being to protract the counting of the vote down to within twelve hours of the 4th of March, and frighten the Senate into electing a new President *pro tem.*, who should become President of the United States by the failure to complete the electoral count. In the struggle of the republican Senators to make their selection it was hoped, he says, that they would be divided between Senators Conkling and Morton, and that the democratic Senators could dictate the election of a man who was to agree, on becoming President of the United States, to order a new Presidential election within sixty days from the 4th of March. This plan, he says, failed, Mr. Randall failing to recognize the member who was to make the fillibustering motion on Vermont.

—Out of a place—The discharged convict.

—An Indiana preacher made use of the expression "the iconoclastic segrate of sin," last Sunday, and has already received a call to a Congregational church in Boston.—*Breakfast Table.*

—A Bangor woman's turkey ate the residuum of some cherry rum which she threw into her yard the other day, apparently died and were plucked by the hired man. The next morning, however, they appeared in the barn yard alive, but in an undress uniform.

No. 1 MARKET SQUARE.

Portsmouth Chronicle

WEDNESDAY, JUNE 26, 1878.

New Hampshire Legislature.

In the House, Tuesday morning, a remonstrance against the repeal of the law regulating the practice of medicine and surgery was referred. A petition for a law to abate the tramp nuisance was referred. The committee reported a resolution in favor of the Rockingham Ten Cents Savings Bank. The following were read and referred: To amend the charter of the city of Portsmouth; to incorporate Crystal Springs Water Company. Notices of a number of bills were given, among them of one to prohibit the sale of lager beer.

The Fraud Campaign.

Mrs Jenks, the leading lady in the Potter-Tilden-fraud farce, again occupied the boards on Tuesday. Same old story.

Marshal Pitkin also testified, and flatly contradicted Anderson's testimony in several important particulars. He gave Weber a high character, and said the republicans before the election became aware that Anderson was in communication with the chairman of the Democratic State Committee, and they therefore suspended him.

News and Notes.

Gen. Howard's advance had a fight with Indians on Sunday. No particulars are given, other than that Capt. Robbins and two soldiers were killed.

Four boilers in a nail works at Harrisburg, Pa., exploded Tuesday. One man was killed and four fatally scalded.

Ass W. Fay, a peddler, of Springfield, Mass., was shot in the neck Saturday morning by a revolver in the hand of a young man whom he took into his wagon near Chicopee Falls, and Fred Sherman, of that village, sixteen years old, has been arrested and identified by Mr. Fay as the person. The boy says that the shooting was accidental, but there are doubts about that.

Schooner Francis A. Baker, Capt. Coleman, bound from Rockland to Boston with 1000 barrels of lime, sprung a leak off Cape Elizabeth on Saturday, and the vessel took fire. The crew abandoned her, and reached Portland in their boat Sunday night. Schooner R. P. Chase was towed into Portland Sunday afternoon, water-logged; she was loaded with lumber. An unknown schooner, supposed to be a St. John vessel of about a hundred tons and heavily loaded, was found on Sunday sunk in fifty feet of water, less than two miles from Cape Elizabeth lights; she is supposed to have gone down Saturday night, with all hands.

Farmers in all parts of Ohio are receiving almost daily notices signed "Workingmen's Bread or Blood Committeee," and warning them against buying labor-saving machinery, and especially the self-binding reaper. Threats are made that every such reaper will be destroyed and stack of grain burned if an attempt to use them is made. No cases of violence are yet reported. In one or two cases township strikes for higher wages have been organized among field hands, but no difficulty is experienced in filling their places.

Senator Bruce (colored) of Mississippi was married on Monday evening to Miss Josephine B. Wilson of Cleveland, and will make a European tour.

At the annual meeting of the Michigan Central Railroad, in Detroit, Monday, the William H. Vanderbilt ticket for directors was chosen; $15,000,000 of stock was voted on, the Vanderbilt ticket having about $10,000,000, and the Taylor ticket $5,000,000. Vanderbilt was elected President.

It is not known at the office of Attorney-General Devens that the question of the eight-hour law has been referred by the President to that department. It is said Senators Hoar, Dawes and Matthews will urge the President to decide that eight hours shall constitute a day's work in the navy yards and custom houses.

Mrs. Susan Henriques, the mother of Madeline Henriques Jennings, the wife of Louis J. Jennings, late editor of the New York *Times*, writes to the *World* that the statements that Jennings used to beat his wife are most wicked and cruel falsehoods, most unjust to Mr. Jennings, atrociously offensive to his devoted and affectionate wife, and disgraceful to their authors. These are the charges made in the *Express* for which Mr. Jennings is now suing John Kelly and Erastus Brooks.

The brig Confederate, from Philadelphia, was run into by the bark Antwerp, from Galway, off the New Brunswick coast Sunday, and the brig sunk in three minutes. Three lives were lost.

An insane tramp named Michael Highland attempted to kill William W. Forsyth in his own house at Providence, Saturday, but was fatally wounded in the head by a revolver-bullet.

Porter Rockwell, one of the notorious Mormon Danites, has died in Salt Lake City. He was under indictment for participation in the murder of the Aiken immigrants at Mountain Meadows in 1857. There is a suspicion that he was foully deal with by some of his old associates in crime, who feared a confession on his part.

The cruelty of which a Wisconsin wife complains in her suit for divorce is that her husband tied her securely and shaved her head. The defence is that she bleached her black hair to lemon color by the use of acid, and that he, deeming such a thing highly scandalous, took the only means of undoing what she had done. He says that he bought a wig for her, imitating her natural hair, so that her bare head might be concealed while nature was remedying the disfiguration.

The Military Departments of the South and the Gulf are consolidated under the name of the Department of the South, Brig.-Gen. Augur commanding, to take effect July 1st.

The schooner yacht Dreadnaught was ashore near Mamaroneck, Long Island Sound, in a dangerous position, Monday. A steamer went to her assistance. The crew were saved.

Father Cuddihy at mass in the Catholic church at Milford, Mass., last Sunday, refused the communion to a member of the Ancient Order of Hibernians because he was one of sixty persons who signed a card calling the pastor of the church a calumniator, and said he should continue such refusal until some public retraction for the card was made.

The *Sun* understands that Miss Jeanette Bennett, sister of James Gorden Bennett, is about to be married to Baron Rossmore, a peer of the United Kingdom. Mr. and Miss Bennett are expected in New York July 6th. Miss Bennett's fortune is estimated at $2,000,000.

The Kelsey family, rendered notorious in 1872 by the tarring and feathering and alleged murder of Charles G. Kelsey, at Huntington, L. I., is again before the public. William, a brother of Charles, was arrested on Friday charged with an attempt to kill his sister Charlotte with an axe. The trouble is said to have arisen from a quarrel over the division of some property left by their father.

A Jacksonville, Ill., farmer named Sawyer plowed up a pot the other day containing $10,000 in gold eagles and half eagles coined in 1805.

An Allegheny county, N. Y., wife recovered $650 from the dealer who sold her husband the liquor which enabled an Erie train to amputate his leg.

New Hampshire Items.

Joseph B. Buzzell's trial commenced at Ossipee Tuesday, for being accessory before the fact to the murder of Susan A. Hanson at Brookfield, Nov. 18, 1874. He was tried as principal to the same murder in April, 1875, and acquitted.

George Roberts, one of the most prominent men of Salem, has been arrested on a charge of arson in setting fire to his store in that town in February last.

Two salmon, weighing sixteen pounds each, were caught at Livermore Falls, Monday, and placed in the reservoir. The Commissioners expect enough large salmon to secure one million eggs next Fall. These are the first salmon taken in Pemigewassett river in forty years.

A despatch from Plymouth states that Dickey, the murderer, was seen and recognized in the backwoods of Ellsworth on Thursday. He applied at a farm house for dinner and was given a meal. The farmer knew him but had not heard of the murder. On leaving the house Dickey took to the woods and disappeared. It is reported from Asland that the relatives and friends of the murdered man will, at their own expense, send officers in pursuit of Dickey.

Alden Eastman and Frank Howard were arrested at Ossipee, Monday, for passing counterfeit quarter dollars, and were held in $500 each and were committed to jail.

A mysterious shooting affray, which came near being a sad tragedy, through evident mistaken idenity, occurred at Ashland late Sunday evening. It seems that as Oliver Cheney of New Hampton was driving home from the former place he met a man a little below the village, who ordered him to stop. Cheney, who refused to do so, was then followed, and on nearing the railroad bridge the stranger fired two shots from a revolver, one bullet passing through his hat. Cheney drove on rapidly until he reached his house, being followed all the way to New Hampton village. The man, having been unsuccessful, watched the house all night. The only reasonable theory for the shooting is that the person, whose name is unknown, undoubtedly supposed Cheney to be the escaped murderer, Dickey.

Naval Affairs.

Lieut. Col. Thomas Y. Field, U. S. M. C., is detached from command of marines at this navy yard and ordered to the command at League Island. Capt. George P. Houston is detached from Annapolis and ordered to command at this navy yard.

Paymaster John H. Stevenson is ordered to the New York navy yard, relieving Paymaster Ambrose J. Clark, who is ordered to the Hartford, North Atlantic squadron.

The United States steamship Enterprise was at Pera, May 24th. All were well. The Enterprise will survey the Amazon river.

The judicary committee of the Senate, in the case of Dr. S. J. Draper, has submitted a report prepared by Judge Davis, which was accompanied by all the papers in the case. The case is one which has attracted much attention, and was made the occasion for severe comment by leading anti-administration Senators. Dr. Draper, who was a surgeon in the navy and attached to the United States ship Princeton, on the 1st of December, 1864, by leave of the commanding officer of the vessel, took Thomas A. Menzies, a confederate prisoner, away for the space of forty-eight hours, he being responsible for his safe return. He was dismissed by Secretary Welles and afterward allowed to resign. Secretary Thompson reinstated him. The judicary committee in their report discuss the legal aspects of the case, and also the different circumstances, and reach the conclusion that, as Draper had tendered his resignation and it had been accepted, that was a finality, and that Secretary Thompson's action in returning him to service was illegal and unwarranted. The case is regarded of great importance as settling a precedent.

Political.

The *Times* says Mrs. Jenks' testimony "has had the effect to convince people that Sherman is in a desperate strait when he uses such tools to hide his deeds." What in the world does the paper mean? Mrs. Jenks is the witness of the Potter-Tilden frauds, summoned by them from New Orleans as a witness for the prosecution — for no one now pretends the "investigation" is anything else than a partisan prosecution — and heralded by a grand blast of democratic trumpets as being the witness that was to "bounce Hayes" with her testimony. And now that she doesn't say just what the frauds want her to, she is John Sherman's witness! Well, so she is—tho' the frauds did call her and try to coach her.

Ex-Senator Alcorn, of Mississippi, is in trouble. His secretary, M. B. Hewson, sues him in the Memphis courts, for $8,348, the half of his salary he never got, and swears that he wrote Alcorn's State papers while he was Governor of Mississippi, and his speeches and reports when he was in the Senate.

Pamphlet copies of the letters of William E. Chandler and William Lloyd Garrison on the southern policy of President Hayes, with an appendix reviewing the course of the Louisiana "visiting statesmen," will be sent, postage or express paid, for six cents each, from the *Statesman* office, Concord, N. H., or by Gibson Bros., printers, 1012 Penna. Ave., Washington, D. C.

Mistress Jenks is a witness that would have delighted Butler had she happened to have been on his side in the controversy. * * Mistress Jenks, if she testifies truly, upsets the whole case; if she is an incredible witness, she is still the witness of the prosecution. If the Louisiana waters are muddy, they are not the more pure by the manipulation of the Potter committee. That, however, which will most disturb Butler in this behalf, is not that the committee should prove as impotent as it is malicious, but that Mistress Jenks should have overcome him in a fair fight, he being assailant advocate, and she defendant witness. The mere legal acumen of Butler failing, he addressed himself to Mrs. Jenks as no decent man would address a woman on the stand. But none the more effectually. As a lawyer, and as a blackguard, Butler had to give way before this woman evoked from the halls of the New Orleans hotels by the Potter committee.—*Providence Journal.*

An examination of the *Congressional Record* shows that Senator Sargent has not been absent a day or missed a roll call during the entire session of nearly seven months. Senator Windom was absent only one day, and Senator Blaine only part of two days, although the newspapers have twice announced that Blaine was "lying dangerously ill at his residence." Blaine thinks he has made a pretty good record for a man who the newspapers are continually trying to impress the public is broken in health. He says that he never felt better or stronger in his life than now. Senator Cockrell has been the most regular attendant on the democratic side of the Senate. Senator Sharon has not been in Washington during the session. His pay and mileage amounting to over $8000, lies untouched in the office of the Disbursing Clerk of the Senate, and his friends say he will not draw it.

It is stated that the President's civil service order remains in full force and its provisions are to be strictly enforced in all parts of the country. Persons holding Federal positions will not be permitted to take part in caucuses, primary meetings or conventions.

Senator Dorsey of Alabama has addressed an open letter to Clerk Adams, of the House, in relation to the omission from the sundry civil bill by one of the engrossing clerks, of the paragraph relating to the Hot Springs Reservation. He says that an examination of the bill on file at the State Department shows that when the paragraph relating to the Hot Springs was reached, there was a change in the person of the clerk making the enrollment. The omission would not have occurred, he says, if the engrossing clerks had attended to their duties especially, distinctly and imperatively called to their attention, or had not willfully and corruptly left out the paragraph in the enrolled bill. He says further that there are suspicious circumstances connected with the matter, and that there should be thorough and searching examination that the instigators may be pointed out and merited punishment overtake the guilty. It is believed that the omission was procured by the lobby.

A Secretion that Contaminates the Blood.

When the bile is diverted from its proper channels, into the blood, which is always the case in liver complaints, it ceases to be a healthy secretion, and becomes a poison. Its abnormal presence in the circulation and stomach is indicated by the suffusion of the skin with a hideous saffron tinge, by headaches, vertigo, nausea, pain in the right side and under the right shoulder blade, by indigestion, obstruction of the bowels, and other minor symptoms. Order may be substituted for this state of chaos, and further bodily evil averted by using the beneficent alterative and tonic, Hostetter's Stomach Bitters, which, by relaxing the bowels, promotes the escape from the circulation of bilious impurities; besides rendering the action of the liver regular, and removing every trace of dyspepsia. This pleasant and purely vegetable anti-bilious medicine is not only infinitely more effective than any form of mercury, but is on account of its freedom from hurtful properties, infinitely to be preferred to that poisonous drug.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East Indian missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. Sent by mail, by addressing with stamp, naming this paper, W. W. Sherar, 149 Powers Block, Rochester, New York. tjy18

A CARD.

NEW ORLEANS, June 12, 1878.

The undersigned certifies that he was the holder of WHOLE TICKET No. 31,079, Single Number Lottery, Class "E," in the Louisiana State Lottery, which drew the First Capital Prize of ONE HUNDRED THOUSAND DOLLARS on Tuesday, June 11, 1878, and ticket having cost the sum of Ten Dollars at the office of N. Dudoussat, corner of Common Street and Theatre Alley, and that the amount was promptly paid on presentation of the ticket at the office of the company.

W. S. CAMPBELL,
29 Carondelet Street.

NEW ORLEANS, June 12, 1878.

This is to certify that we have this day paid a check of the Louisiana State Lottery Company for the Sum of One Hundred Thousand Dollars, in favor of W. S. Campbell, in payment for a whole ticket of the drawing of June 11, 1878, which drew the capital prize of that amount.

A. LURIA,
Cashier Louisiana National Bank
of New Orleans.

Few are aware of the importance of checking a common cold or cough in its first stages, before it has an opportunity to work upon the lungs to such an extent as to produce serious results. The best remedy for this checking, healing and curing that we know of is *Adamson's Botanic Cough Balsam.* Price 25 and 75 cts.

Beautiful Helen no doubt had a fine complexion, but it is more than doubtful whether it exceeded in purity the complexions of the ladies who use that inimitable auxiliary of female loveliness, GLENN'S SULPHUR SOAP. Sold by all Druggists. HILL'S HAIR & WHISKER DYE, Black or Brown, 50 cents. tjy21

A General Rebellion.

TRIUMPH OF A GREAT DISCOVERY!

The public has *rebelled* against *cauterizing Hair Dyes.* Fashion has foresworn them. A sagacious community has adopted in their stead,

CRISTADORO'S HAIR DYE,

and for *these reasons:* It embrowns and blackens the *hair, not the skin.* It is a *vegetable emollient, not a burning fluid.* It does not burlesque nature with *blooming metallic tinges,* but produces her own *living hues.* Its cooling effect is *lasting.* It *defies detection.* Its results are *uniform.* It *never fails.* Manufactured by J. CRISTADORO, No. 63 William St., New York. Sold by all Druggists. Applied by all Hair Dressers. tjy15

E. G. PIERCE, JR., P. M.

THE CITY.

Quite a fleet of mackerel vessels were in the vicinity of the Shoals on Tuesday.

Dog-fish have struck in on the coast, and therefore cod and haddock are scarce.

A valuable horse belonging to Mr. Woodbury Locke got cast in his stable Monday night, and was badly hurt.

It is reported that the schooner Henry M. Clark arrived in the lower harbor on Tuesday, but immediately put out to sea again, going eastward, probably bound for Portland.

A bass weighing forty-eight pounds was hanging at the door of C. Sullivan & Co.'s fish market, Tuesday; it was a beauty, and attracted general attention. This fish was caught in the weir at Gerrish's island.

The steamer Three Brothers arrived here on Sunday with a party from Lawrence, Mass. It is reported that an attachment was put on her by parties in this city, but if so the matter must have been quickly settled, as she left here at nine o'clock Monday morning.

A Strawberry Festival will be given this evening in the Universalist church vestry, the doors opening at seven o'clock. Combined with it will be an entertainment with varied features, presented under the auspices of the Hutchings Association. Admission 10 cents.

Sagamore Lodge, No. 258, Knights of Honor, elected the following officers Monday evening for the ensuing semi-annual term: Dictator, Stephen W. Clarke; Vice Dictator, Charles W. Marston; Assistant Dictator, Oliver M. Knight; Guide, Alfred M. Lang; Reporter, Clarence B. Mason; Financial Reporter, Wm. O. Sides; Treasurer, Joseph H. Gardiner; Chaplain, Daniel L. Randall; Guardian, H. D. Marston; Sentinel, George A. Perkins.

The sale of tickets for the Lady of Lyons commenced at Preston's on Tuesday, and a considerable number of the choice seats were taken before the closing hour arrived; there will certainly be a good audience, and probably a very large one, to see this popular play presented by the talented combination that will appear at Music Hall to-morrow evening; and those who intend going should secure their seats to-day, if they wish to have much choice in the selection of them. While the entertainment will be first-class the prices are reasonable, as will be seen by referring to the advertisement.

The Manchester *Mirror* is giving brief biographies of the members of the Legislature, and thus speaks of one of the Representatives from this city: "Ward Two, Portsmouth, sends as one of its delegation, Samuel Adams, a veteran who is a fit representative of the business stability and reliability of our ancient city by the sea. He was born in Kittery, Me., sixty-eight years ago, but for fifty years he has lived in Portsmouth, and during the past thirty-eight years has been in business there on his own account. He was a member of the House in 1853-4, and has had much experience in the city government. He is a lumber dealer."

A few days since a young lady from the country went into a dry goods store in this city, and selected articles to the value of $32. Having some other purchases to make, and not knowing how heavy the other drafts on her treasury might be, she requested the storekeeper to do up the goods and keep them until she returned. In about an hour she came back and said she had spent every cent of her money, and wanted to pay for her dry goods in trade, with some real good old cider vinegar. The merchant declined the offer, and acknowledges that he would have been mad as a hornet about it if the young lady hadn't been so pretty that the mere pleasure of looking at her was enough to pay for the trouble of putting up the goods and unbundling them again.

A FINE VESSEL.

The new three-masted schooner Cochecco, built by Daniel Littlefield for Charles E. Walker and others, will be launched Thursday forenoon from the shipyard on Noble's island. Her dimensions are: length of keel, one hundred and six feet; breadth of beam, twenty-nine feet; depth of hold, eight feet. She has a centre-board, and will carry three hundred and fifty tons of coal. Her lower masts are seventy-one feet long; the head-stays are to be wire, the back-stays and rest of the standing rigging of hemp. She is built of New Hampshire white oak and southern yellow pine, put together "on honor," and is as strong as she can be made; her ceiling is five inches in thickness. The vessel is of a good model, and we believe her carrying and sailing qualities will reflect credit on her builder, as the manner in which she is constructed most certainly does; she is intended for the Dover and Newmarket trade, and will be commanded by Capt. Horace Seawards of Kittery Point.

POLICE COURT.

TUESDAY, June 25; *Batchelder, J.*

James Wholey was complained of for an assault on his wife Bridget with a hoe-handle. The accused being a poor man with a large—for these days—family of small children, he was allowed to go on probation, the case to remain on file for one year and be called up for judgment if Wholey again so far forgets himself as to take a hoe-handle to his wife.

A SURPRISED READER.

Mr. Editor: I was surprised to read in Monday's CHRONICLE an intimation that the capture of a proved criminal (Coombs) is disapproved by some on the ground that it has cost more to enforce the law than it would have done to let the escaped convict remain at liberty! It seems to me if this view is adopted the proper thing for the law-making power to do would be to pass an act that criminal laws are to be enforced only when the criminals persist in remaining in the State. On this plan the murderer Dickey should be allowed to go free if he will only leave the State—a plan, by the way, which seems to have been adopted in Dickey's case, as it appears that no efforts are being made for his arrest by the officers of the law. And why should Buzzell be tried over again, at great expense? It would have been cheaper to let him be, and probably he does not want to murder anybody else, so he might have been safely left alone. For myself, I hope to see the laws so enforced that would-be criminals will feel that they will be punished *if they break the laws*, and not that their punishment depends solely on their *remaining in the State* after they have broken the laws. G.

DOVER POINT HOUSE.

In another place will be found an announcement by mine host Saville of the Dover Point House, who is ready to accommodate all who may favor him with their patronage. It is needless to say to any one in this vicinity that the hotel is most beautifully situated on the river bank at the junction of Piscataqua and Cocheco rivers, and that it is easily accessible by boat, railroad, or by team over highways affording the pleasantest of drives; but everybody may not be aware that the cooking at this house is far ahead of that of most beach houses, which however is a fact. The Knights Templar of this city, who went up there some time ago and had a dinner, said it was one of the very best ones they ever experienced, and the Templars are an experienced body of men, so far as good dinners are concerned. Mr. Saville formerly successfully managed a first-class hotel in Boston, knows how to keep a hotel, and spares no endeavors to satisfy his guests. Fish suppers are his specialty; and a boat ride up the river from this city with a pleasant party, and a fish supper at the Dover Point House, will furnish happiness enough for one day to anybody not hopelessly greedy.

THE NATIONAL CLUB.

The National (greenback) Club had a meeting in the old Custom House, Tuesday evening, and the following named officers were chosen: James Janvrin, President; John E. Roberts, Benjamin Tripp, Vice Presidents; Nathaniel K. Raynes, Secretary; Gardner J. Greenleaf, Treasurer. An Executive Committee of one from each ward was chosen, viz.: Wm. Conn, George A. Mudge, Thomas Lester and Wiley J. Coleman. Speeches were made by several gentlemen, and the club then adjourned to meet in Mercantile Hall, opposite the Post Office, next Tuesday evening at eight o'clock. All persons favorable to the new party are invited to attend. It is intended to discuss subjects peculiar to the tenets of the national party. The members of the club are understood to be drawn about equally from the two old parties.

THE VICINITY.

The catamaran race for colors, announced for Saturday last at Newmarket, was postponed on account of the rain to June 29th. A yacht race at that time will also add additional interest, under the auspices of the Newmarket Yacht Club.

Otis R. Dudley, a farmer of Durham, seventy years old, living near Newmarket, was struck by a train from Great Falls, over the Boston and Maine Railroad, Monday morning, at a crossing near his house, sustaining injuries rendering amputation of the left arm above the elbow necessary. His recovery is probable.

The young ladies of the graduating class of the Dover High School will appear in calico. Those young ladies show the courage of their convictions.

The Dover *Democrat* says considerable excitement was aroused in Madbury and the part of Dover adjoining, Monday, by the depredations of burglars upon the premises of some of the citizens. On Saturday night somebody broke into the houses of Samuel E. Demeritt and Joseph Jones, and on Sunday night they broke into the houses of N. D. Meserve, Asa Young and Oliver K. Hayes. "At each and all of these places they stole all sorts of provisions, cooked and uncooked, cleaned out cupboards, pantries and cellars of bread, cheese, doughnuts, pies, crackers, sweet-cakes, meat, potatoes and so forth and so on, evidently eating part of the plunder on the spot, but carrying the great bulk of it away. Several pork barrels were cleaned out of all the lean pork, while the fat was left in the barrels. This fact gave a clue to the thieves. It is said that those curious people known as gypsies eat no fat meat, and it is known that a tribe of these creatures have been rusticating lately up just off the main road leading from our city proper to the County Farm, and that Saturday night and Sunday night they packed up their traps and emigrated to other quarters. It is said they have gone to Pittsfield. Those were probably the burglars and thieves."

MARRIAGES.

YOUNG—HALLETT. In Saco, June 24, Mr. Clarence L. Young, of Saco, and Miss Ida E. Hallett, of Biddeford.

THE NEW HAMPSHIRE

GAZETTE

Established 1756.

The Gazette is published every Thursday, and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

A Wedding Stopped at the Altar.

There was a strange scene at Cincinnati one day last week. A respectable and intelligent young lady was engaged to be married, and made the discovery that her affianced was in the habit of drinking, and told him what she had learned. He promised never to drink again, and she forgave him. The wedding day was subsequently set, and all went well until the morning appointed for the performance of the ceremony. During the interval he made his usual visits, and though he drank at times, his betrothed did not learn of his faithlessness until it was nearly too late to punish him for it. They were standing side by side, and a moment more would have found them man and wife, when he turned toward her, and his tell-tale breath spoke of whiskey. When the minister propounded the usual question to her, the response came faintly "No." In surprise the question was again asked; this time the response was clear and decisive, "No." She then turned to her lover, accused him of drinking, reminded him of his promise to her, and said that a man who would break a promise so solemnly made could not be relied upon, and she feared to trust her future to such a man. Expostulations and entreaties were all in vain, and that little "Yes" still remains unsaid.—*Cincinnati Times.*

Siamese Twins Out-Done.

The Siamese twins may take a back seat, for the St. Benoit twins have arrived at the New York Aquarium. Rose and Marie are their names, and they may be described either as two girls with one abdomen and one pair of legs, or as one girl with two heads, two chests and two pairs of arms. Rose is a blonde, Marie is a brunette, each is French and seven months old, from St. Benoit, a village near Montreal, Canada. Their parents are demure peasants, who appear to love the twin offspring. Their mother nurses them as any other mother would nurse a single child, or a *bona fide* set of twins. Together their shape is more like a capital letter T than a Y. Their right leg is used by Rose and their left leg by Marie, who has no authority whatever over the right leg, nor has Rose any over the left leg. They have one stomach between them. Rose sometimes sleeps while Mary laughs and *vice versa*.

—Folks who can't understand why robins are sent to eat up all the cherries should remember that in all probability the robins can't understand why human beings are sent to do the same thing.

—The Chinese have a habit of carrying material for alcholic drinks about with them in the form of powder called Kintsu, for the preparation of which certain manufacturers have obtained great celebrity. The powder is made from wheat or barley, with or without certain aromatic herbs, which has been subjected to fermentation and then pulverized. Rice is also used to make a liquor after a similar process. A spoonful of the powder mixed with water gives a drink which is greatly in request in the Flowery land. Good brandy in this form would be invaluable in a campaign.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '74. *Dear Sir:*—I have used your CASTORIA in my practice for some time. I take great pleasure in recommending it to the profession as a safe, reliable and agreeable medicine. It is particularly adapted to children where the repugnant taste of Castor Oil renders it so difficult to administer.

F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. B. ROSE & CO., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms or Stomach and Disordered Bowels, there is nothing like Castoria. tsug

INVALIDS' HOTEL.
The very large number of invalid people who daily visit Buffalo, from every quarter of the United States and Canada, that they may consult Dr. R.V. PIERCE, and the widely celebrated Faculty of Specialists in Medicine and Surgery associated with him, rendered it necessary that the founder of this institution should provide a place on a grand and commodious scale for their entertainment and comfort.
ADVANTAGES OFFERED.—The Invalids' Hotel is more complete in its appointments than any similar institution in the world. The building is located in one of the most beautiful and desirable portions of the City of Buffalo, and commands a fine view of Lake Erie, Niagara River, and the surrounding country, being situated in the midst of an extensive system of beautiful parks. The Hotel is furnished with a patent safety passenger elevator, to convey patients to and from the different floors; is provided with all kinds of approved baths, and has also connected with it a well-appointed gymnasium and bowling alley to afford proper means of exercise. 1feb20 79
CHRONIC DISEASES of all forms, whether requiring medical, surgical, or mechanical treatment, come within the province of our several specialties.
DISEASES OF WOMEN.—Especially are the facilities of this Institution unsurpassed, and the skill in the remedial means and appliances for the cure of all those chronic diseases peculiar to females. The employment, in moderation, of tonic, chemical, electro-thermal, and other approved baths, is in many cases an invaluable auxiliary to the remedial means to which we resort in such cases. Dry friction to the surface, general shampooing, Swedish movements, and light calisthenic exercises, to relieve and equalize the circulation of the blood in the system, relieve congested parts, improve digestion, and strengthen the muscles, produce important beneficial results in all cases to which these means are applicable. No experimenting is resorted to in the treatment. The most approved medicines are carefully employed, and the judicious regulation of the diet, to suit the condition of the patient, the thorough ventilation of the sleeping apartment, the cheering influence of music, social intercourse, innocent games for amusement, and all those agencies which tend to arouse the mind of the patient from despondency and thus promote recovery, are not neglected.
NEVOUS DISEASES.—Paralysis, Epilepsy (Fits), Chorea (St. Vitus's Dance), and other nervous affections, receive the attention of an expert in this specialty, by which the greatest skill is attained and the most happy results secured.
LUNG DISEASES.—This division of the practice in the Invalids' Hotel is very ably managed by a gentleman of matured judgment and skill. Bronchial, Throat, and Lung Diseases are very largely treated in this department, and with results which have been highly gratifying to both physician and patients.
EYE AND EAR.—Special attention is given to the delicate operations on the eye and ear, a distinguished oculist and aurist being under engagement to conduct this branch of the practice.
Invalids arriving in the city and desiring to consult us, should come directly to the Hotel. It is easily accessible by carriage, omnibus, or street cars. MILLARD'S Omnibus runs on all incoming trains, can be relied upon to deliver passengers and baggage with security and dispatch.
☞ Address R. V. PIERCE, M. D., World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the press is time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address, Stinson & Co., Portland, Me. 2ly28 78

DR. JOHN TRIPP'S
BLOOD PURIFIER
IS the most wonderful discovery for the radical cure of SYPHILIS and SCROFULA. It never fails to eradicate either of these diseases from the system and all Blood Poison from the system. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.
Sole Eastern Agency, 306 Columbus ave., Boston, Mass. Office hours, 8 to 11, A. M., 2 to 7 P. M. *Send for pamphlet.* Cure in all cases of Syphilis in either stage guaranteed. eodtje79

PENNSYLVANIA RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. 1feb20 79

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays Excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL,
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Train.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.

DOCTOR PIERCE'S
ALT. EXT. OR
Golden Medical Discovery

CURES DISEASES OF THE
THROAT, LUNGS, LIVER & BLOOD
In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has combined in harmony more of Nature's sovereign curative properties, which God has intuited into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from "**Torpid Liver,**" or "**Biliousness.**" In many cases of "**Liver Complaint**" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.
SOLD BY DRUGGISTS AT $1 PER BOTTLE.
Prepared by **R. V. PIERCE, M. D.,** Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y.

PRATT'S
Astral Oil!
THE SAFEST AND BEST
ILLUMINATING OIL!
☞ *For Safety and for Excellent Burning Qualities, it is without an equal.* ☜
CAUTION.
☞ The great popularity of "ASTRAL" OIL has induced some unprincipled persons to sell worthless and dangerous imitations for "ASTRAL," while others palm off inferior oils, representing them as good as "ASTRAL." To prevent this fraud, purchasers should demand "ASTRAL" and take no other.
The Genuine Article is sold by
JOHN P. SWEETSER,
46 Market Street, Portsmouth.

NEW FOUR PER CENT
GOVERNMENT BONDS.
The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.
The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.
The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.
Orders by mail will receive prompt attention.
Jan. 27, 1878. E. P. KIMBALL, Cashier.

Does not get ashes or soot on the meat. Does not let smoke and gas out of the stove. Does not put out the fire.

Ask your Dealer for the STANDARD BROILER, *it is just what you want.* The Trade supplied by FULLER, DANA & FITZ, 110 North St., Boston, and WILLIAMS & CO., Nashua, N. H.

MANUFACTURED BY ARTHUR BROWN & CO., - Fitchburg, N. H.

BEFORE USING. AFTER USING.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. *Glenn's Sulphur Soap* produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts*. It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 75c. and $1.20.

N.B.—Sent by Mail, Prepaid, on receipt of price, and 5 cents extra for each Cake.

"HILL'S HAIR AND WHISKER DYE," Black or Brown, 50 Cents.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, root and bark is subjected to distillation whereby the essential medical principle is obtained in vapor, condensed and bottled. The product remains in and still is inert, tasteless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all stills are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure proceeds in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while travelling with Hatfield Kemp's Old Folks Concert Troupe as a tenor singer, I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position because I was unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head ache, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and I am an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours,

GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1876.

I have purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Rumford Building.

Each package contains Dr. Sanford's improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for two years, and, notwithstanding the immense number of remedies in the form of liniments, lotions, palliatives, and ordinary plasters, they have steadily increased in sale and met with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many remarkable cases have been certified to by well-known citizens in all parts of the Union, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world or mankind.* All we ask from every sufferer in the land is a single trial. The price is 25 cents, although the cost is double that of any other plaster. But, notwithstanding the efforts of the proprietors to make the best plaster in the world for the least money, any similar remedy can be bought, numbers of unscrupulous dealers will be found ready to impose upon and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

C. E. MYERS & CO.,

No. 3 BOW STREET.

Daily Chronicle.

A Joke on Cornell Freshmen.

Two Cornell freshmen who were laboring under the impression that they were a good deal "bigger" than the rest of the class were "taken down a peg" a few days ago. Their class-mates concerted a scheme by which the big ones were made to believe that President White had presented a silver bust of himself, costing five thousand dollars, to the University, and that the faculty, believing so much silver should not be lost in such form, had resolved to melt it down and cast cups for the class of '81. At a meeting of the class the two freshmen were appointed a committee to visit Vice President Russell and protest against using the gift and bust of the President in that way. They waited on the Vice President big with their mission and came away, it is supposed, with less conceit and as much disgust and anger as they could carry.—*Utica Herald.*

—Weather strips—Changing your flannels for the season.

—There hasn't been a western town upset by a tornado, or rent in twain by a cyclone for a whole day. Go West, young man, go West, and blow up with the country.—*Oil City Derrick.*

—He stands in the saloons with his back to the stove and tells how he could run a newspaper; how he would be independent as a hog on ice, and call things by their right names; how he would expose corruption in high places; how he would write good, sound, common sense, and none of your frivolous, try-to-be-funny stuff. Then he criticises other people's methods of conducting newspapers, and just wishes somebody would give him a chance to show his journalistic ability. The way to cure one of these chaps is to get him to agree to write a sensible article every day for a week. Before the week is out he is sure to be pumped dry, and will gape worse for an idea than chicken does with the pip.—*Boston Investigator.*

Portsmouth Chronicle

THURSDAY, JUNE 27, 1878.

Chronicle Correspondence.

NEW YORK, June 25th.

Considerable excitement, especially in political circles, is manifested here at present over the action of John I. Davenport, Chief Supervisor of Elections and U. S. Commissioner, respecting the certificates of citizenship issued by the Supreme and Superior Courts of this city in 1868. His action deprives about seven thousand people of such certificates, and unless they obtain others before registration closes this fall it will be impossible for them to vote. A very large majority of these people are democrats, and some of the daily papers of that party are loud in their denunciations of Mr. Davenport, characterizing the proceedings as "the grossest outrage ever perpetrated on a free people." It is noticeable that these papers do not in any wise attempt to discuss the merits of the cases, but content themselves in making wild charges in high sounding phrases. Mr. Davenport has been a prominent man in this city for years, attaining his prominence chiefly by reason of his official position of Chief Supervisor of Elections—a position he has held for about eight years—and in his persistent efforts to secure a fair and honest election. This is sufficient to make him a target at which the newspapers maintained on the money furnished by Tammany Hall, hurl the whole vocabulary of their opprobrious epithets. Before going into the details of the action referred to, let me introduce and describe the man as well as I can to your readers.

Some years ago the *Sun* called him "Little Johnny," and by that name he is known all over the city. The appellation truthfully refers only to stature. In all other respects—ability, integrity and sagacity—it has no signification. He is about thirty-five years old, some five feet and a half tall, slender frame—weighing about 120 pounds—a well-shaped head, high, prominent forehead, black eyes, black hair and black moustache. There you have the man; now for what he is doing.

In the year 1868 the vote of this city was the largest it had ever been, and, with one exception, larger than it has since been. It was the year when the Tammany Ring was in the zenith of its power and glory, and when every effort, legitimate or otherwise, was exerted to prolong its power and plunder. To accomplish their object the election occurring that fall must be controlled at all hazards. Hoffman must be made Governor, a democratic legislature obtained, and A. Oakey Hall elected mayor. Repeating and ballot-box stuffing could be depended on to a certain extent, but to make assurance doubly sure every alien in the city that could be found who would vote the Tammany ticket was armed with a certificate of citizenship, no matter if he had but just stepped on shore at Castle Garden. With Barnard in the Supreme and McCann in the Superior Courts, each court being officered by henchmen designated by the Ring and selected with especial reference to their fitness and aptitude for the great fraud, everything ran along very smoothly. During thirteen days of October some *sixty thousand certificates* were issued! All of these except 3000 were issued by the two courts above named. A list of 10,000 in the Supreme and 27,000 in the Superior courts has been preserved. It is currently reported that 20,000 certificates were issued and sealed in blank and sold at fifty cents each, perhaps in packages to suit customers; 10,000 of these being distributed on the line of the Erie Railroad, and a large number going into adjacent States, many finding their way into the well-governed State of New Hampshire. Mr. Davenport very soon afterwards became convinced of the fraud, and he has persistently fought these papers every year that the laws gave him any authority over the elections, to-wit: when Representatives in Congress are chosen, and always meeting with abuse and mud-throwing by the democratic press. He has confiscated thousands of these papers, always taking them when specific fraud could be established. He informed me a few days since that he had succeeded in reducing the number in this city to about seven or eight thousand. His persistence has at last been rewarded by the unearthing of the whole fraud, and he has obtained evidence and decisions that render void every certificate issued by those courts during the year named. He is never slow to act when his position is sure. He therefore as United States Commissioner commenced issuing warrants of arrest for every holder of a '68 paper, arrests the party, takes the certificate into his custody, and proposes after a time to ask the courts to cancel them so that no duplicate can be issued. About sixty per cent. of those already arrested can go into the courts at once and procure legal certificates, by reason of having previously declared their intentions or having arrived in this country under the age of eighteen years, or having been honorably discharged from the army. The balance will have to declare their intentions and wait two years before they can become citizens. In every instance during that year's work there was but the slightest compliance with the laws of the United States respecting naturalization. Many presenting themselves with certified copies of a declaration of intention are surprised now to find that their witnesses swore that they—the applicants—came here under the age of eighteen, when in truth and in fact some of them were thirty or forty years old when they landed.

I could go on and multiply instances of this great fraud; but I fear I have already trespassed too much on your columns. I do not see how good citizens or fair-minded journals can fail to endorse the action of Mr. Davenport, and yet we have journals in this city, professing to be respectable and fair-minded, which in view of the facts I have recited are loud in their condemnation of his action. But "sich is life." MERITT.

New Hampshire Legislature.

The House, Tuesday afternoon, passed the joint resolution in favor of the Rockingham Ten Cents Savings Bank. Notice was given of bills to amend the charters of Manchester and Keene; the bill to amend the charter of Dover was read and referred.

The House committee on railroads held a public meeting in the afternoon and evening on the bill providing for the taxation of railroads as proposed by the tax commission; John H. George objected to the taxation of any specific interests but would go further than the recommendations of the commission in regard to the taxation of intangible property. Judge David Cross appeared as counsel for the Boston & Maine Railroad. He claimed that the application of the provisions of the bill would operate to a disadvantage to the road he represented, as the road was located in the States of Maine, New Hampshire and Massachusetts, and a larger proportion of the capital of the road had been expended in Maine and Massachusetts than in New Hampshire. Daniel Barnard appeared for the Boston, Concord & Montreal Railroad. He claimed that the bonded indebtedness of that road was taxable, under the existing statutes, to holders of bonds, and that it would be unjust to the corporation to require them to pay a tax upon property erected from the proceeds of the bonds. Solon A. Carter and N. G. Ordway appeared for the tax commission and explained the general provisions of the bill. It is evident the railroads are not boiling over with zeal to pay any more taxes than they now pay.

News and Notes.

Robinson's Epitome of Literature, (Philadelphia) for July, will have an elaborate biographical sketch of Hon. Wirt Sikes; description of the library of a prominent Philadelphian; original articles in connection with its new Shakespearian Department; the first in a series of summaries of current German periodical literature, by a well-known scholar; a translation from the Spanish, by Henry Phillips, Jr., and its usual supply of concise editorials and careful reviews.

The crew of barque Advocate, repeatedly reported as being sighted bottom up about a hundred miles southeast of Barnegat, were all saved, though all hitherto were supposed to have lost their lives. The vessel sailed from New York May 15th, took a gale on the night of the 15th, and had all three masts and bowsprit taken out on the night of the 16th by a tremendous squall. The vessel was at once an unmanageable wreck; her decks were ripped up, and she sprang a heavy leak. Ship N. B. Palmer sighted the wreck on the 17th, and laid by her until the sea went down sufficiently to enable her to rescue the crew.

A Philadelphia saloon exhibits as one of its attractions a South American rat, weighing fifteen pounds and larger than a hedge hog, which is more than a match for any dog that tackles him. A German brought it from its southern wilds; there is but one like it in the country, at Central Park, New York, and the officers of the Philadelphia Zoological Garden are trying to secure this specimen. Its favorite diet is peanuts.

The Allentown, (Penn.) *Register* contains this statement: "Daniel Dlawbaugh, of Harrisburg, is the inventor of a magnetic clock. It has neither weights nor springs, but is moved by magnetism from the earth, transmitted by copper and plates, to which are attached wires connecting with the magnet, acting on the principle of attraction and repulsion. This magnet is constantly charged, and the clock kept in constant motion, having been running between five and six years. The works operate the reverse of other clocks; the pendulum in this case being moved by the magnetism, which in turn moves the works. The clock is seven feet high, and the pendulum weighs twenty-five pounds."

John Frates, third mate of the barque Ohio of New Bedford, at sea February 27, was drowned by a whale taking down his boat, the line being entangled. Mr. Frates was the last of the boat's crew to come to the surface, and he sank before assistance could reach him.

Babbitt, the soap man of New York, is before the public again, this time as an innocent dupe of a married woman, Ellen Peck, who Mr. Babbitt claims, enchored him out of sums of money equal to $30,000. The other side of the story is not told yet.

Queen Mercedes of Spain, a bride of five months and not yet eighteen years of age, died of gastric fever on the morning of June 26th.

Virginia's new criminal code will become operative on the first of July. Under it one or more whipping-posts will be established in each city and county within the Commonwealth.

The French Canadians who within a few years have gathered at Fall River in large numbers, celebrated St. John's day this year for the first time. The procession was a third of a mile long and included two bands, a number of societies and a large number of cars representing the different trades carried on by the French in that city.

Of 107 applicants for admission to the Military Academy this year only 27 were rejected, which is unusual.

Deldrich Ulling, a quartermaster of the North German steamship Neckar, has been arrested on charge of being concerned in the kidnapping of the wife of Rev. Mr. Vosburgh of Jersey City when she was wanted as a witness in his trial for an alleged attempt to poison her, but the captain of the Neckar will demand his release on the ground that he is a German citizen.

Major Adolphus W. Greeley, of Newburyport and the Fifth Cavalry, who has for some years been a prominent officer in the Signal Service, was married June 19th at San Diego, Cal., to Miss Nesmith, a neice of ex-Senator Nesmith, of Oregon, and is to be stationed at Washington as the "Old Probabilities" of the Signal Service.

Pineapples are a drug in New York, at seven to nine dollars per hundred.

The vessels purchased by agents of the Russian government at Philadelphia are to be renamed when completed and ready for service. The State of California will be called "Europe," the Columbus "Asia," the Saratoga "Africa" and the vessel now building "America."

Political.

The Washington correspondents of the democratic papers say; "It is stated that the democrats have obtained the original of the Sherman letter and will soon produce it." There has been so much "it is stated" and "will soon" in the democratic despatches and papers for a year past that the actual production of something tangible would be a great relief.

The *Graphic* has an article saying that Collector Arthur, George Bliss, Gen. Sharp and others are antagonizing the interests of Senator Conkling in favor of ex-Gov. Morgan for the next United States Senatorship, and the only prominent politicians of New York who adhere to Conkling are Postmaster James and Naval Officer Cornell.

The *Congregationalist* is to be credited with an original and jocose idea. It is that the republican Congressmen should pair off with the democratic Congressmen and all agree to stay at home next session.

Says the Worcester *Gazette*: "General Butler is getting flat. One reason why he is getting flat is because so many persons have sat down on him. Gen. Boynton of the Cincinnati *Gazette*, one of the oldest, honestest, and most independent correspondents in Washington, refused point blank to be bull-dozed by Butler and called on the chairman to tell the gentleman from Massachusetts that he was behaving like a rowdy. Butler's mouth was closed for the day."

The New Orleans *Picayune*, democratic, says that "Tilden's title will not be disturbed by the investigation. He will simply remain *in statu quo* until some other man is elected President." The *Courier-Journal* says "Congress may adjourn, but the democratic revolution will go on in the Potter committee room."

Don't Drink.

A New York correspondent says that the short run of riflemen, billiards champions and men of sporting life generally, is a remarkable feature of New York life. Drink is at the bottom of this. Men who indulge in the cup can't control their nerves, and men who can't do this go to the wall. The bad shooting of some men, of whom so much was expected, resulted from their cup of indulgence. One of the best marksmen in the city, said, recently, that "in rifle shooting the variance of a hair's breadth at the muzzle made the difference of 100 yards; and a man must have absolute command of his nerves. A man who would win must not steam." Dan Mace, when he was in his prime on the road, drank only lemonade. I heard him say: "A single glass of whiskey affects my nerves. Men who drink on the road would not entrust their valuable teams to me if I was not in the driving season a teetotaler." When the billiard congress was in session the champion player said: "We can't drink and do anything. We have to abstain totally from all stimulating beverages while we play. We have a season of preparation. We have to be clear and cool, or we fail. The reason that so many eminent players pass out of sight is, they will drink. Then the nerves grow unsteady and the eye fails, and all is up with the player. The drinking goes deeper and the player worse."

—It was an eminent light of the law who said there were two things that no man could foretell, one being what sort of a man any particular woman would marry, and the other, what sort of a verdict a petit jury would give.

—Horse-shoes, bronzed and painted, make pretty ornaments to hang over the doors.

—A child was called as a witness in a Charlestown court. The opposing lawyer asked her if she knew where liars went when they died, and objected to her testimony because she answered no. "Well, that question has not been settled by anybody satisfactorily," said the Judge.

— Archibald Owens, a notorious smuggler on the Pacific coast, determined that he would be revenged on the San Francisco custom officers for seizing five bottles of cologne he was bringing on the sly from British Columbia. He swore that he would give them all the scent they wanted, and they found him a man of his word when they opened a suspicious box he carried on the next trip and discovered, to their detriment, a pole-cat in full working order.

☞ When the appetite fails, and head aches, with constipation of the bowels, the liver is out of order, and no medicine gives such prompt and permanent relief as a few doses of Dr. Pierce's Pleasant Purgative Pellets.

Lost Seven Pounds in Three Weeks.

Allan's Anti-Fat is a genuine medicine, and will reduce corpulency from two to five pounds per week. Purely vegetable and perfectly harmless, acting entirely on the food in the stomach, preventing the formation of fat. It is also a positive remedy for dyspepsia and rheumatism.

BOSTON, MASS., Feb. 11th, 1878.

BOTANIC MEDICINE CO., Buffalo, N. Y.:

Gentlemen:—The lady alluded to lost seven pounds in three weeks, by the use of Allan's Anti-Fat. Yours truly,

SMITH, DOOLITTLE & SMITH, Wholesale Druggists.

Why Longer Remain Fat?

Obesity was considered by the ancients as evidence of coarseness. Even yet the slim forms of the Grecian goddesses are regarded as models of female beauty. Corpulence is now held to be a disease, and Allan's Anti-Fat has fully demonstrated it to be curable. The Anti-Fat chemically neutralizes in the stomach all glucose, saccharine, and oleaginous substances, thus preventing the formation of fat. Its use insures a loss of from two to five pounds per week. It is purely vegetable and perfectly harmless. Sold by druggists.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East Indian missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this receipt, with full directions for preparing and using, in German, French, or English. Sent by mail, by addressing with stamp, naming this paper, W. W. Sherar, 149 Powers Block, Rochester, New York. tjy18

Business is dull. Try stock speculation! Thousands of dollars are often made from an investment of one hundred. Send to Alex. Froth ingham & Co., brokers, 12 Wall st., N.Y., for their *Weekly Financial Report*, sent free. 1

The Colonnade Hotel, Philadelphia, Pa., exhibits the secret of its great popularity and success by wisely maintaining its old standard of excellence since its reduction of rates.

Few are aware of the importance of checking a common cold or cough in its first stages, before it has an opportunity to work upon the lungs to such an extent as to produce serious results. The best remedy for this checking, healing and curing that we know of is *Adamson's Botanic Cough Balsam*. Price 35 and 75 cts.

Beautiful Helen no doubt had a fine complexion, but it is more than doubtful whether it exceeded in purity the complexions of the ladies who use that inimitable auxiliary of female loveliness, GLENN'S SULPHUR SOAP. Sold by all Druggists. HILL'S HAIR & WHISKER DYE, Black or Brown, 50 cents. tjy21

A General Rebellion.

TRIUMPH OF A GREAT DISCOVERY!

The public has *rebelled* against *cauterizing Hair Dyes*. Fashion has forsworn them. A sagacious community has adopted in their stead,

CRISTADORO'S HAIR DYE,

and for *these reasons:* Its embrowns and blackens the *hair*, not the *skin*. It's a *vegetable emollient*, not a *burning fluid*. It does not burlesque nature with *blooming metallic tinges*, but produces her own *living hues*. Its cooling effect is *lasting*. It *defies detection*. Its results are *uniform*. It *never fails*. Manufactured by J. CRISTADORO, No. 93 William St., New York. Sold by all Druggists. Applied by all Hair Dressers. tjy15

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&6tsept15 7

Eastern Railroad in New Hampshire.

THE ANNUAL MEETING of the Stockholders of the Eastern Railroad in New Hampshire will be held at the Music Hall, on Chestnut street, in Portsmouth, N. H., on Tuesday, the ninth day of July next, at ten o'clock in the forenoon, for the following purposes:

I. To receive the Annual Report of the Directors.

II. To see if the Corporation will accept an Act, passed by the Legislature of New Hampshire at its session in 1878, amending the charter of this Corporation.

III. To elect a Board of Directors for the ensuing year.

IV. To transact any other business which may legally come before the meeting.

WILLIAM H. HACKETT, Clerk.

PORTSMOUTH, N. H., June 27, 1878. jo27|y3,6

E. G. PIERCE, JR., P. M.

THE CITY.

Notwithstanding the fine weather, the livery stables are doing but little business so far this season.

Moses Brothers received over twelve hundred boxes of strawberries during the first three days of this week, and sold them all.

The Concord and Portsmouth dividend will be paid in this city at William H. Hackett's office on Friday 28th, and after that at Manchester.

On Tuesday evening, 25th inst., the following were elected officers of Damon Lodge, Knights of Pythias: C. C., John S. Tilton; V. C. C., Charles H. Marston; Prelate, Lewis K. McRae.

Our New York correspondent, "Meritt," shows the true inwardness of the process by which democratic majorities have been assured in New York city to overbalance the republican votes in the rural districts. His letter will repay perusal.

The "Lady of Lyons" and "Limerick Boy," at Music Hall this evening, will make one of the best theatrical entertainments ever given here, if we may judge from the talent and reputation of the performances. We expect to see a full house. Tickets at Preston's. See advertisement.

In order to obtain admission tickets to the reunion of the high school alumni on the 2nd of July, the past members of the high school must obtain their certificates of membership on or before Friday, the twenty-eighth of June. Admission to the hall will be by tickets only, and the certificate holders will be notified by mail of the time and place of the delivery of the tickets.

Speaking of the case of Tobias and Matilda Perry, of Deerfield, accused of brutal ill-treatment of a child, the Nashua *Telegraph* says: "Mrs. Matilda Perry's heartless treatment of her adopted daughter Hattie was shown by the girl's testimony at her tormentor's examination at Portsmouth." We have seen similar references to Mrs. Perry's "examination at Portsmouth" in other papers of the State. She has never had any examination in Portsmouth, nor any other place nearer to it than Deerfield, where the offence was committed and where she was bound over for trial.

SIGN IT, EVERYBODY.

The following petition to the Legislature is being extensively circulated in this city among the business men, and as extensively signed:

We, the undersigned, legal voters of the State of New Hampshire, respectfully represent that in our belief there should be some further legislation in regard to Hawkers and Peddlers, and pray your honorable body to enact a law requiring all Hawkers and Peddlers to pay a license in every town where they expose goods for sale or be compelled to contribute in some manner something proportionate to their business to defray the expenses of the towns in which they gain their livelihood.

It should require no argument to convince any one that the local dealers in any city or town, who are obliged to contribute toward the payment of all town and State expenses, are entitled to be protected from the injurious competition of men without "a local habitation and a name," who contribute nothing toward the expenses of the town in the shape of paying taxes, and add nothing to its prosperity by paying rents or putting up buildings in it, or spending their money where it is gained. And further, every taxpayer has a right to demand that all those doing business in his town and making money out of its citizens, be compelled if possible to bear their fair share of the town's expenses. The only objection that can be urged against the end aimed at in the petition, is that the itinerant peddlers sell goods cheaper than the storekeepers (who have to pay their share toward supporting the various departments of the city government) can afford to dispose of their wares. But even this is rarely true, for in a great majority of cases the extra "cheapness" of the hawkers' goods is due to inferior quality alone, the cheap purchases generally turning out poor bargains; and were it true in every instance, it would be no reason why the itinerant peddler should be spared his share of the public burdens of the places where he does business.

JOHNSON'S UNIVERSAL CYCLOPÆDIA.

In Biography, a large number of unimportant names, which have encumbered biographical dictionaries, are omitted, and their places supplied by those of modern interest, whether of permanent fame or mere notoriety. The editors have not considered it their duty to pass upon the claims of modern men of note for future immortality or even of high character, but have aimed to give information which the people ask for about persons of prominence, whose names are in the public journals, leaving the verdict of time to be passed upon their future claims to interest, and to be succeeded by a fresh crop of temporary notabilities. This is undoubtedly the true principle in a popular cyclopædia, including as it does the idea of perpetual renewal and change with years. In law the cyclopædia contains, more fully than in any other books not strictly professional, all the leading principles of municipal law, with clear explanations of the modes of proceeding in law and equity, and descriptions of the most important forms and written instruments, with a full treatise upon the principles of international law. In pathology and medicine, the aim has been to give such simple descriptions of the most frequently recurring diseases, and suggestions as to the means to be earliest resorted to to palliate their violence, as can be employed by a person of ordinary intelligence, without undertaking to supply the place of physician. In physics, chemistry and natural history, a larger space has been given in proportion than in other works of reference. Beside these special points, it may be mentioned that the cyclopædia is distinctively American in its extra fullness upon all topics relating to this country in which foreign cyclopædias are so meagre. It has become impossible that a cyclopædia should embrace the knowledge of all the world with equal particularity, and they will hereafter be compelled to confine themselves in a degree to special regions. The editors of Johnson's Cyclopædia have accepted this fact, and made it especially the book for the United States.

**Johnson's New Universal Cyclopædia:* A Scientific and Popular Treasury of Useful Knowledge. Illustrated with Maps, Plans and Engravings. A. Johnson & Son, Publishers, New York City. J. Reid, Jr., Canvasser for Portsmouth. Address P. O. Box 1111.

THE VICINITY.

The Strafford Guards of Dover are to be at once supplied with the new State uniform.

A woman named Ann Cassidy tried to drown herself in the river at Dover, on the 25th inst. She is insane.

The Boston & Lowell Railroad Co. pays a dividend of two per cent. July 1st. The Newmarket Manufacturing Co. pays a dividend of two per cent.

Miss Mary Lyon Dame, formerly of Exeter, a teacher in Honolulu, Sandwich islands, has been married to Hon. E. O. Hall, secretary of the king.

Walter S. Meader, of Gonic, was awarded the third of the Carpenter prizes for proficiency in elocution by the committee of Brown University last week.

There will be no split in the greenback party of York at the approaching election—our old friend Edward C. Moody has been nominated for the State Senate.

The *Greenback Lever*, "patent outside," Andrew J. Hoyt editor, printed at the Exeter *Gazette* office, made its first appearance June 26th. As its name implies, it is devoted to the principles of the greenback party—whatever those "principles" may be.

The depot at Epping was broken into on Tuesday night, 25th inst., probably by professional burglars, and the town safe blown open, but the rascals did not get anything for their labors. The store of J. S. James was also entered and his safe blown open. The burglars were probably frightened and made off as soon as Mr. James' safe had been opened and before they had time to examine its contents, for he does not miss anything.

The York County Greenback Convention, at Alfred, Me., June 25th, was attended by 156 delegates, every town in the county being represented. The following nominations were made: E. C. Moody of York, Luther Ayer of Newfield and N. P. Allen of Saco, Senators; R. M. Stevens of Biddeford, Sheriff; William Emery of Alfred, County Attorney; Edmund Goodwin of Shapleigh, County Commissioner: Charles O. Nute of Parsonsfield, Treasurer.

Mrs. Hannah Pickering, of Rochester, the medium whose "materialization" feats it is said were exposed at Lowell, Mass., recently, by a young man who caught her in his arms as she was personating an "Indian maiden," promises fully to redeem her claims to supernatural feats at a seance at Westford, Mass., right away. The credulous still confide in her. Meanwhile an ex-alderman of Lowell offers $500 for any test which he cannot expose if allowed to sit in the cabinet with her.

The Biddeford *Times* says: "During the showers of Saturday night quantities of a substance resembling sulphur was found deposited in some sections hereabouts. This same phenomenon has been noted at York's Corner this season. Under a microscope the particles resemble a bean with a hand across the middle. It is evidently the pollen from some flower." Biddeford and Concord must be very near the place to which democratic wire-pullers, men who don't pay for their papers, and other evil persons go when they die.

We are informed that a fishing schooner belonging to Kittery Point is in York river, well up, engaged in seining fish, using a net that sweeps the river from bank to bank, and that the fishermen have been licensed by the selectmen of York to do this on condition that they pay a royalty of five cents a barrel on the catch! Our informant says this is in direct contravention of the Maine game and fish law, and that he expects the selectmen of York will soon publish their tariff for permits to commit bigamy, burglary, etc. The fish taken by the river-sweepers include alewives, shad, bass, a few herring, and other varieties.

New Hampshire Items.

The business men of Providence in a quite numerously signed petition have asked the Rhode Island legislature, in view of the repeal of the National Bankrupt law to enact an insolvent law, and they deprecate any legislation tending to restore the old system of arrest and imprisonment for debt or to repeal the present laws for attachment of property on original writs. In most of the States where there are no insolvent laws, action has been had by the State legislatures to establish some proceedings for the relief of insolvent debtors. In our State if the legislature now in session makes no provision for these cases the old "grab law," as it is termed, will be in vogue, and the system of the gentleman in black taking the hindermost will again prevail in New Hampshire.

Frank J. Collins' house, at Guilford, was burned Tuesday morning. Loss, $3000; insurance, $2000.

Francis Murphy closed a series of temperance meetings at Keene on the evening of June 25th. Hundreds went away unable to gain admission to the hall.

A meeting of the Committee to determine upon the time of holding the Veterans' reunion was held at Weirs Landing, June 24th. They voted to hold the reunion at the place above mentioned on August 13th, 14th and 15th. Gen. Winfield S. Hancock will be invited to deliver an address and Martin S. Haynes of Lake Village a poem.

A. S. Palmer of New York has just closed a three weeks' temperance campaign in Great Falls. He works on the Murphy plan, and held meetings nightly. He induced upwards of 1300 to sign the pledge and wear the blue ribbon. He was paid by voluntary subscription. No such excitement in the temperance work is known in the history of the town. A Citizens' Temperance Union has been formed, and the work will continue.

Naval Affairs.

Capt. E. Y. McCauley has been detached from the Charlstown navy yard, and ordered to report for duty at the Naval Academy.

The practice steamer Mayflower left Annapolis, Md., June 24th, on the annual cruise, with the third and fourth classes of cadet engineers.

—Did you ever notice how surprised you were when you put your foot on the next stair and found there wasn't any.

—An Indiana boy of fifteen has just returned from a two years' tramp at the South, stimulated by reading dime novels. At New Orleans he took a fever, at Galveston, Texas, he had an arm broken, and at Houston two of his ribs were injured as he was pushed from a freight train. He was wounded by a pistol ball while driving a herd of cattle, and has been beaten until life was nearly extinct. In order to keep from starving he has sold papers, blacked boots, worked in a livery stable, theatre and restaurant, cut timber and herded cattle. He has had sufficient "experience," and now wants to stay at home.

MARRIAGES.

TUTTLE—WILSON. In this city, June 25th, by Rev. E. Owen, Mr. Frank E. Tuttle and Miss Priscilla J. Wilson.

DEATHS.

SPINNEY. In Eliot, June 21st, Edwin W. Spinney, aged 20 years, 3 months and 13 days.

GAZETTE

Established 1756.

The Gazette is published every Thursday, and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

The Dangers of Boat-Sailing.

It is very difficult to convince any one not initiated of the care required in sailing a boat. Those who know it thoroughly do not need to be cautioned, while those who are ignorant of it are so sure they know all about it that experience, often a sad one, is the only teacher from whom they will learn. Now, to a boat-sailor, nothing is quite so inept, so almost beneath contempt, as the gross ignorance with which your genuine landsman regards and handles a sail-boat. It is impossible to make the ignorant realize what a fund of knowledge of winds, tides and currents, the peculiarities of naval construction, the management of sails and the working out of problems in sudden and unforeseen contingencies enter into the sailing of a boat, not to speak of a full-rigged ship. Now, this ignorance is simply entertaining when observed in a safe place, but it becomes most serious and alarming when a person entirely ignorant of boat craft undertakes to risk his life on the water in the sole management of a sail-boat. But when such a person goes further and assumes the responsibility of taking in charge of his ignorance the lives of others, perhaps his own children, then his carelessness should render him liable to a criminal charge. People should be made to understand that such trifling with life is in the highest degree culpable. Landsmen, however intelligent in other matters, who may wish to go boating, should trust themselves to cautious and experienced mariners, leaving the question of daring to them, and very carefully avoiding to assume the responsibility of life in a matter of which one can hardly know too much. Of the other occasion for boating accidents—drunkenness—little need be said, as it should be everywhere avoided.—*Exchange.*

INVALIDS' HOTEL.
The very large number of invalid people who daily visit Buffalo, from every quarter of the United States and Canada, that they may consult Dr. R. V. Pierce, and the widely celebrated Faculty of Specialists in Medicine and Surgery associated with him, rendered it necessary that the founder of this institution should provide a place on a grand and commodious scale for their entertainment and comfort.
ADVANTAGES OFFERED.—The Invalids' Hotel is more complete in its appointments than any similar institution in the world. The building is located in one of the most beautiful and desirable portions of the City of Buffalo, and commands a fine view of Lake Erie, Niagara River, and the surrounding country, being situated in the midst of an extensive system of beautiful parks. The Hotel is furnished with a patent safety passenger elevator, to convey patients to and from the different floors; is provided with all kinds of approved baths, and has also connected with it a well-appointed gymnasium and bowling alley to afford proper means of exercise.
CHRONIC DISEASES of all forms, whether requiring medical, surgical, or mechanical treatment, come within the province of our several specialties.
DISEASES OF WOMEN.—Especially are the facilities of this infirmary of a superior order as regards the remedial means and appliances for the cure of all those chronic diseases peculiar to females. The employment, in moderation, of tonic, chemical, electro-thermal, and other approved baths, is in many cases an invaluable auxiliary to the remedial means to which we resort in such cases. Dry friction to the surface, general shampooing, Swedish movements, and light calisthenic exercises, to enliven and equalize the circulation of the blood in the system, relieve congested parts, improve digestion, and strengthen the muscles, produce important beneficial results in all cases to which these means are applicable. No experimenting is resorted to in the treatment. The most approved medicines are carefully employed, and the judicious regulation of the diet, to suit the condition of the patient, the thorough ventilation of the sleeping apartments, the cheering influence of music, social intercourse, innocent games for amusement, and all those agencies which tend to arouse the mind of the patient from despondency, and thus promote recovery, are not neglected.
NERVOUS DISEASES.—Paralysis, Epilepsy (Fits), Chorea (St. Vitus's Dance), and other nervous affections, receive the attention of an expert in this specialty, by which the greatest skill is attained and the most happy results secured.
LUNG DISEASES.—This division of the practice in the Invalids' Hotel is very ably managed by a gentleman whose *judgment* and *skill* Bronchial, Throat, and Lung Diseases are very largely treated in this department, and with results which have been highly gratifying to both physician and patients.
EYE AND EAR.—Special attention is given to the delicate operations on the eye and ear, a distinguished oculist and aurist being under engagement to conduct this branch of the practice.
Invalids arriving in the city and desiring to consult a specialist can go directly to the Hotel. It is easily accessible by carriage, omnibus, or street cars. Mr. LEWIS (familiar to all incoming trains) can be relied upon to deliver passengers and baggage with security and dispatch.
☞ Address R. V. PIERCE, M. D., World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $60 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once.
H. HALLETT & Co., Portland, Maine. 6tjy28 78

DR. JOHN TRIPP'S
BLOOD PURIFIER
IS the most wonderful discovery for the radical cure of SYPHILIS and SCROFULA. It never fails to entirely eradicate either of these diseases and all Blood Poison from the system. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.
Sole Eastern Agency, 306 Columbus ave., Boston, Mass. Office hours, 8 to 11, A. M., 3 to 7 P. M. Send for pamphlet. Cure in all cases of Syphilis in either stage guaranteed. codtje79

PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and roadbed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. Uebo20 79

DOCTOR PIERCE'S
ALTERATIVE
Golden Medical Discovery

CURES DISEASES OF THE
THROAT, LUNGS, LIVER & BLOOD.
In the wonderful medicine to which the afflicted are always directed for relief, the Alterative properties he has combined in *harmony* more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or **"Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.
SOLD BY DRUGGISTS AT $1 PER BOTTLE.
Prepared by R. V. PIERCE, M. D., Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y.

PRATT'S
Astral Oil!
THE SAFEST AND BEST
ILLUMINATING OIL!
☞ *For Safety and for Excellent Burning Qualities, it is without an equal.*
CAUTION.
☞ The great popularity of "ASTRAL" OIL has induced some unprincipled persons to sell worthless and dangerous imitations for "ASTRAL," while others palm off inferior oils, representing them as good as "ASTRAL." To prevent this fraud, purchasers should demand "ASTRAL" and take no other.
The Genuine Article is sold by
JOHN P. SWEETSER,
46 Market Street, Portsmouth.

NEW FOUR PER CENT
GOVERNMENT BONDS.
The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.
The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.
The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.
Orders by mail will receive prompt attention.

MANUFACTURED BY ARTHUR BROWN & CO., Fisherville, N. H.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. *Glenn's Sulphur Soap* produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts.* It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes) 60c. and $1.20.

N.B.—Sent by Mail, Prepaid, on receipt of price, and 5 cents extra for each Cake.

"HILL'S HAIR AND WHISKER DYE,"

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all snuffs are insoluble compounds of woody fibre; all tincture, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing, and purifying the secretions. Internally administered it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus it cures progressive in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen,—About twelve years ago, while traveling with Father Kemp's Old Folks Concert Troupe as a tenor singer, I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack was the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours,
GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1878.

I have purchased the RADICAL CURE OF GEO. H. ROGERS, Druggist, Hanford Building.

Each package contains Dr Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

COLLINS' Plasters have now been before the public for two years, and, notwithstanding the immense number of remedies in the form of Plasters, Salves, etc., put forward as Porous plasters, they have steadily increased in sale and met with universal approval, as testified to by wholesale and retail Druggists in all parts of the United States, copies of which will be sent free of charge to anyone desiring them. Imitations abound in many ways, have been made, as suggested by experience and use, until it is believed that they are not perfect in any respect, and *the best plaster in the world of medicine.* All we ask from every sufferer is the loan of a single trial. The price is 25 cents, although the cost is double that of any other plaster. But, notwithstanding the efforts of the proprietors to make the best plaster in the world for the least money, any similar remedy can be bought, numbers of unprincipled dealers will be found ready to misrepresent them *for selfish reasons* and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

C. E. MYERS & CO.,

No. 3 BOW STREET.

Daily Chronicle.

Kate Sothern.

We give in this paper the evidence elicited in the much-talked-of trial of Kate Sothern. It differs as much as light and darkness from the sensational accounts we have been reading in certain correspondence. There is nothing in the scenes, the surroundings, nor the incidents to glean a tithe of romance. The whole was a fight between two women, while the gallant Bob Sothern and the rest looked on. They were all very ignorant people. Kate and her sister both centred on "Sis" Cowart. There is no evidence that the men present tried to part the combatants, nor does there appear to have been such a scene as the sentimental writers picture of Bob, with pistol in hand, forcing Kate's way through a crowd. All that was the imagination of a fancy sketcher. Kate Sothern is not pretty even. She is of medium height, about twenty years of age, and has dark brown hair, and the twang of a North Georgia cracker. She is very ignorant, can hardly read and write, and Bob is worse educated than she. Kate is passably good looking, and wears imitation jet. She says the witnesses swore lies against her; that she acted in self-defence; that she cannot dance, and that night at her father's was the "fust time she ever seed a reel run." She is now on the plantation of Col. Smith, in Washington county, and will be employed in the household, cooking and washing for the convicts who work on the plantation. The six month "baby" is sick—teething—and that now requires most of her time. She says no money has been sent her from the North. Her health is bad.

Her sixteen-years-old sister, sentenced to two years as an accessory to Kate's crime, has been in Col. Smith's house as a servant. She is handsome, and has been taught to read and write by her kind mistress. On her father's farm she worked in the field and drove an ox to the plough. Her sentence has proved a blessing. Bob Sothern is nothing but a strong, good-looking animal—a common, ignorant boor. He is now a guard to convicts on the same plantation. The woman Kate killed was on a par with the rest. On reading this evidence one feels utterly disgusted with the amount of sentimental twaddle that has been expended on the case. Not a scintilla can be obtained to excite a single expression of admiration. Why, the parties surrendered themselves to get the reward, and the understanding was that Kate's mother was to get fifty dollars of the money! Where even a fertile fancy could extract anything of a romance from an atrocious crime we cannot imagine.

☞ We do not believe there is a single woman, no matter how warm and sympathetic her heart may be, who, after reading this sworn testimony, will sign a petition for Kate Sothern's pardon. Gov. Colquitt did right. He weighed the evidence carefully and displayed both justice and humanity in his decision. A crime has been committed, a woman killed another in her father's house, after she had been received kindly by her parents—and then to demand of the authorities that she shall go free is preposterous. If such an act were pardoned, the doing so would be a mockery of law. Crime already has too much license because the statutes are not enforced.—*Columbus (Ga.) Enquirer.*

Portsmouth Chronicle

FRIDAY, JUNE 28, 1878.

"The Lovely Mrs. Jenks."

How easy it would have been for Sherman to emphatically deny having written that famous letter, if safe to do so. Had he done that the story of the lovely Mrs. Jenks would have afforded republican campaigners some show of a foundation for defence of their eminent Secretary. To call such a witness to establish his innocence while he stood mute leaves both in the mire.—*Boston Post.*

Yes; but then she was not called to establish his innocence at all. She was called by the Potter-Tilden democratic fraud committee to establish his guilt, by supporting that champion swift witness of the democrats, Night Editor Anderson. The shamelessly partisan potterers have steadily refused to call any of the witnesses named by Secretary Sherman, and have taken good care not to summon the well-known democrats whom Judge Levisee swore tried to buy his vote in the Louisiana Electoral College for Tilden. Just so Springer, chairman of the Florida sub-committee, refused to summon the witnesses asked for by Mr. Hiscock, the republican member of the sub-committee. McLin, Anderson and Mrs. Jenks are all witnesses for the prosecution; and it does not "mire" the fatsely accused republican officials very deeply to have the prosecution's witnesses upset and disprove the prosecution's case, in spite of the refusal of the inquisitors to call witnesses against their side.

New Hampshire Legislature.

In the House, Wednesday forenoon, a remonstrance against the law to prevent pool-selling was read and referred. Also a bill authorizing the Secretary of the State to advertise for proposals for doing the State printing for five years, and to amend the liquor law. The bill to incorporate the Whitefield & Jefferson Railroad was favorably reported upon, and it was passed in the afternoon, as was the act to incorporate the New Hampshire Baptist Ministers' Conference. The election case of ward two, Concord, came up, and after discussion the majority report of the elections committee, that Campbell, the democratic sitting member, was not entitled to the seat, was passed.

The republican legislators held a caucus in the evening, at which it was determined to support the bill in favor of holding the annual town elections in March, as heretofore. The sense of the caucus was taken in regard to the presentation of an address for the removal of Timothy Crowley of Nashua, Register of Probate of Hillsboro' county, which resulted in favor of his removal.

Chronicle Correspondence.

CONCORD, June 27th.

A caucus of the republican members of the Legislature was held in Rumford Hall last night to consider matters of importance to the State and the republican party. It was voted that the sense of the caucus was to have three supervisors chosen biennially in all the towns of the State at the election of State officers, to hold their positions for two years. Their duty shall be to have exclusive charge of the check lists and all matter pertaining to the same, such as the selectmen now have. It was voted to present a bill, the object of which shall be to have an annual town meeting in March for the purpose of transacting town business and election of town officers. The County officers are to be chosen in November biennially.

The event of the session thus far has been the report of the election committee upon the case of Henry F. Campbell of ward two of Concord. The House considered the report yesterday. The discussion of the report occupied the greater portion of the day. Speeches in favor of the sitting member were made by Rolles of Ossipee, Mr. Campbell himself, Batchellor of Littleton, and Sinclair of Bethlehem; and the following spoke against his right: Goodell of Antrim, McCutchins of New London, Dodge of Manchester and Stevens of Nashua. At first it seemed as though it would be no party affair, but the speech of Sinclair shew that it was thoroughly a party matter, and when the yeas and nays were called the democrats voted solidly in favor of the sitting member and eleven republicans voted with them, but the minority report was rejected by a vote of 173 to 155, and the majority report was then adopted without a division and the only democrat in the Concord delegation was sent home.

An attempt was made yesterday to adjourn over the week of 4th of July, so as to prevent a broken week and to give committees undivided time in which to work, and thus to further the matters before them, but it was defeated.

A curious bill was introduced yesterday. It was in relation to trespass of hens. The bill provides that a person after he has been notified once of the trespass of his hens, if they trespass a second time is liable to a fine of ten dollars.

The B., C. & M., and P. & O. Railroads having reconciled their differences, the bill for the completion of the section of the P. & O. Railroad in this State that was asked, was passed yesterday without any opposition.

Railroad men are in abundance about here just now, as the committee on railroads are busy day and night giving interested parties hearings in regard to matters connected with the taxation of railroads. It is impossible to predict what action will be taken in regard to this matter.

Quite a number of petitions have been presented asking for further legislation in regard to hawkers and peddlers.

A. B.

The Buzzell Murder Case.

The jury in the Buzzell murder case left Ossipee Wednesday morning to visit the place of the murder, accompanied by the Court, counsel, officers and reporters; also the prisoner, and Cook, the confessor. The Hanson dwelling is a small, old house a few feet from the highway. Miss Hanson was sitting near the centre of the kitchen at the table when killed at about 7:10 on the evening of November 2d, 1874, leaning her head on her arm, with her right side toward the window through which the gun was fired. The wall opposite the window was scattered with shot and chunks of lead. The court party passed over the road from Wolfeboro' bridge, where Buzzell left his work for home on the evening of November 2d at about 5:30, and over the same route, being an unusual route for Buzzell, the defence claiming that the road was too hilly and rough to permit him to get home, seven miles distant, thence to the place of the murder, two miles further, in time to do the deed. Buzzell's place was visited, and there, for the first time since his arrest, he met his mother, an aged lady of 81 years, and also a sister and niece. Cook pointed out where he climbed out of the window at Buzzell's house, his and the prisoner's path across the fields, the old elm where he hid the gun and where the prisoner tied his horse, and the trail by which they approached the dwelling of the victim. The party returned to Ossipee in the evening.

News and Notes.

Boatswain Charles E. Hawkins is detached from the Naval Academy and ordered to the U. S. S. Constellation.

The Massachusetts pool gamblers are determined to exhaust every means to evade the law. At Beacon Park, on Wednesday, they sold cheap pictures of horses at high prices by auction, and in the evening bought back the winning names. They boasted that in this way they could dodge the law, but the Boston city authorities on Thursday quietly revoked "for cause" the licenses of the picture-selling auctioneers, and the State authorities are looking up matters with a view to criminal prosecutions.

Under the provisions of the army appropriation bill quite a number of changes will be made in army headquarters. Gen. Hancock will probably transfer his headquarters from New York to Governor's Island, and the recruiting-station now there will be removed to Smith's Island, in the East River. Altogether the changes required by the new law will in the end cost much more than the present system.

Henry A. Parr, who arrived in Boston June 24th on the boat from St. John, N. B., has been arrested by United States officers on a warrant for murder committed on board steamer Chesapeake while on the passage from New York to Portland, December 5th, 1863. Parr was one of seventeen passengers who took possession of the vessel in the name of the Confederate States of America, murdering the second engineer and throwing the body overboard.

Simultaneously with the sudden disappearance of George M. Prout, a hitherto much respected Branford, Conn., business man, a number of forgeries committed by him for various amounts have been discovered.

Minister Turner is in New York from Liberia and says that the scheme of colonizing Liberia with negroes from the Southern States is one of the greatest frauds of this century.

Hon. Nathan Clifford, Justice of the Supreme Court of the United States, went to Cambridge on commencement-day and returned a Doctor of Laws.

The fight between United States troops under Col. Bernard, and hostile Indians, at Curry Creek, Idaho, was a warm affair, the troops being the attacking party; forty Indians were killed, and the others retreated. The Indians are reported as commencing hostilities in the vicinity of Deadwood. Chief Moses, in Oregon, is assuming a threatening attitude; he has 1500 warriors with him, and in case of war would be reinforced by 4000 or 5000 reservation Indians, who sympathize with him. Chief Ten Days and his band have killed a number of settlers in Montana.

All the women boarders left at Hilton's Women's Hotel, now called the Park Hotel, will have to pay full rates of $3 per day instead of $7 per week. They will all leave on Saturday.

The whipping-post is re-established under the new code in Virginia, on and after the 1st of July. One or more of these evidences of modern civilization will be erected in each city, town, and county in the State. The excuse for its re-establishment is the economy of public whipping as a punishment for petty crimes, which it is argued will save the State thousands of dollars that would otherwise be expended in the support and safe-keeping of prisoners in the jails and penitentiaries. With a good old-fashioned apprentice system, and laws providing that convicts may be "hired out" to the highest bidder, this revival of the whipping-post would put Virginia in position never to forget the "cherished relics" of slavery.

New Orleans is experiencing some trouble, growing out of some old proceedings against the city by Mrs. Gaines. The good lady obtained a judgment against the city some years ago for $125,265, and was about to sell the whole municipality for what it would bring, when certain citizens signed a bond of the city, and the sale was postponed. A few days ago the judgment was enforced against the securities, and now they go to the United States court for redress. On Wednesday Judge Billings ordered the bondsmen, Sam Smith, C. H. Slocum, C. H. Howard, and Hugh McCluskey, to be subrogated to the rights of the judgment creditor, and ordered execution to issue against the city to satisfy this claim.

Political.

The Republican State Convention of Illinois on Wednesday nominated Gen. J. C. Smith for State Treasurer. The platform was republican, the closing resolution being, "That those who preserved the country should govern it, instead of those who attempted to destroy it."

The Democratic State Convention of Ohio met Wednesday, and nominated David R. Paige for Secretary of State, A. F. Hume for Supreme Judge, and Rush Field for member of the Board of Public Works. The platform declares the decision of the 44th Congress final as to President Hayes' title, and endorses the "investigation" whose avowed object, according to its promoters, was the annulling of that title with or without the sanction of law. It demands the repeal of the resumption act, the unlimited coinage of silver, the abolition of National banks, and no further sale of bonds to procure gold for resumption—in fact, it is a good greenback platform except that it does not demand that the greenbacks shall be absolutely worthless. The other resolutions contain many words, but say nothing in particular.

As a result of democratic "economy" in the postal service, the department finds itself obliged to reduce the railway mail service on most lines. This will be a great inconvenience to all business interests of the country.

The Associated Press explains that the alleged accusations against ex-Secretary Robeson, by the naval committee, never emanated from that committee at all; and that the present democratic Congress, after carefully examining the disputed bills contracted by Mr. Robeson, has ordered them paid in full. The friends of the ex-Secretary are right enough in claiming that, so far as it goes, this must be taken as a vindication, extorted from the most unfriendly of tribunals. It is about time there were an end to this perpetual snarling at Mr. Robeson. We did not think well of his administration, and when he was in power we took occasion to say so, frankly and often. But it is only just to remember that he has now been investigated *ad nauseam*, and that every effort to prove criminality against him has completely failed. It is time, therefore, that his enemies should either shut up or prove their charges. Until something like proof is produced, his vindication by this democratic Congress must be accepted as complete.—*N. Y. Tribune.*

ISLES OF SHOALS

APPLEDORE and OCEANIC HOTELS.

STEAM YACHT "APPLEDORE," Capt. Albert Rand, leaves Steamboat Wharf at 11 A. M. and 6 P. M.

LAIGHTON BROS. & CO.

To the Hon. Judge of Probate for the County of Rockingham:

RESPECTFULLY shows FRANCES M. PERKINS of Boston, admx. of the Estate of SAMUEL C. PERKINS, late of said Boston, deceased. That her sister, M. E. P. EMERY, died and by her last will appointed (with another who declined it) said SAMUEL C. PERKINS a Trustee under her said will and devised and bequeathed unto said SAMUEL certain Estate to hold in trust for LULU EMERY, an infant daughter of said M. E. P. EMERY. That since the death of said SAMUEL, said Trusteeship has become and is, vacant. That your petitioner is an aunt and one of the nearest relatives of said LULU, whose father is deceased. That as administratrix she is desirous of delivering to a legally appointed Trustee, all and singular the trust fund, investments, moneys and estate belonging to the *Cestui que trust.* Wherefore she prays that WASHINGTON FREEMAN, an uncle by marriage of said LULU, be appointed Trustee under said will of said M. E. P. EMERY, or such other person be appointed as shall be deemed suitable.

FRANCES M. PERKINS.

June 6th, 1878.

ROCKINGHAM, SS.

Probate Court at Exeter in said County on the 12th day of June, A. D. 1878.

Upon the foregoing Petition it is ordered that a hearing be had thereon at a Court of Probate to be holden at Portsmouth in said County, on the second Tuesday of July next, at ten o'clock A. M.; and that the Petitioner notify said LULU EMERY and all persons concerned or interested therein to appear at said Court, and show cause, if any they have, why the prayer of said petition should not be granted, by causing said petition and this order to be published three weeks successively in the Portsmouth Daily Chronicle, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least one week prior to said Court.

By order of the Judge.

WOODBURY M. DURGIN, Register of Probate.

14-21-28

A Secretion that Contaminates the Blood.

When the bile is diverted from its proper channels, into the blood, which is always the case in liver complaints, it ceases to be a healthy secretion, and becomes a poison. Its abnormal presence in the circulation and stomach is indicated by the suffusion of the skin with a hideous saffron tinge, by headaches, vertigo, nausea, pain in the right side and under the right shoulder blade, by indigestion, obstruction of the bowels, and other minor symptoms. Mercury may be substituted for this state of chaos, and further bodily evil averted by using the benevolent alternative and tonic, Hostetter's Stomach Bitters, which, by relaxing the bowels, promotes the escape from the circulation of bilious impurities; healthes rendering the action of the liver regular, and removing every trace of dyspepsia. This pleasant and purely vegetable anti-bilious medicine is not only infinitely more effective than any form of mercury, but is on account of its freedom from hurtful properties, infinitely to be preferred to that poisonous drug.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East Indian missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. Sent by mail, by addressing with stamp, naming this paper, W. W. Sherar, 149 Powers Block, Rochester, New York. tjy18

Are you going behind in business? Send for the *Weekly Financial Report* of Alex. Frothingham & Co., brokers, 12 Wall st., N.Y., which is sent free and contains information how, by investing $50 to $100 in stock operations, $1000 is frequently made. 2

The Colonnade Hotel, Philadelphia, Pa., exhibits the secret of its great popularity and success by wisely maintaining its old standard of excellence since its reduction of rates.

Few are aware of the importance of checking a common cold or cough in its first stages, before it has an opportunity to work upon the lungs to such an extent as to produce serious results. The best remedy for this checking, healing and curing that we know of is *Adamson's Botanic Cough Balsam.* Price 25 and 75 cts.

Beautiful Helen no doubt had a fine complexion, but it is more than doubtful whether it exceeded in purity the complexions of the ladies who use that inimitable auxiliary of female loveliness, GLENN'S SULPHUR SOAP. Sold by all Druggists. HILL'S HAIR & WHISKER DYE, Black or Brown, 50 cents. tjy21

A General Rebellion.

TRIUMPH OF A GREAT DISCOVERY!

The public has *rebelled* against *cauterizing Hair Dyes.* Fashion has foresworn them. A sagacious community has adopted in their stead,

CRISTADORO'S HAIR DYE,

and for *these reasons:* It embrowns and blackens the *hair*, not the *skin.* It is a *vegetable emollient*, not a *burning fluid.* It does not burlesque nature with *blooming metallic tinges*, but produces her own *living hues.* Its cooling effect is *lasting.* It *defies detection.* Its results are *uniform.* It *never fails.* Manufactured by J. CRISTADORO, No. 68 William St., New York. Sold by all Druggists. Applied by all Hair Dressers. tjy15

Situation Wanted.

BY a capable person to do general housework. Apply at No. 50 Deer Street; Or P. O. Box 503.

Eastern Railroad in New Hampshire.

THE ANNUAL MEETING of the Stockholders of the Eastern Railroad in New Hampshire will be held at the Music Hall, on Chestnut street, in Portsmouth, N. H., on Tuesday, the ninth day of July next, at ten o'clock in the forenoon, for the following purposes:

I. To receive the Annual Report of the Directors.

II. To see if the Corporation will accept an Act, passed by the Legislature of New Hampshire at its session in 1878, amending the charter of this Corporation.

III. To elect a Board of Directors for the ensuing year.

IV. To transact any other business which may legally come before the meeting.

WILLIAM H. HACKETT, Clerk.

THE CITY.

Manning Kennard Rand received the degree of Doctor of Dental Medicine at Harvard College commencement on Wednesday.

A new specimen was caught in the weirs on Wednesday. It weighed about one hundred and fifty pounds, and is known by some as the Hunnefield variety.

Department Commander C. J. Richards and suite, of the Grand Army, will reorganize Storer Encampment this evening at eight o'clock at upper Franklin Hall.

The graduating class of the Portsmouth High School go to Dover to-day to witness the graduating exercises of the Dover High School, and take part in a reception in the evening.

The Good Templars had a picnic at Wallis' Sands, and the Catholics one at Pickham's Grove, Dover Point, Thursday. It was a splendid day for picnics, and both those mentioned were well attended.

The Lady of Lyons was finely played to a large audience, Thursday evening, the audience expressing their appreciation by calling Mrs. Barry and Messrs. Barron and Allen before the curtain several times.

The schooner Cocheco was successfully launched at about half-past ten o'clock Thursday forenoon. The Clara Batemen took her in tow and ran her alongside of Pier wharf, where she is now moored. She sits the water like a duck.

Much interest is manifested about town concerning the grand entertainment to be given at Music Hall on Friday evening, July 5th, by Mrs. Susie F. Marcy, the Nowell Brothers, Harlow's Orchestra, Miss Carroll of Newburyport, the young lady whose readings at the Middle street church festival not long ago were so well received, and Messrs. Newell and Butler. The biggest audience of the season will greet this combination, for independently of the other attractions all hands will want to hear Mrs. Marcy, to judge for themselves whether or no the praises bestowed upon her as a vocalist by the papers of Washington and other cities for a year past were extravagant, and whether the training of Madame Rudersdorf and other eminent musicians sufficed to improve the singer of whom Portsmouth was so proud before she went under their tuition. There'll be a grand gathering of the public at that concert.

THE COMMON COUNCIL.

The CHRONICLE, among others, says, do away with the Common Council, as a useless appendage to the City Government, and have a paid Board of Aldermen. But in the interests of the people, and good and direct government, we say no; sooner give the "lower house" more power. Paying the Aldermen directly would not tend to secure better men, or make them more "responsible," but we think rather the opposite.—*Weekly.*

The *Weekly* is mistaken as to our advocating a paid Board of Aldermen; we simply advocated the abolition of the Common Council, and we are quite willing to accept the *Weekly's* amendment, to give the "lower house" more power—or, rather, *some* power, for it has absolutely none at present. We wish the Common Council, now but a cloak for Aldermanic blunders and malfeasances, to be something either more or less; we would prefer to see it vested with real power as a co-ordinate branch of the city government, so that it could effectually aid the other Board in the prosecution of approved measures, and act as a check upon it when its action was disapproved; but the Board of Aldermen has so long enjoyed absolute power with divided responsibility that we do not suppose it will readily yield up any of its privileges, and rather than the Common Council should longer occupy its present ridiculous position we would prefer to see it treated as the greenback repudiationist Bland wants to treat the National debt—wipe it out as with a sponge. As the matter is now, the Common Council may vote unanimously against any given expenditure, and the Aldermen can go ahead and make it, and the Council can only growl—and bear their share of the blame if the taxpayers are dissatisfied. The status of the Common Council needs a decided alteration, one way or the other,—either more power or less Council.

THE VICINITY.

In an address before the York county greenback convention, John M. Todd said he believed that "Christ had come again and was displaying his power in the greenback movement."

The Advent camp-meeting in Beckman's grove, near the depot in Seabrook, commences Saturday, June 29th, to continue nine days, the closing service being set for Sunday night, July 7th.

The Maine Baptist Convention met in Biddeford on Monday. The sittings of the convention, with the meetings of the charitable, missionary, educational and other auxiliary societies of the denomination, filled up the time till Thursday evening, when the convention dissolved.

Mr. John F. Plaisted of Cape Neddick brought into our market on Thursday the first blueberries of the season. This is a week or ten days earlier than last year, and with one exception earlier than any season for the last twelve years. Mr. Plaisted reports that the prospect is for a large crop of these berries.

In the severe blow of Saturday evening, 22d inst., a large part of the "great elm" on the Rollins place in Newington was thrown down. This tree has an age beyond the recollection of the oldest inhabitant, having been a good-sized tree when Newington was settled. The tree fell toward the Portsmouth & Dover Railroad track, and its fall harmed only itself.

A Hampton correspondent of the *News-Letter* complains that farmers who lose any of their sheep by the depredations of dogs, always demand and receive the highest price allowed (five dollars) whether the animal lost was so valuable as that or a mere scrub. Furthermore, he has "known instances where sheep have been carried and hauled into the woods, when the owners knew very well that they should never see them again. A man last fall took up sixty stray sheep with his own. He posted notices and still no one claimed them, for the owners knew they were well insured and it was better to let them go for five dollars a head than to winter them." He believes that the town has paid hundreds of dollars for sheep that were never touched by dogs.

YORK COUNTY GREENBACKERS.

The York county greenbackers had two clergymen in their convention at Alfred this week — Rev. Mr. Hanscom, who opened the circus with prayer, and Rev. D. A. Maddox, who "made a speech full of happy hits." It is fair to infer that these clergymen are opposed to the old plan of redemption.

Kittery sent two delegates, York and Wells seven each, Eliot five, Kennebunk nine, Kennebunkport six, North Berwick six, South Berwick three, Saco twelve, and Biddeford twenty-two. In the list of the county committee we find the names of Stephen E. Grant of York, John Goodhue of Kittery, Joseph G. Strong of Wells, and Orren Kimball of Kennebunk. The convention adopted the platform and resolutions of the Lewiston convention, and also the following:

Whereas, The official managers of our public offices have for many years past carried the elections by the use of money, and for their personal profit and aggrandizement; therefore,

Resolved, That the national greenback party, in this county of York, will make no use of money to carry the election in this county, and will prosecute to the extent of the law any person or persons who may use money to buy votes.

This declaration against the use of money may not say exactly what the greenbackers meant it should; what it does say is, that the greenback party of York county will not use money to buy votes, not because such action is wrong but because other parties have done it. Even this assurance that the greenbackers are not as other politicians, publicans and sinners, is gratifying; but the fact that on the ballot for County Attorney there were fifteen more votes than delegates, shows that some of the world's people succeeded in smuggling themselves in among the saints.

Mr. Moody, of York, whose adherence to the party for at least a year has been assured by his nomination for State Senator, took quite an active part in the convention; we notice that it was "on motion of E. C. Moody of York" that certain gentlemen were appointed secretaries of the convention, that "on motion of E. C. Moody of York" the chair appointed a committee on resolutions, and that "on motion of Mr. Moody" various other things were done; "Ed" fairly earned all the honors he will gain from his nomination.

CORNERED.

A test seance was given on the evening of Wednesday, June 26th, at the residence of Marcellus H. Fletcher, of Lowell, Mass., by Mrs. Hannah Pickering of Rochester, this State. It was at her solicitation, as she desired to redeem herself from the alleged discovery of trickery in Lowell, at the house of a Mr. Goward, on the previous Saturday night. She was thoroughly examined by two ladies before going into the cabinet, and was then confined therein by a mosquito netting, nailed to the walls and floor. Several forms appeared, great satisfaction being given to the spectators who were Spiritualists, for over two hours. Finally she called for a light, when it was discovered that several tacks had been drawn from the netting, making a hole large enough to let her out. Pretending to be faint she called her husband, fell on his bosom, and slyly tucked a large amount of white tarleton under his vest, which he endeavored to conceal. Policeman Harris of Lowell saw this, and at once drew it forth, demanding what it meant, when Pickering acknowledged, "in the presence of all, that it was "a damned fraud." A committee of ladies again examined the medium, found her underclothing arranged differently from before, and a silk moustache, with pins, in one of her stockings. She exonerated her husband and Miss Moserve, her pianist, from all knowledge of her guilt. She said she found that she had mysterious power some years ago, which she was tempted to help along by her own tricks. She said that she was as genuine as any medium in the country, but, in her opinion, such a thing a spirit communication with mortals is impossible. She has been married for fifteen years. Mr. Fletcher, who is a manufacturer of Lowell, felt deeply indignant at the duplicity practised on him, bade the cheats to refund all the money taken while with him, and to leave the house. The exposure was complete. Several masks, some of them of fine texture and construction, an Indian tunic and other articles of clothing worn by Mrs. Pickering, and which were torn up and put in the chimney at Mr. Goward's residence after her last seance there, have been found.

New Hampshire Items.

Frank W. Cheney, of Claremont, conductor of a night coal train, was killed on Wednesday night near Wilmington, Mass., by falling off while the cars were in motion.

Warren W. Young, an itinerant preacher on temperance and religion, was arrested in Nashua on the 26th inst., for stealing money from Almira Jewell, and was held in $300.

A meeting of the Board of Directors of the State Agricultural Society was held in Concord on the evening of the 26th inst. The premium lists and committees for the next annual fair were arranged, and resolutions were passed on the death of the late Col. Ezra D. Glidden of Unity, a former president of the board.

New Rules for Law Students.

The Supreme Court has made the following additional rules, taking effect July 1, 1878:

"Any person desiring to be admitted to practice as an Attorney, shall, at least fourteen days before an adjourned Law Term, file with the Clerk of the Court of the County wherein he resides, a petition stating his age, residence, term of study and with whom; also, certificates of study and moral character, as now required by the rules, and if such certificates are found sufficient, he shall be examined at such adjourned term by the Court or a Committee of the Bar, specially appointed by the Court for that purpose, and if found qualified, shall then be admitted, and no person shall be admitted except as aforesaid; provided however, that any person regularly admitted an Attorney of any Court of any other State, may without such examination, be admitted here, upon furnishing satisfactory evidence of his admission as aforesaid, and that he has practiced as an Attorney of such Court one year at least."

"Any person proposing to study law with the view of afterwards applying for admission in this State, shall within fourteen days after he commences such study, file with the Clerk of the Court of the County wherein he proposes to study, a notice stating that he has commenced the study of the law, with whom, and when, also a certificate of the Attorney with whom he is studying, stating that fact, and when such time of study began; provided however, that any person now pursuing the study of the law, may file such notice and certificate within fourteen days after this rule takes effect.

—Among the Zulus, a nation of the Caffres, according to etiquette, the mother-in-law cannot see the son-in-law, but must hide, or pretend to hide, when she sees him. In this country the custom is reversed. It is the son-in-law who does the dodging.—*Breakfast Table.*

—A sharp little girl in Chicago got out of patience with her lover's backwardness, and so brought matters to a favorable climax by saying to him, "I really believe you are afraid to ask me to marry you, for you know I would say yes."

—Boat races this month. June is the month of rowses.—*Graphic.*

THE NEW HAMPSHIRE

GAZETTE

Established 1756.

The Gazette is published every Thursday, and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains **full accounts** of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of **NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news,** containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a **WEEKLY INVITATION TO CUSTOMERS,** at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

—An exchange says: "Over practice on the horizontal bar caused the death of a youth in Pulaski, N. Y." It is a notorious fact that over practice at the horizontal bar has caused the death of millions.

—They had been married a few weeks, and she had invited her mother to come and spend a few days with them, and see how nicely they got along housekeeping; and she told her husband to be as bright and clever and funny as possible, and let her mother see him at his best. And when tea was served and the old lady asked him if he would take some peaches, he replied, briskly, "With pleasure, as the man said wen he was invited to attend his mother-in-law's fuueral."

—A Cass farm citizen was aroused from his midnight slumbers the other night by the tread of feet on the grass under his window, and he softly raised the sash to behold three men on the lawn. "Fellows! have you come here with your fiddles and sore throats to serenade my daughters and give me another year's sickness?" demanded the citizen. "No, sir; we came to steal your garden hose," meekly replied a voice from the darkness. "Ah! that is a great relief—a blessed relief! Take the reel along, too, gentlemen!" He put down his window and went back to bed, and the strangers departed without disturbing anything.—*Detroit Free Press.*

—Frank Nevins, a Chicago lawyer, tried the hazardous experiment of a conference between himself and his two wives, for the purpose of bringing about a satisfactory adjustment of their difficulties. He had obtained a fraudulent divorce from the first wife, and she on learning of it, said that she would not make any attempt to set it aside if he would make a provision for the support of her seven children. The second wife had consented to the marriage only when convinced that the divorce would be allowed to stand. Nevins had continued to live in the house with his first wife, so that publicity should not be given to the separation until the right time came. That was the situation when the two women met him by appointment in his office. Naturally the wives quarrelled, and soon they both turned on the husband. Distracted by his position, he drew a pistol and shot himself in the head, but without a fatal result.

UNDER FRANKLIN HALL, FLEET STREET.

INVALIDS' HOTEL.
The very large number of invalid people who daily visit Buffalo, from every quarter of the United States and Canada, that they may consult Dr. R. V. PIERCE, and the widely celebrated Faculty of Specialists in Medicine and Surgery associated with him, rendered it necessary that the founder of this institution should provide a home on a grand and commodious scale for their entertainment and comfort.
ADVANTAGES OFFERED.—The Invalids' Hotel is more complete in its appointments than any similar institution in the world. The building is located in one of the most healthful and desirable portions of the City of Buffalo, and commands a fine view of Lake Erie, Niagara River, and the surrounding country, being situated in the midst of an extensive system of beautiful parks. The Hotel is furnished with a patent safety passenger elevator, to convey patients to and from the different floors; is provided with all kinds of approved baths, and has also connected with it a well-appointed gymnasium and bowling alley to afford proper means of exercise.
CHRONIC DISEASES of all forms, whether requiring medical, surgical, or mechanical treatment, come within the province of our several specialties.
DISEASES OF WOMEN.—Especially are the facilities of this infirmary of a superior order as regards the remedial means and appliances for the cure of all those chronic diseases peculiar to females. The employment, in moderation, of tonic, chemical, electro-thermal, and other approved baths, is in many cases an invaluable auxiliary to the remedial means to which we resort in such cases. Dry friction to the surface, general shampooing, Swedish movements, and light calisthenic exercise, to enliven and equalize the circulation of the blood in the system, relieve congested parts, improve digestion, and strengthen the muscles, produce important beneficial results in all cases to which these means are applicable. No experimenting is resorted to in the treatment. The most approved medicines are carefully employed, and the judicious regulation of the diet, to suit the condition of the patient, the thorough ventilation of the sleeping apartment, the cheering influence of music, social intercourse, innocent games for amusement, and all those agencies which tend to arouse the mind of the patient from despondency, and thus promote recovery, are not neglected.
NERVOUS DISEASES—Paralysis, Epilepsy (Fits), Chorea (St. Vitus's Dance), and other nervous affections, receive the attention of an expert in this specialty, by which the greatest skill is attained and the most happy results secured.
LUNG DISEASES.—This division of the practice in the Invalids' Hotel is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat, and Lung Diseases are very largely treated in this department, with results which have been highly gratifying to both physician and patients.
EYE AND EAR.—Special attention is given to the delicate operations on the eye and ear, a distinguished specialist and surist being under engagement to conduct this branch of the practice.
Invalids arriving in the city and desiring to consult a specialist, can come directly to the Hotel. It is easily accessible by carriage, omnibus, or street cars. MILLER'S Transfer Agents, on the incoming trains, can be relied upon to deliver passengers and baggage with security and dispatch.
☞ Address R. V. PIERCE, M. D., World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we offer. Nothing like it ever in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once, 6Uy278
H. HALLETT & CO., Portland, Maine.

DR. JOHN TRIPP'S
BLOOD PURIFIER
IS the most wonderful discovery for the radical cure of SYPHILIS and SCROFULA. It never fails to entirely eradicate either of these diseases and all Blood Poison from the system. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.
Sole Eastern Agency, 306 Columbus ave., Boston, Mass. Office hours, 8 to 11, A. M., 3 to 7 P. M. Send for pamphlet. Cure in all cases of Syphilis in either stage guaranteed. eodtjc79

PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
OF THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. 1feb20 79

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" for the Fall River daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route.
ONLY 49 MILES OF RAIL.
Passing through Narragansett and Mount Hope Bays by daylight.
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Trains.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 38, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.
GEO. L. CONNER, Gen'l Pass. Ag't.

DOCTOR PIERCE'S
ALT. EXT. OR
Golden Medical Discovery

CURES DISEASES OF THE
THROAT, LUNGS, LIVER & BLOOD
In the wonderful medicine to which the afflicted are above invited for relief, the discoverer believes he has combined in *harmony* more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most constitutional diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy foreboodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or **"Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.
SOLD BY DRUGGISTS AT $1 PER BOTTLE.
Prepared by **R. V. PIERCE, M. D.,** Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y

PRATT'S
Astral Oil!
THE SAFEST AND BEST
ILLUMINATING OIL!
☞ *For Safety and for Excellent Burning Qualities, it is without an equal.* ☜
CAUTION.
☞ The great popularity of "ASTRAL" OIL has induced some unprincipled persons to sell worthless and dangerous imitations for "ASTRAL," while others palm off inferior oils, representing them as good as "ASTRAL." To prevent this fraud, purchasers should demand "ASTRAL" and take no other.
The Genuine Article is sold by
JOHN P. SWEETSER,
46 Market Street, Portsmouth.

NEW FOUR PER CENT
GOVERNMENT BONDS.
The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.
The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.
The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.
Orders by mail will receive prompt attention.

ORIENT, *of Hartford, Conn.*

TRAVELERS LIFE & ACCIDENT COMPANY, *Of Hartford, Connecticut.*

NEW ENGLAND MUTUAL LIFE *Of Boston, Mass.*

The above companies are well known and reliable, and we solicit the patronage of our friends and the public. All losses adjusted and promptly paid at our office.

MORSE & ILSLEY,

NO. 13 PLEASANT STREET,—UP ONE FLIGHT.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fee in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

GILMORE & CO.,

WASHINGTON, D. C.

LIBRARY LAMP.

HOUSE'S ARGAND BURNER,

Only Absolutely Safe Lamps made.

Perkins & House's Metallic Safety Lamps. Adapted to all uses, public or private—for every style of Stand, Bracket, Pendant or Chandelier, including Hall, Bar, Table and Parlor Lamps, also, Manufactured exclusively by the Cleveland Non-Explosive Lamp Co., Cleveland, O., and Boston, Mass., N. Y.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, tasteless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all results are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while traveling with Father Kemp's Old Humbug Concert Troupe as a tenor singer, I took a severe cold and was laid up at Newark, N. J. This cold settled in my head, and a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fit, and leave me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was ushered in by a dull pain in my forehead, which settled in my eyes, so that I was obliged to close up my business as to be scarcely able to speak, and completely incapacitated. I thought I was in the quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head, ears, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in years.

Respectfully yours, GEO. W. HOLBROOK.

WINCHESTER, MASS., Jan. 8, 1876.

I have purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Rumford Building.

Each package contains Dr. Sanford's Improved Inhaler, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for two years, and, notwithstanding the immense number of remedies in the form of liniments, lotions, patent-nerves, and ordinary plasters, which have sought public favor and met with universal approval, as evidenced by over one thousand testimonials from persons in our possession. Many remarkable cases have been certified to by well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world for relieving pain.* All we ask from every sufferer is that he shall give the article a fair trial, and we feel that the result will be satisfactory. The price is 25 cents, although the cost is double that of any other plaster. But, notwithstanding the efforts of the proprietors to make the best plaster in the world for the least money, any similar remedy can be bought, numbers of unscrupulous dealers will be found ready to misrepresent them for *selfish motives* and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO.,

No. 3 BOW STREET.

Daily Chronicle.

—Hon. W. F. Cody (Buffalo Bill) is dangerously ill in Nebraska.

—One of the curiosities of the Paris Exposition is the smallest book that was ever printed in any language—a marvel of typography. It is a microscopic copy of Dante's "Divina Comedia," printed in Padua, bound in red velvet and silver, and so small that it may be worn as a charm, hanging from the watch chain. A microscope is needed to read it.

—One day, while Dickens was being taken by a photographer, the result being the well-known picture in which he is shown writing, the artist told him that he did not hold the pen right, and suggested that he should take it more naturally in his fingers, "Just as though you were writing one of your novels, Mr. Dickens," said he. "I see," said Dickens, "all of a twist."

—An uncharitable story is told of a prominent London ritualist. He was "confessing" a fair and fashionable penitent, who pleaded guilty of some terrible peccadillo. "Oh," groaned the priest, "and this is the third time, too." The penitent denied the impeachment vigorously. "Do not add prevarication to the offence," said the confessor. The lady again pleaded innocence. A light burst upon the pastor. "Pardon me," said the holy man, "I remember now—it was your sister."

—A phenomenal man recently turned up in Dublin, Ireland. He was a walking skeleton, and his skin, which was as dry and yellow as parchment, hung loosely on his body and formed great wrinkles. One of his feet was but four inches long, while the other measured eighteen inches. He can beat the man who causes his heart to move to any portion of his body, as he has the power of making his eyes retire in his head to the depth of three inches, where they remain for as long as he wishes, glowing like coals of fire, and giving a ghastly and horrible appearance to his face. His sight is splendid.

—At Rochester, Michigan, they have a good way of advertising fools who stand on the church steps after meeting to stare at the ladies. The following card is kept standing in the *Era* of that place: "The Donkey Club of this village, would respectfully inform the young ladies especially, and the public generally, that they have made arrangements for an extensive demonstration on the steps in front of the Methodist chapel—the members locating themselves on either side of the main entrance—on Sunday evening next. Positions taken immediately after the close of the religious exercises within."

W. G. MYERS.

Portsmouth Chronicle

SATURDAY, JUNE 29, 1878.

Paper Money—Distress—Free Trade.

The agitators for a flood of paper money "to make good times" have never tired of holding up the example of France, assuring their opponents that the wonderful spectacle that country was able to show the world, of one nation paying off an immense debt and at the same time apparently increasing in prosperity while all other nations were suffering from "hard times," was due solely to the fact that France bought vast quantities of gold to export in payment of her war penalty, and paid for it with vast quantities of paper which remained in the country. But it seems that even paper money has not sufficed to keep distress out of France, for though little has been heard of it abroad, it has been severe enough to call for a commission to investigate and report upon the causes. The commercial distress there, as here, was by the political party out of power laid at the door of the party in power, the republicans charging it to the advent of the Duc de Broglie's reactionary cabinet on the 16th of May, 1876, and to the months of political turmoil and uncertainty which followed.

A parliamentary investigation was demanded, and after studying the subject six months the committee drew up a report three weeks ago. The investigators are forced to admit that the depression began long before the dismissal of M. Simon, and that it is more likely to increase than to diminish. The first cause of the crisis is traced to the war of 1870; there was such a demand for goods after the war that England, France, Germany, Belgium and Switzerland set to work, as if the demand would always remain the same. The United States were lost as consumers; they began to manufacture for themselves, and even to export. England, deprived of this market, threw all her merchandise on to the Continent, and depreciated European products. To show the state of trade at present, the report mentions that the French fabrication of tissues and cotton velvet has decreased from 195,000 to 60,000 pieces. At Amiens in one year, the lace-makers have taken down 500 looms out of 1500. The manufacture of carpet is disappearing from Aubusson. United States watches, made by machinery, are replacing the French watches; and a similar state of things exists with regard to papers, chemical products, glass and wood work. It is not strange that Frenchmen are now beginning to cry out for protection, and to declare that free trade only benefits the foreigner. As long as France was ahead of other nations in manufacturing—and she was very far ahead of most of them—free trade was an excellent thing, just as it has been with England; but now that foreign goods are driving French manufactures out of French markets "protection to French industry" is being loudly called for.

Nevertheless, the advocates of free trade and unlimited paper money will continue to hold up France as an example of the beneficial results of partially carrying out their creeds, unmindful of the facts that the French manufacturer and laborer are now opposing free trade, and that great distress has existed there for a year and more and is now increasing, notwithstanding there is in the country a vast amount of paper money.

A Model Legislative Report.

A patent ballot-box, a sort of cross between a bell-punch and a Moffatt run-register, having been proposed for introduction into this State by legislative enactment, the question of adopting it was referred to the committee on elections, who reported by resolution as follows:

Resolved, That, while the apparatus or machine exhibited to the committee seems to be well fitted for the purpose of preventing and detecting fraudulent voting and ballot-box stuffing, and would therefore be specially adapted to Florida and Louisiana; yet, in view of the eminent purity of elections in New Hampshire, and particularly in the localities represented by the committee, the small number of votes cast in our State in proportion to the population, the expense which would attend the introduction of the aforesaid apparatus, and which, if adopted, would be an admission of its necessity, and consequently of the dishonesty of our elections, and thus unjustly bring reproach upon the fair name of the State—therefore, no legislation is required at this time in the direction of the said act, and the same be postponed to the next session of the legislature.

The resolution was loudly applauded, both when being read and after the vote adopting it.

News and Notes.

A lady who desires her name shall not be known has given $20,000 to the Commissioners of Charities for the purposes of erecting a surgical pavilion at Bellevue Hospital, New York, where "respectable" patients are to be taken, thus separating them from the others.

William Hunter, of Gloucester, Mass., dislocated his shoulder trying to kill a fly with a towel. The fly escaped.

An Englishman named Bishop, charged with bribing officials to obtain plans of the fortresses in Germany, has been convicted and sentenced to two years and six months imprisonment at Berlin.

The Harvard-Yale boat race at New London, Conn., Friday, was won by Harvard by twelve lengths, in about twenty-two minutes; the distance was four miles, straight away.

The wreck of steam collier Leopard, sunk off Thatcher's island, Cape Ann, has been abandoned, to be sold for the benefit of all concerned, as it has been found impossible to get her afloat. On Wednesday nine steam pumps of the most powerful capacity were at work upon her, but no impression could be made id freeing the hull of water. She has been stripped.

The traveller through Lynn, Mass., on the Eastern Railroad, sees the sign of a veterinary surgeon next door to a building on which is a sign "Die Shop," and he speculates whether a sick horse led to the spot would not be likely to kick the bucket.

Russian agents have closed a contract in New York for thirty Lay torpedoes, at $15,000 each.

Mrs. E. E. Wood, of Mast Hope, Wayne county, Penn., while laboring under a paroxysin of insanity, superinduced by measles, threw a can containing about three pounds of powder into a stove. The explosion damaged the house and furniture. Mrs. Wood, though not killed instantly, was badly burned and mangled, and, to add to the horror of the scene, frantically tore the flesh from her body and arms. She died in a few hours.

Edward Perkins has been arrested at Philadelphia for offering for sale to Drezel & Co. some of the bonds stolen from the Washington residence of Ex-Chief Naval Constructor Hanscom early in June.

One thousand Brooklyn school ma'ams visited West Point on a steamboat, Saturday.

A novel feature of the new Boston directory is the insertion of the names of prominent citizens who have died during the past year, with the date of their deaths, and those of many who have recently removed from the city, with that of the place to which they have gone.

Madame Anderson, who styles herself "The Lady Champion Walker of the World," recently completed at Leeds, England, the feat of walking 1,500 miles in 1,000 hours. She walked the last mile and a half in fourteen minutes and thirty seconds, and afterwards, for several hours, continued to walk a quarter of a mile every quarter of an hour, her average time being two minutes per quarter.

Wonderful Escape.

A wonderful case of preservation from death at sea is reported. The British brig Confederate was run down and sunk in a thick fog in the Bay of Fundy recently, and three men were reported lost, the rest of the crew being saved by the barque Antwerp, which ran the brig down. The latter vessel, which was coal-laden and had a hole stove in her side twenty feet long, and extending far below the water line—in fact was cut nearly in two—was seen to sink by those on board the Antwerp, in about three minutes after being struck. One of the men reported lost was named Willett, and he has since arrived at his home in Annapolis, N. S., having been taken off the wreck of the brig by the brigantine Minnehaha. Willett's story is that about twenty minutes after the Confederate sank she came to the surface again, and he got on board of her and thus saved his life. The extraordinary performance of the brig in coming up after having once gone to the bottom can be accounted for only by supposing that the coal with which she was laden ran out through the enormous rent made in her side by the other vessel.

New Hampshire Items.

A tramp, who begged his dinner at the house of a farmer in Amherst the other day, asked for his supper at the house of a poor Irish family in East Milford, after partaking of which he lighted his pipe and sat down, remarking that he thought he would stay there all night and breakfast. They objected, that they were poor and could not afford to keep him, when he said if that was the case he would pay for his entertainment, which he did in the morning, showing at the same time a bank book with $1900 to his credit in the Emigrant Savings Bank of Boston.

Mrs. Hannah Cox of Holderness celebrated her 102d birthday on June 25th. A large number of friends called on her during the day, among others Miss Mary Blair of Boston, her oldest grandchild, aged 54 years.

The preliminary survey of the Farmington and Rochester Railway has been completed, showing the distance to be seven and a quarter miles, and the cost is estimated at less than $100,000.

In the size, typography and general appearance of the *Hillsborough Messenger* this week, we notice a marked change. A thorough renovation has been accomplished, and one which we should say was for the better. It is now a thirty-two column sheet, with over twenty columns of reading matter, and is in every respect a family newspaper. The plan the publisher has adopted of making it a "local paper" for all the neighboring towns, and not one in particular, must commend itself to the citizens of that territory and add large numbers to his subscription list.

Capt. Nicholas Gilman of Gilmanton, now in his ninety-second year, walked one mile to assist in raising a schoolhouse, where, eighty years ago, he assisted in raising the old one.

A new and neat four column paper, the *Weekly Enterprise*, reaches us from Bristol, Grafton county; R. W. Musgrove, publisher; subscription, sixty cents per year. Enlargement is assured, if proper encouragement is given. The first number is a good one and the outlook is promising. Success to the *Enterprise*.

Political.

A Washington special says Glover's committee authorized Clerk Adams, of the House, to pay the notorious ex-Treasury Agent Moore $215 witness fees, and Prof Wilcox, a so-called "expert witness," $580 fees out of the oil and fuel fund of the House. This being illegal, the matter will have Congressional investigation next Fall.

Congressman Rainey has been interviewed. He is in doubt whether there will be a free election in South Carolina. The rifle clubs are again in the field. Frauds are also feared.. If the election is free the republicans will secure three Congressmen in the State.

Eph Holland, the Cincinnati reformer, who was sent to the penitentiary for stuffing ballot-boxes and pardoned out by President Hayes, seems to have been restored to good standing among the democrats at his home. He was sent as a delegate to the democratic State convention by a majority of 560. This is the man who elected Banning to Congress, and his reappearance on the scene of his old triumphs is a plausible explanation of Banning's sudden confidence in his own re-election.

A Washington special says that during a recent local political campaign in Baltimore, Collector Thomas not only actively engaged in the campaign, but in addition used the force of his office to pack primary meetings. Charges to this effect have been filed with the President, which will compel him to take official cognizance of it or admit that the civil service order is a mere platitude.

Alexander H. Stephens has made a speech to an immense crowd at Augusta, Ga. He vindicated his course on the Potter resolution by the logic of subsequent events, and declared that he could not be ruled out of the party by political tricksters. If the coming district democratic convention failed to nominate him, he would appeal to the people. He said that Hayes was doing more for the South than Tilden could have done, and declared that he himself would die in the temple of Jeffersonian democracy, free from the party lash and the caucus lasso.

Thurman was cock of the walk in the Ohio Democratic Convention. A significant feature of the day's events was the circulation of cards bearing the legend "Thurman for President in 1880." Beneath this was a sedate and philosophical rooster, the emblem of the party. From his healthy and well-cared-for look, and splendid fighting trim, the bird was supposed to represent Senator Thurman, while his dwarfed and insignificant rivals were represented by diminutive roosters of wretched appearance away in the background.

—A school mistress is said to be a "strapping woman" in the eyes of her pupils.

—An orator at a Sunday-school concert some time since is said to have described the origin of that amusement somewhat as follows: "In Greece, during the times of Julius Cæsar, about eight hundred years before Christ, certain days were set apart for marrying, given in marriage and wrestling, and from these we get the idea of our modern Sunday-school concerts."

— AND A —

Double Quartette of Male Voices,

In a Programme of Unusual Excellence.

TICKETS 35 and 25 cents. Seats may be secured without extra charge, at Preston's Drug Store, on and after Tuesday, July 2.

—A mercantile paradox—A stationery peddler.

Why Longer Remain Fat?

Obesity was considered by the ancients as evidence of coarseness. Even yet the slim forms of the Grecian goddesses are regarded as models of female beauty. Corpulence is now held to be a disease, and Allan's Anti-Fat has fully demonstrated it to be curable. The Anti-Fat chemically neutralizes in the stomach all glucose, saccharine, and oleaginous substances, thus preventing the formation of fat. Its use insures a loss of from two to five pounds per week. It is purely vegetable and perfectly harmless. Sold by druggists.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East Indian missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. Sent by mail, by addressing with stamp, naming this paper, W. W. Sherar, 149 Powers Block, Rochester, New York. 3 tjy18

Are you going behind in business? Send for the *Weekly Financial Report* of Alex. Frothingham & Co., brokers, 13 Wall st., N. Y., which is sent free and contains information how, by investing $50 to $100 in stock operations, $1000 is frequently made. 3

The Colonnade Hotel, Philadelphia, Pa., exhibits the secret of its great popularity and success by wisely maintaining its old standard of excellence since its reduction of rates.

Few are aware of the importance of checking a common cold or cough in its first stages, before it has an opportunity to work upon the lungs to such an extent as to produce serious results. The best remedy for this checking, healing and curing that we know of is *Adamson's Botanic Cough Balsam*. Price 25 and 75 cts.

Beautiful Helen no doubt had a fine complexion, but it is more than doubtful whether it exceeded in purity the complexions of the ladies who use that inimitable auxiliary of female loveliness, GLENN'S SULPHUR SOAP. Sold by all Druggists. HILL'S HAIR & WHISKER DYE, Black or Brown, 50 cents. tjy21

A General Rebellion.

TRIUMPH OF A GREAT DISCOVERY!

The public has *rebelled* against *cauterizing Hair Dyes*. Fashion has foresworn them. A sagacious community has adopted in their stead,

CRISTADORO'S HAIR DYE,

and for *these reasons*: It embrowns and blackens the *hair*, not the *skin*. It is a *vegetable emollient*, not a *burning fluid*. It does not burlesque nature with *blooming metallic tinges*, but produces her own *living hues*. Its cooling effect is *lasting*. It *defies detection*. Its results are *uniform*. It *never fails*. Manufactured by J. CRISTADORO, No. 93 William St., New York. Sold by all Druggists. Applied by all Hair Dressers. tjy15

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&6tsept15 7

Refined Cider.

Of the different summer beverages manufactured at this establishment it is hardly necessary to say a single word. They have become popular "on their own merits" and can be found in many private families an on sale in every hotel, saloon and restaurant in this locality.

The lagers bottled by me are from the best breweries in the country, and it is safe to say that there is no better in the world.

☞ Orders may be left at my establishment for any of the above, which will be delivered anywhere within the city limits without extra charge.

THE CITY.

Are you going to bring back that *New Hampshire Register* you stole?

Mr. C. Morris Tredick and friends, in the yacht Lone Star, were in St. John, N. B., Friday.

Osgood Lodge, Friday evening, voted to take $1500 worth of stock in the proposed new hall.

Fine lots of blue-fish were caught in a seine at Little Harbor and in the porgie nets at the Shoals, Thursday.

Rev. E. Owen will address the Reform Club meeting in Franklin Hall to-morrow afternoon, immediately after the church services are over. Admission free.

We state by request, that at the cherry picnic of Portsmouth Grange, at Mr. D. H. Spinney's next Monday, supper will be spread at six o'clock, and not at seven as before announced.

The annual meetings of the Eastern Railroad in New Hampshire, Portsmouth, Great Falls & Conway Railroad, and Proprietors of Portsmouth Bridge, will be held in this city on Tuesday, July 9th.

The stars and stripes were hoisted to masthead at Lincoln Hill on Friday, June 28th, it being the 20th wedding anniversary of Mr. and Mrs. Frank W. Miller, which was noticed in a quiet social way by the family.

At the regular meeting of New Hampshire Lodge of Odd Fellows, Thursday evening, the following officers for the ensuing term were elected: Charles E. Simpson, N. G.; Charles G. Locke, V. G. The rest of the old officers were re-elected.

At the annual meeting of the Court street Christian church Thursday evening, the treasurer's report showed the society to be in a good financial condition. The following officers were elected for the ensuing year: Wardens, Joshua Stackpole, Alfred S. Goss, James Morrison; Treasurer and Collector, Charles E. Buzzell; Assistant Collector, Albert R. Junkins; Auditors, John H. Locke, Charles E. Simpson.

The Boston *Sunday Herald* will hereafter arrive in this city at eight o'clock Sunday morning—brought on an engine that will run through to Portland on the Boston & Maine Railroad, and from Dover to this city by team. The *Globe* will arrive at a few minutes before ten o'clock per Eastern Railroad train, which will also run through to Portland; returning, the train will leave this city for Boston at a quarter past four o'clock in the afternoon.

The Appledore House, Isles of Shoals, has now about seventy-five guests, mostly the time-honored visitors who annually come to this favorite spot, arriving early in the season and remaining to its close. We have not seen in the reports from the beaches any report of any other hotel having so many visitors as the Appledore, from a dozen to twenty guests being the average; but the hot weather now promised, and a few days of which we have had, will set the birds of passage on the wing very soon.

The Mutual Life Insurance Company, of New York, publishes a statement showing that since its organization it has paid to policy-holders the enormous sum of $121,146,559. As it was organized in 1843, this is at the rate of $3,461,330 per year, or $288,444 per month, or $66,564 per week, or $9,509 per day, holidays and Sundays included. Think of it.—$9,509 per day for thirty-five years paid to policy-holders! Mr. J. P. Bartlett, who has been the agent of this Company for thirty-four years, has paid out a very large sum to policy-holders in Portsmouth.

The picnic of St. Mary's (Catholic) church at Pinkham's Grove, Dover Point, Thursday, was a very pleasant affair. Four car-loads of pleasure-seekers left this city at ten o'clock, and four more at three o'clock in the afternoon. Harlow's Orchestra furnished music, and with dancing and other pastimes the day wore merrily away. The neighbors in the vicinity of the grove speak in flattering terms of the conduct of the participants in the gatherings which have been held there by this church; the local residents always attend them, and enjoy the harmless sports quite as well as the always-well-behaved visitors.

SUNDAY SERVICES.

At the Court street (Christian) church, Rev. John A. Goss, pastor, preaching at 10:30 A. M., and 2:45 P. M.; prayer meeting at 7:30. All are welcome. Preaching to-morrow by the pastor.

At the Congregational church, Rev. James W. Hubbell, pastor, services at 10:30 A. M.; services at chapel at 7:30 P. M. The afternoon service in the church is omitted until Oct. 1st.

At the Advent church, services at 10:45 A. M., 2:45 and 7:30 P. M. Preaching to-morrow by Elder George Sedgquist.

At the Freewill Baptist church, on Pearl street, Rev. E. Owen, pastor, services at 10:30 A. M. and 2:45 P. M.; Sabbath school at 11:30 A. M.

At the Methodist church, Rev. C. B. Pitblado, pastor, preaching at 10:15 A. M. and 2:45 P. M.

At the Universalist church, Rev. E. M. Grant, pastor, services every Sunday at 10:30 A. M. and 7:30 P. M.; Sunday school at 2:45 P. M. A cordial welcome to all.

At the South Parish, Rev. James DeNormandie, pastor, morning service at 10:30, vespers at 7:30; Sunday school at 2:45 P. M.

At St. Mary's (Catholic) church, Rev. E. M. O'Callaghan, pastor, Children's Mass at 8:30, Solemn Mass at 10:30 A. M.; Sunday school at three o'clock, P. M.

At St. John's (Episcopal) church, Rev. Chas. A. Holbrook, rector, services at 10:30 A. M. and 5:00 P. M. every Sunday,—except the first Sunday in each month, when the Children's Choral Service and public catechising, commencing at four o'clock, is substituted for the usual one at 5:00; seats free at this service.

Mission services; William A. Coyne, Volunteer Missionary. Residence at Faith Home, 16 Deer street. At home daily from 8 to 10 A. M. and 12 to 2 P. M. Services every Sabbath at the Alms House at 10:30; at the County Jail at 12:30. Consecration Meeting every Monday evening at the Home.

At the Middle street (Baptist) church, Rev. W. H. Alden, D. D., pastor, services at 10:30 A. M. and 7:30 P. M.; Sunday school at the church at 2:45 P. M. Preaching to-morrow by Rev. W. H. Stewart, of the navy yard.

The Reform Club will hold a meeting in Franklin Hall at four o'clock, or immediately after church in the afternoon. Admission free.

REAL ESTATE CONVEYANCES.

The following transfers of real estate in this vicinity have been recorded in the office of the Register of Deeds:

PORTSMOUTH.

John L. Folsom, of Epping, to Lucinda D. Durgin, of Epping, et als., land, $100.

Lucinda D. Durgin, et als., of Epping, to John L. Folsom, of Epping, land, $175.

Lucinda D. Durgin, et als., of Epping, to John L. Folsom, of Epping, land and buildings, $700.

THE VICINITY.

Harvard gets eighteen students from Phillips Academy at Exeter this year.

David Whittier of Hampton Falls, after being blind of one eye for four years, recently had a cataract removed from it at the Boston Eye and Ear Infirmary, and can now see all right.

In Stratham, recently, Frank O. Brown killed an owl measuring four feet two inches from tip to tip of his wings, and a crow, being absent from his house just half an hour; and George E. Gowen caught two woodchucks at once, in a steel trap.

The Dover *Democrat* reports a new and fatal disease prevalent among cattle in that vicinity, four cows having died on the McDuffee farm, one near the Rochester line, five on the Judge Roberts farm in Rollinsford, and one on Harrison Haley's farm in Dover. The animals live from one hour to two days after being attacked, and show all the symptoms of hydrophobia, except that they drink water freely and without apparent effort. The cow doctors are puzzled; the *Democrat* suspects poison.

A young son of Abbott Norris, of North Hampton, while watching the milkmen loading ice at the ice house of John French, tried his hand at lowering the ice into the wagon. He took a cake weighing 112 pounds, and in order to hold it took a turn around his foot, but the rope getting too hot as it passed through his hands he let go his hold and was immediately carried to the top of the building, where he was suspended in the air by one leg, head downward. Fortunately the ice struck the wagon before the boy struck the block, or the result might have been worse. He was quickly relieved from his perilous position, pretty well frightened but not hurt.—*News-Letter.*

A couple of tramps one night not long since broke into the cellar of Joseph Mason's house in Hampton and stole all the eatables they could find, and afterward entered the schoolhouse in district number three through a window, and not being content with free lodgings either carried away or destroyed about $10 worth of books, besides putting a pile in the stove and covering them with ashes. They were seen to leave the schoolhouse early in the morning, but the dastardly act was not discovered until nine o'clock. As they had by that time got well on their way for some other place, no steps were taken for their arrest.

"Shadow" writes from Stratham to the *News-Letter* as follows: "Several prominent politicians in this section, who have become pretty thoroughly imbued with ragbabyism, have under consideration the holding of a monster greenback rally at Stratham Hill, on the coming Fourth of July. The following named gentlemen have signified to those who have the affair in contemplation their willingness to be present and deliver addresses: Joshua M. Vaughan, a well known political character of Portsmouth, and John E. Roberts, of the same city; also, Stephen L. Butterfield, of Kittery, Maine. Invitations will be extended to Hon. Benjamin Chase of Providence, Rhode Island, Hon. Charles J. Tucker, chairman of the New York national labor reform party, also to Joseph W. Smith, greenback nominee for governor of Maine, besides several of the leading representatives of the party of the far west. Gentlemen, please don't slight the venerable standard bearer, Peter Cooper, who tenderly cared for the ragbaby in its youthful days."

Didn't Know It Was Loaded.

The great inventor slept; but still his brain was not at rest. He dreamed, but what he dreamed we cannot say; he never told. We wished merely to state that he was aroused from his slumber by a whisper from his wife.

"Mr. Edison, get up; there are burglars in the house."

"Burglars in the house?" repeated Mr. Edison, but half awake.

"Yes, Thomas, burglars. Don't you hear them talking?"

Mr. Edison listened.

"I certainly hear somebody talking," she said at length. "They must be burglars, and I am certain they are in the dining room. Hadn't you better get up and chase them away?"

"Yes, of course," said Mr. Edison nervously. "I was just trying to determine whether it would be better to shoot them, or, in order not to disturb the neighbors, quietly cut their throats from ear to ear."

"Why, Thomas!" cried Mrs. Edison, "how can you think of committing so barbarous an act. Please do not hurt them. Shout 'police' into the hall and frighten them away."

"No, I will not let them off so easy," remonstrated Mr. Edison. "I will go down and make them shed their life's blood for their crime!"

"Thomas! Thomas! do not be so cruel, please shout 'watch' and drive them away."

"Well, I will do as you wish," said Mr. Edison, after some thought.

Thomas got up, opened the door and shouted—

"Get out, you rascals, or I'll shoot!"

The talking did not cease, but, the door being open, was heard plainer than ever. After a few seconds Mr. Edison again shouted—

"Get out, you thieves!"

The talking still continuing, Mr. Edison began to think that the burglars, like the democrats, had a majority in the House, and, like the latter, were not afraid. He began to feel uncomfortable. His wife was also frightened.

"Call the police, Thomas," she whispered, "our lives may be in danger."

"It is not necessary," said the hero of a hundred patents, in a trembling voice; "I'll go down alone and kick them all out of the window."

"Thomas, be sensible," remonstrated Mrs. Edison, earnestly. "The burglars outnumber you. Do not go down."

"Well, I declare," exclaimed Mr. Edison, suddenly, as if a new thought struck him.

Then he rushed into the hall and rapidly descended the stairs. Mrs. Edison shrieked, and then listened breathlessly for the sound of the combat. She heard Mr. Edison enter the room where the voices came from and a moment later the talking ceased. Presently to her great relief, Mr. Edison ascended the stairs and entered the room.

"What was it, Thomas?" she asked.

"Phonograph accidentally went off."

"The phonograph! You might have known it was that thing. You certainly knew you had left it down there."

"Yes, I knew it was there," yawned Mr. Edison; "but I didn't know it was loaded."—*Danbury News.*

— Professor—"What is a monarchy?" Freshman — "A people governed by a king." Professor—"Who would reign if the king should die?" Freshman—"The Queen." Professor—"And if the Queen die?" Freshman—"The Jack."—*College Paper.*

—M. Labouchere's London *Truth* has more funny stories in it than all the rest of the English papers put together. Here is the last: "The records of Romsey Abbey show that the curates in the livings of St. Leonard and St. Lawrence received their tithes in kind, receiving every tenth cow, calf and pig. A rather pompous tight-laced clergyman was one day called upon to christen a child, but on asking its name the woman who brought it said, "I don't know, sir; it's your child, sir!" 'My child?' exclaimed he. 'Yes, sir; it's the tenth child, sir.'"

—The *Hawkeye* says it takes a drug clerk of broad judgment and liberal views, and a calm, statesman-like control of his features, to know how to give a citizen the right kind of syrup in his soda water when the citizen's wife says she will take the same as her husband.

—"No, George," she said to the perspiring young man, "I love you just the same, but as our city relatives are coming next week, mother thinks you'd better stay away, because your long hair and freckled face might make them think our acquaintances weren't very hightoned." The young man is staying.—*Rockland Courier.*

—A queer scene in a church! The Lacrosse boys of Bowmanville, Canada, having made provision for a day's sport on the 24th of May, and having secured a number of gifts from the merchants, published the names of the givers opposite. This conduct on the part of the merchants in countenancing a day's amusement was rebuked from the pulpit of one of the churches by the minister officiating on that Sunday morning. The people submitted to the castigation as best they could, until the reverend gentleman began mentioning names, when the storm increased in fury, and one, more bold than the rest, demanded there and then an apology; and this failing, nearly the whole congregation left the church.

Why He Wouldn't Marry Her.

Marry her! by George! I would if it wasn't for her confounded nose."

"Nose! Ha, ha! What's the matter with her nose? Is it too short, too long, or crooked—which? You're too fastidious, young man. A woman may be a charming wife and have any one of these deformities."

"It isn't any of them, old fellow. The fact is I like Kitty—like to look at her and talk with her—but any closer relationship I could not endure. Her nose is too o-d-o-r-o-u-s!"

Unfortunate Kitties should use Dr. Sage's Catarrh Remedy, the wonderful disinfecting properties of which instantly sweeten the breath, destroying all offensive odor. To its mild, soothing, and healing effects the most inveterate cases of catarrh promptly yield. Sold by druggists.

STATED MEETINGS.

INVALIDS' HOTEL.
The very large number of invalid people who daily visit Buffalo, from every quarter of the United States and Canada, that they may consult Dr. R.V. PIERCE, and the widely celebrated Faculty of Specialists in Medicine and Surgery associated with him, rendered it necessary that the founder of this institution should provide a place on a grand and commodious scale for their entertainment and comfort.
ADVANTAGES OFFERED.—The Invalids' Hotel is more complete in its appointments than any similar institution in the world. The building is located in one of the most healthful and desirable portions of the City of Buffalo, and commands a fine view of Lake Erie, Niagara River, and the surrounding country, being situated in the midst of an extensive system of beautiful parks. The Hotel is furnished with a patent safety passenger elevator, to convey patients to and from the different floors; is provided with all kinds of approved baths, and has also connected with it a well-appointed gymnasium and bowling alley to afford proper means of exercise.
CHRONIC DISEASES of all forms, whether requiring medical, surgical, or mechanical, treatment, come within the province of our several specialties.
DISEASES OF WOMEN.—Especially are the facilities of this infirmary of a superior order as regards the remedial means and appliances for the cure of all those chronic diseases peculiar to females. The employment, in moderation, of tonic, chemical, electro-thermal, and other approved baths, is in many cases an invaluable auxiliary to remedial means to which we resort in such cases. Dry friction to the surface, general shampooing, Swedish movements, and light calisthenic exercises, to unfold and equalize the circulation of the blood in the system, relieve congested brain, improve digestion, and strengthen the muscles, produce important beneficial results in all cases, when these means are applicable. No experimenting is resorted to in the treatment. The most approved medicines are carefully employed, and the judicious regulation of the diet, to suit the condition of the patient, the thorough ventilation of the sleeping apartment, the cheering influence of music, social intercourse, innocent games for amusement, and all those agencies which tend to arouse the mind of the patient from despondency, and throw off disease, are not neglected.
NERVOUS DISEASES—Paralysis, Epilepsy (Fits), Chorea (St. Vitus's Dance), and other nervous affections, receive the attention of an *expert* in this specialty, by which the greatest skill is attained and the most happy results secured.
LUNG DISEASES.—This division of the practice in the Invalids' Hotel is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat, and Lung diseases are very largely treated in this department, and with results which have been highly gratifying to both physician and patient.
EYE AND EAR.—Special attention is given to the delicate operations upon the eye and ear, a distinguished oculist and aurist being under engagement to conduct this branch of the practice.
Invalids arriving in the city and desiring to consult us, should come directly to the Hotel. It is easily accessible by carriage, omnibus, or street cars. MILLER'S Omnibus Agents, on all incoming trains, can be relied upon to deliver passengers and baggage with security and dispatch.
☞ Address R. V. PIERCE, M.D., World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once. odyw278
H. HALLETT & Co., Portland, Me.

DR. JOHN TRIPP'S
BLOOD PURIFIER
IS the most wonderful discovery for the radical cure of SYPHILIS and SCROFULA. It never fails to entirely eradicate either of these diseases and all Blood Poison from the system. It has been in private practice eighteen years, and over 10,000 cases stand ready and good pay. Call immediately. J. E. HAM & CO., 27 Market Street.

Transportation.

PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident belief that when and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. ufeb20 79

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express Train) connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL.
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Train.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.
GEO. L. CONNER, Gen'l Pass. Agt. J. R. KENDRICK, Supt.
L. H. PALMER, Agent, 3 Old State House.

DOCTOR PIERCE'S
ALT. EXT. OR
Golden Medical Discovery

CURES DISEASES OF THE
THROAT, LUNGS, LIVER & BLOOD.
In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believed that he combined in *harmony* more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or **"Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.
SOLD BY DRUGGISTS AT $1 PER BOTTLE.
Prepared by R. V. PIERCE, M. D., Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y

PRATT'S
Astral Oil!
THE SAFEST AND BEST
ILLUMINATING OIL!
☞ *For Safety and for Excellent Burning Qualities, it is without an equal.* ☜
CAUTION.
☞ The great popularity of "ASTRAL" OIL has induced some unprincipled persons to sell worthless and dangerous imitations for "ASTRAL," while others palm off inferior oils, representing them as good as "ASTRAL." To prevent this fraud, purchasers should demand "ASTRAL" and take no other.
The Genuine Article is sold by
JOHN P. SWEETSER,

THE STANDARD BROILER.

PATENTED APRIL 10, 1877.

THE *simplest* and *best* article for **Cooking Beefsteak** *ever invented.*

Can be used over either a Coal or Wood fire.

Cooks Steak so **quickly** that all the *juices* and *flavors* are retained.

DOES not get *cakes* or *coal* on the meat DOES not let smoke and gas out of the stove. DOES not put out the fire.

Ask your Dealer for the STANDARD BROILER, *it is just what you want.* The Trade supplied by FULLER, DANA & FITZ, 110 North St., Boston, and WILLIAMS & CO., Nashua, N. H.

MANUFACTURED BY ARTHUR BROWN & CO., Fisherville, N. H.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. ***Glenn's Sulphur Soap*** produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts*. It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 60c. and $1.20.

N.B.—Sent by Mail, Prepaid, on receipt of price, and 5 cents extra for each Cake.

"HILL'S HAIR AND WHISKER DYE," Black or Brown, 50 Cents.

MORSE & ILSLEY,

NO. 13 PLEASANT STREET,—UP ONE FLIGHT.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fee in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

GILMORE & CO.,

WASHINGTON, D. C.

LIBRARY LAMP.

HOUSE'S ARGAND BURNER.

ASK your dealer for this Lamp. If he will not supply you, write to us for it. It gives the light of twenty candles, or one-third more than any other lamp of similar style (same size burner) in the world; the light being also, steadier and every way more satisfactory.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO.,

No. 3 BOW STREET.

Daily Chronicle.

Washington Correspondence.

WASHINGTON, D. C., June 25th.

Ordinarily a few days succeding adjournment suffices here for what is deemed an equitable ventilation of what Congress has done and failed to do during the session, by way of general resume and comments. But it will require as many weeks, probably, before every one is satisfied they have said or written all that is demanded by the present occasion, the relative disesteem in which the last session is held as compared with the average of its predecessors being indicated by the excess of time thought necessary to devote to it that its merits and demerits may be justly appreciated. But individual members have bequeathed scandals that for the time will monopolize public attention to the exclusion of everything less sensational, though not at all of national importance. Mr. Acklen, one of the several democratic contestants to seats held by republican opponents, and ultimately awarded them, furnished us one of this class so unusual that it has been one of the chief topics since Congress left us to our dull summer season. Gen. Rosser, of ex-Confederate fame, the same that Sheridan "sent whirling up the valley," Acklen, and a lady, were the actors. This honorable legislator, as the story goes, was summarily kicked, neck and heels, into the street. This is one of the "reformers" who could no longer abide the barbaric tendencies of republican rule in Louisiana, and had to be gratified with "home rule" at the expense of tearing down a State government, that the reign of chivalry should be restored and the interests of Christian civilization duly recognized by the new administration. Acklen's friends here are doing their level best to restore him to a position that will be regarded as "honorable" by his party; and with that end in view they now allege the woman in question was a well-known disreputable character. This, if true, may help him with Democratic Christian Statesmen, but will hardly pass muster with old-fashioned, orthodox people.

Another scandal having a much more important bearing is the allegation made and generally accepted as true that every democratic member of the House committee on enrolled bills, including the chairman, was too drunk on the night prior to adjournment to attend to their duties, and that so many errors were made in consequence that much important legislation has been rendered null and vivid. Bills are involved of such moment that several government bureaus will find themselves embarrassed; and important interests will be made to suffer to an extent that can only be estimated at the end of the next fiscal year. The clerks are alleged to have been in a like condition of inebriation with the members, or to have taken advantage of their maudlin condition to play Hobbs with some of the bills. Rainey, colored member from South Carolina, is said to have been the only member of the committee who was sober and able to attend to his duties; he worked for hours, and corrected all mistakes possible. It was only through his efforts that an adjournment was rendered possible, as otherwise it might have been postponed for hours, until these Bacchanalian legislators became sufficiently sober to bring in the sundry civil service bill. It is drawing it very mild to say that Congress has repeatedly disgraced the country, during the session just brought to a close to the relief of every one identified with any of its interests. It will not make the evil tendency of the times less palpable to state that Rainey is probably to be unseated and his place given to a reformer who may prove as eminent in his line as Acklen. KNOX.

WASHINGTON, D. C., June 27th.

A new or revised version of the Acklen-Rosser affair is heard every morning, but none of them, so far, materially affect the essential feature of the story as first told. The nearest the "authoritative" statements come to it is to the effect that a little escapade has been magnified out of all proportion to the original offence. Rosser seems to have been appealed to, to take off the raw edge by a denial, but appears willing to do so only to the extent of saying that he did not give the matter publicity.

Since the advent of the Louisiana witnesses in the Potter investigation, it seems the opinion that Ananias and Sapphira are destined to lose the position so long accorded them, as pre-eminent in their specialty. A feeling of compassion has also been aroused in behalf of any whose reputation needs repairing at the hands of Louisiana politicians. Mrs. Jenks has not been able to hold the interest with which she was first regarded; and Pitkin's

evidence seemed important only as confirming the attempt to debauch a Louisiana elector, and Anderson's right to be considered the champion romancer and mischief-maker of the age. General Butler's streak of bad luck seemed to follow him when attempting the role of bully with Gen. Boynton.

A good deal of interest is felt here in the outcome of Fitz John Porter's rehearing, accorded him by this conciliated administration. KNOX.

Portsmouth Chronicle

MONDAY, JULY 1, 1878.

New Hampshire Items.

The Portland & Ogdensburg Railroad has been allowed to have its charter amended, varying the route of their unconstructed road from its original line. The Boston, Concord & Montreal Railroad acquiesced in the change, and the hope of the lobby for the spoils of a contest was deferred. Indeed, unless some scare as to railroad taxation can be stirred up this week, the lobby will not be able to earn their board during this, the most quiet session of the Legislature for many years.

Ruel Durkee, Esq., in times past known as the "king of the lobby" at Concord, still punctually attends the sessions of the Legislature, having a seat at the "Eagle." Mr. Durkee, not unmindful of the little amenities of the office he has so long filled, never comes down to dinner save in a black dress coat.

Robert Delziel, a young man about twenty-one years of age, had his arm badly crushed while coupling cars near the Concord Railroad station at Manchester, Friday.

Prof. E. T. Quimby, professor of mathematics at Dartmouth College has resigned, and the trustees have appointed Prof. A. S. Hardy, Chandler professor of civil engineering, his successor.

The weavers at Thayer & Turner's woolen mills in Ashuelot have struck for their former pay, ninety cents a day; present pay eighty-one cents per day; The mills are stopped for the present.

Isaac W. Hammond of Concord has been reappointed Deputy Secretary of State.

The ticket office in the Concord Railroad depot at Concord was broken into Friday evening. A man was arrested on the evening train north, at Fisherville, who gave his name as Charles St. George, and who claims to live in Fisherville. He had in his possession about $700 worth of tickets.

George Roberts, charged with maliciously burning the Foster building in Salem, February 16th, was arraigned before Justice Ayer Friday. The prosecution was represented by County Solicitor Harriman and the defence by Hon. John K. Tarbox. The defendent pleaded not guilty, waived examination and was committed to Portsmouth jail. The feeling in Salem is strongly in favor of Roberts. His wife's relatives were the only witnesses for the prosecution.

The dwelling house and barn of V. W. Powell, in Enfield, were burned Friday morning, with all their contents. Mrs. Powell, in attempting to save some articles from a chamber, narrowly escaped with her life. Loss $1500; insurance $1000.

The most severe thunder-storm of the season passed over Lancaster Thursday evening. The lightning struck the house of Lucius Haskell in Guildhall, Vt., the bolt severely injuring Mrs. Haskell and her daughter. Much damage to trees and fences was done by the wind.

A fire occurred Friday morning in the three-story brick building of the Amoskeag Manufacturing Company at Manchester, used as a dry house. Several tons of fancy cotton yarn were destroyed, which will seriously cripple the gingham works, they being short of stock. Loss estimated from $8000 to $12,000; origin of fire unknown.

News and Notes.

Miss May Cummins of East Montpelier, Vt., teaching school at Middlesex, Vt., was accidentally shot by Charles Newhall, a young boy, while he was carelessly playing with a loaded revolver, Thursday night. The ball struck her in the breast, inflicting a dangerous wound.

Advices from the far west represent the chance of avoiding an extended Indian war as almost hopeless. The Klamath Indians of Oregon have taken the war path, and killed five settlers.

Richard Mitchell, recently arrested in New York with a trunk of valuable clothing stolen from the house of Mrs. Winthrop in Boston, was sentenced on Friday to three years in the New York penitentiary.

A cremation society, numbering over one hundred ladies and gentlemen, has been organized in Indianapolis.

Catharine A. Richards, fourteen years old, was found dead in her father's barn, at Plainfield Centre, New York, on the 25th ult. It was at first supposed that she was gored to death by a bull, but evidence has been discovered tending to show that she was murdered by a farm hand named Myron Buell, who was in love with her but whose suit she and her parents rejected. Buell has been arrested.

The time made by the Harvards in the Harvard-Yale boat-race at New London, Friday, was the best ever made in this country, the four miles being pulled in twenty minutes, forty-four and one-third seconds.

The Border City Mills Co., of Fall River, has gone into bankruptcy, and its affairs are to be wound up. This is one of the mills robbed by Chace, the late treasurer.

As an indication of the wonderful change which of late years has been wrought in the spirit of religious denominations toward each other, the State Universalist Convention in Maine sent Christian greeting to the Orthodox Congregational Convention, which was gracefully acknowledged and reciprocated. The world does move.

At a temperance meeting recently held on board the receiving ship Franklin, at Norfolk, by the Christian Temperance Union, at the request of Capt. J. H. Gillis, commanding, at the close of the services Capt. Gillis in a few earnest remarks commended the cause of temperance to his crew and advised them to sign the temperance pledge, and then led off by signing himself, being followed by several of the officers and the ladies of their families, and forty seamen and marines.

We are glad to learn that the gigantic experiment, Dr. R. V. Pierce's Invalids' and Tourists' Hotel, which many of our readers will remember as occupying a conspicuous position in *Harper's Weekly* supplement of June last, has proved a most complete success; all of which reminds us that its founder, the eminent New York State Senator from the Erie District, is successful in the hotel business as well as being a celebrated physician and an efficient legislator. Judge Hilton may well envy him. Those who have enjoyed the elegant comforts of the hotel speak of it in the most enthusiastic terms. Dr. Pierce's Family Remedies have occupied prominent spaces in our columns for several years, and have been used quite extensively and with the utmost satisfaction by the people of this vicinity.

Mrs. Jenks tells the Washington *Post* that "Gen. Butler is just beautiful, and when he smiles he is perfectly lovely. When he sits up straight and tries to look important, then he is simply horrid."

LAIGHTON BROS. & CO.

—Archery is the most dangerous amusement for young women. They are sure to make an-arrow escape from their beaux.

An Important Function Stimulated.

The kidneys exercise most important functions, which are so wonderfome that they tax to the utmost the strength and endurance of these busy little organs. Every breath, every pulsation of the heart, every movement of a limb, every thought, makes waste and necessitates the development of new atoms. The used up particles in the blood are sifted from it and dissolved in a watery fluid by the kidneys, which then discharge this fluid into the bladder. A train of disasters to the system would follow if these "ashes," so to speak, were not thoroughly strained off and discharged. This is the case when the kidneys become inactive. Hostetter's Stomach Bitters, by restoring their activity, not only keeps open a mots important outlet for impurities, but prevents diseases of the kidneys themselves, which when inert become liable to fall a prey to diabetes, Bright's disease, nephritis, albuminuria, and other maladies specially incident to them, which, although not specially rapid in their progression, are particularly obstinate and fatal.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East Indian missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. Sent by mail, by addressing with stamp, naming, this paper, W. W. Sherar, 149 Powers Block, Rochester, New York. 4jy18

Are you going behind in business? Send for the *Weekly Financial Report* of Alex. Frothingham & Co., brokers, 12 Wall st., N.Y., which is sent free and contains information how, by investing $50 to $100 in stock operations, $1000 is frequently made. 2

The Colonnade Hotel, Philadelphia, Pa., exhibits the secret of its great popularity and success by wisely maintaining its old standard of excellence since its redication of rates.

Few are aware of the importance of checking a common cold or cough in its first stages, before it has an opportunity to work upon the lungs to such an extent as to produce serious results. The best remedy for this checking, healing and curing that we know of is *Adamson's Botanic Cough Balsam*. Price 35 and 75 cts.

Beautiful Helen no doubt had a fine complexion, but it is more than doubtful whether it exceeded in purity the complexions of the ladies who use that inimitable auxiliary of female loveliness, GLENN'S SULPHUR SOAP. Sold by all Druggists. HILL'S HAIR & WHISKER DYE, Black or Brown, 50 cents. 4jy21

A General Rebellion.

TRIUMPH OF A GREAT DISCOVERY!

The public has *rebelled* against *conferring Hair Dyes*. Fashion has foresworn them. A sagacious community has adopted in their stead,

CRISTADORO'S HAIR DYE,

and for *these reasons:* It embrowns and blackens the *hair*, not the *skin*. It is a *vegetable emollient*, not a *burning fluid*. It does not burlesque nature with *blooming metallic tinges*, but produces her own *living hues*. Its cooling effect is *lasting*. It *defies detection*. Its results are *uniform*. It *never fails*. Manufactured by J. CRISTADORO, No. 93 William St., New York. Sold by all Druggists. Applied by all Hair Dressers. 4jy15

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&4tsept15 7

THE NEW HAMPSHIRE

GAZETTE

Established 1756.

The Gazette is published every Thursday, and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of NEWS, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a WEEKLY INVITATION TO CUSTOMERS, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

THE CITY.

Yacht Moll Pitcher, with a large party on board from Newburyport, arrived in this harbor Saturday evening.

Gov. Prescott has appointed Samuel W. Hoyt, clerk of the Kearsarge Mills, a Justice of the Peace for the county of Rockingham.

The Rockingham National Bank of this city pays a dividend of three and one-half per cent., and the New Hampshire National Bank three per cent., to-day.

Candidates for admission to the High School are notified to be on hand at the school building, equipped with slate and pencil, at eight o'clock Wednesday morning, July 3d.

Commander Chas. C. Carpenter, U. S. N., and Lieut. Comdr. Chas. H. Rockwell, are at the Aquidnick House, Newport, R. I. Paymaster Joseph Foster is also at Newport.

At a meeting of the New Hampshire Medical Society in Concord last week, Drs. Stackpole of Dover, Crosby of Concord, and Parsons of this city, were chosen as an executive committee for the ensuing year. The Isles of Shoals were selected as the place for the semi-annual meeting of the society.

Major Thomas Y. Field, U. S. M. C., is to be relieved from duty as commandant of marines at the barracks at the navy yard August 1st; he is to be succeeded by Capt. Geo. P. Houston, now at Annapolis. Major Field returns to Philadelphia. Capt. John H. Higbee, U. S. M. C., is now on a leave of absence, and expects to be relieved from duty at the barracks (where he has been stationed for a long term) about the first of August, and to receive orders for sea service.

A San Francisco paper of June 21st says: "The old ship John Jay has come to grief at last. She put back to Seattle on the 15th inst., leaking badly. This vessel was built at New York in 1827, and is consequently fifty-one years old. She has done her duty well." This is probably the ship "John Jay" that forty years ago was owned in this port by Samuel Cleaves, Horton D. Walker, Moses Noble, and Capt. William Lambert, the latter of whom commanded her; for she was built in New York, and according to the record in the year 1827.

Never before within our recollection was the small boy of this city so chary of his gunpowder and fire-cracker patriotism as this year. Except for seeing the windows of several stores ornamented with packages of crackers, up to Saturday night we should not have known that such things were now manufactured, not a single bunch of the noisy little nuisances having been burned in the city, so far as our observation or information extends. Silent, too, have been the aristocratic revolver, the plebeian horse-pistol, and the deep-toned, bell-muzzled blunderbuss. Let us be thankful for so much.

Mr. E. L. Emery, of Great Falls, is canvassing this city for subscriptions to the *Pictorial History of the World*, by James D. McCabe, author of the "History of the War between Germany and France," "Pathways of the Holy Land," and other well-known works. The book embraces accounts of all the geat nations of ancient and modern times, including a history of the rise and fall of the Greek and Roman empires, the growth of the nations of modern Europe, the Middle Ages, the Crusades, the Feudal System, the Reformation, the discovery and settlement of the New World, etc. The book comprises 1260 large double-column pages, and contains 672 engravings. Sold by subscription only.

A very attractive programme has been arranged for the concert to be given at Music Hall Friday evening. Mrs. Susie Foster Marcy will sing, among other selections, a piece which won for her enthusiastic praises at the national capital last winter, "*Qui la Voce*," from the opera of Il Puritani; Miss Mary W. Caldwell will read some of her best pieces; Nowell Brothers will appear in violin and piano solos and duetts, and George M. Nowell will play the accompaniments for the vocal part of the entertainment; new music is being arranged for Harlow's orchestra, and new selections rehearsed by the double quartette. This will be the last opportunity afforded to hear Mrs. Marcy, as it will be her last appearance on the public stage. Tickets at Preston's, on and after to-morrow.

The only public celebration arranged for Independence Day in this city, beyond the ringing of bells and the navy yard salutes, is the cricket match at the Creek, between the local club and a club from Lawrence, Mass. The Rye Cornet Band has been engaged to enliven the match with music, and the players will not lack for spectators to encourage them to do their level best. Cricket differs from base ball in that sometimes a cricket player may be found with his nose amidships, all his ribs where they were originally placed, both eyes of the same color and none of his fingers broken, but it is a manly game, requiring both skill and endurance to play well, and deserves to be popular. It is *the* game of England.

IN TROUBLE.

Considerable excitement was occasioned in certain circles of city "society" on Saturday, by the arrest of James Mahony, who keeps a saloon on Fleet street, Frank Graves, of Kittery, and Nellie Hurley, on suspicion of their being implicated in the robbery of silver ware from the house of Dr. Langdon on Pleasant street some weeks ago. The parties were examined before Judge Batchelder, Saturday evening, and the evidence offered tended to show that Mahony put the job up for Graves, by enticing the Hurley girl, who lived at Dr. Langdon's, to let Graves into the house. Neither Mahony nor Graves had counsel; and they neither denied nor admitted the truth of the story. The magistrate adjudged them probably guilty, and ordered them to furnish sureties in $800 each for their appearance at the Supreme Court; and in default of bail they were lodged in jail. Nellie Hurley was bound over as a witness.

STORER ENCAMPMENT REVIVED.

Storer Encampment, G. A. R., was reorganized Friday evening by Department Commander C. J. Richards and suite, in upper Franklin Hall, a large number of ex-members of the post and other war veterans being present. Officers were chosen as follows: Commander, James R. Morrison; Senior Vice Commander, George E. Hodgdon; Junior Vice Commander, Andrew J. Hill; Quartermaster, John H. Locke; Surgeon, John W. Parsons; Chaplain, Charles N. Osgood; Officer of the Day, James E. Ford; Officer of the Guard, Samuel M. Joy. It was voted to hold regular meetings on the fourth Wednesday of each month, in upper Franklin Hall. The charter members number about thirty. Veterans desiring to connect themselves with the G. A. R. can so signify to Commander James R. Morrison.

GOLDEN WEDDING.

Mr. and Mrs. Thomas Wardwell, of this city, celebrated their golden wedding on the evening of Friday last, at their home on Islington street; about sixty guests were present, including the children and grandchildren of the aged pair. A pleasing feature of the evening's exercises was the presentation to Mr. Wardwell of a valuable gold-headed cane, and to Mrs. Wardwell of an elegant breast-pin and ring. Speeches and toasts, singing and dancing, with a bountiful supper at the end, made the occasion one of great enjoyment to all who prrticipated in this golden festival.

HIGH SCHOOL DISSIPATION.

Thirteen members of the graduating class of the Portsmouth High School, with a few invited friends, went to Dover, Friday, to attend the graduation exercises of the class of that city, and the reception in the evening. They started at noon in Roberts' barge "King Lear," drawn by four horses, and arrived at the Dover City Hall just as the crowd had began to assemble. They were ushered into the hall by Prof. Hart, principal of the Dover High School, and given reserved seats in the centre of the hall. After the exercises the classes were introduced to each other, and from the terms in which our graduates speak of the Dover class one would suppose there never was such another class in the world. The introductions over, the visitors were escorted to the American House, (the finest hotel in Dover,) where they were quartered very pleasantly in the parlors until tea time. The reunion exercises in the evening were very pleasing. Dancing commenced at eleven o'clock, and continued until about two next morning. The hall was so crowded, (there being fifteen hundred reception tickets,) there was scarcely room to dance, especially waltz; but everybody enjoyed themselves, if they were trampled all over. When it was time to think of going home the Portsmouth class reluctantly bid their Dover friends good bye, and went back to the hotel, which was kept open through the courtesy of the gentlemanly proprietor until they were ready to leave. The ride home was very pleasant, though rather cool; as they approached the Portsmouth and Dover bridge the sun began to peep above the eastern horizon, and was watched with interest until broad daylight was upon them. They reached home at 5:30, well pleased with their visit, and hoping the Dover class would as thoroughly enjoy themselves on their visit to Portsmouth, Tuesday.

EASTERN RAILROAD.

The summer arrangement on the Eastern Railroad began on Sunday. The Sunday train leaves Boston at 7:45 A. M.; arrives here at 10, and at Portland at 12 o'clock. Returning, leaves Portland at 2:15 P. M., and this city at 4:15, arriving in Boston at 6:30.

Week days, trains leave this city for Boston at 4:15 A. M., (except Mondays,) 7:15, 8:23, 11 A. M., 3:00, 3:17, 5:30, 7:23 P. M. The three o'clock train is the Bangor express; the 3:17 train is the White Mountain express; both trains reach Boston in time to connect with the Sound Lines of steamers for New York.

Leave Boston for this city at 7:30, 8:05, 8:30 (Bangor train) and 10 A. M., 12:30, 3:15, 4:45 and 7:00 P. M., arriving here at 9:53, 10:00, 10:25 A. M., 12:25, 2:54, 5:38, 6:58 and 9:05 P. M.

Leave this city for Portland at 10:28 A. M., 2:57, 5:41 and 9:08 P. M. Portland for this city and Boston at 2:10 A. M., (Pullman train,) 8:35 A. M., 12:56 and 5:25 P. M.

Leave this city for Dover at 9:57, 12:30 A. M., 3:00, 5:45 and 7:00 P. M. Dover for this city at 6:45, 10:30 A. M., 2:30, 4:55, 6:55 P. M.

Leave this city for North Conway at 10:30 A. M., 2:57, 5:41 P. M. North Conway for this city at 5:00, 11:10 A. M., 2:40 P. M.

There seem to be fully as many trains as the public are likely to sustain.

THE PORTSMOUTH, GREAT FALLS & CONWAY BONDS.

We understand that the Supreme Court of Massachusetts has decided the questions as to the liability of the Eastern Railroad Co. in regard to the bonds of the P., G. F. & C. R. R., which were sold by the E. R. R. Co. to provide means for completing the Conway road. The decision seems, in its effect, to relieve the Eastern and leave the bondholders of the P., G. F. & C. R. R. to the tender mercies of the Eastern managers. The Court, as we understand, holds that the Eastern is not bound by its guaranty of the payment of the Conway bonds, nor is it bound to give its certificates of indebtedness for these bonds, which are simply an ordinary unsecured obligation of the Conway road, like the other indebtedness of that corporation, whose property is under attachment upon the claims of the E. R. R. In the lease of the P., G. F. & C. R. R. to the Eastern R. R. in N. H., made in 1870, and which was for the term of sixty-nine years, the latter road among other things covenanted to pay "the interest that may accrue on any past or future loans;" the E. R. R. Co. covenanted to protect the E. R. R. in N. H., and indemnify it for all costs and damages, etc., as the lease was made at the request of the Massachusetts corporation. But, we presume, the Court in Massachusetts considered that it might as well wipe out all kinds of liability of the Eastern road and give that company the use of the P., G. F. & C. R. R. without further rental than paying its stockholders the same dividend it may pay to its own shareholders!

In fact, if we are rightly informed, the Court goes the whole hog and releases the Eastern from all liability, and yet gives it the use of the road for sixty years. This property is in New Hampshire, and in the Courts of this State is pending a suit to test the same questions or those nearly similar. It remains to be seen whether the Courts of our State will permit the E. R. R. to control the P., G. F. & C. R. R., and pay none of its obligations.

Many of the bondholders paid their money directly to the E. R. R., and received from that corporation these bonds, now decided—as far as the legal tribunal of Massachusetts is concerned — to be about worthless. Perhaps these parties will still have a remedy upon the E. R. R. Company.

In a report of the Directors of the E. R. R. Co. some years ago it was stated that the P., G. F. & C. "pays more than its current expenses, say $50,000 or $60,000 per annum. It gives this Company (E. R. R.) its whole business from Brock's Crossing (Conway Junction) to Boston, 67 miles; the amount of the business is not yet sufficient to make it, considering its cost, a profitable investment as a feeder; still the income derived from this road, in both its capacities, with its increasing business, will yet render it a profitable possession." This prediction, by the decree of the Massachusetts Court, seems likely to be realized, unless the New Hampshire Court should entertain different views. The Massachusetts Co. in the suit in this State contend, as is set up by the counsel of the P., G. F. & C. R. R., that the E. R. R. made the guarantee, for the benefit of the E. R. R., to sell these bonds by enhancing their market value. Of the million of dollars of the bonds, $486,000 are still owned or pledged by the E. R. R. Co. for their debts, and $514,000 are held by purchasers or those who have taken them for the debts of the E. R. R. Co. from that Corporation.

If we have correctly stated the findings of the Court, and the result is to be as claimed by the Massachusetts corporation, it will rather become investors in the future, if the times ever return when people will have money to invest, to keep clear of bonds guaranteed by corporations under the jurisdiction of the Massachusetts courts. We opine that the courts in this State will take a more wholesome view of the matter, and perhaps arrive at a different result. It is something new to see the repudiation of the obligations of a New Hampshire corporation in the hands of a Massachusetts organization, sustained by the courts of the Commonwealth; but we trust better counsels will prevail in another tribunal.

THE NEW FOG-HORN TOWER.

Good progress was made last week toward putting in the foundation for the new fog-horn tower at Whale's-back. The boat-landing and stepping-stones formerly on the north side of the two towers now standing have been torn away for some time, preparatory to erecting the new tower, which will be almost exactly north of the present light-tower, and to a great extent protected by it from the heavy seas. The new tower is to be twenty-five feet in diameter at the base; the first section of ten feet will be solid, of granite and concrete, and above this a cast iron cylinder will be placed, reaching to a little more than two-thirds the height of the light-tower. The fog-horn will be carried up high enough above its tower to point seaward over the top of the lantern; and the two towers will be connected by a light iron bridge, rendering communication easy in the heaviest weather.

THE VICINITY.

The National Granite State Bank of exeter pays a dividend of five per cent., July 1st.

Mr. A. J. Seavey, a cattle doctor of Dover, writes to the *Democrat* that the disease prevailing to some extent on several farms in that town is cerebro spinal meningitis.

Under the new law for the re-organization of the life-saving service, the Secretary of the Treasury has appointed Capt. James H. Merryman inspector, with headquarters in New York city. Capt. D. B. Hodgsdon, commanding revenue steamer Dallas, is appointed district inspector for the first district, which includes the station at Rye Beach.

The Great Falls *Journal* says the expressmen running between Great Falls and towns accessible by the Great Falls & Conway Railroad are securing signatures to a petition to the Legislature to establish a law compelling the railroad company to allow them to carry fifty pounds of baggage, not to exceed $100 in value, free. Owing to the monopoly of the Eastern Express Company they are now forbidden this right.

A correspondent writes from York to the Kennebunk *Eastern Star* as follows: "If the town records are correct the 'boss' old man is to be found in York. Stephen Goodell became an inmate of the almshouse thirty-six years ago and was then recorded as eighty years old, which would indicate that his present age is one hundred and sixteen. He has always been *non compos mentis*, so that nothing in regard to his age can be obtained from him, but from the statements of others who profess to know about it, it appears that he is of about that age. He looks as though he might be even older."

Naval Affairs

Assistant Paymaster Hiram E. Drury is ordered to the Speesewell, which vessel is to be fitted for sea and placed at the disposal of the Fish Commission. Mate James A. Smith is detached from the Tallapoosa and ordered to the Speedwell.

Boatswain Andrew Milne is ordered to the receiving ship Wabash, at Boston.

Pay Director George F. Cutter has been commissioned to be Chief of the Bureau of Provisions and Clothing, and Paymaster General in the Department of the Navy, from Nov. 18th, 1877, with the relative rank of Commodore.

MARRIAGES.

DURGIN.—WOLFE. In this city, June, 27, by Rev. James W. Hubbell, Mr. Benjamin Durgin, of York, Maine, and Miss Sophia Wolfe of Liverpool, England.

DEATHS.

SMALL. In Portland, June 30th, Samuel Small, Esq., cashier of the Cumberland National Bank.

COLEMAN. In Paris, France, June 26th, Mrs. Marie J. Coleman, wife of J. E. Coleman of Hartford, and daughter of the late Pliny Jewell, aged 56 years. Mrs. Coleman was a native of Winchester, in this State, and was celebrated for her energetic devotion in furthering the cause of religion and education. For several years past she has resided in Paris. During the late war she was one of the leading spirits in carrying out the objects of the Sanitary Commission in Connecticut, and at home as abroad has been distinguished for her zeal and energy in good works.

Cheaper than at any other place in the city.

☞ Second-hand Furniture Repainted, and made to look as good as new.

—Victor Hugo says: Some day before long the seven nations which contain all humanity will ally themselves and be blended and lost, like the seven colors of the prism, in a radiant celestial arch; the prodigy of peace will appear, eternal and visible above civilization, and the dazzled world will contemplate the immense rainbow of the united people of Europe.

—A young gentleman who was engaged to two young ladies in Watertown, N. Y., has had a very narrow escape. A near relative of one of the prospective brides learned one day of the existence of a rival and her claims upon him. Soon afterward the faithless beau with two strings called at the house, and was collared by the irascible relative, and ordered to marry the girl there and then under penalty of being shot if he refused. The handsome man was only too happy to do the old man a favor. He said he would just as soon marry the girl as not, but would first like to get shaved so as to look respectable on such an occasion. The old gentleman went out to fetch a minister, and the bridegroom was allowed to go out for a shave. The minister and his guide returned and waited for the young man. Waited anxiously and in vain, for he had hired a buggy, driven to the station, and taken the first train for New York. It was a close shave.

SATISFACTORILY!

Don't Forget the Place!

UNDER FRANKLIN HALL, FLEET STREET.

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other painful diseases incident to the sex not mentioned here. In all affections of this nature, my Favorite Prescription works **like a charm, and is a marvel of the world.** As a medicine I do not extol as a cure-all, but it admirably fulfills **a singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of from diseases peculiar to Females, and gives much valuable advice in regard to the management of the sick.

FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.

R. V. PIERCE, M. D., Prop'r,

BUFFALO, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that will bear the closest inspection and yield a handsome profit to the worker. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once. GUy2878

H. HALLETT & CO., Portland, Maine.

DR. JOHN TRIPP'S

BLOOD PURIFIER

IS the most wonderful discovery for the radical cure of **SYPHILIS and SCROFULA.** It never fails to entirely eradicate either of these diseases and all Blood Poison from the system. It has been a lucrative practice eighteen years, and over 10,000 cures effected by it are on record.

Sole Eastern Agency, **306 Columbus ave., Boston, Mass.** Office hours, 6 to 11, A. M., 3 to 7 P. M. Send for pamphlet. Cure in all cases of Syphilis in either stage guaranteed. eodqe79

Transportation.

RE-OPENING

OF THE POPULAR

PROVIDENCE

LINE

TO NEW YORK,

VIA PROVIDENCE.

Opens April 29, for the season of 1878.

Only 42 Miles of Rail.

Steamboat Express Train will leave Boston & Providence Railroad Station daily (Sundays excepted) at 6 P. M. Connect at Fox Point wharf, Providence, with the **Entirely New and Magnificent**

STEAMER MASSACHUSETTS

and the well-known and popular

STEAMER RHODE ISLAND,

Are ving in New York at 6 A. M. This is the only line affording a delightful sail **through Narragansett Bay** by daylight.

Returning, leave Pier 29, North River at 5 P. M., arriving in Boston at 7 A. M.

No long protracted lastings between Providence and New York.

Tickets and State Rooms can be secured at Company's office, 214 Washington, corner State street, and at Boston & Providence R. R. Station.

J. W. RICHARDSON, Agent, Boston.

PENNSYLVANIA

RAILROAD.

GREAT THROUGH LINE

AND

UNITED STATES MAIL ROUTE

The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In

Construction AND Equipment

THE

PENNSYLVANIA RAILROAD

stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.

The Safety Appliances

in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed:

THE BLOCK SYSTEM OF SAFETY SIGNALS,

JANNEY COUPLER, BUFFER AND PLATFORM,

THE WHARTON PATENT SWITCH,

AND THE

WESTINGHOUSE AIR-BRAKE,

forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.

Pullman Palace Cars

Are run on all Express Trains

From New York, Philadelphia, Baltimore, and Washington,

To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,

WITHOUT CHANGE,

and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.

The Scenery

OF THE

PENNSYLVANIA ROUTE

is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employes are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form

A PLEASING AND MEMORABLE EXPERIENCE.

Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. ufch20 79

FRANK THOMSON, *General Manager.* L. P. FARMER, *Gen. Passenger Agent.*

C. S. HALDEMAN, New England Agent,
203 and 205 Washington st., Boston, Mass.

THE GREAT

FALL RIVER LINE,

BETWEEN

BOSTON and NEW YORK.

THE MAMMOTH STEAMSHIPS

Bristol and Providence,

Of this Line, are the Largest, Handsomest, and Most Costly in the World!

Trains leaving Boston for the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these Steamers. Freight Train, at 4 P. M. daily (Sundays excepted), arriving in New York at 6 A. M.

No line can offer the accommodations presented by this route.

ONLY 49 MILES OF RAIL.

Passing through Narragansett and Mount Hope Bays by daylight—

NO DISAGREEABLE NIGHT CHANGES,

But offering passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.

Grand Promenade Concert on each Steamer every evening during the summer.

New and Elegant Drawing-Room Cars on Steamboat Express Train.

BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 38, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.

Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.

GEO. L. CONNER, Gen'l Pass. Ag't.
J. R. KENDRICK, Supt.
L. H. PALMER, Agent, 3 Old State House.

Pierce's Pleasant Purgative Pellets

SIZE OF PELLETS

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful catharting power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the other, as to produce **a most searching and thorough,** yet **gently and kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Blotched feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unwieldiness and Gloomy Foreboding,** take **Dr. Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is as universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative, or Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

ANTI-FAT

The GREAT REMEDY for

CORPULENCE.

ALLAN'S ANTI-FAT

is purely vegetable and perfectly harmless. It acts upon the food in the stomach, preventing its being converted into fat. Taken in accordance with directions, it will reduce a full person from two to five pounds per week.

"Corpulence is not only a disease itself, but the harbinger of others." So wrote Hippocrates two thousand years ago, and what was true then is none the less so today.

Sold by druggists, or sent, by express, upon receipt of $1.50. Quarter-dozen $4.00. Address,

BOTANIC MEDICINE CO.,
Proprietors, Buffalo, N. Y.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. ***Glenn's Sulphur Soap*** produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts.* It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 60c. and $1.20.

N.B.—Sent by Mail Prepaid, on receipt of price, and 5 cents extra for each Cake.

"HILL'S HAIR AND WHISKER DYE," Black or Brown, 50 Cents.

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston,

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1846, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN, HOSKER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

GILMORE & CO.,
WASHINGTON, D. C.

LIBRARY LAMP.

HOUSE'S ARGAND BURNER,

Ask your dealer for this Lamp. If he will not supply you, write to us for it. It gives the light of twenty candles, or one-third more than any other lamp of similar style (same size burner) in the world; the light being, also, steadier and every way more satisfactory.

SANFORD'S

JAMAICA GINGER

THE QUINTESSENCE OF JAMAICA GINGER, CHOICE AROMATICS, AND FRENCH BRANDY.

A PREPARATION so elegantly flavored and medicinally effective as to utterly surpass all previous preparations, Essences or Extracts of Ginger, Composition, Herb Teas, Pain Relievers, and the hundred and one disgusting and nauseating possets with which we have been wont to dose ourselves. Its instantaneous effect in

Cholera, Cholera Morbus, Cramps and Pains, Chronic Diarrhœa, Dysentery and Cholera Infantum, Diarrhœa in Teething and all Summer Complaints, Dyspepsia, Flatulency, Sluggish Digestion, Want of Tone and Activity in the Stomach and Bowels, Oppression after Eating, Rising of Food and similar Ailments, Chills and Fevers, Colds and Chills, Feverish Symptoms, Malarial Fevers, Pains in the Bones and Joints, Symptoms of Rheumatism, Neuralgia and Gout, Cold Extremities, Suspended Circulation and Depressed condition of the Vital Forces, render it the Standard Household Medicine throughout the length and breadth of the land. On sea, on land, for the traveller, for the young, the aged, under all circumstances and conditions, both as a medicine and as a gentle stimulant or beverage, it is the most grateful and effective preparation ever compounded in the history of medicine.

Beware of diluted and worthless imitations recommended by dealers for purposes of gain. Ask for and insist upon having SANFORD'S JAMAICA GINGER.

Sold by all Wholesale and Retail Druggists, Grocers, and Dealers in Medicine throughout the United States and Canadas. Price, 50 cents per bottle. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

BLUE ARMY BLOUSES.

WE have just received a few more of these BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO.,
No. 3 BOW STREET.

Daily Chronicle.

—A woman in an Ohio village has just recovered $5000 from a man who has been "courtin'" her for fifteen years without coming to the point. This is at the rate of $333.33 1-3 a year, which strikes the average bachelor as being a rather high figure.

—The late King George of Hanover used to be led about by his daughter Frederika, who was so well acquainted with all his wishes and whims as to be able to lead him about in such a way that no one would ever have suspected his blindness. The King would enter a museum or other public place like a man with good eyes, and, when on his daughter's arm, never failed to return the salutes addressed to him from whatever direction they might come.

—A stupid-looking old mule, hitched to a milk wagon, stood in a shed in Cambridge the other day, eating oats out of a grain box. A bad boy stole up and threw a handful of torpedoes in among the grain. The next mouthful the hungry beast took was followed by an explosion that sat him up on his hind legs. His exit from the shed was so sudden that nothing but a harness buckle or two was left to tell the tale of the dire calamity.—*Boston Globe.*

—Ten years ago, says the New York *Herald*, Mr. Clinton of Oneida bought a young mare, and as his little girl Juliette was then in her eighth year, he named the mare "Miss Juliette Clinton." Last week the real Miss Clinton was eighteen years old, and the local paper, speaking of the mare, said: "The dam Miss Juliette Clinton, by Reason, ran away last week, and threw her off hind shoe. Early in the week she was docked. We hope that if this succeeds, Miss Juliette Clinton will be all right, but her father was a great kicker."

HUTCHINSON and CONNELL,

PORTSMOUTH.

Lost.

ON Friday afternoon, between Middle street and Sagamore Bridge, a LADY'S CAPE. The finder will be suitably rewarded on leaving the same at Dr. E. B. GOODALL'S, 77 Congress street.

Portsmouth Chronicle

TUESDAY, JULY 2, 1878.

News and Notes.

St. Louis has two sets of policemen. They had a fight on Saturday, and three men were killed.

A tunnel near Schwelm, Germany, caved in on Thursday, and buried twenty-seven men, who were all killed.

The captain of the schooner Annie H. Frye reports that on June 17th, on western edge Jeffries Bank, saw schooner Florence, of Lynn, on her beam-ends with boat alongside stove.

The International Monetary Commission, appointed by the President under an act of the late session of Congress, has been advised that the British government will participate in the conference. All the principal nations of Europe, except Germany, have signified their intention to participate, and it is hoped Germany will take part.

A closely contested match took place near London on Friday between Capt. Bogardus, the famous American pigeon shot, and Cholmondeley Pennel, a no less well-known Englishman. The match was held at the Gun Club at Wormwood Scrubs, and resulted in a victory for Bogardus, who killed seventy birds out of one hundred, and Pennel killed sixty-eight. At the fiftieth shot Bogardus had brought down thirty-six birds, and Pennel thirty-five. At the eightieth shot the men were even. At the ninetieth, Bogardus was one ahead, gaining one more before the conclusion of the match.

We are informed that Mr. Francis Murphy, the great temperance apostle, has arranged with Messrs. A. S. Barnes & Co., of New York, to publish his new *Gospel Temperance Hymnal*. It will be specially adapted for use in the gospel temperance cause, revival, praise and prayer meetings. The publication may be expected at an early date.

The ship Mabel Clark of Waldoboro, from Liverpool for Hong Kong has been lost at sea. Part of the crew were saved and probably taken to Madras. A later despatch says the Mabel Clark was wrecked on the island Tristan d'Acunha. She was of 1116 tons and owned by Smith & Co., New York.

A gentleman in an interview with Gen. Crook, the noted Indian fighting commander, speaking of the war with the Bannocks, which Gen. Crook said they had been fairly driven into by the unjust dealing with them of the government, remarked that "it is rather hard that men and officers should have to be sent out there to be killed by the Indians, when all the trouble has been brought about by thieving agents." To which Gen. Crook replied: "That is not the hardest thing. A harder thing is to be forced to kill the Indians when they are clearly in the right." The general said when he was up to see the Bannocks last spring he found them destitute; that they have never been half supplied; that both he and the agent telegraped for supplies, and received for answer that there was "no appropriation." No man understands the matter better than Gen. Crook, and he says "our treatment of the Indian is an outrage."

New Hampshire Items.

Salmon are running freely in the Merrimac, and a number of fine ones were caught at Amoskeag Falls, Sunday. The work on the fishway is progressing favorably.

Farmington sees within her borders several new buildings going up, and is puffed up accordingly.

One hundred and fifty citizens of Manchester were summoned before the police court Saturday morning, for keeping dogs without a license. The fine and costs amounted to $6.62 each, aggregating about $1000. The scene presented considerable amusement when some well known citizens responded.

A Lesson on Tramps.

Mr. Hawkins had kindly taken in a tramp who had fainted on his piazza one evening, and had given him wine to revive him, and money to help him on his journey. Next evening he was called upon to repeat his kindness in three cases, and began to think his volume of tramps was becoming rather too large for his purse. Still, he returned to his bed feeling that he had done his duty, and that his quiet conscience stood in need of a good deal of sleep.

Between 10:30 and 12:15 seven more tramps rang the front door bell and were found by Mr. Hawkins lying in seven distinct dead faints on the piazza. Five he revived, and then he lost his temper. The last two tramps had to revive themselves, and the three additional ones that fainted on the piazza, between six and eight next morning, did not receive even a mouthful of cold breakfast.

A great change was noticed in Mr. Hawkins when he appeared at Whitman's store early in the day, and bought half a gross of large carpet tacks and ten yards of oil cloth. He wore a stern and determined look, and when Mr. Whitman said that all the tramps in the State had heard about the poor woman whom he had helped, and were on their way to see him, Mr. Hawkins used an expression that would have sounded better in his wife's mouth had she applied it to dilapidated stockings.

Going home with his purchases, Mr. Hawkins was met by Stebbins, the stage-driver, who told him that he had passed more than fifty tramps on their way from Utica to Mooseville. Mr. Hawkins made no reply, but, as Mr. Stebbins afterward said, "looked blackernthunder."

Just after dark Mr. Hawkins' front piazza was carefully laid with oil-cloth, through which six dozen of carpet tacks had been thrust with their points upward. When he had completed the work he smiled grimly and remarked to Mrs. Hawkins—who had clasped her hands and said, "O, father! it will hurt 'em—" "Serve 'em right, by gosh!"

At 9 o'clock Mr. Hawkins went to bed and waited to hear the first summons of the bell. It came at 9:35, and was almost instantly followed, first by a wild yell, and then by a sound of rapidly-retreating footsteps. In the course of the night this phenomenon was repeated twenty-three times.

There was a good deal of blood and a large amount of rags on the piazza in the morning, but not a single unconscious tramp lay awaiting resuscitation. For the next week an occasional tramp tried to faint on the piazza, but never failed to abandon that intention and to go away in an unchristian frame of mind.—*Utica Herald.*

A Boy's Logic.

The boy at Sunday-school, when asked who made the beautiful surrounding hills, replied that he did not know, as his parents had only moved into town the day before. Equally sensible are those who persist in using the unwholesome, disgustingly-large, and drastic pills, while Dr. Pierce's Pleasant Purgative Pellets, which are sugar-coated, and little larger than mustard seeds, will, by their gentle, yet positive action upon the stomach and liver, speedily correct all indigestion and torpidity of the liver, thus permanently curing constipation.

Read What Physicians Say.

SAN LEANDRO, CAL., Jan. 6th, 1877.

DR. PIERCE:

Dear Sir—I have employed your Pleasant Purgative Pellets in my practice for the last four years. I now use no other alterative or cathartic medicines, in all chronic derangements of the stomach, liver, and bowels. I know of nothing that equals them. J. A. MILLER, M. D.

ALBIA, IOWA, July 10th, 1875.

DR. PIERCE:

Dear Sir — Your Pleasant Purgative Pellets are all you claim them to be. I also regard your Golden Medical Discovery, Favorite Prescription, and Sage's Catarrh Remedy, as very superior medicines. W. B. COUSINS, M. D.

—Mexicanization is a term now applied to the mixing of stimulating beverages. When a man rashly drinks beer, whiskey, gin and wine in the course of half-a-day, he said to be Mexicanized.

—A young lady of the age of seven, who is deservedly a pet of her household, but is a little exacting, and given to bemoan herself, as being rather neglected and "sat upon" in her family circle than otherwise, said the other day: "Nobody ever cared for me; for even when I was born, my mother and all my sisters were away at the seaside."

—The friction match folks didn't get Congress to release them from putting a revenue stamp on each bunch. They may plead and protest their tax as they will, but the cent of the matches will hang round it still.—*Lowell Courier.*

Why Longer Remain Fat?

Obesity was considered by the ancients as evidence of coarseness. Even yet the slim forms of the Grecian goddesses are regarded as models of female beauty. Corpulence is now held to be a disease, and Allan's Anti-Fat has fully demonstrated it to be curable. The Anti-Fat chemically neutralizes in the stomach all glucose, saccharine, and oleaginous substances, thus preventing the formation of fat. Its use insures a loss of from two to five pounds per week. It is purely vegetable and perfectly harmless. Sold by druggists.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East Indian missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. Sent by mail, by addressing with stamp, naming this paper, W. W. Sherar, 149 Powers Block, Rochester, New York. tjy18

We are reliably informed that some of the customers of Alex. Frothingham & Co., brokers, 12 Wall st., N.Y., have made $800 within 30 days, from an investment of about $100. Frothingham & Co. are thoroughly reliable. Send for their *Weekly Financial Report*, sent free. 3

The Colonnade Hotel, Philadelphia, Pa., exhibits the secret of its great popularity and success by wisely maintaining its old standard of excellence since its reduction of rates.

Few are aware of the importance of checking a common cold or cough in its first stages, before it has an opportunity to work upon the lungs to such an extent as to produce serious results. The best remedy for this checking, healing and curing that we know of is *Adamson's Botanic Cough Balsam.* Price 35 and 75 cts.

Beautiful Helen no doubt had a fine complexion, but it is more than doubtful whether it exceeded in purity the complexions of the ladies who use that inimitable auxiliary of female loveliness, GLENN'S SULPHUR SOAP. Sold by all Druggists. HILL'S HAIR & WHISKER DYE, Black or Brown, 50 cents. tjy21

A General Rebellion.

TRIUMPH OF A GREAT DISCOVERY!

The public has *rebelled* against *cauterizing Hair Dyes.* Fashion has foresworn them. A sagacious community has adopted in their stead,

CRISTADORO'S HAIR DYE,

and for *these reasons:* It embrowns and blackens the *hair*, not the *skin.* It is a *vegetable emollient*, not a *burning fluid.* It does not burlesque nature with *blooming metallic tinges*, but produces her own *living hues.* Its cooling effect is *lasting.* It *defies detection.* Its results are *uniform.* It *never fails.* Manufactured by J. CRISTADORO, No. 93 William St., New York. Sold by all Druggists. Applied by all Hair Dressers. tjy15

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&ctsept15 7

E. G. PIERCE, JR., P. M.

THE CITY.

Twelve children were baptised at the Universalist church last Sunday.

The Freewill Baptist society of this city picnic at Kittery Point, July 4th.

Last Sunday was observed as "Children's Sunday" at the Court street Christian church, the church being beautifully decorated with flowers for the occasion.

Public meeting of the greenback club at Mercantile Hall this evening. The greenbackers intend to have out-of-doors meetings before long, with able speakers.

A party of Indians are encamped in Frenchman's lane, at the Creek. If they should take a notion to "raise the hair" of the cricketers and spectators, on the Fourth!

The members of the fire department received their salaries on Monday evening, July 1st, for the first time under the new ordinance providing for quarterly payments.

Rev. Wm. H. Stewart, chaplain at the navy yard, occupied the pulpit of the Baptist church on Sunday, Rev. Dr. Alden, the pastor, having gone to Foxboro', Mass., to attend the centennial anniversary of that town, it being the native place of Mrs. Alden.

Sunday was the hottest day of the season, unless Monday beat it. The thermometer marked from 90 to 95 degrees in different localities in this city; it stood at 100 in Manchester, and was as high as 108 in some towns. At the Shoals, it only reached 75 degrees.

Over a hundred barrels of porgies were taken in the Gerrish's island weir on Monday. Some sixty barrels were sold to fishing vessels, and the rest left in the weir. A shark four feet long was also taken, and is now in possession of Major Urch—but he won't get into the aquarium yet, probably.

Dartmouth College was liberal with her degrees, at commencement. Among those upon whom the degree of D. D. was conferred, was Rev. Geo. B. Spalding of Dover. Among the LL. D.s are Hon. Geo. F. Shepley of Portland, Judge of the Circuit Court of the United States; John L. Hayes, Esq., and Col. Albert H. Hoyt, formerly of this city.

City Marshal Entwistle informs us that he has proof positive that the persons arrested for the robbery of old silver ware from Dr. Langdon's house are the guilty parties, and that he and Assistant Marshal Gray had been at work on the case for two week before the arrests were made. Both Mahoney and Graves pleaded not guilty, and Mahony further stated that the story of the Hurley girl was not true. A. R. Hatch appeared as counsel for Mahony, at the examination on Saturday afternoon.

Rev. Charles A. Holbrook, rector of St. John's church, has established a Mission Sunday School on Morning street at the Creek, about a dozen scholars attending it. Mr. Holbrook is one of the most uneasy men in the city, and is everlastingly at work establishing children's homes, mission schools, workingmen's institutes or something of the kind, and then keeping them all in good running order. He might expend his energies in many other ways without doing half so much good.

The gay scene presented at the corner of State and Washington streets indicates that great preparations are being made for the approaching fair. The waving of flags, the perfume of flowers, the music of the band and the beautiful articles, both useful and ornamental, will attract a large company, who will be kept cool and comfortable by that Eastern device called a "punkah"—a sort of immense fan suspended from the ceiling. Ice cream and cake at all hours; dinner from one to three o'clock, Minstrels at eleven. The play "No cure, no pay." Dancing in the evening.
